

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

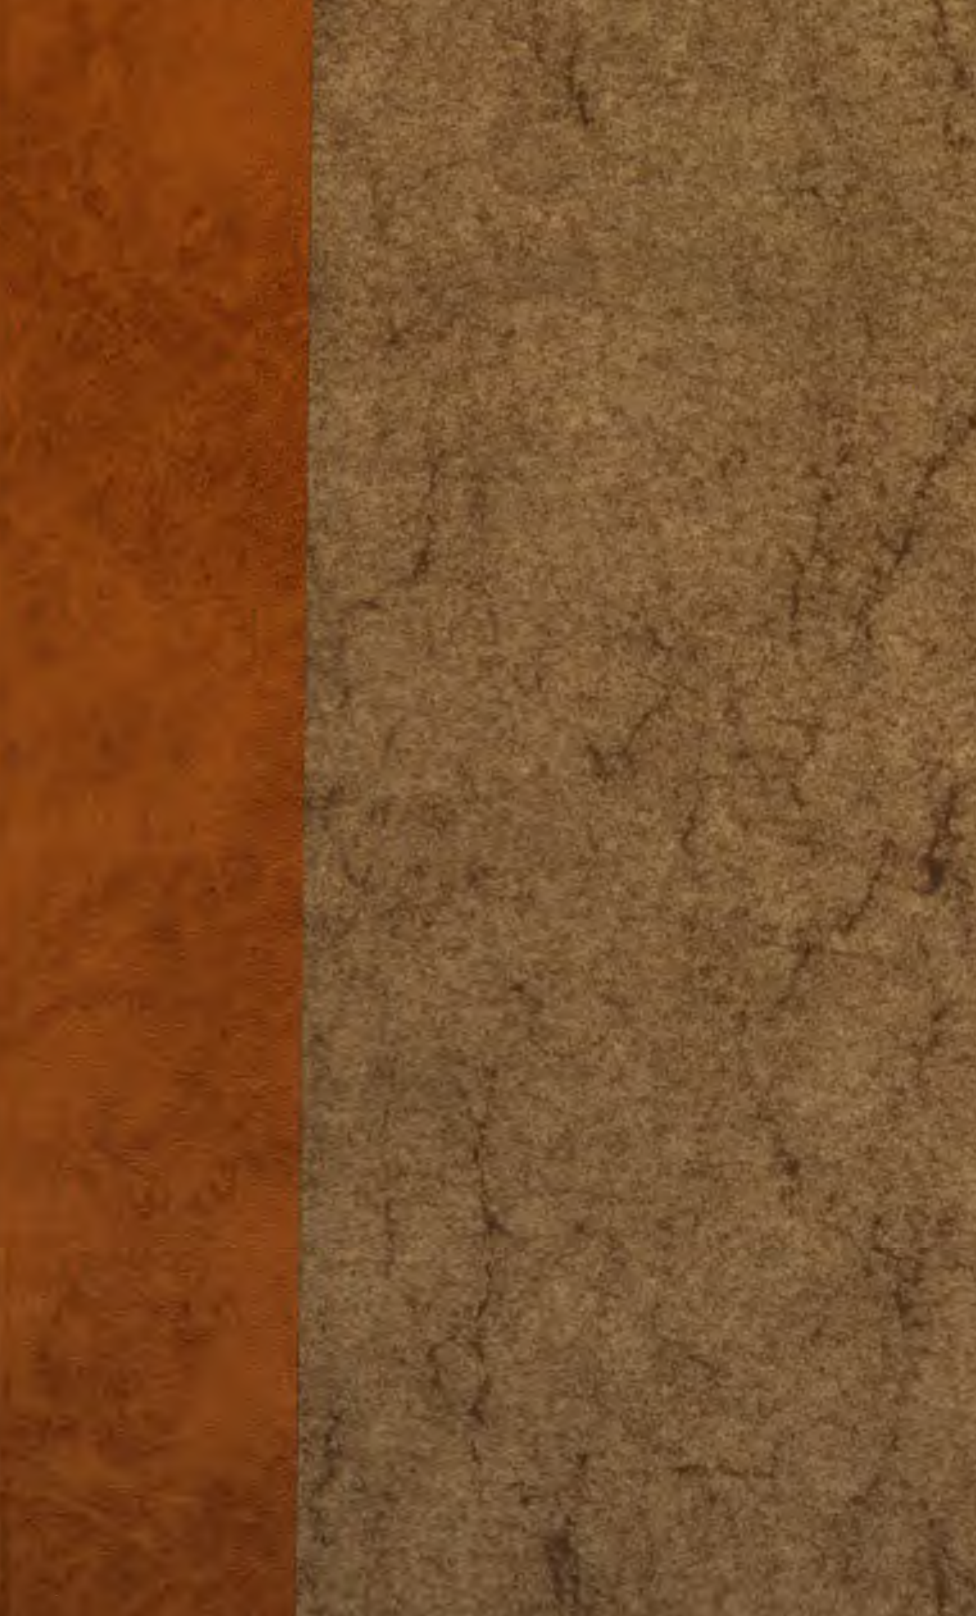

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

7268 FABRICIUS, J. *Historia bibliothecæ Fabricianæ, qua singuli ejus libri eorumque contenta, variæ editiones etc., auctorum errores et vitæ doctorumque viror. judicia recensentur.* Wolfenb. 1718-24. 4°. 6 voll.

This work, an industrious performance, contains rather scientific than bibliographical reviews of 916 books (without reckoning those bound up with them), of which certainly almost the half consists of antiquated theological works. It was formerly transcribed with eagerness, and even now may be profitably used by any one who is not a mere *material* bibliographer. The arrangement is according to the sizes. Folio commences; Quarto follows, T. III. p. 323; and Octavo, T. VI. p. 144. Two vols. remaining in MS. have not appeared.

7269 FABRICIUS, J. Alb. *Bibliotheca græca s. notitia scriptor. vett. græcor., quorumcunque monumenta integra aut fragmenta edita extant.* Ed. III. Hmb. 1718-28. 4°. 14 voll.

A combination of knowledge of things and of literature, which since that time has scarcely appeared again, an immense acquaintance with books, and a multifariousness not satisfied with the mere object which he is discussing, are the character of all the works of this learned man, who was an honour to his country. On account of the mass and fullness of the notices, often given incidentally and not always in correct order, they can be used under continually fresh points of view, and even on account of this inexhaustibleness they are deserving of the most careful study of every one.

7270 — — Ed. IV. curante Thph. Cp. Harles. Hmb., Bohn, 1790-1809. large 4°. 12 vols. (68 d. 16 gr., on writing paper 92 d. 16 gr.)

Harles has shewn, in the composition of this edition, which is enlarged to about half, extraordinary industry, yet but little judgment; consult the solid review of the 2nd vol. in the *Allg. Litt. Ans.* 1796, No. 40-45. It requires to be thoroughly digested, is deficient in arrangement and accuracy, much that is incorrect is copied from the commonest sources, and an unnecessary proximity prevails throughout. My own experience has taught me, that the bibliographical part especially, as far as it belongs to Harles, is full of mistakes, and is very little to be depended upon. It is not yet finished. The

French are desirous, that those Greek works which were edited for the first time in the earlier edition, and which have not since that time been printed, should again be furnished. (*Renouard Catal.* IV. 208).

7271 — *bibliotheca latina.* Ed. V. Hmb. 1721-22. 8°. 3 voll.

Containing much that is wanting in the following edition. In addition, *Constantis a Ferris* (Bn. H. Reinoldi, according to others... Schmelzeisen) *ep. ad Sincorum amicum continens monita quædam ad Fabricii supplementa bibl. lat. libri IV. c. IX. Traj. ad Rhen.* 1722. 4°.

7272 — *bibliotheca latina nunc melius delecta, rectius digesta et aucta diligentia J. A. Ernesti.* Lps., Weidmann, 1773-74. large 8°. 3 voll. (3 d. 16 gr., on writing paper 4 d. 16 gr.)

The superintendence of this new edition was at the commencement undertaken by Cp. Saxe, who was hindered in it by his promotion in Holland, and often shews his dissatisfaction with Ernesti's performance in the *Onomasticon*. Mercier de St. Léger has also written on the title of his copy: *Editio castrata, interpolata floccique facienda; in illa tamen extant additiones aliqujus momenti* (*Müllin Magas. encycl.* 1815. VI. 276). In fact Ernesti has allowed himself in omissions and contractions, which are not compensated by his additions. The book is also very incorrectly printed, and the indices are wanting. Beck, counsellor and knight, has promised to give a 4th volume. It were desirable that he would be pleased to give instead a new edition of the entire work.

7273 — *bibliotheca latina mediæ et infimæ ætatis, cum supplemento Ch. Schöttgenii.* Editio a J. Dm. Mansi correctâ, illustrata et aucta. Patavii, 1754. 4°. 6 voll.

At first, Hmb. 1734-46. 8°. 6 vols. Mercier de St. Léger made collections for a new edition. His copy enlarged with many additions is still in the library of S. Geneviève at Paris. (*Müllin Magas. encycl.* 1795, III. 179 not. 1815, VI. 277). A new edition or at least a serviceable abridgment is greatly to be desired, as Mansi's edition is scarce.

7274 — *bibliographia antiquaria.* Ed. III. cura et op. P. Schafshausen. Hmb., Bohn, 1760. 4°. (2 d. 14 gr.)

The index of matters might be more complete. A new edition of this book is also of urgent necessity.

7275 — codex pseudepigraphus Vet. Testamenti. Ed. II. Hmb. 1722-41. 8°. 2 voll.

7276 — codex apocryphus N. T. Hmb. 1719-43. 8°. 3 parts in 2 vols.

Consult COLLECTION d'anciens évangiles.

7277 — delectus argumentor. et sylabus scriptor., qui veritatem religionis Christianæasseruerunt. Hmb. 1725. 4°.

7278 — salutaris lux evangelii s. notitia historico-chronologica, literaria et geographica propagatorum per orbem totum Christianor. sacrorum. Hmb. 1731. 4°.

The interest of both these works is not perhaps confined to the theologian.

7279 — bibliotheca ecclesiastica, in qua continentur de scriptorib. ecclesiasticis Hieronymus, Gennadius, Isidorus, Ildephonsus, Honorius, Sigebertus Gemblac. etc. Hmb. 1718. fol.

A new collection, and the most complete one of this kind; owing to which, *Aub. Mirai bibl. eocl. Antw.* 1639-49. fol. 2 vols. may be dispensed with.

7280 — centifolium Lutheranium s. notitia literaria scriptor. omnis generis de Luthero. Hmb. 1728-30. 8°. 2 voll.

Particularly valuable on account of the index to Luther's letters. *G. H. Alb. Ukert Luthers Leben. Gotha*, 1817. 8°. 2 vols. contains additions to it.

7281 — opusculor. historico-criticoliterarior. sylloge. Hmb. 1738. 4°.

7282 — bibliotheca P. I-III. Hmb. 1738-39. 8°. 3 vols. with the portrait of Fabricius. P. IV. Manuscripta. ib. 1741. 8°.

The 4th vol. is scarce. This fortunate individual had a library of 29,321 printed books, and 440 MSS., which last were purchased for the University library of Copenhagen. The catalogue is well arranged, and is still useful.

7283 FABRICIUS, J. Ch. Entomologia systematica. Havn. 1792-94. 8°. 4 parts in 6 vols. (10 d.) Index alphabet. ib. 1796. 8°. (14 gr.) Supplementum. ib. 1798. 8°. (1 d.

20 gr.) Index supplementi. ib. 1799. 8°. (6 gr.)

Containing, besides his autobiography in the last volume, 153 biographies written in good Latin. To this work belong, *Lettere inedite d'uomini illustri. Fir.* 1773-75. 8°. 2 voll. (8 paoli).

The first edition and scarce. The plates are well designed (probably by Titian), but badly engraved (probably on tin). Hi. Largomarsini defends Faernus from the reproach of having borrowed his fables from an old MS., see *Parthenii comm. de vita Lagomarsini*. Ven. 1801. 8°. p. 69 and 221.

7303 — — Ant., Plant., 1567, or 73, or 85, or 1600. 12°. with woodcuts.

Neat editions, and sought after when in good condition. The figures are after those of the preceding edition. This is also the case with the edition, *Bruxellis*, *Foppens*, 1682. 8°. with plates.

7304 — — Patavii, Cominus, 1718. large 4°.

Enlarged with the rest of the writings of Faernus, prized and only 300 copies struck off. With new additions, *ib.*, *id.*, 1730. 4°.

7305 — fabulæ centum et ejusd. carmina varia (cura Ant. Agst. Renouard). Parmæ, Bodoni, 1793. 4°.

Fine and correct. According to the contract 100 copies were to have been struck off for Renouard and 10 for Bodoni, but Bodoni struck off so many for himself, that there are probably from 300 to 400 copies. There is one copy on vellum.

The first 3 leaves of the woodcuts are unnumbered, the rest have the numbers 1-128. At the end is the colophon of one leaf.

This piece is remarkable, besides being the largest disputation which perhaps exists (it contains not less than 2370 theses), as being the disputation of the son of a prince, then only 14 years old; it has also a separate interest on account of the figures of men, beasts, and other objects, engraved on wood, and merely composed of writing-strokes, with which it is ornamented at the beginning of every book and chapter, and in which not only great variety, but even a kind of expression prevails, of which such a trifling production would not be thought capable. The artists have mentioned themselves in the following manner, *Brondulus inven. Ferrarius incid.* The author, who possessed the affection of the people, ended his days in a horrible prison, in which his unpitied father suffered him to languish away.

7349 — — a mendis repurgatus una cum appendice s. tomo II. scriptor. veterum. Op. et st. Ed. Brown. Lond. 1690. fol. 2 voll.

Enlarged with an appendix of 77 pieces, mostly unprinted before. An important collection of sources for the history of that period. It is deserving of more accurate investigation whether Gratius really was the editor or not. The former opinion Clement maintains in *Bibl. cur.* VIII. 244 etc.; the latter, *Götze Merkwürd. der Dresdn. Bibl.* III. 518. and *Denis Garell. Bibl.* 494. Considered to be the 1st edition. At the beginning 8 leaves, table of contents, in 3 columns. The colophon in red.

7351 — — (*Col.*), N. Gotz de Sletzstat, without date. fol. Gothic letter.

A very scarce edition. 2 leaves, prolog. (leaf 2a, col. 2, the printer's name and symbol), and 280 numbered pages, then 35 leaves of index. Without signatures, catchwords, and pagination. It extends as far as 1474, and was printed at the same time as the above edition. There is also an edition continued on to 1478 by the same printer.

One of the more rare editions. The rest are not prized. In all these editions the work is more or less interpolated. For the last time, with the continuation of J. Linhartus up to 1514, in *Pistorii Sorr. rer. Germ. ed. Struv.* II. 397 etc.

7363 FASTI Limpurgenses d. i. ein

wohlgeschriebenen Fragment einer Chronik von der Stadt vnd den Herren zu Limpurg an der Lohne. Gedruckt bey Gotthard Vögelin, 1617. 8°. 8 leaves, 123 pages, and 2 leaves.

The first, extremely rare, edition of a chronicle, very interesting on account of the many old verses and notices of old German lyric minstrels which are contained in it, and especially important for the history of German civilization and costumes: it extends from 1336 to 1402. The first author was probably the town-clerk Tillmann (+ 1400), who carried it down to 1399. J. Gensbein (about 1473) transcribed it, and added some additions and supplements to the years 1299, 1317, 1369, 1456, and 1461. This first edition, superintended by J. F. Faust, contains only Tillmann's work. Consult *Koch Compend. der deutsch. Literaturgesch.* I. 53. II. 349. *Allgem. litt. Anzeiger Jahrg.* 1800, p. 1261 etc. and 1704. *Jahrg.* 1801, p. 88 and 1100 etc. *Boulerveck Gesch. der Poesie u. Bereds.* IX. 292.

7364 — — Gedruckt bey Gotthard Vögelin, 1619. fol. 60 pages.

This equally scarce edition is a faithful impression of the first, but without Faust's dedication. Often bound up in *Regkmann's Lübeck. Chronik*, without place, 1619. fol.

7365 — — Wetzlar, Winkler, 1720. 8°.

Modernized in the language, and enlarged with J. Gensbein's additions. It contains also Faust's dedication.

7366 — Fragment von einer alten Chronik, worinnen verschiedentliche Geschichte von dem J. 1347-71 beschrieben seynt, auss einem alten MS. zum Drucke geben von G. C. N. Auban. (G. Cp. Neller, Auba-nensi). Without place, 1747. 8°.

An edition of the same chronicle printed from another MS. Has it any real differences?—G. Emmel (+ 1538) and Ad. Emmel (still alive in 1561) prepared, after Gensbein, a farther continuation. J. Mechtel embodied the entire chronicle, with all its continuations, in his *Chronicon Limpurgense*, extending from 909 to 1610 (in *Honthelm Prodr. hist. Trevir.* p. 1046-1166).

7371 FAUST, J. (vielmehr Georg). Historia von D. J. Fausten, dem weitbeschreyten Zauberer vnnnd Schwartzkünstler. Ff. a. M., J. Spies, 1588. 8°.

This book, even if it should not be the first edition, appears to contain the original tradition; at least it is different from Widmann's edition. If an edition, *Berl.* 1587. 8°. really existed, it certainly concerned this book, and not Widmann's, as is generally considered.

7372 — historie von D. J. klärt durch G. Rdf. Widmann. Hmb., Hm. Moller, 1599. 4°.

Lipenius, who is not to be depended upon, has *Hmb.* 1598-1600. 4°. 3 vols. But it is certain that the first vol. was really published in 1599. Widmann's book is often falsely taken for the first work embodying this tradition.

This first most rare edition is very faulty; the academy della Crusca has in consequence preferred citing the poem from a MS. 7411 FÉNÉLON, Fr. de Salignac de la Mothe. Œuvres (par Querbeuf et Gallart). Par., Fr. Ambr. Didot, 1787-92. 4°. 9 voll. 100 copies on large paper d'Annonay.

This fine edition, in which the portraits of Fénelon and the duke of Burgundy should be found, is unfinished, and ought to have been in about 20 vols. His writings relating to Quietism (for instance, the *Explication des maximes des saints sur la vie intérieure*. Par. 1679. 12°.) and Jansenism and several of his ordinances, which had previously appeared separately, could not be included in this edition.

7412 — œuvres complètes, avec un essai sur sa vie, suivi de son éloge par la Harpe. Par. 1810. 12°. 10 voll. Also in 8°.

It is not fine, and has the same deficiencies as the preceding edition.

7416 — (anon.) suite du quatrième livre de l'Odyssée d'Homère, ou les aventures de Télémaque, fils d'Ulysse. Paris, veuve de Cl. Barbin, 1699. 12°. 208 pages, with a royal privilege.

Notwithstanding the royal privilege, the printing of this 1st edition was prohibited, when the first 208 pages had been printed, the last of which ends, *il* (Idomeneus) *marche chancelant vers la ville en demandant son fils*; consequently in the 5th book of these editions, which are divided into 24 books. Nevertheless, the book was immediately reprinted under the same date, with some corrections; and this reprint differs from the original edition in this respect, that the running title has throughout *Odyce* instead of *Odyssée*, whereas the 1st edition has this mistake only as far as p. 120. Another reprint is entitled, *Avantures etc. suivant la copie de Paris. Hays, Adr. Moetjens*, 1699. 12°. 208 pages. The continuation at first appeared in an edition of the above fragment, without place or date, 12°. of 80 pages in small type: it has separate pagination, which goes as far as 350. This continuation also appeared by itself, without place or date, 12°; namely, tom. II. of 230 pages, tom. III. of 204, tom. IV. of 215, and tom. V. of 208, in which the fragment that appeared by Moetjens is completed. Shortly after a crowd of good and bad editions of the entire work appeared, of which only the neat one, *Hays, Adr. Moetjens*, without date, 12°. of 448 pages, is deserving of being noticed. Moetjens announced it as an edition made after the revision of the author who was mentioned in the title, and it contains a preface of the abbé de la Landelle de Saint-Remy, directed against Bossuet, and printed in several other editions.

Concerning the controversy occasioned by Telemachus, see *Artigny Mémoires*, II. 240 etc. *Vallière Catal.* VI. 102. Concerning the translations, see *Leips. Litt. Zeit.* 1812. vol. III. p. 1766. The honest censor of the press thought the book was faithfully translated from the Greek, *Charodon Mélanges*, III. 269.

7417 — les avantures de Télémaque par de la Mothe Fénélon (avec un discours sur la poésie épique par de Ramsay). Par., Etienne ou Deaulne, 1717. 12°. 2 vols. with plates.

The finest and best of all the old editions

of Telemachus printed at Paris. It was superintended by the marquis de Fénélon, from a greatly corrected and enlarged original MS. It forms the groundwork of the subsequent editions, and although not altogether free from faults, it is far more correct than the edition which appeared by the same publisher in the same year, in small type, 1 vol. 12°.

7418 — les aventures de Télémaque avec des remarques pour l'intelligence de ce poème allégorique (par H. Ph. de Limiers). Amst., Wetstein, or Rott., Hofhout, 1719 or 25. 12°. with plates.

At that time forbidden in France, on account of the cutting allusions to the court of Lewis XIV. contained in the notes, and consequently for a long time sought after; otherwise very indifferent as to the plates and printing, and very incorrect. The edition of 1719 has better impressions of the plates, and that of 1720 is somewhat more correct, belongs to the original editions, and is scarce. At the end there ought to be a mythological and geographical lexicon of 44 pages, which is often wanting.

7419 — les mêmes, avec des notes.

Par. 1730. 4°. with plates. Also on large paper.

7420 — — Amst., Wetstein, 1734. fol. or very large 4°. with plates by Bn. Picart and others.

Fine; formerly prized as a splendid edition, and only 150 copies struck off. Also superintended by the marquis de Fénélon, at that time ambassador at the Hague. Some deficiencies of the edition of 1717 are made good, and many errors corrected. The book usually ends with p. 395, but some copies have also the following pieces: 1. *Examen de conscience pour un roi*, 40 pages. 2. *Récit de la vie de Fénélon*, 43 pages. 3. *Chapitre de la généalogie de Fénélon*, 8 pages. 4. *La liste des ouvrages de Fénélon*, 10 pages. 5. *Mémoire concernant Mad. Guyon*, 3 pages in 2 columns. These 5 additions, the 4 last of which are by the marquis de Fénélon, ought to be annexed; but as the French court forbade their publication, they are consequently only appended to some copies.

7421 — — Amst., Wetstein, 1734. 4°. with the same plates.

The reprint, Amst. 1761. 4°. or in fol. with the same plates, is little prized, yet it contains the 5 suppressed supplements.

7422 — — Lond., Dodsley, 1738. 8°. 2 vols. with plates.

With copies of the plates of the edition

of 1734, reduced in size, and it formerly stood at a high price.

- 7423 — — édition enrichie des imitations des anciens, de la vie de l'auteur et d'un petit dictionnaire mythol. et géographique (par D. Durand). Lond., Watts, 1745. 8°. with plates.

Sought after in France, and scarce. Also, *Lond., Nouris et Vaillant*, 1742. 4°. deserves notice as very correct.

- 7424 — — Par., Didot aîné, 1781. 18°. 4 voll.

Belonging to the series of the count d'Artois, but there were sixty copies struck off without the arms of the count in the title-page. — According to Bosquillon, Didot's editions of Telemachus are printed after the first editions, and consequently contain many errors, which were corrected in the editions of 1717 and 1734.

- 7425 — — édition imprimée pour l'éducation du Dauphin. Par., Didot aîné, 1783. large 4°. 2 vols. on vellum paper, only 200 copies.

A copy on vellum 513 fr. St. Cérans.

- 7428 — — Par., impr. de Monsieur, 1785. large 4°. 2 vols. on vellum paper.

A fine edition, to which is joined Tilhard's plates engraved from the indifferent designs of Monnet. There are 4 copies on vellum, one of which, with illuminated plates, 1021 fr. Lamy, and with 25 miniatures, 1280 fr. McCarthy.

- 7429 — — Par., Didot jeune, 1790. large 8°. 2 vols. on vellum paper.

There may be added to this, as well as to every other edition in 8°, 26 plates after designs of Moreau the younger (to be had at Renouard's for 30 fr., *avant la lettre* 60 fr., in 4°. 36 and 72 fr.).

Only 490 copies; namely, 200 on ordinary paper, 200 on vellum paper, 80 on large vellum paper, 5 on rose-coloured, and 5 on blue vellum paper. Bosquillon has often admitted trifles into the various readings.

A copy on vellum in 12°. 250 fr. Renouard.

There are 2 copies in 12°. on vellum.

Félicissime Adry. Par., Duprat-Duverger, 1811. 8°. 2 vols. with plates (15 fr., on vellum paper 32 fr.)

The text is carefully corrected, and the bibliographical notices are instructive.

- 7437 — — les avent. de Télém. Parme, Bodoni, 1812. large fol. 2 vols. on vellum paper.

Only 150 (not 125) copies, and splendid. The then king of Naples had this edition printed, together with Racine, in 3 vols. Fontaine's fables in 2 vols. and Boileau's poetical works in 2 vols. for the instruction of his eldest prince. Of each only 150 copies.

Each division is arranged according to the size of the books, and those of each size are in alphabetical order. The books are in part very insufficiently specified, and their sale prices are added from celebrated Dutch auctions. For auctioneers and antiquaries the book may be good, but it can be of no use to the bibliographer.

- 7505 FEVRE, Raoul le. Cy commence le volume intitulé le recueil des histoires de Troyes, composé en l'an de grace 1463. Without place or date (*Caxton*). small fol. Gothic letter.

The first edition of this old romance, and very scarce. Leaf 1a begins with the above title: it has on each page 31 lines running all across, and is without signatures, catchwords, and pagination. It is printed with the same types which Caxton afterwards used in his English translation. The 1st book contains 118 leaves (according to Dibdin 117) and 1 blank; the 2nd 85; the 3rd and last terminates on the reverse of the 80th leaf, after the 13th line, with the word *explicit*. A copy of this first typographical production of Caxton, in which 31 leaves were wanting, was purchased by lord Spencer at the Roxburgh sale for 116l. 11s.—The work must not be confounded either with COLUMNA or with DESTRUCTION (see above).

- 7506 — — Lyon, Jac. Maillet, 16 Avr. 1484. fol. Gothic letter, with woodcuts.

The first dated edition, and less fine, in smaller type. 162 leaves with the signatures A-T and A-G. The last leaf has a representation of the conquest of Troy.

- 7507 — — Lyon, Mch. Topie et Jac. Herenberch, 10 Oct. 1490. fol. Gothic letter, with woodcuts.

220 leaves with the signatures A-Z, A, M-Q. The last leaf has the same representation.

- 7508 — — Lyon, Jac. Maillet, 16 Avril 1494. small fol. Gothic letter, with woodcuts.

161 leaves with 43 lines and the signatures a-t and A-G. The last leaf has the same representation.

7509 — — Par., Ant. Vêrard, without date (1498). fol. Gothic letter, with woodcuts.

A copy on vellum 531 fr. Gaignat, and 760 fr. Randon de Boisset. Another, with 97 miniatures and one written leaf (reclaimed from Vallière's library by the abbot of S. Germain) 730 fr. M^cCarthy, now in the possession of Hibbert at Clapham, near London.—Also, *Lyon, Ant. du Ry*, 1529. 4°. Gothic letter, with woodcuts. *Par., Janot*, 1532. fol. Gothic letter, with woodcuts.

7510 — here begynneth the volume intituled and named the recuyell of the historyes of Troye, translated and drawn out of Frenshe in to Englishshe by W. Caxton. Without place or date (*Caxton*, 1471). fol. Gothic letter, 251 leaves.

Printed with the same types as No. 7505. In the specification of the above title, to be found in the *folio recto* of the 1st leaf, and printed in red, there is also added, *Whiche sayd translation and werke was begonne in Brugis . . . 1. Marche 1468. And ended and fynnysshid in the holy cyte of Colen 19. Sept. 1471.* This had hitherto only been understood of the translation, but Dibdin, *Bibl. Spenc.* IV. 193, would have it understood of the printing itself, because Caxton in other colophons also makes use of the word *finished* as applied to the printing, and because in the prologue to *The golden legend* of 1483 he mentions the *historyes of Troye and the game and plays of the chesse* as his two first works. This species of type also occurs only in these two books and in Nos. 7505 and 7512, and in no other of Caxton's typographical productions. And thus this work obtains the rank of the first book printed in the English language. A copy, in which the first leaf was wanting, was sold at Stevens's sale in London 1800, for 14l. 3s. 6d., and afterwards came into lord Spencer's possession for 200l. Another copy, in which the last leaf is wanting, was purchased by the duke of Devonshire, at the duke of Roxburgh's sale for 1000 guineas.—Also, *Lond., Wynkyn de Worde*, 1503. fol. Gothic letter.

7511 — le roman de Jason et Médée. Without place or date. small fol. Gothic letter.

In 2 columns with 31 lines, and initial letters cut in wood; without catchwords and pagination, but with signatures. In the Roxburgh sale, 21l. 10s. 6d. See concerning this romance *Mélanges tirés d'une grande bibl.* VIII. 5 etc.

7512 — — without place or date (*Caxton*, before 1474). small fol.

131 leaves with 31 lines running across the page. A prologue occupies the *folio recto* and half of the reverse of the first leaf. The text commences in leaf 2^a, and concludes on the reverse of the last leaf, after the 20th line, with the word *explicit*. Printed with the same types as No. 7505. Only two copies are known, one in the Royal library at Paris, the other in the library at Eton.

7513 — le livre du preux et vaillant chevalier Jason et de la belle Médée. *Lyon, Jac. Maillet*, 1491. fol. Gothic letter.

7514 — Cest l'histoire du preux et vaillant chevalier Jason et de la mye Médée. *Par., Alain Lotrain*, without date. 4°. Gothic letter.

With the signatures *a-y iij*. The language is modernized. Also, *Par., le Noir*, 1528. 4°. Gothic letter.

7515 — storie of Jason (transl. by W. Caxton). Without place or date (*Caxton*, 1475 or 76). fol. Gothic letter.

148 leaves with 29 lines, without signatures, catchwords, and pagination. One of the rarest of Caxton's typographical productions. Caxton represents it in the prologue to the *Golden legend*, 1483, as the 3rd book of his press.

7516 — — Antw., Ger. de Leeu, 1492. fol. Gothic letter.

The duke of Devonshire bought this edition at the Roxburgh sale for 94l. 10s. In Dutch, *Harlem* (about 1483). small fol.—See also HERCULE.

7519 FICHETUS, Gu. Rhetoricor. libri III. In Parisiorum Sorbona, (U. Gering, Mt. Crantz et Mch. Friburger, 1471). 4°.

One of the first Paris typographical productions. There are 5 copies on vellum, to which Fichet has prefixed an epistle, which in each copy is addressed to a different person. One copy on vellum with an epistle to Sixtus IV, 600 fr. Paris de Meyzieu; another copy on vellum, 750 fr. Camus de Limare, 401 fr. Vallière (without the separate letter and the first 2 leaves written), 501 fr. M'Carthy.

The copy in the Royal library at Paris commences with 2 single leaves, which contain 2 letters to the archbishop Charles of Lyon and to the cardinal Bessarion. (These 2 leaves are wanting in the common copies). The rest of the book contains 191 leaves, including the preface. The colophon is on the *folio recto* of the 190th leaf, and underneath it are 28 Latin verses.

Fichet's 5 epistles dedicatory, intended for the copies on vellum, together with 3 MS. letters of the same author are to be found altogether in 1 vol. in the library of the Sorbonne, and in consequence several bibliographers have announced this vol. as an edition of Fichet's letters: see Chevilier P. 37.

7547 FIGUREN. Wol gerissnen vnd geschnitten figuren aus der Bibel. Lyon, Hans Tornesius, 1554. 8°. 78 leaves, with 148 woodcuts.

De Tournes had these extremely neat woodcuts prepared by the clever Bernard Salomon, or 'little Bernard,' for an edition of the Bible; but he also published them by themselves, with Italian, French, Latin, Spanish, and German verses. The above edition is with German verses, but goes only as far as the 2nd chapter of Joshua, although the copy is perfect. Another copy

with German verses, also to be found in Dresden, but defective from the beginning up to this chapter, goes as far as II. Maccab. 7. It is probably of the year 1564, since there is bound up with it, *Wol gerissnen vnd geschnitten figuren aus der neuen Testament. Lyon, Hans Tornesius, 1564. 8°. 48 leaves, with 94 woodcuts and German verses. Concerning the excellence of these woodcuts, see Dibdin Decam. I. 182.*

The woodcuts are the same. The preface is by Claude Paradin, by whom also are the verses. The same woodcuts and verses also, *Lyon, Rouillé, 1565. 8°.* The earlier editions, *Lyon, de Tournes, 1550, 53, 55, or 58. 8°.* are less complete.

Also on large paper, with plates *avant la lettre*, in 4°. (1880 fr.) There are no impressions of the first Nos. in 4°. (Renouard probably has the only one), and they must therefore be bordered, in order to be of the same height with the rest.

7643 FLOREZ, H. Medallas de las colonias, municipios y pueblos antiguos de España. Madr., Marin, 1757-73. 4°. 3 vols., with 67 plates.

The 1st vol., besides 1 portrait and 1 map (p. 120), has plates 1-23, the 2nd vol. plates 24-58, the 3rd vol. plates 59-67, and 8 leaves of woodcuts. This work stands at a very high price, as the English have bought up almost all the copies. Longman offered a large paper copy for sale at 5 guineas. There belongs to it as a supplement, *Ant. Valcarlos Medallas de las colonias, municipios y pueblos de España hasta hoy non publicadas*. Valencia, 1773. 4°. with plates.

7644 — España sagrada, teatro geográfico-histórico de la iglesia de España etc. contin. por Man. Risco, Antolin Merino y Jos. de la Canal. Ed. II. Madrid, 1754-1819. 4°. 43 vols. with plates.

A very rich and excellent collection of notices, besides its peculiar destination, important to the historian on account of the solid treasures it contains for the history and geography of the middle ages, and on account of the many hitherto inedited original documents and impressions of several chronicles and historical writings of Idacius, Ildelphonsus, Joannes Biclairensis, Isidorus Hispalensis and others, corrected from ancient MSS. The literary man finds abundance of the most excellent intelligence from ancient and modern times, and especially many additions and corrections to *Antonii Bibl. Hispan.* The work affords equally abundant materials for the history of civilization and of manners.

There is a 2nd edition of only vols. 1-12. (the first, 1747-53); there is only one impression (1756) of vol. 13. Vol. 1 appeared in a 3rd edition in 1779. Florez died June 8, 1773, and Risco's name appears in the title from the 28th vol. onwards, and yet his own proper continuation begins with the 30th vol., and terminates with the 42nd. On account of the appendices in part furnished with separate titles, the work must be very carefully collated with the table of contents of each volume. For the history of it, consult *Sempere Bibl. Española*, III. 64, etc.

7645 — memorias de las reynas catholicas, historia genealogica de la casa real de Castilla y de Leon. Ed. III. Madr., Marin, 1790. large 8°. with plates, 2 vols.

It contains the following works that have appeared under separate titles, and have been often printed, the first editions of which are preferred as the finest, and also on account of the first impressions of the plates. *Galatée*; *Estelle*; *Numa*, 2 voll.; *Gonzalve de Cordoue*, 3 voll. 7656 FLORIDUS Sabinus, Fr. In Plauti aliorumque lat. linguæ scriptorum calumniatores apologia. De juris civilis interpretibus liber. De C. Jul. Cæsaris præstantia libri III. Lectionum succisivarum libri III. Bas. 1540. fol. 206 and 314 pages, and 32 unnumbered leaves.

The 2nd part has a separate title (*De Jul. Cæsaris præstantia*), and is sometimes met with by itself. A very interesting work of a clear unconfused head, and a man of impartiality and candour. It contains valuable intelligence for the literary history of that period, without being degraded with

the insipid compliments of the time. An opinion of substantial knowledge, independence, cordial openness, shrewdness, and vivacity of judgment is irresistibly entertained in favour of this individual, almost entirely forgotten (consult *Tiraboschi*, T. 8. vol. 3. p. 378.), whose writings are of the highest value, especially for the historians of philology. The *Lectt. succis.* are also in *Græteri lampas*, I. 995, etc. *De Cæsaris præstantia* in German; *Kriegsübung des ersten Röm. Kaisers Julius übs. v. H. von Eppendorf*. Strb. 1551. fol. The work *De jur. civ. interpr.* does not contain any literary information, but is a defence of Valla, who had censured the barbarousness of the old jurists, and was in consequence attacked by Alciatus and Zasius.

7657 FLORILEGIUM renovatum et auctum (a J. Schwindio). Ff., Merian, 1641. fol. with plates.

It is a poem in 137 ottave, and must not be confounded with Boccaccio's *Philocolo*. See also DOLCE, No. 6302. In Spanish, *Flores y Blancaflor*. Aloala, 1512. 4°. - 7664 FLORIUS, Fr. De amore Camilli et Emilie Aretinorum. De duobus amantibus, Ln. de Guiscardo et Sigismunda, Tancredi filia, libellus in lat. ex Boccacio convertit Ln. Aretinus, without place or date (*Par., Cesaris et Stol.*, about 1475). 4°. 49 leaves with 24 lines, without signatures, catchwords, and pagination.

Leaf 1^a. line 1. is, *Francisci Floris Florentini de amore Camil.* Leaf 49°. line 24. ends, *Finit feliciter.* The date at the end of the first romance, leaf 41^a, *Turonis, prid. kal. Jan.* 1467 relates to its composition, not to its printing. The duke of Devonshire has a copy in which every alternate leaf is printed on vellum, the rest on paper; see *Dibdin Decam.* II. 363. There are also two editions without place or date, Gothic letter, with signatures, one of 36 leaves with 33 lines, the other of 42 leaves with 26 lines. In German in Richard's *Bibl. der Romane*, V. 91-110.

- 7665 FLORTIR. Il cavalier Flor-tir, figliuolo dell' Imperator Platir, trad. nella lingua ital. Ven., Enea de Alaria, 1573. 8°.—Ven., Spineda, 1608. 8°. 2 voll.

VOL. II.

- 7666 FLORUS, Luc. Annæus. De tota hystoria Titii Livii Epitoma. Without place or date (*Par., Geriing, Crantz et Friburger, in Sorbona*, 1470-72). 4°. 89 leaves with 23 lines, in Roman characters.

According to Dibdin *Bibl. Speno.* II. 29, the first edition and very scarce. Leaf 1^a. line 1. is, *In. L. Annei Flori Epithoma de hystoria.* Leaf 1^b. begins the text. Leaf 89^a. line 6. ends, *Tito Livio, finit liber quartus.* In some copies after these words there are 8 Latin verses, *Florus habet parvo, etc.* Given with the types of *Fischeri Rhetorica* (No. 7519).

- 7667 — epitomata in Livium. Without place or date (*Ven., Hailbrun, not Jenson*), fol. 58 leaves with 33 lines, without signatures, catchwords, and pagination, in Roman characters.

The types resemble those of the Ausonius of 1472. Leaf 1^a. line 1. is, *LVCII ANNEI FLORI EPITOMATVM.* It ends, leaf 58^b, with the verses, *Florus habet parvo etc.* The first edition according to Panzer, the second according to Dibdin.

- 7668 — epitoma, i. e. abbreviatio de cursu ac statu Romanor. Without place or date (*Col., Arn. Therhoernen*), fol. Gothic letter, 29 leaves in 2 columns of 46 lines, without signatures, catchwords, and pagination.

Dibdin reckons this as the 3rd edition, and it is the same which Gruter and Duker so highly praise in a critical point of view. According to Dibdin it was not printed before 1473, according to Santander about 1471. Leaf 1^a. line 1. begins, *Lucij anei flori epitoma idest abbre.* Florus ends in leaf 24^a, and leaf 24^b begins another piece (by Jordanus), *De commendatione Rom. imperii.*

- 7669 — gestor. Romanor. epithoma. Parmæ, St. Corallus, without date (about 1473). 4°. In Roman characters, 80 leaves with 27 lines, and with catchwords, but without signatures and pagination.

Leaf 1^b. begins with a letter of Beroaldus. The text commences in leaf 3^a. Leaf 80^b. ends thus, *FINIS.* Beroaldus corrected the text, but very negligently.

- 7670 — Romana historia. Without place or date, fol. in Roman characters, 48 leaves with 36 lines,

Q q

without signatures, catchwords, and pagination.

Leaf 1^a. line 1 is, *Lutii Amnei flori Romanae*. Leaf 48^b ends, *Laus Deo*. The initials of the chapters are mostly Gothic letter. Described for the first time in Dibdin *Bibl. Spenc.* II. 34.—Dibdin *Bibl. Spenc.* II. 30. n. proves that Florus is not to be found in the Justin of 1472 by Schweinheim and Pannartz; but it is to be found however in a Justin, without place or date (about 1490), fol. and often since.

7671 — epithomata. Liptz., Cr. Gallicus, 12 Cal. Jun. 1487. 4°. Gothic letter, 56 leaves with 30 lines, and the signatures *a-g*.

Superintended by Fridrianus Pighinutus, from a Halberstadt MS., and with many peculiar and good readings. *Lps.*, *Mt. Herbiopol.*, 1494. fol. 32 leaves, is a faulty reprint. *Lps.*, *Thanner*, without date (after 1487, and before 1494), fol. Gothic letter, is the same text, but with corrections.

7672 — — Senis, Sgm. Rot d' bitz, without date (about 1490), 4°. Gothic letter, 56 leaves with 29 lines, and the signatures *a-g*.

With the letter of Berosaldus. It appears to be a reprint of No. 7669.—The edition in the Justin, *Flor.*, *Giunta*, 1510. 8°. has little that is peculiar, and it appears with very arbitrary alterations in the *Livy* by Aldus, T. IV. (1521.) A separate edition by Aldus does not exist. Also in the *Junta* edition of *Vellejus Patere*. 1525.

7673 — J. Camertis in quatuor gestor. Ro. Lucii Flori lib. Index copiosissimus. Sextus Rufus de Regia: Consulari: ac Imperiali dignitate. Deque Romani Imperii accessione, per eundem Camertem suo tandem nitori quam optime restitutus. Viennæ Pannoniæ, J. Singrenius, 1518. 4°. 144 leaves.

He has sometimes corrected the text from a MS., but his principal performance was the historical notes. A Basle edition of this year is a nonentity. *Arg.*, *Hervag.*, 1528. 8°. is a reprint corrected here and there. *Par.*, *Vascosan*, 1539. 4°. *Par.*, *Wechel*, 1542. 8°. *Par.*, *Roigny*, 1545. 4°. are unaltered reprints.

7674 — — ex rec. Eliæ Vineti. Pictavii. 1563. 4°. or *Par.* 1576. 4°.

At first in *Solinus*. *Pictav.* 1554. 4°. A new recension from MSS. with good explanations. All these editions are scarce.

7675 — de gestis Romanor. historiar. libri IV et seorsim in eos commentarius J. Stadii. Antw., Plantin., 1567. 8°. 149 and 222 pages.

Stadius made use of MSS., but altered the text too arbitrarily. The commentary is of value. *Ib.* 1584, or 93, or 1607. 8°. differ little in the text, but are greatly enlarged in the commentary. It is his text in the editions by J. Is. Pontanus, *Amst.* 1635. 16°. and often.

7676 — politicis notis, sola scripturæ differentia, insigniti. Ex rec. prima Jani Gruteri. In bibliopolio Hi. Commelini, 1597. 8°.

Only corrected from the old editions. Gruter used 3 MSS. in the edition of 1611 in the *Script. hist. aug.*

7677 — rerum Romanar. libri IV cum notis et scholiis El. Vineti, J. Camertis, Justi Lipsii et Jani Gruteri. Acc. epitome decadam Livii cum notis C. Sigonii et Mt. Delrii. S. Gervasii, J. Vignon, 1606. 8°. 552 pages.

With a preface of Aub. Miræus of 1602. It has the text of Vinetus. Other copies appear to have *Lugduni* in the title.

7678 — rerum Romanar. libri IV cum notis Jani Gruteri. Nunc prim. accesserunt notæ et castigat. Cl. Salmasii. In bibliopolio Commelin. 1609. 8°. 121 and 172 pages.

Salmasius corrected the text from the same MSS. which Gruter used in his edition of 1611 (see above). Very incorrectly printed, and afterwards rejected by Salmasius himself as immature. Scarce.

7679 — rerum Romanar. libri IV accurante J. Freinshemio. Arg. 1632, or 36, or 55, or 69. 8°.

Gruter's text, but with Freinsheim's corrections. Divided into chapters for the first time.

7680 — Florus. Cl. Salmasius addidit Ampelium nunquam antehac editum. LB., ex off. Elzevir, 1638. 12°. 4 leaves of preliminary matter, 336 pages, and 8 leaves of index.

There are 2 different editions of this date. That is considered as the first, in which in the vignette before the preface, p. 203, there is no mark. As one edition is as good and as fine as the other, no distinction is made between them, and neither of them is of great price. The text is the same as in No. 7678, only more correctly

printed. But in this edition Salmasius has the notes re-written. Repeated, *LB.*, *J. Elzevir*, 1657. 12°.

7681 — *Florus ex rec. N. Blancardi. Acced. ejusd. ex omnium observationib. editis ac ineditis (sic) Salmasii commentarius. LB.*, Wyn-gaerden, 1648. 8°.

7682 — *hist. Rom. libri IV cum notis integris Cl. Salmasii. Additus etiam Ampelius ex ejusd. bibliotheca. LB.*, ex off. Elzevir., 1655. 8°.

With Freinsheim's Index.

7684 — *Florus cum integris Cl. Salmasii et varior. notis. Quas omnes multis in locis auxit Rutg. Hermannides. Acced. L. Ampelius. Neomagi*, 1662. 8°.

Corrected from MSS. and editions by Tanaq. Faber, *Salmurii*, 1672. 16°.

7685 — *Rerum Romanar. epitome, interpretatione et notis illustrav. Anna, Tanaq. Fabri filia, in us. Delphini. Par., Leonard*, 1674. 4° or *Par.*, Barbon, 1726. 4°.

The text principally after No. 7678, but with some alterations. One of the better editions in *us. Delph.* Reprinted, *Ven.* 1715. 4°. *Lond.* 1692, 1714, 27 and 44. 8°. *Basensi*, 1787. 4°.

7686 — *Florus recensitus et illustr. a J. G. Grævio. Traj., Bat.*, 1680. 8°. with plates.

The text is frequently corrected from MSS. and old editions, and is furnished with excellent explanations, but is very incorrectly printed.

7687 — *historia Romana ex rec. N. B(lancardi).* Acced. Cl. Salmasii aliorumque notæ. *Franeq., Hage-naar*, 1690. 4°. 796 pages.

The text is disfigured by the arbitrary reception of earlier conjectures.

7688 — *epitome rer. Romanar. cum notis integris Cl. Salmasii et selectis varior. Acc. J. G. Grævii annotatt. longe auctiores et correc-*

tiores, nec non numismata et antiqua monumenta, cum variantt. lectt. et ind. Additus est Ampelius. *Amst., Wetstein*, 1692. large 8°. with plates.

7689 — *epitome rer. Romanar. ex rec. J. G. Grævii cum ejusd. annotatt. longe auctiorib. Acc. notæ integre Cl. Salmasii, J. Freinsheimii et varior., nec non numismata et antiqua monumenta, cum variantt. lectt. et ind. Additus est Ampelius. Amst., Gallet*, 1702. large 8°. 2 parts in 1 vol., with plates.

The enlargement of the notes is not considerable, and sometimes readings are received into the text which Grævius's notes contradict. The various readings of the earlier edition are wanting altogether, and Freinsheim's notes are abridged. It belongs to the older series *cum notis variorum*.

7690 — *rer. Romanar. libri II priores ex criticor. observatt. correcti tum textus ratione notisque varior. Adornavit Lr. Beger. Col. Marchicæ (Berlin).* 1704. fol.

With 1 title-plate, 5 maps, 9 separate plates and coins, and several printed in the text. Beger has altered the text sometimes according to others, and sometimes according to his own notions with such arbitrariness and ignorance, that he has entirely disfigured it. He has also overloaded the book with explanations from coins and monuments without either need or taste. Unfinished on account of his death.

7691 — *epitome rer. Romanar., cui subjungitur Luc. Ampelii liber memorialis (cura Mch. Maittaire).* *Lond., Tonson*, 1715, 12°. Also on large paper.

7692 — *epitome rer. Romanar. cum integris Salmasii, Freinsheimii, Grævii et varior. notis. Recensuit usq. adnotatt. addidit C. And. Dukerus. LB.*, *Luchtman*, 1744. large 8°. 2 vols. with 1 map.

A new and excellent recension from MSS. and old editions. *LB.* 1722. 8°. is less complete.

7693 — *epitome rer. Rom. ex rec. J. G. Grævii cum animadvv. ejusd. Access. præter Ampelium libellumque varr. lectt. præfatio J. F.*

Fischeri. Lps., Fritsch, 1760. 8°. (20 gr.)

7701 FLUDD s. de FLUCTIBUS, Rb.

Opera. 5 or 6 vols. in fol., with many plates by de Bry.

Seldom found complete (incomplete copies are at a very low price), and it ought to consist of the following 17 pieces.

1. *Utriusque cosmi, majoris scilicet et minoris, metaphysica, physica atque technica historia.* Oppenheimii, de Bry, 1617. 1 title, 206 pages, and 3 leaves of index.

2. *Tractatus secundus de natura simia s. technica macrocosmi historia.* Oppenheimii, de Bry, 1618. 788 pages, and 5 leaves of index. A second impression (not merely a new title), *Ff., heredes de Bry*, 1624. 788 pages, and 5 leaves of index.

3. *Tomus secundus de supernaturali, naturali, præternaturali et contranaturali microcosmi historia.* Oppenh., de Bry, 1619. 277 pages. (In many copies p. 93 is left blank, so that the plate belonging to it is wanting.)

4. *Tomus secundi tractatus primi sectio secunda de technica microcosmi historia.* Without place or date, 191 pages, and 5 leaves of index.

5. *Tomus secundi tractatus secundus de præternaturali utriusque mundi historia.* Ff., de Bry, 1621. 6 leaves of preliminary matter, and 199 pages.

6. *Veritatis procenium.* Ff., de Bry, 1621. 54 pages.

7. *Anatomia amphitheatrum effigie triplici, more et conditione varia, designatum. (Sectionis prima portio tertia).* Ff., de Bry, 1623. 1 half-title, 1 title-plate, 1 chief-title, and 331 pages. (His *Monochordum mundi symphoniacum* is printed here, which first appeared, *Ff.* 1622. 4°.)

8. *Philosophia sacra et vere christiana s. meteorologia cosmica.* Ff., de Bry, 1626. 4 leaves and 393 pages. Before the text is a large copperplate.

9. *Medicina catholica s. mysticum artis medicandi sacrarium in tomos divisum duos.* Ff., Fitzer, 1629. 12 leaves of preliminary matter, 241 pages, and 3 leaves of index.

10. *Pulsus s. nova et arcana pulsum historia h. e. portionis tertius pars tertia.* (Ff. 1629). 93 pages. At the end ought to be a large table of 3 sheets pasted together, *Medicamentorum Apollinis oraculum.* Typis Wfg. Hofmanni, 1630, to which the catchword *Medi-* at the end of the piece refers.

11. *Sophia cum moria certamen.* (Ff.) 1629. 118 pages, and 1 leaf of index.

12. *Summum bonum.* (Ff.) 1629. 53 pages.

13. *Integrum morbor. mysterium s. medicina catholica tomii primi tractatus secundus.* Ff., Fitser, 1631. 13 leaves of preliminary matter, and 503 pages.

14. *Καθολικὸν medicor. καὶ ὁριστῶν s. tomii primi tractatus secundi sectio secunda.* (Ff.) 1631. 2 leaves and 413 pages (between p. 64–65 there ought to be a plate).

15. *Clavis philosophia et alchymiae Fluddiana.* Ff., Fitser, 1633. 87 pages.

16. *Philosophia Mosaica.* Gouda, Rammasenius, 1638. 4 unnumbered and 152 numbered leaves, and 1 leaf at the end. (In English, Lond. 1659. fol.)

17. *Responsum ad hoplocrisma-spongum M. Foeteri.* ib., id., 1638. 30 leaves. (Previously in English, Lond. 1631. 4°.)

The collation here specified I have made according to various copies in the Dresden library, and can answer for its correctness. That in Vallière's Catalogue, I. 518, has errors. To a complete collection of Fludd's works there also belong,

Tractatus apologeticus integritatem societatis de rosea cruce defendens. LB., Basson, 1617. 8°. 186 pages. Previously under the title, *Apologia compendiaria, fraternitatem de rosea cruce abluens et abstergens.* Leydæ, Basson, 1616. 8°.

7718 FONTAINE, J. de la. Œuvres. Anvers (*Paris*), Sauvage, 1726. large 4°. 3 vols. with Fontaine's portrait.

Very incomplete, badly printed, and not sought after. The copies in which the plates by Romain de Hooghe and others for the fables and tales are to be found encircled with an ornamented border are of some value.

7719 — œuvres diverses. Par. 1744. 12°. 4 voll. Fables avec le commentaire de Coste. ib. 1743 or 45. 12°. 2 parts in 1 vol. Contes. Lond. (*Par.*) 1743. 12°. 2 voll.

This collection is distinguished for its beauty.

7720 — œuvres complètes. Par., stéréot. d'Herhan, 1803–4. 12°. 8 parts in 5 vols. (15 fr., on vellum paper 30 fr., with 9 plates 35 fr.)

7721 — œuvres complètes. Par., Leffèvre, 1814. 8°. 6 vols. with plates after Moreau (42 fr., on fine paper 48 fr., on vellum paper 72 fr., on large vellum paper 120 fr.).

The most complete edition. In some copies at the end of the *Contes* are to be found 80 pages, containing 7 *contes*, which were not composed by Fontaine, and are therefore omitted in this edition. Of the copies on large vellum paper, which are

scarce, 20 have also the etched leaves. Also 2 copies on vellum (one with the original designs), 3 on rose-coloured, and 3 on yellow paper. A new impression, *Par., Lefèvre*, 1818. 8°. 6 vols. (40 fr.)

7722 — œuvres complètes, précédées d'une nouvelle notice sur sa vie avec les notes les plus importantes des commentateurs et quelques observations nouvelles. *Par., Pillet*, 1817. 8°. 2 vols. with 17 plates and 1 facsimile (15 fr., on vellum paper 30 fr.).

This *édition compacte* is not fine. Renouard has the only copy on large vellum paper.

7723 — fables choisies mises en vers. *Par., Barbin*, 1668. 4°. with plates.

The first edition superintended by the author. It contains only the first 6 books.

7724 — fables choisies, mises en vers. *Par., Barbin*, 1678-93. 12°. 5 parts, with plates by Chauveau.

The first complete edition, printed under the author's inspection, and sought after. Good copies are scarce.

7725 — fables. Anvers, van Dunewalt, 1688-94. 8°. 5 parts in 2 vols. with plates.

Neat, and sought after in good condition. The plates are copies of the preceding edition. Good copies also of the edition, *Haye*, 1700. 8°. 2 vols. with plates, are of some value.

7726 — fables. *Par., Desaint et Sailant*, 1755-59. fol. 4 vols. with plates after Oudry.

Very frequently to be met with, as the impression was large. Vol. I. 1 title-plate and 70 plates. Vol. II. 68 plates. Vol. III. 68 plates. Vol. IV. 69 plates. The plates are fine representations of animals, without being on that account fine plates to Fontaine's *Fables*. The copies are of four sorts: 1. on common paper; 2. on Dutch medium paper; 3. on very large or imperial paper (330 fr. Vallière); 4. on very large Dutch paper (very scarce, 630 fr. M^cCarthy). Reprinted, *Dresde et Lps.* 1756-66. large 8°. 2 vols. with plates by Meil.

7727 — fables; édition gravée en taille-douce, les figures par Fessard, le texte par Montuley. *Par.* 1765-75. 8°. 6 voll.

The first impressions only are sought after. A copy on vellum in the Royal library at Paris.

7728 — fables. *Par., Didot aîné*, 1782. 18°. 2 vols. on fine paper.

A neat edition, printed separately from the d'Artois collection. A copy on vellum 272 fr. Limare, 126 fr. d'Hangard, 105 fr. M^cCarthy.

7729 — fables avec figg. de Simon et Coiny. *Par., Didot aîné*, 1787. 18°. 6 vols. on vellum paper.

Fine copies are greatly sought after, on account of the neat plates. The first impressions of the plates are on vellum paper. The same plates served for the reprint, less sought after, *Par., Crapelet*, 1796. large 18°. (also in 8°.) 6 vols.—To these vols. may be added Didot's edition of the *Contes* in 18°. with Coiny's plates.

7730 — fables, imprimées pour l'éducation du Dauphin (précédées d'une notice sur la vie de la Fontaine par Nageon). *Par., Fr. Ambr. Didot aîné*, 1788. large 4°.

350 copies. Also 6 on vellum.

With 12 neat vignettes from designs by Percier. Only 250 copies, 100 of which have the vignettes *avant la lettre*. There are 2 copies on vellum, one of which, with the original designs, was bought at marshal Junot's sale at London, 1816, by Mr. North for 170l.

7735 — fables, avec de nouvelles gravures en relief. *Par., Renouard*, 1811. 12°. 2 voll.

With lithographic representations, the impressions of which however have failed. 3 copies on vellum, and besides them a 4th of the 2nd vol. only.

7736 — fables (avec la vie de la Fon-

7745 — (P. L. SOLVET) études sur Lafontaine, ou notes et excursions littéraires sur ses fables, précédées de son éloge par Gaillard. Par. 1812. 8°.

7746 — contes et nouvelles en vers.

Sur l'imprimé à Paris chez Barbin, 1665. 12°.

This scarce Elzevir production contains 10 contes and 4 poems. The Elzevir edition, *Leide*, J. Sambix, 1669. 12°. is more complete, and equally scarce.

7747 — contes et nouvelles en vers. Amst., Desbordes, 1685. large 12°. 2 vols. with plates by Romain de Hooghe.

Of this edition, greatly sought after on account of the plates in copies in good condition, there are three different impressions with the same date and the same plates. The first contains the first impressions of the plates, and is well printed; the second is less fine; and the third is bad in every respect. The marks of distinction are: vol. I. 1. The 211th page (*Dies. sur la Joconde*) has in the original edition 11 lines, and 16 in both the reprints. 2. In the table of contents, after the preface, the 1st reprint has the misprint of 221 instead of 211 in the last line of the 1st page, which is not to be met with in the original, nor in the 2nd reprint. 3. In the same page, 6 lines higher, the 1st reprint has *le Juge de Nêle*, instead of which in both the other editions there is, *le Juge de Mêle*. Vol. II. the 1st page of the preface has in the 1st and 3rd editions 17 lines, and in the 2nd 19; and at the same time this page of 17 lines has underneath in the original edition the signature * 2, but in the 3rd edition A 2.

There are copies of the original edition on large paper, which however are extremely scarce. There is also a 4th extremely bad edition of the same date in 2 vols. in small 12°. without plates. Also the reprints, *Amst.* 1699 or 1709 or 18. 12°. 2 vols. with the same plates, are not sought after.

The Jesuit Colonia had a mutilated and interpolated edition printed at Lyons: for instance, where *pape* occurs, he put *prince*; the *cordeillers de la Catalogne* he changed into *moines de Catalogne*, and so on. Consult *Longueruana*, II. 62.

7748 — — Amst. (*Par.*, *Barbou*), 1762. 8°. 2 vols. with plates by Eisen.

Prepared at the expense of the farmers general (thence called *édition des fermiers généraux*), and hitherto the finest edition, yet not scarce, as the impression was large. The plates are Eisen's best productions, but the impressions are only in a few copies of equal goodness throughout. There are certain copies, richly bound in morocco, often announced as belonging to those 40 copies which were intended for the farmers general, and said to contain not only the

first impressions, but also several plates which are wanting in the other copies. The truth is, that the copies intended for the farmers general have certainly the first impressions, and are all bound in the same handsome style, but that they do not contain one plate more than the rest. The additional plates which are found in some copies are such as were rejected, as being failures or too free. Renouard has seen 25 such plates. Their presence is no proof of the beauty of the copy; on the contrary, they are not to be met with in any of those first copies. The genuine plates also have various differences. Crevenna's catalogue specifies a copy on large paper.

A less esteemed reprint of the same date is distinguishable from the *culs de lampe* being wanting, which in the genuine edition are at the end of each *conte*. The reprint, *Amst.* 1764. 8°. 2 vols. is tolerably neat.

7749 — — Par., Pt. Didot aîné, 1795. 18°. 2 voll.

In 1813 a series of 75 vignettes appeared for this edition. With these plates 48 fr., and on large paper 57 fr. The plates alone 36 fr., and on large paper 42 fr. There are 2 or 3 copies of this edition on very large vellum paper in 12°, and 4 copies on vellum, 2 of which are in 12°. There are also copies to which the plates of the edition of the farmers general have been annexed.

7750 — — Par., Pt. Didot aîné, 1795. large 4°. 2 vols. on vellum paper, with plates.

Fine, but not sought after, because the plates (only 2 Nos. of 10 leaves) have not all appeared. A copy on vellum.—There is another series of plates to the *Contes*, which appeared in folio about 1736, engraved by Larroissin, Filleoul, Tardieu, and others, after designs of Lancret, Boucher, and others, with stanzas of four verses by *Roi*.

7770 FONTENELLE, Bn. le Bouvier de. Œuvres diverses. Haye, Gosse, 1728–29. fol. 3 vols. with plates by Bn. Picart.

Incomplete, and only sought after on account of the fine plates. Scarce and prized on large paper (431 fr. M^cCarthy). By the same establishment, in the same year, there appeared an edition in 3 vols. in 4°. with the same plates.—*Par.* 1758–66. 12°. 11 vols. is well printed.

According to the notice to the bookbinder, there ought to be 142 plates; 144 are however usually found (namely, N. Grudius and Pt. Gudelinus besides). Most of the plates are old, bad, and worn. The book itself is full of faults. Consult *Marchand Dictionnaire*, I. 101-109.

7781 FORABOSCO. La Gigantea. La Nanea (del F. Aminta), con la guerra de' monstri (di Ant. Fr. Grazzini, detto il Lasca). Fir., Guiducci, 1612. 12°. 141 pages.

Lond. 1813. large 4°. 4 vols. with 90 partly illuminated plates (16l. 16s.).

A greatly prized work, in which indeed more attention is paid to old Latinity than in Gesner's *Thesaurus*, but too little to the usage of the language, and still less to the signification of the particles. Facciolati only conducted the work, the real author was Forcellini. Consult *Allg. litt. Anzeiger*. 1801. p. 588 etc. *Classical Journal*, I. 171. II. 929. *Ed. II. locupletior*. Patav. 1805. fol. 4 vols. is badly printed, and enlarged with a few insignificant additions. But to both editions the *Appendix*, ib. 1816. fol. (2 d.) with the portrait of Forcellini, is necessary to be added.

No more of this solid work has appeared. The 4 books of this volume treat of the merits of the Venetians in Jurisprudence; of general, Venetian, and foreign history. Consult J. von Müller's *Werke*, VII. 65. That it never came into the market, but was only given as presents (*ib.* VI. 378), is without foundation.

The expectations which were entertained of this work were so great, that the London booksellers thought they might venture to make it the subject of an excellent speculation. Offer after offer was made to his widow; at last W. Miller became the proprietor of the MS. for 4500l. (hitherto the highest

premium paid in England). It was printed with the greatest speed, and at 2 presses at the same time. The ordinary copies (5000 in number) were printed by Savage, those on large paper (250 copies) and on very large paper (50 copies) by Bulmer, and—it has remained to this day in this edition. Miller only just indemnified himself in his speculation.

7908 FRESNE du Cange, C. du. Glossarium ad scriptores mediæ et infimæ græcitatatis, cum appendice. Lugd. 1688. fol. 2 voll. Also on fine paper.

7909 — glossarium ad scriptores mediæ et infimæ latinitatis. Editio locupletior op. et st. monachor. ord. S. Benedicti. Par. 1733-36. fol. 6 voll. Also on large paper.

The copies on large paper are little dearer than those on small paper, because the following article is only in the small size. According to Osmont there is a copy on vellum. Vol. IV. in the article *Moneta*, ought to have 10 leaves of coins, which are often wanting. *Ven.* 1736-40. fol. 6 vols. is a reprint of this edition. *Bas.* 1762. fol. 3 vols. (21 d. 8 gr., on writing paper 24 d.) —At first, *Par.* 1678. fol. 3 vols.; and reprinted, *Ff.* 1681 or 1710. fol. 2 vols.

7910 — glossarium novum s. supplementum ad auctiorem glossarii Cangiani editionem, collegit et digessit Pt. Carpentier. Par. 1766. fol. 4 voll.

7911 — glossarium manuale ad scriptores med. et inf. latinitatis, ex glossariis Dufresne et Carpentarii in compendium redactum multisque verbis et dicendi formulis auctum (a J. Cp. Adelung). Halæ, Gebauer, 1772-84. large 8°. 6 vols. (16 d. 8 gr.)

Fresne and Carpentier confined themselves principally to France and England, and paid too little regard to original documents. Adelung's valuable abridgment contains all that is essential, even with respect to documents. But such a work is still wanting for the German chronicles and records.

7912 — Illyricum vetus et novum s. historia regnor. Dalmatiæ, Croatiae, Slavoniæ, locupletiss. accessionib. aucta (a Jos. Keglevich de Buzin). Posonii, 1746. fol.

Fresne's *Historia Byz* forms the groundwork of this production. See also *BYZANTINA*, Nos. 25 and 36.

6 leaves of preliminary matter, 166 and 22 leaves. Not to be confounded with the following article.

7915 FREYDANK. Der freydank nüwe mit den figuren Fügt pffaffen, adel, layen, buren. Man hielt etwan uff kein Spruch nicht Den nit herr freydank het gedicht. (*Strb.*), J. Grüninger, 1508. 4°.

The first edition of this modification by Sb. Brandt. Also, *Augsp., Schönsperger*, 1513. 4°. 10 sheets with 2 columns. A second working up anew of Brandt's edition is, *Wormbs, Sb. Wagner*, 1538 (not 1539). fol. with woodcuts, 3 leaves of preliminary matter, and 40 numbered leaves in 2 columns. Do the editions, *Ff. a. M.* 1567. 8°. with woodcuts, and *Magdeb.* 1583. 8°. belong to the first or second edition? Consult *Hagen Grundriß. s. Gesch. der deutschen Poesie*, 371 etc.

7916 FREYHARTS Predig. Sampt hundert alten Sprüchen der Welt lauff betreffend. Bas., Apiarius, without date (about 1550). 8°.

In German rhyme. According to the preface, *aus einem alten hundertjühr. geschriebnen zerrissnen Buch geklaubt.*

FREYRE, see FREIRE.

7917 FREYTAG, F. Ghilf. Analecta literaria de libris rarioribus. Lps. 1750. 8°. (1 d. 8 gr.)

In alphabetical order, and said to be almost a mere supplement to Vogt and Gerdes, but it greatly surpasses these works in its contents and accuracy. It is beginning to be scarce.

7918 — adparatus literarius, ubi libri partim antiqui partim rari recensentur. Lps. 1752-55. 8°. 3 voll. (2 d. 16 gr.)

This work obtains an especial value, because Freytag had before him most of the books here described from the Leipaic University library, the Ecclesiastical library at Naumburg (since sold), and the School library in Pforta. The material description indeed is no longer quite sufficient,

but the statement of contents and the notices of the history of the books and their authors are done with such exemplary industry and solidity, that the work will always maintain a peculiar literary value.

- 7919 — *Nachrichten von seltnen u. merkwürdigen Büchern.* 1r Bd. Gotha, 1776. 8°. (16 gr.)

The same may be said of this work as of the preceding. Unfortunately an index is wanting, as the publication of two other volumes remained unfinished in consequence of the author's death. What became of the already finished MS. of these 2 vols. the widow of this worthy man, who only died in 1813, was unable to tell me. His death prevented his accepting an invitation to become town-librarian at Hamburg. He had intended to furnish typographical annals of German literature up to 1520: see *Neuestes aus der anmuth. Gelehrsamk.* IX. 69 etc.

- 7920 FREZIER, Amédée Fr. *Traité de stéréotomie ou la théorie et la pratique de la coupe des pierres et des bois.* Strb. 1737, or Par. 1754. 4°. 3 vols. with plates.

An abridgment, *Par.* 1759. 8°. 2 vols. with plates.

- 7921 — *relation du voyage de la mer du Sud aux côtes du Chili et du Pérou, fait pendant les années 1712-14.* Par. 1716 or 32. 4°. with plates.

Also, *Par.* 1717. 12°. 2 vols. with plates. In German, *Hmb.* 1718. 8°. with plates. In English, *Lond.* 1717. 4°.

- 7922 FREZZI, F. *Incomincia el libro intitolato Quatiregio del decursu della uita hūana De messer Federico (Frezzi).* Perugia, St. Arns Almano, 1481. fol. Gothic letter.

80 leaves (the last blank) in 2 columns with 30 lines, and the signatures *a-n*. At first 3 leaves of table of contents. The first edition of this poem in *terse rime*, which contains a description of the four empires of Love, Satan, Vice, and Virtue, after the manner of Dante. Also, *Fir.* without date, small fol. with Roman characters, in 2 columns with 45 lines, and the signatures *a-m*. *Milano, Zaroto, id. April.* 1488. fol. Gothic letter. *Bol., Fr. de Ragasonibus*, 1494. fol. *Ven., Pt. da Pavia*, 1501. fol. *Fir., ad instantia di Pt. Pacini*, 1508. fol. with woodcuts. (Dibdin, in *Bibl. Spenc.* IV. 119, speaks by mistake of

two Florentine editions of this year.) *Ven.* 1 Dec. 1511. fol. is extremely incorrect.

- 7923 — *il quadriregio* ò poema de quattro regni corretto e coll' ajuto d' antichi codici MSS. alla sua vera lettione ridotto. Con le annotazioni di Ang. Gu. Artegiani, le osservazioni istoriche di Giustiniano Pagliarini e le dichiarazioni di alcuni voci di Gi. Bt. Boccolini. Aggiuntavi la dissertazione apologet. di Pt. Canneti intorno allo stesso poema e al suo vero autore. Foligno, 1725. 4°. 2 voll.

The best edition.—Concerning a MS. furnished with the incorrect title, *La cosmografia di F. Frezzi*, which contains Fazio's *Dittamondo*, see *Notices et extraits*, VI. 483 etc.

- 7924 FRICK, J. C. *Commentatio de Druidis, occidentalium populorum philosophis.* Acced. opuscula quædam rariora, historiam et antiquitates Druidar. illustrantia itemque scriptor. de iisdem catalogus. Recensuit etc. Alb. Frickius. Ulmæ, 1744. 4°.

Very scarce.

- 7926 — — *Annotationes addidit suas J. Glo. Schneider.* Lps. 1788–89. 4°. 2 voll. (6 d.)

With important explanations. A complete MS. presented to the Mazarine library in 1798 contains two-thirds more than the printed work; compare *Chardon Mélanges*, II. 364 etc. Concerning a MS. French translation, see *Notices et extraits*, VI. 404, n. In German by J. Erh. Pacius, *Onolsbach*, 1756. 8°. (1 d.)

- 7927 FRIEDRICH II, King of Prussia. *Œuvres.* Berl. 1789. 8°. 4 voll. Also on writing and on velum paper.

Copies without cancels are sought after. In addition, *Œuvres posthumes.* Berl. (*Strb.*) 1788. large 8°. 15 vols. and 2 vols.

Supplm. Finer, but less complete, than the following edition.

7928 — *œuvres complètes*. Potsdam, 1805. 8°. 24 voll.

Containing *Œuvres primitives*, 4 voll. *Œuv. posth.* 19 voll. *Denina Vie de Fr.* 1 vol.

7930 — *matinées royales ou entre-tiens sur l'art de régner*. Without place, 1767. The whole engraved on copper.

This circumstance seems to be peculiar to this edition. A copy corrected in MS. after the printed copy is at Dresden.

7931 — *arte da guerra*, poema, traduz. em portuguez por Mig. Tiberio Pedagache Brandaõ Ivo. Lisb. 1791. 8°.—Works, transl. by Holcroft. Lond. 1789. 8°. 13 vols.

Scarce and remarkable, especially on account of the trades' songs given with it. A second part has not appeared; but there are in this volume, besides the trades mentioned in the title, the following trades, with separate titles, yet with a pagination running throughout: *Messerschmiede, Töpfer, Weigerber, Hutmacher, Buchbinder, Büchsenmacher, Kannengießer, Gürtler, Seiler, Fleischhauer, Riemer, Weissbecker*.—There also belong to it as a continuation, *Ceremoniel u. Privilegia der Trompeter u. Pauker*. Without place or date. 8°. 43 pages. *F. Friese Histor. Nachricht von den Ceremonien der Allenburg. Bauern*. Lps. 1703. 8°. 60 pages. *P. Ch. This collection of the songs of the people also contains ballads from the history of Danish antiquity.

natürlichen Farben. Classe I–XII. Berl. 1734–63. fol. in 2 or 3 vols. with 255 illuminated plates.

This edition contains the best impressions. The editions, *Berl.* 1764 or 1817. fol. (48 d.) are much inferior.

7935 — *Beschreibung von allerlei Insecten in Deutschland*. Berl. 1720–38. 4°. 13 parts in 1 vol. with 273 plates.

Consult *Mém. de l'Ac. des inscrr.* XIII. 568 etc.—*Par.* 1574. fol. 4 parts in 2 vols. is the edition most frequently met with. An edition superintended by Dacier, shortly before the revolution, was only printed as far as sheet KKKK of the 1st part. Concerning the Breslau MS., which is more complete than the printed editions, see *J. Ephr. Scheibel Nachricht von den Merkwürdigk. der Rhedigerschen Bibl. zu Breslau. St. I. Bresl.* 1794. 4°. This fine edition was printed at the private press of the translator, and is scarce already. Some copies have the plates in mezzo-tinto and illuminated, and cost 40 guineas. There are 25 copies on very large paper in fol. The 5th vol. contains Froissart's life, translated from the French of Sainte-Palaye, an account of the Breslau MS., and an index.—Reprinted, *Lond.* 1805. 8°. 12 vols. with an atlas of 59 plates in 4°. 6 leaves of preliminary matter, and 131 numbered leaves. Also, *ib.*, Zephalus, 1558. fol. with woodcuts, 6 leaves of preliminary matter, and 131 numbered leaves. Beckmann's doubts of the existence of these editions (*Beitr. zur Gesch. der Erf. V.* 444 not.) are groundless. Hoyer even made use of the Dresden copies. The edition, *Kriegsordnung u. Regiment. Ff. a. M.*,

Feyerabend, 1564. fol. 4 leaves of preliminary matter, 122 numbered leaves, and 1 leaf, colophon, has other woodcuts. Of this edition there are two copies in Dresden differing in the title.

Remarkable on account of the appended didactic poem (probably by Mlch. Pfünzing?) to Maximilian, which is also printed

in Fronsperger (see above, No. 7954, and in the 1st vol. of No. 7957) and in the *Deutsch. Museum, 1779, I. 266 etc. 561 etc.*

4 leaves of preliminary matter, 58 numbered leaves, and 1 unnumbered. Different from the preceding translation. Also, *Ff. a. M., Feyerabend, 1578. fol. with woodcuts; and in Fronsperger's Kriegsbruch, tom. 3.—Frontinus von Kriegskisten. Gotha, 1792. 8°.*

Omnia breviter selecta et in quæstiones redacta et jam recens edita, autore Luca Lossio. Ff. a. M., her. Ch. Egenolphi, 1566. 8°.

Mai has not been sufficiently attentive to the documents, and by his hasty corrections and arrangement of the fragments has rendered another comparison of the originals necessary. *Ff. a. M., Hermann, 1816. large 8°. (2 d. 12 gr., on Dutch writing paper 3 d. 12 gr.)* is a faithful impression of his edition.

7977 — reliquiæ ab Ang. Majo primum editæ. Meliorem in ordinem digestas suisque et Ph. Buttmanni, L. F. Heindorfii ac selectis Ang. Maji animadv. instructas iterum edidit G. G. Niebuhr. Acced. liber de differentiis vocabulor. et ab eodem Ang. Majo primum edita

Q. Aurelii Symmacchi octo orationum fragmenta. Berol., Reimer, 1816. large 8°. (1 d. 16 gr.)

The whole is newly arranged in this edition, and indeed without marking the pagination of Mai. So that neither this nor Mai's edition can be dispensed with. Mai vindicated himself against Niebuhr in, *Commentatt. de edit. principib. Mediol. fragmentor. Cic. et operum Front. Mediol.*, 1817. 8°. 37 pages, which also forms an appendage to the 2nd edition of his Cicero (see above, No. 4349).—*F. Jacobs Notæ criticae in Frontonis epp. græcæ*, in Wolf's *literar. - 8054 GALENUS, Cl. Opera omnia (gr., ediderunt And. Asulanus, J. Bt. Opizo et G. Agricola). Ven., in ædd. Aldi et And. soceri, 1525. fol. 5 voll.

Vol. I. 4 leaves of preliminary matter, 24 and 180 leaves, 1 blank leaf, and 108 leaves. Vol. II. 4 leaves of preliminary matter, 184 and 106 leaves (the last is numbered 160 by mistake). Vol. III. 4 leaves of preliminary matter (the 3rd blank), 106 and 155 leaves, and 1 leaf with the colophon and anchor. Vol. IV. 4 leaves of preliminary matter (the 3rd blank), 113 leaves, 1 blank leaf, 74 and 55 leaves, and 1 leaf with the anchor. Vol. V. 4 leaves of preliminary matter, 327 leaves (after leaf 252 the numbering goes on again by mistake with 245), and 6 leaves. There are also copies on very large paper (200 fr. Askew, 170 fr. Soubise: Renouard has the last of these), which are now sold at a much higher price.

The first Greek edition of all his works, and greatly prized, although very incorrect. The single Dresden copy (only vols. 1, 2, 4, and 5) has various readings and emendations in an unknown hand of the former half of the 16th century.

- 8055 — opera omnia (gr.), ad fid. ve-

tutor. exemplarium emendata atq. restituta (ab Hi. Gemusæo, Lh. Fuchsio et Jo. Camerario). Bas., And. Cratander, 1538. fol. 5 voll.

Vol. I. 8 leaves of preliminary matter and 567 pages. Vol. II. 491 pages. Vol. III. 4 leaves of preliminary matter and 487 pages. Vol. IV. 4 leaves of preliminary matter, 480 pages, and 2 leaves at the end. Vol. V. 4 leaves of preliminary matter, 727 pages, and 1 leaf at the end. The announcement of copies on large paper seems to be erroneous, and the entire impression appears to have a somewhat broad margin. Corrected and completed from MSS., but yet not always correct enough, and at a lower price than the preceding. Harles had a copy with Casp. Hofmann's MS. corrections, now in the University library of Bonn. Concerning Hofmann's apparatus for an edition of Galen's collected works, see *Murr's Journal*, IV. 70 etc.—The last edition of his entire works, greatly corrected and enlarged, is in the Hippocrates by Charlier, 1679.

The first edition, very scarce and very fine. Printed with the same types as the *Etymologicum* of 1499. 111 leaves in 14 layers, with the signatures A-B-H, with 50 lines. Leaf 1a begins with the superscription, printed in red; ΓΑΛΗΝΟΥ ΘΕΡΑΠΕΥΤΙΚΗΣ ΜΕΘΟΔΟΥ ΛΟΓΟΣ ΠΡΩΤΟΣ. Leaf 110b (H 5) is a Greek colophon, and leaf 111a is an index of layers and the printer's symbol.

8065 — opera latine, ex nona Juntar. editione, superioribus præstanti. Ven., Juntæ, 1525. fol. 5 voll.

This edition is preferred. It, as well as the fine edition of 1586, and that of 1609, has the recommendation of possessing the index of Ant. Musa Brasavolus, which fills the entire 5th vol. The first edition appears to be, *Ven.*, *Luc. Ant. Junta*, 1533. fol. (in Dresden only the 6th vol.) The rest, according to Bandini, are of 1550, 56, 63, 70, 76, and 1600. Elsewhere I find also one of 1579.—Other editions are, *Bas.*, *Froben*, 1549 or 61. fol. 3 vols. *Lugd.*, *Frellon*, 1550. fol. 4 vols. *Ven.*, *Valgrisius*, 1562. fol. 5 vols.

8073 GALEOMYOMACHIA (tragœdia, græce, ed. Aristobulus Apostolius). Without place or date (Ven., Aldus Manutius, about 1494). 4°.

10 leaves with the signatures *α-α* *αα*, printed with the types of the Aldine Museum of 1494, and extremely rare. Leaf 1^a begins, *Ἀριστοβούλος ἀποστόλιος ἱεροδιακονος*. Leaf 10^a ends, *ΤΕΛΟΣ*. One of the first typographical productions of Aldus, and probably still earlier than the Museum, because it has not the initials of the Museum, ornamented and cut in wood.—The author was Theodorus Prodrômus, and Aristobulus is one and the same person with Arsenius (see above): consult *Villoison Anecdota Gr.* II. 245. *Chardon Mélanges*, I. 239 etc.

8074 — Homeri vatis naturalissimi de murum felisque bello comœdia (gr. cum vers. lat. Oliverii poetæ Anxianensis et præfat. Aristobuli Apostolii). Ortonæ, Hi. Soncinus, 1518. 8°.

32 leaves with the signatures A-F: very scarce. Another single edition (gr.), *Bas., Froben*, 1519. 4°.; and (gr. lat.) by J. F. Sörgel, *Budolphipoli*, 1750. 4°. Also often in *Æsop*, in the *Batrachomyomachia* by A. Ch. Borhek, *Lemgo*, 1789. 8°. and in *Homeri Hymn. ed. Ilgen. Hal.* 1791. 8°.

8075 GALEOTTI Marci de homine libri II. Without place or date. fol.

76 leaves with 32 lines, without signatures, catchwords, and pagination. It opposition to it there appeared, *G. Merula in librum de homine Galeotti, interpretatio in Sapphus epistolam et emendatio. in Plinium et Virgilium*. Without place or date (Ven., *Vindel. de Spira*). 4°. 80 leaves with the signatures *a-m*, and 28-29 lines. Galeottus defended himself in *Refutatio obsector. in librum de homine. Bon., Dm. Lapius procurante*, 1476. 4°. and Ven., *Jac. Rubens*, 1476. 4°. Gothic letter. All three are often printed together.

8076 GALERIE, la, agréable du monde, où l'on voit en un grand nombre de cartes et de tailles douces, les principaux empires, royaumes, républiques, provinces, villes, bourgs, et forteresses, les îles, côtes, rivières, ports de mer, les an-

tiquités, les abbayes, églises, académies, collèges, bibliothèques, palais et autres édifices etc. avec une courte description (publ. par Pt. van der Aa). Leide, van der Aa, without date. fol. 66 parts in 22, 28 or 33 vols.

Consisting of, in part, very indifferent maps and plates (above 2400), which had already served for other works, and are here furnished with an historical text. Only 100 copies were struck off (at 416 Dutch florins); the work however is but little prized.

GALERIE de Brühl, see BRÜHL.

8077 GALERIE de Dresde. Recueil d'estampes d'après les plus célèbres tableaux de la galerie royale de Dresde, avec une description en ital. et en franç. Dresde, 1753-57. fol. max. 2 voll. 101 leaves.

In this costly work there ought to be found a full length portrait of Augustus III. (engraved by Balechon after Hyac. Rigaud), which is very scarce, and particularly prized. This leaf alone was sold at Paris in 1803 for 164 fr. The year 1750, under the name of the engraver, is wanting in the first impressions, and the title of a *chevalier de l'ordre de S. Michel*, after the name of the painter. There are also some copies *avant la lettre*, which however are of extreme rarity. — C. H. von Heineken undertook this work at his own cost, and lost thereby some thousand dollars. The then elector of Saxony bought the plates, with the rest of his collections, for an annuity for life.

8078 GALERIE électorale de Dusseldorf ou catalogue raisonné et figuré de ses tableaux, par N. de Pigage. Basle, Mechel, 1778. oblong fol. 2 vols.

The 1st vol. contains very neat plates, which contain 365 representations on 30 leaves.

8079 GALERIE de Florence. Tableaux, statues, bas-reliefs et camées de la galerie de Florence et du palais Pitti, dessinés par Wicar, et gravés sous la direction de Lacombe et Masquelier, avec les explications par Mongez l'aîné etc. Par. 1789-1813. large fol. 4 vols.

It consists of 46 Nos., each of 4 plates, and at 24 fr., *avant la lettre* at 48 fr. The first 20 parts cost a quarter less. The plates are fine, but copies *avant la lettre*

are particularly to be sought after, because those *avec la lettre* seldom contain good impressions throughout, particularly in the first 2 vols. The few remaining impressions were dispersed by a sale in 1817.

8080 GALERIE impériale de Florence, gravée au trait sous la direction de Pt. Benvenuti avec les illustrations de MM. Zannoni, Montalvi et Bargigli. Reale galleria di Firenze etc. Flor., Molini et Landi, 1812 etc. 8°. on vellum paper.

56 Nos. had appeared up to 1820, each of 6 plates, and at 2 fr., with the Italian or French text. 10 Nos. form one volume. The entire work will contain 5 series and about 18 vols. It should be had together with the *Museum Florentinum*, because it contains the *Anaglyphs*, which are wanting in that work.

8081 GALERIE du château de Fontainebleau, représentant les travaux d'Ulysse, dessinés par Primatice, peints par Nicolo, gravés par Thdr. van Thulden, avec l'explication morale à chaque sujet. Small oblong fol. 58 leaves.

8082 GALERIE historique des illustres Germains, depuis Arminius jusqu'à nos jours, avec leurs portraits et des gravures. Par., Didot aîné, 1806. large fol. on vellum paper.

Containing 31 indifferent plates. Only 200 copies struck off.

8083 GALERIE du Luxembourg, peinte par Rubens, dessinée par Nattier, et gravée par les plus illustres graveurs. Par., Duchange, 1710. fol. max.

Altogether 27 leaves, including the 2 titles, the engraved text, and 3 portraits. Very well engraved, and good impressions are scarce.

8084 GALERIE de Rubens, dite du Luxembourg, aujourd'hui palais du Sénat conservateur, dessinée et gravée sous la direction de M. Desève, avec le texte explicatif de M. Moithei, revu par R. Castel. Par. 1808. large fol.

This is much inferior to the preceding, and appeared in 13 Nos. Uncoloured 104 fr., *avant la lettre* 234 fr., illuminated 208 fr.,

coloured impressions and *avant la lettre* 468 fr.

Lond., Tinson, 1753. 8°. Vol. II. Ed. 5. Lond., Knapp, 1755. 8°. with good plates, are of value. Apollonius and Herodianus are wanting here.

8208 — grammatices libri IV. De mensibus liber ejusd. G. Lecapeni de constructione verbor. Emman. Moschopuli de constructione nominum et verbor. Ejusd. de accentibus (gr.). Ven., Aldus et And. socer, 1525. 8°.

236 leaves, and 2 leaves colophon and anchor. Very scarce, and less costly indeed, but more correct than that of 1495. Apollonius and Herodianus are wanting.

8209 — grammatices libri IV. De mensib. liber ejusd. G. Lecapeni de constructione verbor. Emman. Moschopuli de constructione nominum et verbor. Ejusd. de accentibus. Hephæstionis enchiridion (gr.). Flor., her. Ph. Juntæ, 1526. 8°. 284 leaves.

A reprint of the preceding, but the *editio princeps* of Hephæstion, which on account of its separate pagination is sometimes also met with by itself.

8210 — grammatices libri IV (gr.). Par., Gourmont, 1516. 4°. — gr. lat. Par., Ch. Wechel, 1529. 8°. Par., Vascosanus, 1534. 8°. Ven., de Nicolinis, 1537. 8°.

Not common but cheap. The edition, *Dionysia, Gourmont*, 1531. 4°. only relates to the first book, the 3 other books are of the edition, *Par.* 1516.

8211 — Θεωδωρου γραμματικης εισαγωγης εις το τεταρτον υπομνημα... συνερανισθεν υπο Νεοφυτου. 'Εν Βουκουρεστιω, α ψ ξ η, 4°.

Very valuable and very scarce, see *Wolf ad Reis. de accent. inclinat.* p. XVIII.

GAZÆUS, see *ÆNEAS* and *PRO-COPIUS*.

8213 GAZES, Anthimius. Λεξικον ελληνικον προς χρηση των περι τους παλαιους συγγραφεις ενασχολουμενων. 'Ενετησιω, 1809. 4°. 3 voll.

A lexicon of ancient Greek for modern

Greeks, of which Schneider, according to the 2nd edition, forms the groundwork, and it is greatly enlarged from Hermann de emend. gramm. gr. and others.

8214 GAZETAS de Mexico. Mexico, 1784-91. 4°. 8 annual sets.

8215 GAZETTE du commerce, depuis le 1 Avril 1763-28. Mai 1765. —Gazette du commerce, de l'agriculture et des finances, depuis le 1 Juin 1765—Dec. 1783. 4°. 21 voll.

8216 GAZETTE littéraire de l'Europe (par Suard et Arnaud). Par. 1764-65. 8°. 8 voll.

8217 GAZETTE de France, depuis 1631 jusqu'en 1792 (par Théophraste Eusèbe et Is. Renaudot, de Querlon, Rémond de Saint-Albine, de Mouhy, Marin etc.). 4°. 163 voll.

This gazette is the first work of this kind, which appeared in France. The scarcest years are, 1631, 35, 49, 52, 53, 56, 57, 70, 72, 73, 77, 78, 82, 83, 1715, 49, 51 and 52. (In Dresden there are single papers of 1631-48, and the years 1650, 59, 68, 71, 74, 78, 84 and 1700.) There is yet in addition, *Response de Renaudot à l'auteur des libelles intitulés avis du gazetier de Cologne à celui de Paris*. Par. 1648. 4°. and, *Table ou abrégé des 135 premiers volumes de la gazette, depuis 1631-1765* (par Ed. Jac. Genet). Par. 1766. 4°. 3 voll.

Theophr. Renaudot wrote the gazette until his death in 1653, when his son and grandson continued it. Each annual series consists of *Nouvelles ordinaires*, and *Relations extraord.* What Schwartzkopf über *Zeitungen*, p. 15, says concerning its commencement in the year 1623, appears to be groundless, and is perhaps a confusion with Renaudot's *Bureau d'adresse*, whose discussions appeared first under the title, *1-5 centurie des questions traitées en conférences du bureau d'adresse depuis le 22 Aug. 1633 jusqu'au dern. Juill. 1634*. Par. 1638-55. 4°. and afterwards under the following, *Recueil général des questions traitées en conférences du bureau d'adresse, sur toutes sortes de matières*. (Ed. II. revue et augm.) Par. 1656 or 60. 8°. 5 voll. It were to be wished that some French literary person would give us more correct intelligence concerning this remarkable man.

GAZETTE nationale, see MONITEUR.

8218 GAZETTIERO Americano, il. Livorno, 1763. large 4°. 3 vols., with plates and maps.

The first vols. were reprinted in 1787. Vol. 9 (*dictionn. étymol. de la langue grecque*) is wanting in many copies, and is difficult to be met with by itself.

8220 — hist. naturelle de la parole ou grammaire universelle, av. un discours préliminaire et des notes par Lanjuinais. Par. 1816. 8°. with 3 plates (6 fr., with illuminated plates 7 fr.).

8221 GEBERI liber, qui flos naturalium vocatur. Without place, 3 non. Aug. 1473. 4°.

(Cecco) de Asculo, fratris Eliae et Anonymi carmina italica. Without place or date (1470-80). 4°. 121 leaves with 25 lines, without signatures, catchwords, and pagination.

This edition is from another press than the preceding. The copies, which Cat. Pinelli, III. 339. Panser, IV. 132, and Catal. Casanatensis describe, are all of one and the same edition. Leaf 1^a begins, INCIPIT LIBER GEBER. The book concludes with an index, at the end of which is, FINIS REGISTRI.

8223 — de investigatione perfectionis metallor., summa perfectionis metallor. s. perfecti magisterii, de inventione veritatis s. perfectionis metallor., de fornacibus construendis etc. Nrb., J. Petrejus, 1541. 4°. with woodcuts.

8226 GEILER von Kaisersberg, J. Cristenlich bilgerschaft zum ewigen vatterland. Bas., Ad. Petri, 1512. fol. 288 leaves.

8227 — die brösamlin doct. Keiserspergs vffgelesen von J. Pauli. Strb., Grüninger, 1517. fol. with woodcuts.

110 and 92 leaves. The woodcuts are by H. F., which is thought to be Hans Furtentbach.

8228 — das Buch der sündem des Munds (u. 23 Predigten von dem Baum des ewigen lebens). Strb., Grüninger, 1518. fol. with woodcuts.

8229 — die Emeis. Dis ist das buch von der Omeissen. vnnnd auch: Her der künig ich diene gern. Strb., Grüninger, 1516 and 17. fol.

8230 — das Evangelibuch gepredigt von Geiler von Kaisersberg, von J. Pauli behalten u. aus seinem Mund uffgeschrieben. Strb., Grüninger, 1515. fol.

8231 — Euangelia. Das plenarium vsserlesen vnd dauon gezogen in Doct. Keiserspergs vsslegung der ewangelien vnd leren. Strb., Grüninger, 1522. fol. with woodcuts, 230 leaves.

Different from Geiler's *Postilla*.

8232 — das Buch granatapfel. im latin genant Malogranatus. Augsp., Hans Otmar, 1510. fol. with woodcuts by Hans Burgmaier.

There are to be found in it, with separate titles, but with a continued pagination, *Ain gaistlich bedeutung des ausgangs der kinder Israhel von Egipto, die gaistl. Spinnerin, ain gaistl. bedeutung des heisslins, die 7 haupttründ, der trostpiegel*.

8233 — — Strb., J. Knoblauch, 1511. fol. 161 leaves with woodcuts.

Containing the same pieces. The wood-

cuts are different from the preceding, and somewhat inferior. According to Panzer they are by Hans Behaim.—Also, Strb., *Knoblauch*, 1516. fol. with woodcuts.

8234 — navicula s. speculum fatuorum, in sermones iuxta turmar. seriem divisa, suis figuris jam insignita, a Jac. Othero diligenter collecta. At the end, Argentorati transscriptum 16 die mensis Januarii 1511. 4°. Gothic letter, with woodcuts.

22 leaves of preliminary matter, and the signatures A-Cc 4. I consider this to be the earlier edition (that of 1499 rests certainly upon a mistake), and I should scarcely have known whether the above colophon relates to the printing of the book, or more probably to the preceding epitaph, if it did seem to decide in favour of the former that Schürer printed also *Erasmii encomium morie* in 1511.

8235 — navicula s. speculum fatuorum, a Jac. Othero collecta. At the end, Excriptum in sedibus Schurerianis (*Arg.*, without date), 4°. Gothic letter.

26 leaves of preliminary matter, the signatures A-Ss, and 6 leaves. Without woodcuts, excepting 1 in the title, and 1 on the last page of the preliminary matter, which last appears to me to be later than 1510, under which year Panzer places this edition. That this year occurs several times on the last leaves of the book proves nothing, as it only relates to the letters there printed.

8236 — Narenschiff vss latin in tütsch bracht (von J. Pauli). Strb., Grüninger, 1520. fol. with woodcuts.

8237 — Weltspiegel oder Narrenschiff, auss dem Latein inn das recht hoch Teutsch gebracht durch N. Höniger. Bas., Henric Petri, 1574. 8°. with woodcuts.

I somewhere found announced as a translation of Geiler, *Das Narrenschiff, alle stündt der Weltt betreffend, Wie man sich inn allen Hündeln weisslich haltenn soll. Ff. a. M., Hm. Gülfferich*, 1555. 8°. with woodcuts, 158 and 2 leaves. But this book is an edition of Brandt's *Narrenschiff*, and should be added by me to that article. In the Dresden copy there is written in an old hand, *Auctor hujus libri dicitur Schepperus*, which is entirely groundless.

8238 — *navicula penitencie* (s. sermones quadragesimales fructuosissimi de *navicula penitencie*). AV., J. Otmar, 1511. fol.

The first edition. Also, *Arg.*, *Mthi. Schurer*, 1512 or 17. 4°.

8240 — das Schiff des Heils. Strb., Grüninger, 1512. fol. with fine woodcuts.

24 leaves and 2 leaves at the beginning. A representation of the entire ship with the text. It is a German abridgment of No. 8138.

8241 — der seelen Paradiß, von waren vnd volkumen tugenden sagend. Strb., *Mthi. Schürer*, 1510. fol.

8242 — Passaion des Herren Jesu . . in tütsche sprach Transsuert durch J. Adelphum. Strb., Grüninger, 1514. fol. with woodcuts, 112 leaves.

Previously in Latin, *Arg.*, *Schurer*, 1511. 4°.

8243 — Pater Noster. Vsalegung über das gebette des herren (deutsch durch J. Adelphum). Strb., Hupfuff, 1515. fol.

Previously in Latin, *Arg.*, *Schurer*, 1509 or 10. 4°.

8244 — *Peregrinus*. *Arg.*, *Schurer*, 1513. 4°.

8245 — Postill. vber die fyer Evangelia durchs jor, sampt dem Quadragesimal, vnd von ettlichen Heyligen. Strb., Schott, 1522. fol. with woodcuts.

Containing 4 parts of 35 and 117 numbered, 28 unnumbered (Passion), 109 and 41 numbered leaves. The larger woodcuts are excellent, and so is Geiler's portrait in the title. The editions of 1512 and 1517 are nonentities; see *Newer lit. Anzeig.* 1806. p. 56.

8246 — Predigen Teutsch: vnd vil gutter leeren. Augsp., Hans Otmar, 1508. fol. 156 leaves, with woodcuts by Hans Burgmaier. Also, ib. id., 1510. fol. 156 leaves, with the same woodcuts.

8247 — sermones fructuosissimi de

tempore et de sanctis; nimirum de arbore humana, etc. *Arg.*, Grüninger, 1414 (for 1514), or 1515, or 1519. fol.

8248 — sermones et varii tractatus (ed. Pt. Wickgram). *Arg.*, Grüninger, 1518 or 21. fol.

Each piece has its own title. Also, *Strb.*, *Grüninger*, 1514. fol. 92 leaves.

8250 — an dem Ostertag hat D. Keisersperg gepredigt von den drey marien, u. von den mucken, von den senffkörnlin u. von den fruchten des wolsterbens. Strb., Grüninger, 1520. fol. 60 leaves.

GELAIS, see SAINT-GELAIS.

8251 GELENIUS, Sgm. *Lexicon symphonum.* Bas. 1537 or 44. 4°.

The 2nd edition enlarged is almost more scarce than the first.

8252 GELIOT, Louvan. *La vraye et parfaite science des armoiries*, augm. par. P. Palliot. Dijon, 1660 (new title, Par. 1661 or 64). fol. with armorial bearings.

8253 GELL, W. *Topography of Troy and its vicinity*, illustrated and explained by drawings and descriptions. Lond., Longman, 1804. large fol. with 41 partly illuminated plates.—Ed. II. ib. 1807. fol. with 45 plates (101. 10s.).

8255 — *itinerary of Greece.* Lond. 1810. 4°. with plates (2l. 12s. 6d.).

8256 — *Argolis.* Lond. 1810. 4°. with 28 plates.

8257 — itinerary of the Morea. Lond. 1817. 8°. with 1 map (10s. 6d.).

8258 — Pompejana: the topography, edifices and ornaments of Pompeji by W. Gell and J. P. Gandy. Lond. 1817-19. 8°. with plates (5l. 15s. 6d., in 4°. 8l. 8s.).

It appeared in 13 parts. 5 unnumbered plates, including the title-plate, and 77 numbered, which are very incorrectly numbered, and ought to be collated with the list of the plates, and the directions to the binder. The 4th unnumbered plate (*Mount Vesuvius*) is not specified in the list.

8259 GELLERT, Ch. Fürchtegott. Sämmtliche Schriften nebst seinem Leben von J. And. Cramer. Lpz., Weidmann, 1784. 8°. 10 voll. (4 d. 12 gr., on Dutch paper 8 d.)

In addition, *J. Pt. Bambergers Nachtrag zu G's Briefen*. Berl. 1780-81. 8°. 2 pieces (8 gr.) *Gellers Briefwechs. mit dem Freyh. von Widtmann*. 8260 — Lieder. Lpz. 1743. small 4°.

These are 12 of those which Gellert composed in order to gratify two ladies, and of which he had only 12 copies printed.

8261 GELLI, Gi. Bt. I capricci del bottajo. Fir. (*Lr. Torrentino*). 1548. 8°. 8 leaves of preliminary matter, and 224 pages.

The first complete edition, very scarce and fine, and cited by the academy della Crusca. Previously, *Fir.* 1546. 4°. *Fir.* (*Torrentino*), 1549 or 51. 8°. are somewhat cheaper, the first of which is also cited, and the other is in no way enlarged, as is stated in the title. *Ven.* 1550 or 1605. 8°. without place (*Geneva?*), 1619. 8°. are about the usual price. *Fir.*, (*Napoli*), 1755. 8°. is very incorrect and mutilated.—*Les discours fantastiques de Justin Tonnelier, trad. en fr. (par Cl. de Kerquifinen)*. Lyon. 1556. 8°. or *Par.* 1575 and 97. 12°. *The fearfull fancies of the Florentine couper*. Written in Toscano and transl. into Engl. by W. Barker. Lond., Bynneman, 1568. 12°. In German (with the *Circe*), Cöthen, 1620. 8°.—Giustino il Bottajo holds a conversation with his soul, which gives him precepts. The whole is a mixture of philosophy, asceticism, metaphysics, scholastic theology, and some insipid witticisms.

8262 — la Circe. Torrentino, 1549 or 50. 8°.

The first is cited, but the last is the best. *Id.*, *id.*, 1562. 8°. is also prized. *Ven.* 1550 or 1622. 8°. without place, 1619. 8°. are cheap. In French by Du Parc, *Lyon*, 1569. 16°. In English, *Lond.* 1744. 8°.

8263 — tutte le lettioni fatte da lui nell' accademia Fiorentina. Fir. (*Torrentino*), 1551. 8°.

Cited. In the title *Celli* is put for *Gelli*. In the edition, *Fir.* 1555. 8°. only the first 8 leaves are reprinted.

8264 — lettre VII sopra lo inferno di Dante. Fir. 1554-61. 8°. 7 voll.

Cited. Complete copies are scarce; the 5th vol. is particularly rare. The first also of *Fir.* 1562. 8°.

8265 — la Sporta, comedia in prosa. Fir., Bn. Giunta, 1550. 8°.

Cited. The first edition, *Fir.* without the printer's name, 1543. 8°. is very scarce. Also, *ib.* 1548 and 66. 8°. The pretended edition, *Fir.*, *Giunti*, 1602. 12°. is a reprint contrived at Naples about 1720. It is thought that there is no real edition of 1602.

8266 — Lo errore. Fir., Torrentino, 1556. 8°. Also, *ib.* 1603. 8°.

8267 — opere. Mil. 1804-7. 8°. 3 voll. (*Classici Ital.*) 2 copies on large paper.

This good edition, superintended by Fr. Reina, contains *I capricci*, *La Circe*, *La Sporta*, and *Lo errore*, and good notices respecting the author by Reina, which last are also printed separately.

8268 GELLIUS, Aulus. Noctes Atticæ. Romæ, (Sweynheym et Pannartz,) in domo Pt. de Maximis, 11 Apr. 1469. fol. 199 leaves with 38 lines, without signatures, catch-words, and pagination.

The first edition, extremely scarce, only 275 copies of which were struck off. Superintended by J. Andreas Aleriensis after several MSS. There is first a letter of the editor to Paul II. on 5 leaves, then 14 leaves of list of chapters, which sometimes stand at the end of the book. The text concludes with 38 verses and a colophon. At the end 1 blank leaf. According to Beloe's *Anecdotes of literature*, IV. 347, there is a copy on vellum in the library at Blenheim, but Dibdin says nothing of it.

8269 — Romæ (iidem) in domo Pt. de Maximis, 6 Aug. 1472. fol.

191 leaves, without signatures, catchwords, and pagination.

This 2nd edition, likewise very scarce, has not Andreas's letter. The list of chapters after the colophon at the end has 15 leaves.

8270 — — Ven., N. Jenson, 1472. fol. 172 leaves with 40 lines, without signatures, catchwords, and pagination.

Fine, and at least as scarce as the preceding. First 14 leaves, list of chapters, leaf 1^a. line 1. of which begins, AULI GELII (sic) NOCTIUM ATTICARUM COMMENTARII. Leaf 15^a commences the text with the same line.—An edition, *Roma*, 1474. fol. is a nonentity.

8271 — — Ven., And. Jacobi Catharensis, 1477. fol.

With signatures; according to some the text is that of the preceding, but according to Beloe's *Anecdotes of Literature*, IV. 347, it is improved from MSS., and very correct.

8272 — — Brixiae, Boninus de Boninis, 3 Maji 1485. fol.

At first 16 leaves, list of chapters, with the signatures A and B (at the end of which is the colophon), then 176 leaves of text with 37 lines, and the signatures a-B. Instead of the signature Bi of the text, there is in some copies Aii, owing to a typographical error (both kinds are at Dresden). Marcus Scaramucinus de Palatiolo mentions himself as the corrector of the press. The editions, *Ven.* 1489, 91, 93, 94, 96, and 1500. fol. are not sought after, and *Ven.* 1486 and 97. fol. are suspected.

8273 — — (edid. Ph. Beroaldus) Bon., Bd. Hectoris, 1503. fol.

A new recension. The edition of 1500 seems to form the groundwork. After it (*cursu J. Pl. Feretris*), *Ven.*, Tridino, 1509. fol. 18 and 135 leaves, and (*cursu J. Conwelli*) *Par.*, *Parvus*, 1511. 4°. *ib.*, *Regnault*, without date, 4°. *ib.*, *Marnes*, without date, 4°.

32 leaves of preliminary matter (the last blank), 289 numbered, and 51 unnumbered leaves. The text is corrected, and the table of the contents of the 8th book added for the first time. There are two different editions of this date (Renouard possesses both), which however are of equal value.

8277 — Noctes Atticæ. Arg., in ædib. J. Knoblochii, ductu Mthi. Schurerii, m Mart. 1517. fol.

10 leaves of preliminary matter, 105 numbered leaves, 13 leaves (index capp. with the colophon), and 14 leaves (græca Gellii). With N. Gerbel's preface, who nevertheless had no further part in the edition. Schurer only superintended the printing.

8279 — — cum scholiis Ascensianis, collectis fere ex annotatis Æg. Masserii. *Par.*, Jod. Radius, 1519. fol. 6, 112, and 6 leaves.

14, 106, and 21 leaves. The Aldine forms the groundwork, but corrected by Cratander, Beut. Rhenanus, and Fabricius Capito.

8281 — — Arg., Knobloch, mense Mart. 1521. 8°.

Probably the text of No. 8277.

8282 — noctes Atticæ, castigatæ emaculatæque diversor. codicum collatione. Col., Euchar. Cervicornus, 1526. fol.

12 leaves of preliminary matter, 202 pages and 13 leaves. Cratander's edition forms the groundwork, corrected by Gf. Hittorp and Arnold von Wesel from MSS.—*Col.*, *Soter*, 1526. 8°. and often, and (very incorrect), *Bas.*, H. Petri (1565), 8°. all with the notes of Mosellanus, which at first appeared by themselves, *Bas.*, Bebel, 1526. 8°.

23 and 587 pages, 37 leaves (*indd.*), 16 and 205 pages (*Steph. noct. Par.*); so is the Dresden copy. Then however 120 pages, *notæ Carrionis*, ought to follow, which are extremely seldom found in the copies, because they were given afterwards. A new recension by Carrio, corrected from MSS. Scarce and sought after. A repetition of this edition with a selection of the notes, *Aurel. Allob.* 1609. 12°.

An unprized reprint of the same date is distinguished by the typographical error *castigatior* in the title. The editions, *Amst. Dn. Elzevir*, 1665. 12°. and *Amst., Waesberge*, 1666. 12°. are less fine.

8288 — noctes Att. cum scholiis novisque commentariis et accurata recensione Ant. Thysii et Jac. Oisellii. LB., Leffen, 1666. 8°.

It is properly a piece belonging to *Xenophontis Omiscia*. Ven., Ald., 1503. fol. of which collection Fr. Asulanus, because he had still some copies left after the printing the entire Xenophon of 1525, removed the title of Xenophon's Greek history, and printed the above new title for it, with a short preface on the reverse, by which the book might be joined to the edition of the entire Xenophon. This new title, as Renouard proves, was added to it in 1527.—Also in the Herodotus, Bas. 1541. fol.

Avieni Descriptio orbis terræ*, 36 pages. *Periegesis Prisciani*, 28 pages. *R. F. Avieni Ora maritima*, 18 pages. *Anonymi Paraphr. in Dionysii Perieg.* etc. 1 leaf and 83 pages. At the end 8 leaves, *indd.* There are also 4 maps.

The 4th vol. of the year 1712 is the genuine one, and is only a new title to the *Dionys. Perieg.* Ox. 1710. 8°. By another new title, Ox. 1717. 8°. it was again made a separate edition of Dionysius, but deprived of the dedication and preface, instead of which it received a leaf, *contenta in hac. ed.* This edition of 1710, 12, or

17 is more complete than the *Dionysius*, Ox. 1697. 8°. which last forms the spurious 4th vol. As however it contains some pieces which are wanting in the edition of 1712 (*quædam de Dionysio ex Vossio, glossæ interlineares duor. codd. MSS. Dionysii, enumeratio editionum et MSS. codd. Dionysii et Eustathii*, and a 5th map of the two systems of Dionysius and Ptolemæus), it is also added to the work as a supernumerary 4th vol. on account of its completeness. A very superfluous addition of another kind is lastly the worthless *Dionysius* of Ed. Wells, Ox. 1704. or Lond. 1726. 8°. which some collectors add to it merely on account of the plates which it contains.

8332 GEOGRAPHICA varia, scil. J. F. Gronovii diss. de Gothor. sede, libellus provinciar. Romanar. et civitatum provinciar. Gallicar. etc. LB. 1739. 8°.

24 leaves of preliminary matter (title, dedication, and index) and 551 pages. The first edition, very scarce, but little sought after. A Greek edition, Ven. 1538. 8°. is a nonentity, and a confusion with the Latin translation of Cornarius.

8335 — Geoponicor. s. de re rustica libri XX Cassiano Basso collectore, antea Constantino Porphyrog. ad-

O bibliographorum quicquid est, assurgite huic tam colendo nomini! So might the words from Casaubon's monument well be applied to the restless Gesner. Even to this day his labour is a rich source, far from being exhausted, and very often much more certain than the works of later bibliographers, especially of the shallow and inaccurate Lipenius. In his 25th year he began to realise his idea of a general work of literature, upon a plan the most extensive possible; and three years afterwards his preparations had already increased so much, that he was enabled to arrange them for the press. His work, according to his plan, was to have fallen into three principal divisions; into an alphabetical dictionary of authors (No. 8405); into a general systematic body of literature, even referring to single treatises and passages (Nos. 8406 and 7, here *medicine* is still wanting); and into an alphabetical *repertorium* according to the subject matter: (instead of this he afterwards gave merely an index of things to the preceding work.) With what earnestness, solidity, and bibliographical accuracy he went to work, several passages of his prefaces shew (consult *Clément Bibl. cur.* IX. 148 etc.); and how great, notwithstanding his continual struggles against sickness and bitter necessity (*Clément*, IX. 150), was the fruit of his labour—would that there were a general persuasion, and that these lines might contribute something towards it, in order

that his work, here and there indeed tamely praised, but in other respects neglected entirely, might come again into the use it deserves! Consult *Hermes*, II. 283.

It would be well to have all the above-mentioned books together, because each has its own apparatus. No. 8405 contains, besides the bibliographical announcements, also judgments, extracts, and specifications of contents, omitted in the later abridgments, which confine themselves entirely to the bibliographical part. Nos. 8406 and 7 is an entirely independent work, and only once printed. No. 8408 is a necessary appendage to 8405. The abridgment of Lycosthenes and Simler of 1555 can be dispensed with, but not that of Frisius, which is continued down much farther, although often faulty (wherewith the far more correctly printed abridgment of Simler of 1574 should be combined, on account of its versification); and still less the rest of the continuations.—A continuation promised by Th. Reinesius (*Struuii Acta litt.* T. I. fasc. 3. p. 51) has not appeared; and such is the case also with the new impression of his entire works projected by Echer, and afterwards by Hagenbuch, at the commencement of the preceding century (*Clement*, IX. 160).

- 8410 — *historiæ animalium liber I. de quadrupedibus viviparis*. Tig., Froschover, 1551. fol. 20 leaves of preliminary matter, 1104 pages, 6 leaves *additiones*. The finest and most prized edition of a copious and very various work. The 5th book is frequently wanting: copies without it, or with it supplied from the following edition, lose a great part of their value.

The books of birds and of fishes have each 2 parts. The year 1662 in the book of serpents appears to be a typographical error instead of 1671 (MDCLXII instead of MDCLXXI), as the preface and the second title has it. The book of serpents (*Schlangenbuch*) appeared also previously, *Heidelb.* 1613. fol.

Zür., 1762. 8°. 4 vols. is neat, and *ib.* 1765

-72. 8°. 5 vols., is neater still. The last time, *ib.* 1810. 8°. 3 vols. with vignettes (4 d. 12 gr.).

8434 — *œuvres*, trad. de l'allemand. Zuric, l'auteur, 1773-77. 4°. 2 vols. with plates.

This and the preceding edition are fine, and the impression was small. Both were planned to be in 4 vols. and are unfinished, although in the year 1791. a hope of the other 2 vols. being completed was entertained. The French edition has an advantage over the German, in that it contains besides the idyls some stories by *Diderot*. Both contain 20 plates, designed and etched by the author himself, and about 40 vignettes, and the selling price of each was 2½ Louis d'or.

8435 — *œuvres* trad. en franç. (par Huber, Meister et Bruté de Loirelle. Par. Barrois l'aîné, without date (1786-93.), large 4°. 3 vols. with plates by *Barbier*.

Very finely printed; but the plates are without spirit and unpoetical, and only the vignettes are pretty. Also on large paper in fol., with plates before the pagination. A copy with *Barbier's* original designs, 871 fr. *Detienne*.

8436 — *œuvres*. Dijon, Causse, 1795. small 8°. 4 vols. on vellum paper. Also on large paper.

Neat, but only of value when the plates of the following edition are in it: with these at 42 fr., and on large paper, 54 fr. There are two copies on vellum.

8437 — *œuvres*. Par., Renouard, 1799. 8°. 4 vols. on vellum paper, with 51 plates by *Moreau the younger* (72 fr.).

Very neat. Also on large vellum paper with plates, *avant la lettre et sans la bordure* (120 fr.). There are only 2 copies on large vellum paper, with plates *avant la lettre et avec la bordure*; on Dutch paper only 20 copies, and on large vellum paper in 4°. only 1 copy. Besides these there are 2 copies on vellum.

There are said to be only 25 copies.

8443 GESTA Christi. Without place or date. fol. half Gothic letter, on writing paper.

11 leaves with 2 columns and 32 lines, with the signatures *a* and *b*. It begins on the *folio recto* of leaf *a* ii, col. 1. line 1, *Incipiunt gesta Christi*. Leaf 11^b has 15 lines running across the page and the colophon; *Expliciūt gesta Christi*. According to Dibdin, bibl. Spenc. III. 338. the types are the same as in *J. de Turrecremata Meditatio*. 1472; but lord Spencer considers it as from the press of Pt. Drach at Spire. The composition is by J. Huss, and is also in his *Opp.* vol. II. part 1 etc.

GESTA Dei per Francos, see BONGARSIIUS.

8444 GESTA Karoli magni Francorum regis. At the end, . . . opus magistrorum J. Boueri et Gu. Bouchet accuratissime castigatum et a mendis . . . relevatum. Without place (*Par.*) or date, Gothic letter, 48 leaves, with 23 lines.

In hexameters, two and two of which rhyme at the end, and as yet unknown (except in Gaignat's Catal. No. 1712. and in Dippoldt's *Karl der Gr.* 246.). It begins, *Inclūti quo memori teneas cordi Karolēlli*, and is divided into 7 books. It is different from the *Gesta Caroli* by Schilter, Leibnitz, and Boucquet, and is not noticed in Panzer.

8445 GESTA Romanorum. With this title, *Ex gestis romano4 hystorie nōabiles de vitiis v̄tutibusq; tractātes, cū applicacōibz moralizatis 1 mysticis*: *Incipiunt feliciter*. Without place or date (*Col. U. Zell*, about 1472.). fol. Gothic letter, 169 leaves in 2 columns with 36 lines, without signatures, catchwords, and pagination.

Probably the 1st edition. The text concludes leaf 159^b. col. 1. LAUS. DEO; then 10 leaves of index, which ends, leaf 169a col. 2., *Expliciit tabula*.

See concerning this work, which is a collection of small histories with spiritual applications for the use of preachers, *Lesstings Werke*, XXVII. 58. poetry, T. III. *Fr. Douce, Illustrations on Shakspeare*, vol. II. Lond. 1807. 8°. p. 333-428. There are 2 different works under this title. Sal. Glassius and Warton ascribe the first to Pt. Bercheur, but Douce proves that it is the work of a German. No MS. of it is known, but Douce reckons 28 editions from 1480 to 1555, and 5 undated editions, a German, French, Dutch, and English translation. The second is without doubt the work of an English author, and one of the oldest MSS. (25 are known, one of which is described in *Dibdin, Decam.* T. I. p. CCI sq.) is of the time of Richard II. Many histories are retained from the first work, but are worked up anew. The best MSS. contain 102 stories. The Latin original was never printed, but there are 11 editions of an English translation, the first of which is, *Lond., Wynkyn de Worde*, without date. fol. and another by Rd. Robinson. *Lond.* 1577. But these editions contain far fewer histories than the MSS.

8446 — incipiunt historiæ notabiles atque magis principales collectæ ex gestis Romanorum et quibusdam aliis nobilibus gestis, cum moralizationibus eorundem. Without place or date (*Ultraj. Ketelaer et Leempt*, about 1473.). fol. Gothic letter.

125 leaves with 32 lines running across the page, without signatures, catchwords, and pagination. It concludes with the 151st chapter of the later editions, which last contain 181 chapters.

8447 — ex gestis Romanorum historiæ notabilesque de vicis virtutibusque tractantes. Lovanii, J. de Westphalia, without date. 4°. Gothic letter, 308 pages.

This edition is incorrectly specified by several as being with the date 1473, whereas it really is without date, and decidedly more recent.

8448 — gesta romano4 cū applicatiōibus moralisatis 1 mysticis. Without place or date. fol. Gothic letter.

1 title-leaf, 93 numbered leaves, and 6 leaves of index; in 2 columns with 51 lines, and the signatures, *a-a*. It contains 181 chapters.

8449 — gesta romanorum cū applicatiōibz moralisatis ac mysticis. Without place or date. fol. Gothic letter.

1 title-leaf, and 91 numbered leaves; in

2 columns with 50 lines, and the signatures, *a-z*: likewise 181 chapters.

- 8450 — *ex gestis Romanorum hystorie notabiles de vitis virtutibusque tractantes. cum applicacionibus moralizatis et misticis.* Goudae, Ger. Leeu, 1480. fol. Gothic letter.

The first dated edition. In 2 columns, with 37 lines and signatures. At the end 10 leaves. The above is the true title. That in *Valhière*, III. 156. (*recollectorium ex gestis Rom.*) is only taken from the colophon.

- 8451 — — Hasselt, P. B., 1481. fol. 9 leaves of index, 1 blank leaf and 133 leaves of text.

- 8452 — *gesta Rhomanorum cum applicationibus moralizatis ac misticis.* At the end, Anno nostre salutis MCCCCLXXX. VIII. kalendas vero februarii XVIII. fol. Gothic letter.

93 leaves, and 5 leaves of index in 2 columns. Panzer, IV. 23, reads the colophon incorrectly 8 *kal. Febr.* 1480, but it ought to be read 18 *kal. Febr.* 1488, and is one and the same with the edition in Panzer, IV. 45. Also, without place (*Arg.*), 1489. fol. Gothic letter; (it has 181 chapters): without place, 1493. fol.

- 8453 — *gesta rhomanorum cū applicatōibus moralizatis ac misticis.* With plates. 1494. fol. Gothic letter.

8 leaves (title and index), and 93 numbered leaves in 2 columns with 46 lines, and the signatures, *a-p*. It contains 181 chapters. — Without place, 1497. 4°. Gothic letter. *Arg. Knoblauch*, 1497. 4°. Without place, 1499. fol. Gothic letter in 2 columns. *Par.* 1499. 4°. Gothic letter. Hagenaw, Gran, 1508 or 17. fol. Gothic letter. *Ven. G. de Rusconibus*, 1516. 8°. *Par.* 1518. 4°.

- 8454 — *le violier des histoires Romaines, moralisé sur les nobles gestes, faits vertueux de toutes nations.* *Par.* 1525. 4°. with woodcuts.

A French translation of the *Gesta Rom.*, of which there are two editions. The *Gestes Romains*, by Rt. Gaguin, *Par.*, without date, 4°. Gothic letter, belong not to this work, but are a translation of Turpin.

- 8455 — *das buch gesta Romanorum der Römer. von den geschichten. oder geschehen dingen gaistlichen*
VOL. II.

vnd weltlichen. Augsp., Hans Schobser, 1489. fol. 132 leaves in 2 columns.

The title is printed in 5 lines. It contains only 93 chapters, and has fewer stories in them than the Latin original, and all in quite a different order. It must not be confounded with the first editions of *Die 7 weisen Meister* (see MEISTER), which has a similar title.

- 8456 — *gesten der romeynen gemoralizeert.* Gouda, Ger. Leeu, 1481. fol. Gothic letter.

The first edition of this Dutch translation, and very scarce. In 2 columns, without catchwords and pagination, but with signatures.

- 8457 — *zeer notabile hystorien getogen uten gesten ofte croniken der Romeynen.* Zwolle, Pt. van Os, 1484. fol. Gothic letter with woodcuts.

- 8458 — *gesta Romanorum, inhoudende zeer vreemde Exempeln en schoone en notable Historien der Romeynen.* Antw., Hendrick Eckert, 1512. 4°.

Only the 1st vol. of an English translation appeared, 1514, and 2 new editions of it were published, 1720 and 22, which are enlarged with 14 stories not belonging to the *Gest. Rom.* (of the first sort).

8549 GIOVANNI Fiorentino. Il Pecorone, nel quale si contengono cinquanta novelle antiche. Mil., Giovanant. degli Antonj, 1558 (new title, 1559). 8°.

227 leaves, and 1 leaf colophon. A very scarce edition, unmutilated, and cited by the academy della Crusca. It is distin-

guished by the false pagination, 188, 189, and 212, instead of 186, 188, and 212.

8550 — — Ven., Dm. Farri, 1560 or 65. 8°.

Less sought after, because it is mutilated and the dedication is wanting. *Trevigi*, 1601. 8°. is still more mutilated and worthless (only 48 novels).

8551 — — Mil., Ant. degli Antonj, 1554. 8°.

Merely a reprint of the edition of 1560 or 65, prepared at Lucca about 1740 by the Abate Bracci. Biscioni caused Domenichi's dedication and 6 pages of corrections to be added to some copies. Zannoni assured us in the year 1806 (see *Gamba Serie de' testi* I. 243.) that he really had seen an original edition of 1554 which corresponded page for page with this reprint, but was distinguished from it by having in leaf 112^b, line 9, the word *sette*, instead of which there is *sette* in the reprint. Nevertheless nobody will allow an old impression of 1554, and it is indeed possible, that in some copies of the reprint this leaf has been printed afresh, and the error of the press corrected.

8552 — — on note di Ant. Mar. Salvini. Londra (*Livorno*), Masi, 1793. 8°. 2 voll.

Superintended by Gaetano Poggiali, who made use of the corrections of Biscioni, and the edition of 1558. Two copies on blue paper.

A trade and assortment catalogue, which is far from completely exhibiting the Giunti's own typographical productions. *Bandini Annale Juntar.* (see above) contains more information, but only goes as far as 1550, and has likewise not exhausted the subject; and the list of their most particular works which Dibdin gives in the *Decameron*, II. 257-280, is almost entirely taken from Bandini alone. There were 6 printing-offices of the Giunti; at Florence, Venice, Lyons, Salamanca, Burgos, and Madrid. A more complete list of their productions is at the end of this lexicon.

8677 GOLIUS, Jac. Lexicon arabico-latinum. LB., Bon. et Abr. Elzevirii, 1653. fol.

Greatly prized; good copies are not common. Besides the 6 leaves of preliminary matter, there ought to be 20 unnumbered leaves at the end. It is an abridgment of

the large Arabic lexicon by Gieuhari, and ought to be bound up with Giggeius (see above).

8678 GOLLUT, L. Mémoires historiques de la république Séquanoise et des princes de la Franche-Comté de Bourgogne. Dôle, 1592 (new title, Dijon, 1647). fol.

The original editions, which are far to be preferred to the entire *opera*, on account of the first and best impressions of the plates, see *Uffenbach's Reisen*, II. 573. Whether the *Numismata Græcia, Asia et insular.* have also already appeared at Bruges, I know not, but I doubt it.

8681 — Romanæ et Græcæ antiquitatis monumenta, e priscis numismatibus eruta et L. Nonnii commentario illustrata. Antw., ex off. Plant., 1645. II.) C. Julii Cæs., Augusti et Tiberii numismata. *ib.* 1644. with 45, 81, and 11 plates.—(T. III.) Græciæ ejusque insular. et Asiæ minoris numismata. *ib.* 1644. with 31 leaves of plates.—

The edition usually met with and prized. Well printed, but the plates are worn. An earlier edition, namely, T. I. *Antw.* 1617. T. II. 1620. T. III. 1618. and Tom. IV. 1618. in fol. is less fine in paper and printing, and the 5th vol. must be added to it from the Antwerp edition of 1645. The edition, *Antw.* 1708. fol. 5 vols. with plates, is inferior still.

Leaf 1^a begins, *O pris eternis fons deriuatæ scatēbris*. The last 4 verses of the 1st part contain the date.

4 leaves of preliminary matter, 1924 columns, and 37 leaves of index. It is necessary to have this collection together with Putsch. Without place, ap. Gu. Læmarium, 1595. 4°. *S. Gervasi*, 1602. 4°. are fine for fine literal reprints, and yet really new impressions.

8794 — grammaticæ latinæ auctores antiqui. Quorum aliquot nunquam antehac editi, reliqui ex MSS. codd. ita augentur et emendantur, ut nunc primum prodire videantur. Op. et stud. Heliæ Putschii. Cum indd. locupletiss. Hanoviae, typis Wechelianis, 1605. 4°. Very scarce on writing paper.

8 leaves of preliminary matter, 2808 columns, and 39 leaves of index. It is certainly badly printed, and the promised volume of notes has not appeared, yet is it indispensable as the last and most complete collection, scarce already in 1739 (*Haas Beitr. z. Gesch. u. Litt. Marb.* 1784. 8°. p. 302), and daily rising in price. In England it sells for 8l. It may also be bound in 2 vols. (vol. II. commencing at p. 1365.) See also Csp. Barth's opinion in *Weller's Allem. St.* 4. S. 482. *Freytagii Appar.* III. 57.

In the Dresden copy *Col. Allobr.* is co-

vered over, and *Genevæ* printed in its place. Although a new impression, yet in pagination and lines it entirely accords with No. 8793; but after the index follow 106 columns of new additions; namely, *Liber glossarum, excerpta Pithæana ex vett. glossis, excerpta differentiar. Bongarsii*. The most complete edition of Godefroy's collection, yet it appears to be less correct than that of 1585 (as do also the editions of 1595 and 1602), which should therefore be joined to it.

A general work of this sort, or at least a similar one, for Germany were greatly to be desired, if it were only to put an end to the eternal reengraving of bad portraits. Rothschoiz and Schetelig have commenced the thing the wrong way, in that they describe diffusively collections of portraits *as such*. For this a short registry would be sufficient, but the portraits contained in them should be extracted singly, and exhibited in some systematic (alphabetical?) order.

626 leaves in 2 columns with 44 lines and the signatures *a-uu*, *A-Q*, and *Aa-St*. In some few copies a portrait of Gregory, engraved on wood, is prefixed, which however does not necessarily belong to it, but appears to have been appended subsequently, as it is to be found on a single leaf, which has a different paper-mark from the book itself. The presence of this woodcut, however, considerably enhances the price of the book. The first edition of this translation, very fine, and cited by the academy della Crusca; it was made by Zanobi da Strata as far as the 18th chapter of the 19th book, and from that to the end by some unknown person, who was supposed to be Gi. da Tussignano.

8875 — — nova impressione purgata ed a miglior lezione ridotta (da Giusto Fontanini). Roma, 1714-30. 4°. 4 voll.

Very carefully done; yet Fontanini has sometimes altered it so arbitrarily, that many of the quotations of the academy della Crusca no longer coincide. *Napoli*, 1745-46. 4°. 4 vols. is less fine.

8884 — dialogi. At the end in red characters: Presens hoc Opus factum est per Johan. Guttenbergium apud Argentinam, Anno Millesimo cccclviij (1458). fol. Without signatures, catchwords, and pagination.

Palmer, in *Hist. of printing, Lond.*

1733. p. 299, asserts that he has seen the book in the library of the earl of Pembroke, and describes it. The remarkable date excited universal attention. Schöppin searched the library through, but found not the book (*Vyndic. typ.* 40), and disputes its existence. It is however really extant. Th. Dampier, bishop of Ely, saw it in 1776 (see *Dibdin Decam.* III. 290), and Beloe also in *Anecdotes of literature*, IV. 185, attests its existence. Through both these learned persons we know with certainty that the colophon is only written. It has been long since conjectured that it was spurious, and had been dishonestly added or falsified by some one. Consult *Clément Bibl. cur.* IX. 275 and 380 n.

8885 — dialogor. libri IV. Without place or date (*Mog.*, *Schöffner*, about 1470). fol. Gothic letter.

57 leaves in 2 columns with 42 lines. The same types as in *Ludolphi Vita Christi*. *Arg.* 1474. fol.

8887 — — Par., Pt. Cesaris (about 1475). fol.

In 2 columns with 35 lines. Also, (*Lov.*), *J. de Westphalia* (about 1477). 4°. Gothic letter, 129 leaves with 30 lines running across the page, and the signatures *a-q*.

8888 — dialogo de miser S. Gregorio papa volgarizzato. Ven., J. de Colonia ac J. Manthen de Gherretzem, 1475. fol. 35 lines, with the signatures *a-p*.

After the colophon there is moreover Gregory's life in 6 leaves. Formerly Ln. da Udine was considered to be the translator, but Bottari proved that it was Dm. Cavalca. Also, *Ven.*, without the printer's name, 20 Apr. 1475. fol. and often. *Fir.*, *J. St. di Carlo*, 10 Marso, 1515. 4°. is cited by the academy della Crusca.

8889 — volgarizzamento del dialogo di S. Gregorio e dell' epistola di S. Girolamo ad Eustochio. Opera di Dm. Cavalca con alcune poesie dello stesso (per Gi. Bottari). Roma, Pagliarini, 1764. 8°.

- 9082 — — libri XX riscontrati da Remigio (Nani) Fiorentino. Ven., Giolito, 1567 (other copies, 68 or 69). 4°.

Prized and cited. *Ven.*, *Angelier*, 1574. 4°. is a good reprint (by Th. Porcacchi). *Ven.* 1599. 4°. is extremely incorrect.

- 9083 — Istoria d'Italia riveduta e corretta per Fr. Sansovino. Ginevra, Stoer, 1621. 8°. 2 voll. *ib.* 1636 or 45. 4°.

Badly and incorrectly printed, but prized on account of Sansovino's annotations and complete. In the Venetian editions three passages are wanting: in the 3rd book an infamous trait in Alexander VI.'s life; in the 4th book a free and circumstantial account how the popes have attained their power; in the 10th book the contents of the speech of Papir. Colonna. In Sansovino's edition of 1621 only the first two deficiencies are supplied, in those of 1636 and 45 all the three passages are inserted.

The first two passages appeared first by themselves, *Bas.* 1569. 8°, without place, 1602. 8°. and all three in *Thuanus restitutus*, *Amst.* 1663. 12°.

- 9084 — — Ven., Pasquali, 1738. large fol. 2 vols. with Guicciardini's portrait.

Fine and correct. In the 2nd book there ought to be 2 leaves and 112 pages, *Considerazioni di Leon*, and XII pages, *Due luoghi della storia di Guicc.* with the date, *Haya* (*Ven.*), 1740.

- 9085 — — Friburgo (*Fir.*), Kluch, 1775-76. large 4°. 4 vols., with Guicciardini's portrait.

Superintended by Bonso Pio Bonso, with some supplements from a MS. of the Magliabecchian library. But these supplements are of no value, and consist of passages which the author himself had erased in a later revision. On the contrary, other small additions, which Guicciardini

himself had afterwards made, are wanting: the edition is at the same time very incorrect. *Mil.* 1803. 8°. 10 vols. (*Classici Ital.*) is a reprint of the same with its faults.

- 9086 — storia d' Italia alla miglior lezione ridotta da Gi. Rosini. Pisa, Capurro, 1819. 8°. 10 voll. (each 3 fr. 60 c., on vellum paper 4 fr. 50 c.)

At the same time also in 4°. with Guicciardini's portrait by Morghen, and 60 plates in outline. The best edition, fine, carefully done, and correct. That of 1561 forms the groundwork, and is compared with later editions and 2 MSS., the Laurentian and Magliabechian, although these MSS. are of little value, and are not of the last revision. The various readings are accurately given, and the text is corrected and divided into chapters.—The edition, *Fir., Conti*, 1818. 8°. 8 vols. (at 5 paoli) is only a faithful impression of the very faulty Laurentian MS.

An Italian abridgment by Manilio Plantedio, *Roma*, 1572. 8°, and by Fr. Sansovino, *Ven.* 1580. 8°. Concerning *Gi. Simonetta Scrittura sopra varj luoghi dell'istoria di Guicc.*, see *Morelli Codici volgari Naniani*, p. 125. A Latin translation by Coel. Sec. Curio, *Bas.* 1566. fol. *ib.* 1567. 8°. 2 voll. Scarce and prized on account of its apparatus of original documents.

- 9089 — histoire géneal. de la roy. maison de Savoye, justifiée par titres etc. Lyon, 1660. fol. 2 (sometimes 3) vols. with plates. Also on large paper.

It is properly the work of the missionary Basile de Glemona, which Guignes edited without alteration by command, and changed from an alphabetical order into an order according to the characters. He was not allowed to make many additions. It is now perceived that this lexicon contains only the commonest words and notions, and is very incomplete. *Jul. A chief excellence of this valuable work is its bibliographical accuracy. Harles has made such a use of it, as often to have copied its errors. An abridgment of the same, *ib. 1766-67. large 8°. 2 vols. (3 d. 12 gr.)* has some corrections and enlargements peculiar to itself.

- Only 100 copies printed. The first correct edition of this work. An edition, *ib.* 1763. 4°. is a nonentity. The reprint, *Lond.* 1783. 4°. with 3 portraits, is incorrect and badly printed.

9268 HARDT, Hm. von der. Historia literaria reformationis, constans V. partibus. Ff. et Lps. 1717. fol.

9269 — antiqua literarum monumenta, autographa Lutheri aliorumque celebrium viror. ab a. 1517 usque ad a. 1546. Brunsv. 1690-93. 8°. 3 voll.

A list of a rich collection of what are called *autographa reformationis*, in which however a quantity of other pieces of that period are inserted. It is indeed without an index, and not always accurate; but notwithstanding that, useful as an appendix to Panzer.—Of von der Hardt's numerous small pieces, equally affording proof of wit and acuteness, as of perverse love of paradox, and in part suppressed, collections bound together are sometimes to be met with, which possess some value. See also CONCILIA.

9270 HARDT, Ign. Catalogus codicum MSS. (græcor.) bibliothecæ Regiæ Bavaricæ. Monachii, 1806-12. 4°. 5 vols. on vellum paper.

According to the judgment of several distinguished philologists, this catalogue, in which the industry of the author in other respects cannot but be allowed, is so faulty as to be useless.

9271 HARDUINUS, J. Opera selecta. Amst. 1709. fol. with plates. Also on large paper. In addition,

Corn. Dt. KOCH stricturæ in Harduini opp. selecta. Helmst. 1710. 4°. 9272 — opera varia. Amst. et Hag. Com. 1733. fol. with plates. Also on large paper.

9273 — commentarius in N. T. Amst. 1741. fol.

9274 — prolegomena ad censuram scriptor. veterum, juxta autographum (ed. Olivetus, cum præf. W. Bowyer). Lond. 1766. large 8°.

Harduin first put forth his notorious system, according to which most of the writings of classic antiquity are only fabrications of later impostors, in his *Prolusio de numis Herodiadum*, 1693. Although La Croze, in his *Vindiciæ vet. scriptor. Rot.* 1708. 8°. opposed him in his very basis, yet Harduin still continued quietly to labour at the dressing up of his hypothesis. A fragment will be found above, No. 9672, in the essay, *Athei detecti*; but the complete development of it he left behind him in MS. which is now preserved in the British Museum. The preceding number is an impression from it. The sale of it was forbidden at Paris.

9275 HARDYNG, J. The chronicle of Jhon Hardyng in metre, from the first begynnyng of Englande unto the reigne of Edward the fourth. And from that tyme is added with a continuacion of the storie in prose to this our tyme (by Rich. Grafton), now first emprinted. Lond., Rich. Grafton, 1543. 4°. Gothic letter.

9276 HARE, Fr. Scripture vindicated from the misinterpretations of the bishop of Bangor (Bj. Hoadley). Lond. 1721. 8°.

It relates properly indeed only to a theological controversy (consult *Bibl. Anglaise*, T. VII. P. I. *Mém. litt. de la Gr. Bretagne*, T. VIII.), but it has also a political interest, and is extremely scarce: see *Wolf Lit. Analekt.* I. 271 not.

9277 HAREN, Onno Zivier van. De Geuzen, in 24 Zangen. Amst. 1776. 8°.

A scarce edition. Corrected in the versi-

fication by Feith and Bilderdyk, Amst. 1785. 8°. 2 vols.

9279 HARENBERG, J. Cp. Monumenta historica adhuc inedita. Braunsch. 1758–62. 8°. 3 pieces (9 gr.).

Important on account of the Corveyan annals. The 3rd piece is frequently wanting: see *Allg. lit. Ans.* 1799. p. 893.

9280 — historia ecclesiæ Gandershemensis diplomatica in supplementum collectionis scriptor. Brunsv. Leibnitianæ. Hannov. 1734. fol. with plates.

In this as well as in the preceding work Harenberg has forged documents. Concerning his deceptions of that kind, see *Allg. lit. Ans.* 1800. p. 607 and 935. *Adehung's Directorium*, p. 89. *Bernoulli Samml. von Reisebeschrr.* VI. 31.

An edition by Silv. de Sacy is in the course of printing.—Concerning the earlier separate editions of the *Séances*, see *Schnurrer's Bibl. Arab.* No. 233, and *Addenda*, p. 514.

9283 HARLEJAN miscellany (the), or a collection of scarce, curious, and entertaining pamphlets and tracts, as well in manuscript as in print, found in the late Earl of Oxford's library; interspersed with historical, political, and critical notes by W. Oldys. Lond. 1744–46 or 1753. 4°. 8 vols.

This collection, greatly prized in England, had become scarce, and was sold at a high price: a new edition in conse-

quence appeared, with additions by Th. Park, *Lond.* 1808-13. 4°. 10 vols. (25l. 4s.); and another, *Lond.* 1808-10. 8°. 12 vols. (8l. 8s., on large paper 14l. 8s.)

9284 — *catalogus Harlejanæ bibliothecæ* (a Mch. Maittaire digestus). *Lond.* 1743-45. 8°. 5 voll.

Edward Harley, earl of Oxford, collected with equal zeal books, antiques, pictures, coins, and MSS. The library, containing upwards of 30,000 works, was as remarkable for its bibliographical interest as for its exterior, and was purchased entire by the London bookseller Osborne, who sold the books again singly. The above catalogue is in part very inaccurate and superficial, and inconveniently arranged. The antiques, pictures, and coins were sold by auction; see *Didbin, Decam.* III. 294. The MSS. alone were preserved by purchase for the British Museum.

9285 — a catalogue of the Harlejan collection of manuscripts, preserved in the British Museum (compiled by Humphry Wanley, Casley, and Hooker). *Lond.* 1759. fol. 2 vols. Also on large paper. A preface and index to the Harlejan collection of MSS. *Lond.* 1763. fol.—*Catalogue of the MSS. of the Harlejan library in the Brit. Museum, by Nares.* With indexes of persons, places, and matters. *Lond.* 1808-15. fol. 4 vols. is a new catalogue.

H. Klügling. ib. 1817. 8°. (1 d. 4 gr., on writing paper 1 d. 8 gr.) 9290 — *brevior notitia literaturæ Romanæ, in primis scriptor. latinor.* Lps., Weidmann, 1803. 8°. (1 d.)

The retaining of the *oratio continua*, which is incompatible with true bibliographical accuracy; the careless and in part unreserved use of manuals that come first to hand (for example, Brüggeman; see also above, *HAMBERGER*); the entire deficiency in a discriminating selection from sources, all of which appeared to the author equally good; the neglecting of diligently collected single pieces (for example, that of Renouard on the Aldines); the omission of personal inspection and collation; the confused mixing together of the collected matter, and the inattention to clear, logical, and technical arrangement; and, lastly, the negligent style, at times scarcely Latin—are defects which are common to all these works (the best however is perhaps No. 9287), and, even with a willing acknowledgment of the author's industry in other respects, afford matter of astonishment how compilations of such a kind could obtain the approbation which they heretofore seem to have acquired.

Bibliography, however indispensable it may be, is of itself a study so subordinate, and so little compensating the various knowledge and sacrifices which it requires, that exertions in it then only obtain a higher merit, when it is begun and carried on with sense and ability, turning the attention on every side, with an earnestness striving after the utmost certainty and depth, and with an aim not losing itself in a cloud of titles and citations, but clear, and conscious to itself of its devotion to the purposes of a real literary life. May this especially be borne in mind by bibliographers who would write for a future public.

9291 HARMENOPULUS, Const. Προχειρον νομων etc. *Epitome juris civ., quæ legum prochiron et hexabiblos inscribitur, jam primum in lucem edita cura et st. Theoderici Adamæi Suallebergi.* Par., Ch. Wechel, 1540. 4°. 7 leaves of preliminary matter, 425 pages, and 1 leaf.

The first edition. Only text, without translation and annotations. Translated into Latin by Bh. a Rey, *Col.* 1547 or 66. 8°. A better translation, with notes by J. Mercerus, *Lugd.* 1556. 4°. or *Lausanne* (other copies, *Geneva*), 1580. 8°.

Some copies have 1577 by a typographical error. The various readings are from a MS. of Jac. Lectius. The best edition from several MSS. by W. O. Reiz in *Meermannii Suppl. thesauri civ. et canon. Hag. C.* 1780. fol. In German by Just. Göbler, *Ff. a. M.* 1564 or 66. fol.

9293 HARO, Alonzo Lopez de. Nobiliario genealogico de los reyes y titulos de España. Madr., Sanchez, 1622. fol. 2 vols. with woodcuts.

9294 HARPE, J. Fr. de la. Œuvres. Par., Didot, 1820. 8°. 15 voll. (105 fr.)

Containing all his works except the two following numbers. *Œuvres chois. Par., Didot*, 1818. 18°. 2 voll. (2 fr., on vellum paper 6 fr., on large vellum paper 9 fr.) *Le triomphe de la religion ou le roi martyr, poëme épique (posthume). Par.* 1814. 8°. is extremely insignificant.

Par., impr. de Crapetlet, 1816. 8°. 15 vols. (75 fr.) is not quite correct. A reprint of this last, *Par., impr. de Crapetlet*, 1817. 18°. 16 voll. (36 fr.) A so called *édit. compacte* is, *Par., Lanoë*, 1817. 8°. 4 vols. (40 fr.) 9296 — abrégé de l'histoire générale des voyages (avec la continuation, par Comairas). Par. 1780—1801. 8°. 32 vols. with plates and an atlas in 4°.

Out of print. Vols. 22 and 23 have been reprinted on bad paper. *Par., impr. de Crapetlet*, 1816. 8°. 24 vols. (120 fr., only 2 copies on vellum paper) is finer and equally complete, but without plates and maps. Only the first 21 vols. of the first edition are by La Harpe; the entire work however is a faulty and worthless compilation: see *Millin Magas. enc.* 1814, I. 404. To which may be joined, *Histoire des voyages en Europe. Par.* 1805. 8°. 12 voll.

9297 HARPOCRATION. Lexicon in X rhetores gr. suppletum et emendatum a Ph. Jac. Maussaco: additæ sunt notæ et dissertatio cri-

tica. Par., Morellus, 1614. 4°. In addition, H. VALESII notæ et animadvv. in Harpocratonem et Maussaci notas (ed. Jac. Gronovius). *LB.*, Gaesbeeck, 1682. 4°.

Harpocraton at first appeared in the *Ulpianus in Demosth. Ven.* 1503 and 27. fol.

9298 — lexicon X oratorum (gr. lat.) N. Blancardus emendav., disposuit, lat. vertit ac elenchum vett. scriptor. adjecit. Acc. Ph. Jac. Maussaci notæ et dissertatio, et H. Valesii notæ et animadvv. *LB.* 1683. 4°. Also on large paper.

12 leaves of preliminary matter, 432 and 141 pages, and 5 leaves of index. Blancard brought the words into a different order, for the sake of their being more easily found. His edition is bitterly censured by Gronovius, and indeed not without reason; yet should it be had with the following, on account of Maussac's notes.

9299 — de vocibus liber (gr.) cum notis et obss. Jac. Gronovii. Acc. diatribe H. Stephani ad locos Isocrateos, item notæ et animadvv. H. Valesii. *LB.*, Haaring, 1696. 4°.

9302 HARRIS, James. Works, with an account of his life and character by Lord Malmesbury. *Lond.* 1801. large 4°. 2 vols. on vellum paper, with plates.

A very fine edition, the impression of which was small. Copies on large paper are scarce. Also, *Lond.* 1803. 8°. 5 vols.

9304 — navigantium atque itineran-

tium bibliotheca, or a complete collection of voyages and travels. Lond. 1744 or 64. fol. 2 vols. with plates.

Both editions are of equal value. Lond. 1705. fol. 2 vols. with plates, is less complete.

9305 HARRIS, Moses. Exposition of English insects (Engl. and Fr.). Lond. 1782. large 4°. with 51 illuminated plates.

Previously, *ib.* 1776. large 4°. with 51 illuminated plates.

9306 — l'Aurélien, ou histoire nat. des chenilles, chrysalides et papillons anglais, avec les plantes dont ils se nourrissent. Lond., Edwards, 1794. fol. with 45 illuminated plates. Also on vellum paper.

A copy on vellum, with the original designs, was set down in Edwards's catalogue of 1796 at 52l. 10s. This edition is much finer than that of Lond. 1766 or 78. fol. each with 45 illuminated plates, besides the title-plate.

9309 HARTLIEB, J. Die kunst Ciromantia. Augsp., Jorg Scapff (*Schapff*), without date (not before 1472). fol. A xylographic production.

This extremely scarce work consists of 26 leaves with the signatures a-c, each of 8 leaves. Leaf 1a contains a woodcut, and underneath, the words *Die kunst Ciromantia*. Leaves 1b and 2a are blank. Leaf 2b an account of the composition of the book (in the year 1448) in 7 lines (*Das nachgeschriben buch von der hand etc.*), underneath another account (*Item so wiss etc.*) also in 7 lines, and under this a woodcut. In leaf 3a there follow 24 lines of text (*Wan dich die lini des lebens etc.*). From leaf 3b to 25a there are representations of

hands, with chiromantic lines, on which the text is likewise placed. Under the figure on leaf 25a the cutter of the blocks has introduced his name, *iorg scapff* (not *iorg schapff*) *su augspurg*. Leaves 25b and 26a are blank. Leaf 26b a woodcut again, and the words, *Die kunst Cyromantia*. The 1st and 2nd, and 25th and 26th leaves might consequently, on account of their inside pages being blank, be pasted together; and in this way sometimes only 24 leaves are stated.

Three complete copies (the one which formerly belonged to the Imperial library at Vienna, and was lost during the French invasion, was purchased by Lord Spencer for 100 guineas) and three defective copies are known. 9320 HAUDICQUER de Blancourt, Fr. Le nobiliaire de Picardie. Par. 1693 (new title 1695). 4°.

Not common. The copies in which after page 185 between the families *Faguet* and *Féron*, the genealogies of 11 other families (*Failly* — *Ferauld*) are to be found, are particularly scarce.

9321 HAULTIN, J. Bt. Figures des monnoyes de France. (Par.) 1619. 4°.

126 leaves with the title, or 251 pages

only numbered and printed on the *folio recto*. Page XI is by mistake numbered XIII, and this number occurs again a second time. This very scarce collection contains representations of all the French coins up to Henry II. engraved on wood, without any text. The original MS. of the text is in the library of the Arsenal at Paris.

9322 — J. Bt. ALTINI numismata. non antea antiquariis edita. (Par.) 1640. fol.

The only known copy is in the Royal library at Paris. First comes the author's portrait, under which the above title is written. Then 141 leaves encircled with red and black borders, on the reverse of which, 583 representations of Greek and Roman coins are pasted on, engraved on copper, and struck off on separate strips of paper. Leaves 142-145 do not occur, but then follow on leaves 146-157 sixteen representations of antiquities, also separately pasted on. Consult *Debure Bibliogr. instruct.* No. 5853.

When the printed text was disposed of, one engraved in copper was appended. There are also copies with illuminated plates.

9341 HAYM, N. Fr. Tesoro britannico T. I. ovvero il museo nummario, ove si contengono le medaglie greche e latine in ogni metallo e forma. Vol. I. II. Lond. 1719–20. 4°. 2 parts in 1 vol. with plates.

The *Tesoro* was meant to contain a description of the curiosities of the English collections, and consist of 4 parts. The first (designed to be in 3 vols., 2 only of which appeared) was meant to contain the coins, the second the gems, the third the statues, and the fourth the other antiquities; the above however only has appeared. The impression was only 500 copies, 200 of which were on large paper. An English translation appeared at the same time.

9342 — thesauri britannici Pars I. s. museum numarium, interprete Aloysio comite Christiani. Vindob. 1763. P. II. interpr. Jos. Khell. ib. 1764. 4°. 2 vols. with plates.

9343 — biblioteca italiana ossia notizia de'libri rari italiani, corretta ed ampliata (da Fd. Giandonati). Mil. 1771–72. 4°. 2 voll.

At first, Lond. 1726. 8°. The book was originally intended to be only a list of rare books, somewhat like our Vogt; the subsequent editors however have so enlarged it, that it may be considered as a library of Italian literature. This enlargement is indeed of itself very praiseworthy, and greatly deserves to be extended farther, and to be imitated by other nations with respect to their literature (as has been done for the German by Ersch, for the Polish by Bent-

kowaki, and for the English by Watt), because it is only in this manner that sure and certain foundations can be obtained for a universal bibliographical work; but it is even this very accuracy and certainty which is missed in all the editions of Haym. He can only be used with the greatest precaution, and is not to be credited except when other works, not made use of by him, accord with his statements (see above, CAPPONI). The above edition is the best, well printed, and provided with a general index. The so called *Edis. correctta, ampliata ed arricchita*. Mil., Silvestri, 1803. 8°. 4 voll. (15 lire), cannot be recommended. It is not so well printed, and is inconvenient in this respect, that each volume has its own index; it is moreover so little corrected as to have retained many typographical and other errors of the edition of 1771. I have not yet been able to discover any essential augmentations. How could this be expected in a book, in which the edition of the *Monte santo di Dio*, by Antonio di Siena, of the year 1491, is still stated as the only one, whilst the costly edition of 1477 is every where known and celebrated.

9344 HAYMO. *Historiæ ecclesiasticæ brevium scriptum circa a. 800. M. Zuerius Boxhornius edid. et rec. Acc. prima religionis Christ. rudimenta, vetustissima Alemannor. et Saxonum lingua scripta*. 9346 HEARNE, Th. *Scriptores varii de historia anglicana etc.* Ox. 1709–35. 8°. 64 voll.

This very valuable collection, consisting of 32 works, and not merely locally interesting, is very seldom to be met with complete even in England itself, as a very small impression only of each of these works was made. There are some copies of each on large paper. On the continent

there is probably not a single complete copy of this collection. In the following list I have noted in a parenthesis those works which are on large paper in the Dresden library.

1. *Spelman's Life of Alfred*, 1709. 1 vol. (at first prohibited, but now the easiest to be had).
2. *Leland's Itinerary*, 1710. 9 vols. 120 copies, 12 of which are on fine paper. A new edition, *Oxf.* 1770. 8°. 9 vols. Also on large paper.
3. *Dodwell De parma equestri Woodwardiana*, 1713. 1 vol.
4. *Lelandi Collectanea*, 1715. 6 vols. (only 156 copies).

VOL. II.

by *Hearne* by Dibdin is in *Brydges's Bibliographer*, T. I. p. 241 etc. 385 etc. T. II. p. 65 etc. A new edition of the entire collection is now in the press at London.—*Reliquia Hearniana, or the genuine remains of Th. Hearne, with notes and an appendix by Ph. Bliss.* *Ox.* 1818. 2 vols. Miscellaneous observations from his MSS.
9347 HEARNE and BRYNE. *Antiquities of Great Britain, illustrated in views of monasteries, castles, and churches now existing, engraved from drawings made by Th. Hearne.* *Lond.* 1786. oblong fol.

Well got up. Vol. I. contains a title-plate and 50 plates. Vol. II. ought to have contained 30 plates, but Brunet thinks that not more than 8 have appeared. But Lackington's catalogue has an edition, *Lond.* 1807. oblong fol. with 84 plates.

9348 HEATH, Bj. *Notæ s. lectt. ad tragicor. græcor. vet., Æschyli, Sophoclis, Euripidis dramata quæ supersunt.* *Ox.* typ. *Clar.*, 1762. 4°. Out of print.

384 and 34 pages, with 1 title-plate, 1 portrait, 14 and 3 plates. Also copies on writing paper with illuminated plates; but I doubt the existence of copies on large paper.

As to the rest Ernesti only lent his name to his edition; the real superintendent was J. Jac. Reiske.

The last book contains enlarged editions of several articles of the following work.

9372 — (*anon.*) *idée générale d'une collection complétée d'estampes, avec une dissertation sur l'origine de la gravure et sur les premiers livres*

d'images. Lps. 1770. large 8°. with 32 plates (3 d.).

It is becoming scarce. Heineken has by this work, which is still indispensable at the present day, given a great stimulus to these studies. His descriptions are very accurate, his facsimiles not always so. His idea here laid down forms the groundwork of the Royal cabinet of prints at Dresden.

9373 — (*anon.*) *dictionnaire des artistes, dont nous avons des estampes, avec une notice détaillée de leurs ouvrages gravés.* Lpz., Breitkopf, 1788-90. large 8°. 4 vols. (11 d. 8 gr.)

Unfinished and reaching only to *Dis.* The complete MS. of this work in 22 folios in the author's own hand is in the Royal library at Dresden. It differs from *Bartsch Peintre graveur* in this respect, that it was meant to be a universal lexicon of copper-plate engravers with a specification of *all* separate prints. Heineken had seen most of them himself, and the materials of his work are collected with equal industry and accuracy. If notwithstanding it is often incorrect and incomplete, that is unavoidable in so comprehensive a plan. To appreciate properly his distinguished merit, it is only necessary to inspect for instance such articles as *Sadeler*.

The Royal library at Dresden also possesses the following MS. collections, in his own hand: *Dictionnaire des artistes*, 3 folios from A to Z, which contain more copious biographical notices than the printed work, but the works of the artists are not specified. 2. *Catalogue des livres imprimés et ornés de figures gravées en bois depuis 1457 jusqu'en 1517*, 1 folio. Made use of by Jansen in his *Essai sur l'origine de la gravure*, and in part by Heineken himself in his *Nachrichten*. 3. *Livres remarquables avec figures*, 1 folio. 4. *Livres des portraits*, 2 folios. 5. *Livres des arts*, 1 folio. 6. *Livres d'architecture, de sculpture, d'antiquités, des cérémonies et des emblèmes*, 1 folio.

9387 HELDENBUCH, das. Without place or date (15th century). fol. with woodcuts.

The first edition, extremely scarce, 280 leaves in 2 columns with 38 lines. Described in *Hagen's* and *Büsching's Grundriss*, p. 11.—A 2nd edition is said to be, *Augsb.* 1491. small fol. See *ibid.*, p. 17.

9388 — das helden buch mit synen figuren. Hagenaw, H. Gran, 1509. fol.

213 leaves in 2 columns. The woodcuts are reduced imitations of those in the first edition.

9389 — — Without place, 1545. fol. with woodcuts.

The woodcuts are also after those of the first edition.

9390 — das Heldenbuch. Welchs auff's new Corrigiret vnd gebessert ist, mit schönen Figuren geziert. Ff. a. M., Han u. Feyerabend, 1560. fol. with bad woodcuts.

187 numbered leaves in 2 columns. The woodcuts of this and the following edition originally belonged principally to other poems and romances, for instance, to the *Hörnern-Siegfried*. The text is modernised, and is sometimes divided differently from the preceding editions.—The edition *Ff. a. M.* 1579. fol. certainly appears to be apocryphal, and the Dresden copy, formerly Menke's and afterwards Bünaui's, is only a defective copy of the edition of 1560 completed in MS. At the same time the title-vignettes, the completion of the woodcuts, p. 124^b, and the MS. completions, p. 124 and 161, entirely deviate from the editions of 1509, 60, and 90. How did the person who made good this copy fall into these deviations, and had he not probably a real edition of 1579 before him?

9391 — Heldenbuch, darinn viel seltsame Geschichten u. kurtzweilige Historien, von den grossen Helden u. Rysen ... Jetzundt durchaus mit neuen Figuren gezieret u. in vier vnderschiedliche Bücher abgetheilet. Ff. a. M., Feyerabend, 1590. 4°. with bad woodcuts.

8 leaves of preliminary matter (the 8th blank), and 253 numbered leaves in 2 columns. Most of the woodcuts are better adapted in this edition than in that of 1560.

9392^a — Heldenbuch, von F. H. von der Hagen. Berl., 1811. 8°. (2 d 18 gr.)

9392^b — der Helden Buch in der Ursprache, herausg. von F. H. von der Hagen u. Ant. Primisser. Th. I. Berl. 1820. 4°. (Also, Deutsche Gedichte des Mittelalt. 2r Bd.)

9400 — *æthiopica* (gr.) cum animadvv. J. Bourdelotii, rec. J. Pt. Schmid. Lps., 1772. 8°. (1 d.)

Audiguier's pretended correction of Amyot's translation turned out ill. Sought after on account of the plates. Also, J. de Montlyard's translation, Par. 1620 or 23. 8°. is of value only on account of the plates.

Some pieces thereof are inserted in the
Thesaur. hist. Helv. Tiguri, 1735. fol., but
mutilated.

et tractatus. Without place or
date. fol. Gothic letter, 2 leaves of
preliminary matter and 132 leaves.

Belonging, as it were a 2nd vol., to the
preceding work. Brant's dedication is with-
out a date, the signatures are in large let-
ters, and at the end is *Gloria in excelsis*
deo. Another edition, without place or
date, fol. Gothic letter, is without any num-
bering of the leaves, and with smaller sig-
natures; at the end is *finis feliciter*, and
Brant's dedication has the date, *Ex Basileæ*
idibus Augusti, 1497, of which many
without hesitation have made a Basle edi-
tion of 1497 (a Basle edition of 1494 is a
nonentity). Braun and Panzer think that
this last edition, which I consider to be the
earlier one, was printed at Basle by N.
Kessler: I would, however, rather ascribe
it to Strasburg, or Cologne.

- 9459 HERÆUS, C. Gat. Numismata recentiora depromta e gaza imperat. Caroli VI. et serie genealogica disposita. Without place or date. large fol.

The work was not concluded, because Heræus fell into disgrace, and complete copies are of the greatest rarity. It consists of 65 plates engraved at Nuremberg, by Mentzer in the year 1729, without title, text, or commentary. Only 4 complete copies are known; at Gotha, at Göttingen, in what was formerly the library of prince Palm (previously Rink's copy), and at Dresden. The last, which had previously been in the possession of J. D. Köler, and then of count Bünaui, has the first impressions of the plates, and was furnished by Köler, who superintended the editing, with the above printed title, and with a circumstantial MS. notice, by which the statements in *Hergott Numotheca princ. Austr. T. I. præf.* §. 15-23 were corrected. The work was intended to be a representation of the private cabinet of Charles VI. (not the public one), and the representa-

tions are of the natural size, and very correct. In Vienna only 26 plates were preserved (the rest being lost), from which some new impressions were made in 1744.

The creator of German romance, and of decided, if not æsthetical, yet at least moral influence on his age. Admired, censured, neglected, he ran through the usual circle

of German fame; but the originality, although sometimes rather paradoxical, the noble and pure tendency, the occasional liveliness, truth, and warmth of his creations, will always secure to our German Richardson, a perhaps small, but hence certainly the more select, circle of readers. He has been often faithfully copied; the last time by F. Rochlitz in the *Cnoblöschsch. Frauensimmeralmanach* of 1819.

9515 HERODIS Attici quæ supersunt, adnotatt. illustrav. Raph. Fiorillo. Lps., Fritsch, 1801. large 8°. (1 d.) Only 6 copies on vellum paper.

9516 HERODIANUS, Ælius. Ἐπιμερισμοί. Partitiones nunc prim. edid. J. Fr. Boissonade cum notis philol. Lond., Black, 1818. large 8°. — Tract. de metris in: Fr. de Furia appendix ad Draconem. Lps. 1814. 8°.

9517 HERODIANI historiar. libri VIII. græce pariter ac lat. (Ang. Politiano interpr.) Ven., Aldus, m. Sept. 1524. 8°.

4 leaves of preliminary matter (2 of which are blank), 92 and 97 numbered leaves, and 1 leaf with the anchor. The first separate edition, but only an impression of the text already incorrectly given in *Xenophontis Omiss.*, or in the *Gemist. Pletho*. Ven. 1503. fol., with fresh errors. Good copies are scarce.

9518 — a Marci principatu historiar. libri VIII. (gr.) Lovanii, ap. Theoderic. Mt. Alotensem, m. Febr. 1525. 4°. 96 leaves.

A correct impression of the text of 1503. More scarce than the preceding.

9519 — historiar. libri VIII. Bas., J. Valderus, without date (1530). 32°. 441 pages.

A reprint of Ven. 1524. The date of printing, 1530, is mentioned in *Bibl. Gesnero-Fris.* 342. M^cCarthy's copy was not on large paper. Irmsch, in his edition, IV. 363, describes yet another edition, Bas. without printer's name or date, 16°. of 443 pages, which is a reprint of this.

9520 — de imperator. Rom. præclare gestis libri VIII. gr. et lat. (ed. J. Huober). Bas., H. Petri, 1543. 8°. 12 leaves and 647 pages.

Previously, *ib.*, *id.*, m. Aug. 1535. 8°. Chiefly a reprint of the Aldine. Irmsch's doubts (IV. 369.) concerning the correctness of the date of 1543 are quite unnecessary.

9521 — (the same title) Bas., H. Petri, 1549. 8°.

According to the preface, corrected from a MS. by S. Phrisius in Zürich. Reprinted with a preface by Basil. J. Herold. Bas., H. Petri, 1563. 8°.

9522 — *historiar. libri VIII (gr.) cum Ang. Politiani interpretatione et hujus partim supplemento, partim examine H. Stephani. Ejusd. H. Stephani emendatt. et expositit. Historiar. Herodianicas subsequen-
tium (Zosimi) libri duo nunc prim. gr. editi. Exc. H. Steph., 1581. 4°.*

4 leaves of preliminary matter, 182 pages, 1 leaf and 79 pages. Fine, corrected from old editions, and, as it appears, from a MS. Politian's translation is also corrected. (Previously in *Stephani Hist. rom. script.* 1568, see under No. 9838.). Faulty reprints of the entire edition, *Lugd., Pt. Ravaud*, 1611 or 24. 8°. The edition of 1624 (8 leaves of preliminary matter, 470 pages, and the appendices unpagged, with the signatures Gg5-Nn3) is enlarged with marginal notes, a gnomology, and an index. —After Stephens, but compared with the old editions, and with various readings from a MS., in *Sylburgii Scr. hist. Rom. T. III. Ff.* 1590. fol.

9523 — ll. VIII (gr.). Cum interpr. lat. (Politiani). Ingolst., D. Sartorius, 1593. 8°. 401 pages.

After Stephens, whose conjectures however are directly received into the text. *Ib.* 1608. 8°. is only a new impression.

9524 — *historiæ de suis temporib. ll. VIII (gr.) in lat. conversæ ab Ang. Politiano, nunc vero a mendis castigatæ et notis illustr. st. et op. Dn. Parei. Ff. a. M., Fitzer*, 1627. 8°.

An incorrect reprint of the Basle text. For the first time divided into numbered chapters. Excepting the notices of the contents in the margin, there are no other notes. Enlarged with *monita* and *exempli ethico-polit.* *Ff. a. M.* 1630. 8°. *London, Harper*, 1639. 8°. is a somewhat more correct reprint of the last.

9525 — *historiar. ll. VIII (gr. lat.) cum notis et animadvv. J. H. Boecleri. Ed. II. Acc. index gr. locupletiss. autore Bths. Scheidio. Arg., Staedel*, 1662. 8°. 2 parts in 1 vol.

Previously, *ib.* 1644. 8°. Stephens's text with notes of no value. Politian's translation is given in its first form. Scheid's

copious index has nothing peculiar, and sometimes there are great mistakes in it. *Arg.* 1694. 8°. is an unaltered reprint.

9526 — *historiar. libri VIII (gr. lat.) recogniti et notis illustrati. Ox., th. Sheld.*, 1678. 8°.

Stephens's text, with sometimes the introduction of his emendations. Politian's translation corrected in some places. A selection from Stephen's and Sylburg's notes. *Ib., th. Sheld.*, 1699 and 1704. 8°. (both also on large paper) are unaltered reprints. Bas. 1781. 8°. is only an impression from *Ox.* 1704.

9527 — *ιστοριων βασιλια δκτω (gr. lat., interpr. Politiano), cui acc. genealogia, chronologia et geographica imperii Rom. descriptio. Patavii*, 1685. 8°. 2 parts in 1 vol. with 1 map.

The text combined from different editions. The chronology is not without mistakes. The Latin translation has a separate title.

9528 — *historiar. ll. VIII (gr. lat.) Ad opt. codd. fid. summo studio recogniti et emendati. Præm. est M. Antonini vita (gr. l.) a J. Xiphilino conscripta (ed. J. Patonus). Edimb., Ruddiman*, 1724. small 8°.

The text of the Oxford edition with alterations after Aldus, Stephens, and Sylburg.

9529 — *historiar. ll. VIII (gr.) e rec. H. Stephani, cum varietate lectionis trium codd. MSS., nova (St.) Bergleri versione, notis varior. et indd. verbor. ac rer., curante Thph. Gu. Irmisch. Lps., Schwickert*, 1789–1805. large 8°. 5 voll. (14 d. 4 gr.) Also on writing paper.

Stephens's text, only sometimes corrected. Indefatigable industry, but often tastelessly overdone. For instance, his *Notitia literaria* (IV. 330 sq.) is a *ne plus ultra* of laboriousness and attention to minutiae, yet unproductive in the end.—A school edition with German notes (by F. Feldhahn), *Lps.* 1791. 8°.

9530 — *historiar. ll. VIII (gr.) ex rec. F. A. Wolfii. Halæ*, 1792. 8°. (16 gr.) Also on writing paper.

A new recension. At the beginning a copious *notitia lit.*

9531 — *historiar. ll. VIII (gr.) Cum animadvv. in us. scholar. Gu. E. Weber. Lps.* 1816. large 8°. (1 d. 8 gr.)

9532 — historiar. ll. VIII lat., Ang. Politiano interprete. Romæ, without the printer's name, 20 Jun. 1493. fol.

53 leaves with 38 lines, and the signatures a-i. The first edition of this translation, distinguished for its classic Latinity and lucid style, but unfaithful. *Bon., Plato de Beneficiis, prid. kal. Sept. 1493, fol. 68 leaves with 35 (not 36) lines, and the signatures ai-ii, is also prized. Also, Bon., Basilensis, prid. kal. Oct. 1493. 4° with 37 lines.*

9533 — historiæ ll. VIII latine facti. S. Aur. Victoris a Cæsare Aug. usque ad Theodosium excerpta. Eutropii historiæ ll. X. Pauli Diac. ll. VIII ad Eutropii historiam additi. Flor., Ph. Junta, m. Mart. 1517. 8°.

4, 90, and 127 leaves. Very scarce. It has often been erroneously supposed that the Greek text is added. The following are also neat editions of Politian's translation: *Par., Colinaus, 1539. 8°. ib., Rb. Stephanus, 1544. 8°. Antw., Plant., 1566. 12°.*

9534 — historia dello imperio dopo Marco trad. in lingua Toscana. Fir., Fil. Giunta, 10 Oct. 1522. 8°. 3 and 110 leaves. Also frequently: the last time, Ven., Bm. l' Imperadore, 1552. 8°.—Delle vite imperiali trad. dal greco per Lelio Carani. Ven., Giolito, 1551, also 52. 8°.

9535 — histoire d'Hérodien, trad. du grec en franç. avec des remarques (par N. Hubert de Mongault). Par. 1745. 12°.

The best edition. Also, *Par. 1700 and 1712. 12°.* Earlier translations by J. Col. lin, *Par. 1541. 8°. or Lyon, 1546. 16°.* Jac. des Contes de Vintemille, *Lyon, 1554. fol. Boisguilbert, Par. 1675. 12°.*

9536 — der fürtrefflich griechisch Geschichtschreiber Herodianus, den Ang. Politianus inn das Latein, vnd Hi. Boner in nachuolgend Teutsch pracht. Augsp., Steyner, 19 Aug. 1531. fol.

4 leaves of preliminary matter and 70 leaves. *Ib., id., 13 Jun. 1532. fol. 4 leaves of preliminary matter and 70 leaves, is really a fresh impression. Also, Ff. a. M. 1565. 8°. and Hmb. 1660. 8°.* A translation by G. Schwarzkopf is a mistake for VOL. II.

his Herodotus. The most recent translation is by J. Gli. Cunradi, *Ff. a. M. 1784. 8°. (15 gr.)*

9537 — history of his own times, translated, with notes, by J. Hart. 1749. 8°.

At first translated by N. Smyth, *Lond., W. Copland,* without date. 4°.—In Dutch by Dt. van Coornbert, *Arnhem, 1614. 8°.*; and by Rabus, *Rott. 1683. 8°.* In Danish by L. Holberg, *Kbhvn. 1746 or 53. 8°.* In Russian, *Moscow, 1774. 8°.*

9538 — P. VOET notæ in Herodiani Marcum et Commodum (s. in lib. I.). Ultraj. 1645. 12°. Printed in Ir- misch, IV. 135 etc.—J. F. LEIS- NERI progr. de Herodiani ejusque versione Bergleriana. Lps. 1761. 4°. Also in Ir- misch, T. I.

9539 HERODOTI libri novem, quibus musarum indita sunt nomina (gr.). Ven., Aldus, m. Sept. 1502. fol.

140 unnumbered leaves. The first edition, and very fine, from several good MSS. All the copies are on a very fine paper, which might easily seem to be large paper; but Renouard himself now confesses in his *Catal. IV. 50.* that there was no copy of that sort.

9540 — libri IX. Georgii Gemisti de iis, quæ post pugnam ad Mantineam gesta sunt, libri II (gr.). Una cum Jo. Camerarii præf., annotatt. deque figuris, et qua usus est dialecto. Bas., Hervag., m. Mart. 1541. fol. 10 leaves of preliminary matter and 310 pages.

The text of Aldus, with the addition of Gemistus, and some notes by Camerarius.

9541 — — (the same title). Bas., J. Hervag. et Bn. Brand, m. Mart. 1557. fol. 10 leaves of preliminary matter and 310 pages.

An unaltered reprint of the preceding: according with it in the pages, yet really a fresh impression.

9542 — historia s. historiar. ll. IX ex vetustis exemplar. recogniti. Ctesis quædam (gr.). Exc. H. Stephanus, 1570. fol. 24, 362, and 20 pages.—Herodoti historiæ ll. IX et de vita Homeri libellus (lat.): illi ex interpr. Lr. Vallæ adscripta, hic ex interpr. Cr. Heresbachii: utra-

que ab H. Stephano recognita. Ex Ctesia excerptæ historiæ. Apologia H. Stephani pro Herodoto. Exc. H. Stephanus, 1566. fol. 16 leaves of preliminary matter, 256 and 12 pages, and 12 leaves (p. 32 there are 4 unnumbered leaves of woodcuts.)

Both books are usually joined together. The first is fine and correctly printed, and contains a new and valuable recension (notwithstanding the censure of Gronovius and Bergler), in which Stephens seems to have had before him not even a MS., but only a copy collated with a MS., furnished however at the same time with the conjectures of some earlier scholar, not distinguished from the various readings. The second book contains the translation of Valla, greatly corrected by Stephens.

9543 — historiæ. ll. IX. Ejusd. narratio de vita Homeri (gr.). Cum Vallæ interpr. lat. historiæ. Herodoti ab H. Stephano recognita. Ctesia quædam de rebus Pers. et Ind. Ed. II. Exc. H. Stephanus, 1592. fol.

24 leaves of preliminary matter (after leaf 14 a woodcut of Babylon), 731 pages, 4 leaves of woodcuts, and 12 leaves of index. A less fine repetition of the preceding edition, with some new alterations and corrections, and with the addition of the Latin translation.

9544 — historiæ. ll. IX. Ejusd. narratio de vita Homeri (gr.). Cum Vallæ interpr. lat. historiæ. Herodoti ab H. Stephano recognita et spicilegio F. Sylburgii. Excerpta e Ctesia libris de reb. Pers. et Ind. et ex iisdem fragmenta auctiora. Cum indice aucto et locupletato. Editio adornata op. et st. Gf. Jungermani. Ff., Marnius et hered. Aubrii, 1608. fol.

6 leaves of preliminary matter, 52 and 708 pages, and 15 leaves of index. After the 1st and 2nd editions of Stephens, divided into chapters, provided with a good index and an old glossary, and the notes of Sylburgius. The fragments of Ctesias are also enlarged.

9545 — — (the same title). (*Genevæ*), Oliva P. Stephani, 1618. fol.

6 leaves of preliminary matter, 52 and 708 pages, and 15 leaves of index. A reprint of the preceding, with which it also accords in the lines and pagination; yet some conjectures of Æmilii Portus are

received into the text, and also some alterations are made in the text according to Valla's translation.

9546 — historiæ. ll. IX. Ejusd. narratio de vita Homeri. Excerpta ex Ctesia libris; gr. et lat., et H. Stephani apologia pro Herodoto. Acc. chronologia historiæ et tabula geographiæ Herodotæ, nec non variantes lectt. et notæ ex pluribus MSS. codd. et antiquis scriptorib. collectæ (a Th. Gale). Lond., Dunmore, 1679. fol. with 1 map.

36 leaves of preliminary matter, 708 pages, 22 leaves (Stephani apol. etc.), 33 pages (varr. lectt.), 18 leaves (index, and a notice to the reader). Only an impression of Jungerman's edition, with the suppression of his name. But at the end, various readings from 2 MSS., Thos. Gale's short notes, and a chronological view are annexed, and the glossary is enlarged.

9547 — historiæ. ll. IX gr. lat. cum interpr. Lr. Vallæ. Ex MS. membrana Medicea adjutis locis et græcismo remollito, industria Jac. Gronovii, cujus acc. notæ. Ejusd. narratio de vita Homeri gr. lat. interpr. Cr. Heresbachio. Acc. excerpta ex Xenophonte etc. LB. 1715 (other copies, 1716). fol. Also on large paper.

1 half-title, 1 title-plate, 9 leaves of preliminary matter, 1000 pages, 28 leaves of index and corrigenda. A new recension after a Florentine MS., which was certainly a good one, but which Gronovius followed so strictly, that he received its manifest errors into the text. Valla's translation, often altered, sometimes deteriorated. Gronovius's notes contain almost nothing but the most vehement and unbecoming sallies against his predecessors. As to the rest, it is well printed, and not common.

9548 — historiæ. ll. IX gr. et lat. ex ed. Jac. Gronovii. Glasgæ, Foulis, 1761. small 8°. 9 vols.

The text and translation only, after Gronovius, without notes. Neat and correct.

9549 — historiæ. ll. IX gr. lat. ex Lr. Vallæ interpretatione, eum adnotatt. Th. Galei et Jac. Gronovii. Editionem curavit et suas itemque L. Csp. Valckenarii notas adjec. Pt. Wesselingius. Amst., Schouten, 1763. large fol. with 1 title-plate.

An excellent new recension from MSS.

and solid explanations. Valla's translation chiefly according to Gronovius. Are there really copies on large paper? In addition, *Pt. Wesselingii Diss. Herodotea. Traj. ad Rh. 1758. 8°.*: to which Wesseling often refers in this edition.

9550 — historiar. ll. IX (gr.). Textus Wesselingianus passim refictus etc. op. F. Wfg. Reizii. Vol. I. P. I. Lps. 1778 (new editions, 1807 and 16). Vol. I. P. II. continuav. Gf. H. Schäfer. Lps., Schwickert, 1800 (new edition, 1813). large 8°. 2 vols. (2 d. 16 gr.) Also on large paper.

A new revision. Containing the text. The 2nd vol. has not yet appeared.

9551 — historiar. ll. IX ex optimis exemplar. emendav. et notas crit. adjec. Gf. H. Schäfer. Lps., Sommer, 1800—3. 8°. 3 voll. (9 d.) Also on large vellum paper.

A particular revision, distinct from the preceding. Containing books 1—8. Of the 4th vol. (the 9th book, notes, and a lexicon Herod.) only the commencement (the 9th book) has been printed, and the only copy is in the University library at Leipzig.

9552 — et Ctesiae quæ extant, opera et fragmenta, gr. Rec. et Wesseling. recensionis variet. adjec. A. Ch. Borheck. Ed. II. correctior. Lemgovizæ, Meyer, 1808—10. 8°. 3 voll. (4 d. 16 gr., on writing paper 7 d.) — A. Ch. Borheck apparatus ad Herodotum intellig. et interpret. ib. 1795—99. 8°. 5 voll. (6 d. 12 gr.)

More a corruption than a recension of the text, and incorrectly printed.

9553 — Herodotus, gr. et lat. Acc. annotatt. selectæ nec non index latinus, ex edit. Wesselingii et Reizii. Edinb., e prelo acad., 1806. small 8°. 7 vols. Also on large paper.

Neat, but not correct enough. Porson looked over the 1st book.

9554 — historiar. ll. IX (gr.); editionem Reizii morte interruptam continuav. Gf. H. Schäfer. Acc. index rer., nec non editionis Wesseling. cum edit. Reizii et Schäferi collatio. Ox., Parker, 1808. large 8°. 2 vols. (18s., on large paper 1l. 16s.)

Finer printed than the following. To

which may be joined, *Æm. Porti Lexicon Ioniæ. Ox. 1810. large 8°.*

9555 — hist. ll. IX gr. lat. Textus Wesselingianus passim refictus, argumentorumq. ac temporum notatio, op. F. Wfg. Reizii. Acc. index rer., nec non editionis Wesselingianæ cum edit. Reizii et Schäferi collatio. Ox., Bliss, 1809. large 8°. 3 vols. (1l. 7s.) — A new edition, ib. 1814. 8°. 3 vols. (1l. 10s., on large paper 2l. 17s.)

The index is more complete in this than in the preceding edition.

9556 — histor. libri qui enarrat. pugnar. inter Græcos et Persas complectuntur. Textum recognitum cum summariis, excerptis superior. interpretum suisq. animadvv. et indd. edid. D. Schulz. Hal., Hemmerde, 1809. large 8°. 2 vols. (4 d.)

Vol. I. the text, chiefly after Schäfer. Vol. II. notes and indices. School edition, without notes, ib. 1809. large 8°. (1 d. 12 gr.)

9557 — hist. ll. IX (gr., cur. Gf. H. Schäfer). Lps., Tauchnitz, 1815. 12°. 3 voll. (1 d. 16 gr., on writing paper 2 d. 12 gr.)

9558 — hist. ll. IX (gr.). Ad vett. codd. fid. denuo rec., lectionis varietate continua, interpretatione lat., adnotatt. Wesselingii et Valckenarii aliorumque et suis illustrav. J. Schweighæuser. Arg. et Par., Treutzel et Würtz, 1816. 8°. 6 voll. (27 d., on vellum paper 50 d.) Also on large vellum paper, and 1 copy on vellum.

An excellent new recension from 7 MSS. The translation is corrected throughout, and Valckenar's and Wesseling's notes are given entire, but only what was good from those of Gronovius. Only the *Res Persicæ* of Ctesias are introduced. Compare the review in *Jen. Lit. Zeit.* 1817, III. 345—48. He promises also a *Lexicon Herodoteum*.

9559 — Herodoti traductio e græco in latinum habita per Lr. Vallensem. Ven., Jac. Rubeus, 1474. fol. 258 leaves (according to the collation of the Dresden copy, 259 according to Dibdin, and 261 according to Brunet), 4 of which, sometimes placed at the beginning, and sometimes at the end, contain a

letter of Bd. Brognolus to N. Donatus. With 35 lines, without signatures, catchwords, and pagination. The first edition of this translation. A copy on vellum 203 fr. Gaignat.

9560 — lat. per eund. Romæ, (*Arn. Pannartz*) in domo Pt. de Maximis, 20 Apr. 1475. fol.

245 leaves (23 of which are a table of contents at the beginning) with 39 lines, without signatures, catchwords, and pagination.—Made from a defective MS., and on this account, as well as owing to the translator's own misapprehensions, often very incorrect, but yet not without merit. The chapters and passages that are wanting, Cr. Hereshbach first supplied in the edition, *Col.* 1526. fol. Corrected afresh by Sh. Castilio, *Bas.*, H. Petri, 1559 or 73. 8°. and *Col.* 1562. fol. Stephens's corrections see above, No. 9542, also *Ff.* 1584, or 95, or 1620. 8°.

9561 — delle guerre de Greci et de Persi, trad. di greco in lingua ital. per Mth. Mar. Bojardo. Ven., Sabbio, 1533. 8°. Also, ib., Bindoni, 1539. 8°. and ib., Bariletto, 1565. 8°.—Della greca istoria, dell' imprese de' Greci et de Barbari, con la vita d' Omero, nuovam. trad. da Giulio Ces. Becelli. Verona, Ramanzini, 1733. 4°. 2 vols. with 10 maps.—Erodoto trad. in lingua italiana con note (da Viviani ed altri). Roma, 1789. 4°. 2 voll.

9562 — histoire d'Hérodote, trad. du grec avec des remarq. hist. et crit., un essai sur la chronol. d'Hérodote et une table géographique, par Pt. H. Larcher. Nouv. éd. revue, corrigée et augm. Par., de Bure, 1802. 8°. 9 voll. (60 fr., on vellum paper in 4°. 240 fr.)

Of distinguished worth as a translation and explanation. In the first edition, *Par.* 1786. 8°. 7 vols. are some hazardous chronological assertions, which Larcher struck out of the second edition also containing notes by Diam. Coray. Earlier translations by Pt. Saliat, *Par.* 1556. fol. or *ib.* 1575. 16°. 2 vols. By Pt. du Ryer, *Par.* 1645 or 58. fol. *ib.* 1714. 12°. 3 vols. See also AUGER, No. 1357.

9605 — quæ supersunt (gr. lat.) cum notis varior. Edid. Th. Robinson. Ox., th. Sheld., 1737. 4°. with Hesiod's likeness.

Fine, but not quite correct. Grævius and Le Clerc form the groundwork with corrections from MSS. The notes are chiefly critical, but the entire performance is somewhat hastily done. Complete copies of this work are very scarce. There are three different editions of the first part. The second is of the same printing, but enlarged with the appendage, *Obeliscus Constantinopolitanus* and an *Anweisung von den Buchbinder*; altogether 11 leaves, with 1 plate. The third is an entirely different reprint, and to be distinguished by having the name of the author printed in the title. The Latin edition of the first part, *Hesperidum Norimbergensium libri IV, in lat. ling. translati (ab Erh. Reuschio)*. Nrb. (1713), fol. with plates, is

9651 HEURES (such as *breviaria, horæ, missalia, officia etc.*) deserve a place here, because books of devotion of this sort were in earlier times an especial object of typographical and decorative luxury. Whoever should once undertake a detailed history of miniatures in MSS. and in books, would soon find that the miniatures of missals, and similar ascetic works, would form a separate class on account of their pretty general form, and would claim a distinct portion of his investigation. As a substitute for this I have here given a list (as they certainly belong to this work on account of their matter) of vellum impressions of *heures* seen by me or pointed out to me by others with miniatures and without (as at one time or another I have incidentally met with them).

The plates must be collated according to the notice at the end of the table of contents. Concerning a copy which was probably illuminated by Hevelius himself, and which was sold in 1768 for 270 fl. or 90 d., see Lengnich's *Hevelius*, p. 87.

9655 — epp. IV de observatione deliqui solis a. 1649 habita etc. Gedani, 1654. fol. with 7 plates.

9662 — epistola ad amicum de cometa a. 1677 Gedani observato. Without title, place or date. fol. 2 leaves.

Of the greatest rarity. The only copy hitherto known is in the library of the Institute at Paris, formerly in Lengnich's possession.

9663 — machina cœlestis. Gedani, 1673-79. fol. 2 vols. with plates. Also on large paper.

Vol. I. 1 half-title, 1 title-plate, 1 principal title, 4 leaves of preliminary matter, 464 pages, and 1 plate. Vol. II. 1 title-plate, 1 principal title, 4 leaves of preliminary matter, 1 portrait, 46 pages, 6 leaves, 840 and 446 pages, 1 leaf (*opera Hevelii edenda*), and 44 plates (besides the title-plate and portrait). The last 446 pages of the 2nd vol. or the 3rd and 4th books are sometimes wanting.

The writings of Hevelius are generally scarce in consequence of a fire which destroyed his house 26 Sept. 1679; but the 2nd vol. of this work is particularly so, of which indeed, not 7 copies only, as was formerly supposed, but only about 10 copies exist; see *Allg. lit. Ans.* 1798. p. 1127. Zach's *Monatl. Corresp.* VIII. 362. The 1st vol. is more common, though of less interest; but the 2nd vol. is the more valuable on account of the correct observations, as Hevelius was a very accurate man in observing. A copy, intended for Louis XIV. splendidly illuminated by Hevelius himself, the plates of which are on very strong paper, is in the Dantzic Council-library. It was formerly bought for 2603 Dantzic guilders, or 217 ducats. Consult Lengnich's *Hevelius*, p. 101. *Rb. Hooke, Animadversions on the first part of the machina cœlestis of Hevelius*, Lond. 1674. 4°. with 3 plates, is a vehement attack on the 1st vol.

9665 — prodromus astronomiæ. Gedani, 1690. fol. Also on large strong paper.

1 half-title, 1 title-plate, 1 principal title, 8 leaves of preliminary matter, 1 portrait, 350 pages (p. 96 a plate), 1 leaf of index. Then 1 title-plate, 1 principal title (*Firmamentum Sobiescianum*, ib. 1690), 21 pages, and 57 plates.—Concerning his literary remains, see Zach's *Monatl. Corr.*

Needham's commentary is too arbitrary. This edition is still indispensable on account of the other writings of Hierocles. In addition, *J. Cp. HIERONYMUS Pragensis, see HUSS.

9683 HIERONYMUS Stridonensis. *Opera omnia una cum argumentis et scholiis Des. Erasmi Rot. Bas., J. Frobenius*, 1516. fol. 9. voll. *J. Œcolampadii index. ib., id.*, 1520. fol. Usually 4 or 5 vols.

The first edition of all his works, and fine. Corrected and repeated, *ib.* 1524-26, or 37, or 53, or 65. fol. With the *index*, 10 parts in 5 vols. Reprinted, *Lugd., Sl. Gryph.* 1530. fol. *Par.* 1534 or 46. fol. 9 parts in 4 vols.

9684 — opera omnia op. ac st. Mariani Victorii emendata ejusdemque argumentis et scholiis illustrata. Romæ, P. Manut., 1565-72. fol. 10 parts in 11 vols.

A new recension from many MSS. conformable to the Roman Catholic system of faith. Revised afresh by Victorius himself, *Antw., Plantin.*, 1578, 79. fol. 9 vols. Reprinted with some corrections, *Par.* 1608. fol. 4 vols., and with fresh corrections and enlargements, *Par.* 1643. fol. 9 vols. Ad. Tribbechovius's edition, *Ff. a. M. et Lps.* 1684. fol. 12 parts in 4 vols. is a reprint of the text by Erasmus, with the notes of Victorius and the Paris additions, but without the notes of Morell.

9685 — opera ad MSS. codd. nec non ad editt. vett. emendata st. et lab. monachor. ord. S. Benedicti (Ant. Pouget et J. Martianay). *Par., Roulland et Anisson*, 1693-1706. fol. 5 vols. Also on large paper.

Only part 1 is by Pouget, the rest are by Martianay, who was not equal to the task. Principally the text of Erasmus, neglecting

that of Victorius. The MSS. are here and there made use of: much is also wanting in the explanations, and those that are given are superficial. Against this edition appeared *Critique du livre des moines Benedictins, bibliothèque divine de S. Jérôme.* Col. 1699. 12°. *J. Clerici quæst. Hieronymiana.* Amst. 1700. 8°. Its continuation is in his *Bibl. chois.* XVII. 1 etc.

9686 — opera, post monachor. ord. Bened. recensionem denuo ad MSS. codd. nec non ad priores add. castigata, aucta, illustr. st. ac lab. Dm. Vallarsii. Veronæ, 1734-42. fol. 11 vols. Also on large paper.

A new recension, and as yet the best edition. Vallarsius possessed great knowledge of the subject-matter, but too little of the language to be a good critic. The edition, *Ven.* 1770. small fol. 11 parts in 15 vols. is occasionally corrected by Villarsius himself.

9687 — epistolæ, cum præf. J. Andreæ, episc. Aleriensis. Romæ, in domo Pt. de Maximis (*Sweynheym et Pannartz*), 13 Dec. 1468. large fol. 2 vols. with 46 lines.

The first edition. Vol. I. has 302 leaves. Leaf 1^a begins, *Sacrosanctam romanam ecclesiam*, and leaf 302^a ends *In secula seculi amen.* Vol. II. contains 329 leaves, and begins leaf 1^a (*a*) *Nte omnia munerā.*

9688 — epistolæ. Without place or date (*Arg., Mentelin*). large fol. Gothic letter.

223 leaves in 2 columns with 50 lines, without signatures, catchwords, and pagination. The first 2 leaves contain a table of contents. Leaf 3^a begins the text, and leaf 233^b column 1. line 36, ends it. In Brienne's copy (sold for 1200 fr.) two inscriptions were burnt into both covers with a hot iron, of which that on the reverse cover stated; *Per me Johannem Richenbach capellanum in Gyeligen iligatus est a. D. 1469.* This is probably the year also in which it was printed.

9689 — epistolæ. Mog., Pt. Schöffer, 7 Sept. 1470. large fol. 2 vols. Gothic letter.

Altogether 408 leaves in 2 columns with 56 lines. Vol. I. begins with an *Introductorium in epistolare b. Hier.*, which in some copies begins thus: *Omnes christianas religionis homines; in others thus, Omnibus ecclesiastici ordinis devotis zelatoribus.* The copies of this last sort are less fine. Copies on vellum, in the University library at Leipzig, in the libraries at Riga, Carls-

rube, and Munich, 1000 fr. Soubise, 1200 fr. M'Carthy, and a defective copy, 380 fr. Gaignat, and 400 fr. Vallière.

- 9690 — *epistolæ, cum præf. J. Andree Aler. Romæ, Sweynheym et Pannartz, 1470. fol. 2 vols.*

Vol. I. contains 300 leaves (the last of which is blank), according to Audiffredi and Panzer, and only 298 according to Braun and Santander. Vol. II. has 335 leaves. It is really a different impression from the edition of 1468. A copy on vellum was set down in a catalogue of the London bookseller, Edwards, of 1794, at 63l.

- 9691 — *epistolæ, ex rec. Thdr. Le-lii (not Mthi. Palmierii). Without place or date. fol. 2 vols. half Gothic letter.*

In 2 columns with 50 lines, without signatures, catchwords, and pagination. Vol. I. has 367 leaves. (The text of Jerome begins in the middle of leaf 21^a, with the line *IHI QUIDEM FIDELIS*, and vol. I. ends in leaf 367^b after the 19th line, *FINIS PRIME PARTIS*). Vol. II. has 438 leaves, and ends on the reverse of the last leaf with *VERITAS VINCIT*. IA. RV. Some persons have explained these last abbreviations by *Jac. Rubeus*, who printed at Venice from 1472 to 1481. *Vallière's Catal.* and *Schönmeyn Bibl. PP. lat.* I. 483 sq. consider it to be a typographical production of U. Han, at Rome in 1469, the last of whom (in this instance) very superficially, and with vain indecency, attacks that great judge Audiffredi, who ascribes it to Sixtus Rüßinger, at Naples, about 1474, with whose *Aurel. Victor.* (see above, No. 1404.) the types really bear a great resemblance, according to Dibdin, *Bibl. Spenc.* II. 203. Renouard also, *Cat.* I. 69. is of Audiffredi's opinion. The edition contains a recension different from that in the editions by Andreas, and has fewer letters. Both parts are seldom found together. *Ven., Bartolomei, 1476. fol.*, and *Parma (Ugoletus), 1480. fol. 2 vols.* are reprints of this recension.

- 9692 — *epistolæ. T. I. Romæ, Pannartz, 28 Mart. 1476. T. II. Romæ, G. Lauer, 5 Apr. 1479. fol. 2 vols.*

Both vols. really belong together. Pannartz died after the completion of the first part, and Lauer printed the 2nd part with Pannartz's types. The first part 9 leaves (*Andreas Ep. Hieron. vita et tab.*), 1 blank leaf and 291 leaves (the last a register), with 46 lines. The second part 7 leaves (*Andria Ep. et tab.*), and 301 leaves (the last a register) with 48 lines.

VOL. II.

Both without signatures, catchwords, and pagination.

- 9693 — *epistolæ et libri contra hæreticos stud. Mariani Victorii emendati ejusdemq. argumentis et scholiis illustrati. Romæ, P. Manut. 1566. 8°. 4 voll.*

The 4th vol. (scholia) has no separate title, and is frequently wanting. Reprinted, *Par. 1602. fol.*

- 9694 — *la reigle de dévotion des épistres de S. Jérôme à ses sœurs fraternelles de religion, transl. de lat. en fr. par Guy Juvenal. Par., Marnef, without date. 8°.*

A copy on vellum in the Royal library at Paris.

- 9695 — *lettres, trad. en franç. par Gu. Roussel. Par. 1704-7. 8°. 3 vols., or ib. 1743. 12°. 4 vols.*

Epistolæ traduc. en castellano por J. de Molina. Salamanca, 1532. fol. Gothic letter. Burgos, 1554. fol. Epistole vulgare. Ferrara, Lr. di Rossi, 1497. fol. Epistole trad. da Gi. Fr. Zeffi. Ven., Giunti, 1562. 4°.

- 9696 — *Hieronymus et Gennadius de viris illustribus (35 leaves). Idem de essentia divinitatis (5½ leaves). Th. de Aquino de articulis fidei et ecclesiæ sacramentis (10½ leaves). Augustinus de quantitate animæ (29 leaves). Idem de soliloquio (23 leaves). Speculum peccatoris (5 leaves). Libri IV de imitatione Christi (76 leaves). Errores Judæor. ex Talmut (4 leaves). Veritates pro probatione articulorum Christi (8 leaves). Processus judiciorum ipsius Mascaron pro curis tartarorum contra genus humanum (9 leaves). Donatus arte grammaticus homini in sui ipsius cognitionem per allegoriam confectus utilissimus (7 leaves). Liber de arte moriendi (21 leaves). AV., Gth. Zainer (about 1470). fol. Gothic letter, altogether 235 leaves.*

This statement is according to a complete copy (which is scarce) in the University library at Leipsic. At the beginning of which is to be found a leaf in oblong octavo, printed with the same types, in which the pieces contained in this collection are stated exactly in this order. Consequently the different order, in which

Denis enumerates them in the *Garell. bibl.* 232, is wrong. Consult also *Meusel Hist. lit. bibliogr. Magaz.* I. 58. The printer mentions his own name after the book *De imit. Christi*.—The book, *De viris illustr.* is best in *Fabricii Bibl. eccl.*

9697 — expositio in symbolum apostolorum. Ox. (without the printer's name), 17 Dec. 1468. small 4°. Gothic letter.

42 leaves (the last blank) with 25 lines, and the signatures *a-e*. The date is incorrect, and should probably be 1478. The correctness of the date is vindicated in *Some account of the book printed at Oxford in 1468, under the title of Expositio Sancti Jeronimi in symb. apost. (by Sm. Weller Singer), Lond.* 1812. 8°, only a few copies of which were printed. But Singer, according to Dibdin, *Bibl. Spenc.* IV. 351. was himself afterwards convinced of the contrary. With the same types, which are either Flemish or German, and without the printer's name, are also printed *Aristotelis Ethica*, Ox. 1479. 4°, and *Egidius de peccato originali*, ib. 1479. 4°. As these types are totally different from those of Rood and Hunt, the Oxford printers of that period, Dibdin (IV. 352.) therefore is inclined to conjecture that these 3 books could not really have been printed at Oxford.

9698 — volgarizzamento de' Gradi di S. Girolamo. Fir., Manni, 1729. 4°.

Cited by the academy della Crusca. The preface is by Gi. Bottari.—See also EUSEBIUS, FLORENTINI, VITÆ patrum.

9705 — (anon.) Fabulæ. Bononiæ, Ugo Rugerius, 3 kal. Oct. 1486. 4°. Gothic letter.

18 leaves, with the signatures *a-b*, and 30 lines in a full page. An hitherto unknown edition of the fables of the formerly so called *Anonymus Neveleti*, also containing the last two fables which are wanting in Neveletus, which Eschenburg had printed from a Wolfenbüttel MS. in *Lessing's Beitr.* V. 66. Earlier editions are mentioned above under *Æsopus*, Nos. 232-34 (which ought properly to have been placed here), and are also to be found in Nos. 235 and 220. Concerning the author, consult *Muratori Antig. Ital.* III. 914. *Lessing's Werke*, XI. 162 sq. *Schwabe* in the prolegomena to his 2nd edition of *Phædrus*, p. 171-8, and *Doen* in *Jen. Lit. Zeit.* 1812. *Inibl.* n. 34. S. 268 etc. On the whole his fables are nothing more than a versified Romulus, but they are remarkable as being the chief source of Boner's fables.

9725 HIPPOCRATES. Opera omnia (gr.). Ven., Aldus et And. Asulanus, m. Majo 1526. fol.

6 leaves of preliminary matter, 233 numbered leaves, and 1 leaf with the anchor. The first edition, fine and scarce, but incomplete and incorrect.

9726 — libri omnes ad vetustos codd. summo studio collati et restaurati (gr., edid. Jan. Cornarius). Bas., Froben. et Episcop., 1538. fol.

4 leaves of preliminary matter, 562 pages, and 1 leaf with the printer's symbol. Carefully corrected from 3 MSS. and from Galen.

9727 — opera quæ extant, gr. lat. Veterum codd. collatione restituta, novo ordine in IV. classes digesta, interpretationis lat. emendatione et scholiis illustrata a Hi. Mercuriali. Ven., ap. Juntas, 1588. fol.

4 leaves of preliminary matter, 19 pages, and 66 leaves of index. Then Vol. I. with a separate title, 2 leaves of preliminary matter, 374 and 48 pages. Vol. II.

2 leaves, 502, 95, and 40 pages. Corrected from MSS. (which however Mercurialis followed too anxiously) with learned notes. His *Censura in Hippocr. opp.* (which before had appeared by itself, *Ven., ap. Juntas, 1583. 4°.*) is printed in it.

9728 — opera omnia (gr. lat.) in VIII sectiones distributa, nunc recens lat. interpr. et annotatt. illustrata, Anutio Foesio autore. Acc. Palladii scholia gr. in librum περι άγνων, variæ lectt. gr., nec non quorund. in aliquot Hipp. libros obsa. Cum ind. quadruplici. Ff., hered. And. Wechelii, 1595. fol.

After the *index* and *register* 3 leaves of conjectures by Emil. Portus, and 1 leaf of errata ought to follow. A new and careful recension of the text from MSS., with a very good new translation, and important notes. Not finely printed. Repeated, *ib. 1621* (only a new title 1624) and 1645. fol.

9729 — (the same title) Huic ed. acc. Hippocr. libri de medicamentis purgantib. cum comm. J. Heurnii et de structura hominis, item Erotiani et dictionum Herodoti lexica cum Galeni glossar. Hippocratis explicatione etc. Genev., Sm. Chouet, 1657. fol.

Prized on account of the additions specified in the title. To this and the preceding edition may be joined, *Anutii Fasti æconomia Hippocr. Ff. 1588. fol., or Geneva, 1662. fol.*

9730 — opera omnia, gr. et lat. edita et ad omnes alias edd. accommodata. Industria et dilig. J. Antonizæ van der Linden. LB., Gæzbeck, 1665. 8°. 2 voll.

Fine, convenient, scarce, and very dear. But Linden indulged himself in the most arbitrary alterations from MSS. It contains also the pagination of all the earlier editions, and is divided into chapters for the first time. Linden died before the completion of his task, in consequence his son added the translation of Cornarius unaltered, which is not at all suitable to the text. A 3rd vol. (notes) has not appeared; yet it is reckoned in the series *cum notis variorum*. The reprint, *Neap. 1757. 4°.* 2 vols., contains only the Latin translation (not the Greek text).

9731 — et Galeni opera (gr. lat.) Renat. Charterius, plurima interpretatus, universa emendav., in-

staurav., notav., auxit, digessit et conjunctim edid. Par., Pralard, 1679. fol. 13 parts in 9 vols. Scarce on large paper.

A new recension from several MSS., arranged anew, and enlarged with some pieces of Palladius and Oribasius. But it is inconvenient for use, very incorrectly printed, and Chartier's corrections are often unhappy. The various readings are of no use, because the MSS. are not described. Complete copies are scarce, and the plates are sometimes wanting in the 2nd vol. The first 10 vols. appeared, 1638-54, which date some copies really have. After Chartier's death Blondel and le Moine added the last 3 vols., and a new title of 1679 was printed to all the 13 vols. Yet there are also copies of the 13th vol. with the date of 1638.

9732 — opera omnia cum variis lectt. non modo huc usque vulgatis, verum ineditis potissimum (gr. lat.). Acc. index Pini cum tract. de mensuris et ponderib. St. et op. St. Mackii. Viennæ Austr. 1743-49. fol. 2 voll.

Corrected from Vienna and Florence MSS.; but often unhappily. Unfinished.

9733 — Opera lat. ex Cornarii versione una cum J. Marinelli commentariis ac Pt. Mth. Pini ind. Ven. 1737-39. fol. 3 voll.

The first translation of several of the works of Hippocrates by Fabius Calvus, Roma, 1526. fol. A more complete collection after the translation of Calvus, Gu. Copus, N. Leonicensis, and And. Brentius, Bas. 1526. fol. By J. Cornarius, Bas. 1546. fol. Repeated after the above edition of 1737, in *Halleri Artis med. princ.* T. I-IV. (also with a separate title, *Lausann.* 1784. 8°. 4 vols.)

9734 — opp. (lat.), ex interpr. Anutii Foesii recudi curav., prolegg. præmisit verborumq. ind. adjecit J. F. Pierer. Altenb. 1806. 8°. 3 voll. (5 d. 8 gr., on writing paper 5 d. 18 gr.)

With a particularly good *notitia literaria*, to which in this article I am much indebted. The following is scarce and remarkable on account of the celebrity of the editor in other respects; *Hipp. ac Galeni libri aliquot (lat.) ex recognit. Fr. Rabellii. Lugd., Sb. Gryph., 1532. 16°.*

9737 — Werke aus dem Griech. übs. u. mit Erläutt. von J. F. C. Grimm. Altenb. 1781-92. 8°. 4 voll. (6 d. 22 gr.) The following is only an extract of the most important part of this translation; Hippocr. des Zweiten echte medic. Schr. ins Deutsche übs. von Fr. von Paula Gruithuisen. Münch. 1814. 8°.

9738 — XXII commentarii tabulis illustrati. Græcus contextus ex doctiss. VV. codd. emendatus. Latina versio Jani Cornarii corrigitur. Sententiæ insignes per locos communes digestæ Thdr. Zwingeri studio. Bas., Episcop., 1579. fol.

Zwinger in this edition has corrected the text of some of the pieces of Hippocrates, and the translation of Cornarius, and has added good annotations.

9739 — opuscula aphoristica semeiotico-therapeutica VIII una cum jurejurando, gr. lat. (ed. J. Rdf. Zwinger). Bas. 1748. 8°. Therein, (Ejusd.) speculum Hippocraticum, notas et præsagia morbor. etc. ex Hippocr. monumentis ordine alph. ob oculos ponens. ib. 1747. 8°.

9740 — jusjurandum, aphorismi, prognostica, prorrhetica, coeca præsagia. Græcus et latinus contextus accurate renovatus cura J. Obsoepoi. Ff. 1587. 12°.

A very interesting collection, and greatly sought after, to which the *Notices et extraits* (see below) may be annexed. The

first 4 vols. were printed afresh in 1736, and no distinction is made in France between the reprint and the original edition, yet the reprint is less fine, and its pagination is different from that of the original edition, to which the index is adapted: consequently the original edition has certainly an important advantage. Incomplete copies may easily be completed in France (from 15 to 18 fr. per vol.), if the very scarce vols. 33-35 are not wanting. The last 4 vols. cost 80 fr. in sheets. The edition, *Haye et Par.* 1719-81. 12°. 102 vols. goes only as far as 1776, and contains only 41 vols. of the 4° edition. It is thus divided; *Histoire*, 19 vols. *Mém.*, 81 parts in 83 vols.

Choix des mém. de l'ac. des i. et b. l. Lond. 1777. 4°. 3 vols. goes only as far as 1763.—*Geschichte der K. Akad. der Auf-schrift. u. sch. Wiss. zu Par.*, aus d. Franz. (von L. Adelg. Vict. 19. *Mémoires de mathém. et de phys. présentés à l'ac. d. sc. par divers savans (étrangers).* Par. 1750-86. 11 voll.
20. *Recueil des pièces qui ont remporté les prix de 1720-72.* Par. 1752 etc. 9 voll. Scarce. These 9 vols. with the exception of the 6th, consist merely of single *Mémoires*, and must therefore be collated by the table prefixed to the 9th vol.
21. *Recueil de machines approuv. par l'acad. depuis son établissement, jusqu'en 1754, dessin. et publ. par Gallon.* Par. 1735-77. 7 voll.

This very important collection has some time since been less sought after in France. Incomplete copies have little value, especially if the first 6 vols. of No. 20 are wanting, which alone form a quarter of the price. Of the first 14 vols. there is a less fine Dutch reprint.

The edition, *Amst.* 1706 etc. 12°. 170 vols. and 6 vols. of index (the last of which goes as far as 1770, and appeared in 1779) goes up to 1778; but it is not prized, because not only many treatises are omitted, but also Nos. 19-21 and the rest of the series are altogether wanting. — *Physik. chem. Colomb; vol. 9. in part by Rivet, edited by Taillandier; vol. 10. Charl. Clémencet; vol. 11. principally by Clémencet, edited by Fr. Clément; vol. 12. Fr. Clément; vol. 13-15. Pastoret, Brial,

Ginguéné and Daunou. For a history of the work see *Müllin Mag. enc.* 1814, IV. 454.

Not prized.

9793 HISTOIRE naturelle des plus rares curiositez de la mer des Indes. T. I. II. The second title is, Poissons, écrevisses et crabes de diverses couleurs et figures extraordinaires, que l'on trouve autour des isles Moluques, et sur les côtes des terres australes. Ouvrage divisé en deux tomes, dont le premier a été copié sur les originaux de Baltazar Coyett; le second tome a été formé sur les recueils de Adr. van der Stell. Amst., donné au public par L. Renard, without date. fol. 2 parts in 1 vol. with 43 and 57 illuminated plates.

Part I. contains 1 half-title; 1 principal title; 1 leaf, dedication; 1 leaf, *avertissement et témoignages* (these last are of 1718); 1 leaf, *declaration*; and 43 illuminated plates with the signatures *a-uu*. Part II. contains 1 half-title; 57 illuminated plates with the signatures *a-Kkk*; and 2 leaves, *table alphab. des noms*. The work is without a date, and the year 1718, specified in several French catalogues, is only taken from the prefixed *temoignages*: the work, however, as appears by the notice in the *Leips. gel. Zeit.* 1719, p. 225, really did appear in 1718, or at the latest in the beginning of 1719, and Brunet's doubts, arising from Vosmaer's preface, are unfounded, as this preface only belongs to the second edition. According to the *Gött. gel. Anz.* 1816, I. 802, the following is the history of the work. The Dutch governor of Amboina, van der Stell, had caused the Indian fish to be painted, certainly with vividness of colouring, but far from being faithful according to nature, by a Dutch painter, Sm. Fallours, who had been sent for to India for this purpose. This collection came into the hands of L. Renard, the English resident at Amsterdam, who sent them to king George I, by whom they were made a present to the library at Hanover. Some years after this, in 1718, Renard had a small impression of only 100 illuminated copies of this work on fishes printed, together with another which Coyett, the governor

of the Moluccas, had caused to be undertaken; and from these plates impressions were again taken in 1745, both plain and illuminated, with a preface by Vosmaer. This new edition has the same title with the addition, *Augm. d'une préf. par Arnout Vosmaer. Amst.* 1754. fol. in 1 vol. with 43 and 57 plates.

The translation is not fine, but more faithful than the following, and unmutilated.

9806 — la même hist. univ., nouvellem. trad. en franç. (ou plutôt retouché par le Tourneur, Dussieux et autres). Par. 1779–91. 8°. 126 vols. with plates.

9807 HISTOIRE univ. de tous les peuples du monde ou hist. des hommes (par Delisle de Sales, Mayer et Mercier). Par. 1779–85. 8°. 53 vols. and 112 maps and plates in 2 or 3 vols. in fol.

At the same time also in 12°. 53 vols. and 3 vols. atlas in 4°. But the explanation of the plates only exists in 8°.

9808 HISTOIRE du V. et du N. Test. (par D. Martin). Anvers (Amst.), Pt. Mortier, 1700. large fol. 2 vols. with plates. Also with Dutch text, ib. 1700. large fol. 2 vols. with plates. Also on large paper.

This work, known under the name of *Bible de Mortier*, is sought after on account of the plates. In order to have good impressions, it is necessary to choose those copies whose prints were struck off before the last plate of the Apocalypse, vol. II. p. 145, was broken. The copies printed after this accident may be known by the impression of the rivets, by which the plate is joined together again, in the middle ornament. The copies are consequently distinguished *avant* or *avec les clous*. The copies with the Dutch text are said to contain the first impressions: this however is only true of some copies.—Similar works see under BASNAGE and SAURIN.

9810 **HISTORIA** delle cose occorse nel regno d'Inghilterra, in materia del duca di Notomberlan dopo la morte di Odoardo VI. Nell' acad. Venetiana, 1558. 8°. 60 leaves.

Very scarce. The preface only is by Luca Contile.

33 leaves (the last blank), with the signatures a–d. On either side an illuminated woodcut, and under each a Dutch verse of 4 lines. Leaf 1b commences, *Seth lieve some wilt my wel verstaen*. The entire poem printed with an English translation and facsimile of 7 woodcuts in Dibdin, *Bibl. Spenc.* III. 350 sq. Lord Spencer's copy is the same which Gockinga and Crévénna (60 Dutch florins) had previously possessed.

9812 **HISTORIA**, quomodo b. Franciscus petivit a Christo indulgentiam pro ecclesia s. Mariæ de Angelis. In Trevis (J. Renardi), 1470. fol.

The first book printed at Trevi in Italy, and exceedingly scarce.

9813 **HISTORIA** s. providentia b. virginis Mariæ ex cantico canticorum. Without place or date. small fol.

16 leaves, printed only on one side. Each leaf contains 2 woodcuts, with a Latin explanation in Gothic letter, which are introduced into the woodcuts themselves in the form of an unrolled paper. Dibdin, *Bibl. Spenc.* I. p. XLII. considers this German (not Dutch) production as printed from metal, not from wood (440 fr. Crévénna, 402 fr. Verdussen, 590 fr. Brienne).

9814 — **historia** b. Mariæ virg. ex evangelistis et patribus excerpta et per figuras demonstrata. Without place or date. small fol.

16 leaves, printed only on one side. The first 2 tables represent the 4 evangelists, each of the rest contain 4 representations from the history of the Virgin Mary, and only 1 table contains 3 representations. A copy in the Royal library at Paris (previously 352 fr. Gaignat, and 1560 fr. M'Carthy). This work is entirely different from the preceding.

A title made only by myself. Privy Counsellor Nagler in Berlin possesses in his rich collection a woodcut work of 8 leaves in oblong fol. about the conception of the Virgin Mary. Each page has 8 woodcuts (excepting the first, which has only 4) with superscriptions. On the first page, underneath, there is, ff. 2a. 1470 (F. Walter: see *Panzer's Deutsche Ann. Suppl.* p. 31. n. 3). The paper has the symbol of an ox's head.

Boni Accursii). Mediol., Ph. de Lavagna, 10 cal. Jan. 1475. fol. 3 parts in 1 vol. 208 leaves with 40 lines.

The first edition (as *Mediol.* 1465 is a nonentity), and very scarce, with the signatures *A-S* and *A-F*, which however are placed so far below, that they are commonly cut away. At first 4 leaves, letter of Accursius, verses of Ausonius on Suetonius, and Calderinus's life of Suetonius. Part I. contains Suetonius: part II. from Spartianus to Vopiscus: part III. Very scarce, particularly in good condition. An Aldine of 1511 is only a falsified copy of the edition of 1519: see *Renouard Catal.* IV. 108.

There are also copies without any text, in which the plates have a better appearance. The verses under the portraits are by Arn. Buchelius.

9923 — (*anon.*) *baziliologia, a book of kings, being the true and lively effigies of all our English kings from the conquest untill this present.* (*Lond.*), printed for H. Holland, 1618. small fol.

Extremely scarce, and containing, according to Brunet, 1 title-plate, and 24 portraits, without any text. According to Dibdin it contains 29 plates, including the title-plate. A copy was sold in London in 1811 by a lottery, which produced 601l. 12s. 6d. Concerning both works, see Dibdin *Decam.* I. 281 sq.

9924 HOLLAR, Wencesl. Ornatus muliebris Anglicanus a Wenc. Hollar incisus. Lond. 1640. 8°. 26 leaves.

Very neat. Hollar's productions are extraordinarily sought after in England.

9926 HOLLINSHED, Ralph. Chronicles, comprising the description and historie of England, Ireland, and Scotland. Lond. 1587. fol. 3 parts in 2 vols. Gothic letter. Also on large paper.

A very scarce edition of a work greatly prized in England, complete copies of which, with the *castrations* (that is, with the pages 1491-1536, which are usually wanting, and which in consequence were subsequently reprinted), are greatly sought after (18 guineas and 31l. 10s. at the Roxburgh sale). The first edition, Lond. 1577. fol. 2 vols. Gothic letter with woodcuts, is cheaper. A new edition of the entire work, id. 1807. 8°. large 4°. 6 vols. (12 guineas).

9933 HOMERUS. 1. *Opera*. Opera, gr. ex rec. Demetr. Chalcondylæ; acc. Herodoti et Plutarchi vitæ Homeri, et Dionis or. de Homeri laudibus. Flor., labore et industria Demetrii Cretensis, sumtib. Bn. et Nerii, Tanaid. Nerlii filior., 9 Dec. 1488. fol.

At first 41 leaves of preliminary matter (2 prefaces, *Herod. et Plut. vita Hom., Dionis or.*), with the signatures *A-E*, next 1 blank leaf, then 208 leaves containing the *Iliad*, with the signatures *A-Z*, and 3 other signatures at the end; 189 leaves of the *Odyssey*, *Batrach.* and hymns, with the signatures *AA-ETET*. Without catchwords and pagination, with 39 lines. Leaf 1a begins, *Bernardus Nerlius Petro Medica Laurentii Filio S.*

The first edition and very fine, but far less scarce than other typographical productions of that period. From good MSS., but not the best, and forming as a first edition an excellent foundation for the text of Homer. Demetrius Cretensis was only the printer, not joint editor, and the types are the same as in the Greek psalter of Milan of 1481. It is also often bound in 2 vols. (the 2nd from the *Odyssey* onwards). An uncut copy was bought at de Cotte's sale for 360l. fr. for the Royal library at Paris. Also copies on vellum; a complete one in St. Mark's library at Venice (for a time at Paris), two defective copies in the Maglia-

bechian library, and Mr. Dent of London possesses only the 2nd vol. on vellum.

- 9934 — opera (gr., cum vita ejus ex Herodoto, Dione et Plutarcho). (Ven., Aldus, 1504). 8°. 2 voll.

The Iliad, 277 unnumbered leaves, and 1 blank leaf. The Odyssey, &c. 250 leaves. Homer's life in 56 leaves is sometimes found in the 1st vol. and sometimes in the 2nd. This edition has not the usual colophon; it is consequently often mentioned without a date. The year 1504 is the date of the preface to the Odyssey. It is a very scarce reprint of the preceding edition, retaining most of its errors, yet sometimes with corrections, which (according to Heyne) appear to be from a MS. Copies on vellum were sold at Askew's sale for 16 guineas, and at Vallière's for 391 fr. By means of Larcher's copy on vellum, bought for 2900 fr., lord Spencer and the duke of Devonshire made their copies complete. Also the Royal library at Paris, and that of the king of England, possess copies on vellum.

- 9935 — Opera (gr., cum eadem vita). Ven., Aldus et And. Asulanus, m. Jun. 1517. 8°. 2 voll.

56 leaves, *vita*, 278 leaves, and 1 blank, Iliad; 251 leaves, and 1 leaf with colophon, *register*, and anchor, Odyssey. Better printed and more scarce than the preceding, and more correct than the Aldine of 1524. Much is altered in this edition by some unknown person from a MS., sometimes unhappily, and there are typographical errors also. The following editions, until the Roman edition of 1542, contain sometimes the text of the 1st Aldine, sometimes that of the 2nd, and sometimes a text of the two combined.

- 9936 — Ilias. Ulyssea. Batrachomyomachia. Hymni XXXII (gr.) Flor., hered. Ph. Juntæ, Cal. Oct. 1519. 8°. 2 voll.

The 1st vol. (with the preface of Ant. Francinus) has 2 leaves of preliminary matter, 294 leaves, Iliad, and 64 leaves, *vita*. The 2nd vol. 280 leaves. A very scarce reprint of the preceding edition, with its errors only seldom corrected. Ernesti confounded it with the Junta edition of 1537, since he praised it as very correct. The Iliad only is at Dresden.

- 9937 — Ilias. Ulyssea. Batrachomyomachia. Hymni XXXII (gr.) Lovanii, Theodoric. Martin. Alo-stensis, 1523. 4°. 2 voll.

The Iliad appeared in 3 single pieces, and complete copies (especially of the Iliad)

are extraordinarily rare. The text is from the 2nd Aldine, sometimes corrected from the 1st, and in some passages, from the *editio princeps* of 1488. Valckenær incorrectly attributed to it an independent value.

- 9938 — opera (gr.). Ven., Aldus et And. Asul., m. Apr. 1524. 8°. 2 voll.

The number of the leaves is the same as in the Aldine of 1517, of which it is principally only an incorrect reprint.

- 9939 — 'Ιλιάς. 'Οδυσσεΐα. Βατραχομυομαχία. Ὕμνοι (gr.). Arg., Wolf Cephalæus, 1525. 8°. 2 voll.

Very scarce, and superintended by J. Lonicus. An impression of the 2nd and 3rd Aldines, with which it agrees in the pages, but also compared with the Florence edition of 1488 and the 1st Aldine, the various readings of which are given at the end.—The Upsal catalogue has, besides this and the following edition, also a Greek edition, Arg. 1530, which no one knows. The pretended Basle editions of 1531 and 33 are nonentities.

- 9940 — — (the same title). Arg., Wolf Cephalæus, 1534. 8°. 2 voll.

An unaltered reprint, as it appears, of the preceding. The *vetusta quad. exemplaria* in the printer's preface are probably mere idle boasting. The 1st vol. 277 and 2 leaves. The 2nd 251 numbered, and 5 unnumbered leaves, and 56 leaves, *vita*.

- 9941 — Ilias et Ulyssea, cum interpretatione (Didymi, gr.). Variæ lectionis in utroque opere annotatio. Bas., J. Hervag., 1535. fol.

4 leaves of preliminary matter, 410 pages, 1 leaf, printer's symbol, 284 pages, and 2 leaves. A reprint of Arg. 1525 or 35, with all their faults, and sometimes with fresh errors. The same is the case with the various readings. *Didymi scholl.* are printed from Aldus's edition of the same of 1521.

- 9942 — Ilias. Ulyssea. Batrachomyomachia. Hymni XXXII (gr.). Lovan., Rutgerus Rescius, 1535. 4°. (not large 8°) 2 voll.

Both vols. together are scarce. Only an impression of Lovan. 1523.

- 9943 — Ilias. Odyssea. Batrachomyomachia. Hymni XXXII (gr.). Eorundem multiplex lectio. Ven., Luc. Ant. Junta, m. Mart. 1537. 8°. 2 voll.

Fine and very scarce, particularly the Iliad. (In Dresden only the Odyssey, &c.)

The 2nd vol. contains 250 numbered leaves, and 1 unnumbered, and 56 leaves, *vita*. Superintended by Ant. Francinus. On the whole the Juntine text of 1519, but more correct, although the *vetusta et magis fide digna exemplaria* in the preface are not to be understood of MSS. Only the edition, *Arg.* 1525, has been made use of, although not even that every where, nor faithfully, from which also the appended various readings are taken. These various readings form a separate part of 56 leaves, and are sometimes found with the *Iliad*, sometimes with the *Odyssey*, but are also often wanting. The edition has nothing peculiar.

- 9944 — *Opus utrumque Iliados et Odysseæ* (gr.), diligenti opera Jac. Micylli et Jo. Camerarii cognitum. Porphyrii Homericar. quæstionum liber. Ejusd. de nymphar. antro opusculum. Bas., J. Hervag., 1541. fol.

12 leaves of preliminary matter, 394 pages, 1 leaf, printer's symbol, and 237 pages. The text of the Basle edition of 1535 is corrected, yet however this edition has nothing peculiar. With scholia.

- 9945 — *Ilias. Odyssea. Batrachomyomachia. Hymni XXXII* (gr.). *Eorundem multiplex lectio.* Ven., J. Farreus, 1542. 8°. 2 voll.

A very scarce reprint of the Junta edition of 1537, even with its errors, excepting that something is sometimes taken from the Aldine of 1504. The various readings were wanting at least in Heyne's copy.

- 9946 — (the title the same as No. 9939). *Arg.*, Wolf Cephaleus, 1542. 8°. 2 voll.

Vol. I. 277 and 3 leaves. Vol. II. 251 and 5 leaves, and 56 leaves, *vita*. It appears to be a reprint of *Arg.* 1525 (not 1534).

- 9947 — *Ευσταθίου ἀρχιεπισκόπου Θεσσαλονικῆς παραβολαὶ εἰς τὴν Ὅμηρου Ἰλιάδα καὶ Ὀδυσσεΐαν.* (*Ilias et Odyssea, cum Eustathii commentariis*, gr. Edid. N. Majoranus, cum ind. Mth. Devarii). Romæ, Ant. Bladus et socii, 1542–50. fol.

Collation according to the very fine Dresden copy. Vol. I. 2 leaves of preliminary matter and 620 pages. Vol. II. p. 621–1376. Vol. III. p. 1377–1970 (the title-leaf reckons for 1377 and 78). Vol. IV. 6 leaves of preliminary matter (the 6th blank), then the signatures, 1–34, each of 6 leaves (the last leaf of the last signature

is blank). In other copies, such as Brunet and Deburæ describe, vol. I. has 5 leaves of preliminary matter, vol. II. a Greek title and 1 leaf of preface, and vol. IV. no preliminary matter. It is easily seen that this comes to the same thing. The collected preliminary pieces were probably first published in 1550 with the 4th vol. Many possessors of this edition had their preliminary pieces bound in that part to which they belong; others had them bound up in the 4th vol.

A fine, very scarce, and important edition, which besides having Eustathius printed with it for the first time, also evidently contains a new text of Homer, corrected from MSS., which often even deviates from Eustathius's explanation, although the Aldine of 1517 forms the groundwork. The impression of the 1st vol. was larger than that of the 3 following vols., and the 1st vol. is in consequence often met with by itself. A copy of all 4 vols. on vellum in the Royal library at Paris (formerly belonging to the Vatican, to which library, as I hear, it has not been restored). Only the 1st vol. on Vellum 144 fr. Vallière, 80 fr. M'Carthy.—*Gi. Andres De' commentarij d'Eustasio sopra Omero e di traduttori di essi.* Without place or date (1813–16). 4°. 32 pages.

- 9948 — *opera* (gr.). Ven., Pt. de Nicolinis de Sabio, 1547. 8°. 2 voll.

Probably the same may be said of it as of the edition, *Ven.* 1551.

- 9949 — *Ἰλιάς. Ὀδυσσεΐα. Βατραχόμ. Ὕμνοι* (gr.). *Ἐκ τῆς τεταρτῆς ἀναγνώσεως.* Cum ind. nunc prim. adjecto. *Arg.*, Wolf Cephaleus, 1550. 8°. 2 voll.

With a preface by J. Guinterus Ander-nacus. A reprint of *Arg.* 1542.

- 9950 — *Ilias. Odys. Batr. Hymni XXXII* (gr.). *Omnia nova recognitione castigata.* Ven., Pt. de Nicolinis de Sabio, sumtu Mlch. Ses-sæ, 1551. 8°. 2 voll.

A reprint of *Ven.* 1542 with its errors. The Roman edition of 1542 is only made use of in some places.

- 9951 — *opus utrumque Iliados et Odysseæ op.* Jac. Micylli et Jo. Camerarii cognitum, cum scholiis gr. Adjecta est ejusd. batrachomyomachia. Porphyrii Homericar. quæstionum liber. Ejusd. de nymphar. antro opusc. *Omnia* gr. Bas., Hervag., 1551. fol.

In the *Iliad* the best readings from the

edition of Turnebus, 1554, are given in the margin. The *Batrachomyomachia* is added.

9952 — *Omnia opera gr., adjecta vers. lat. ad verbum ex diversis translatt. concinnata. Acc. quoque auctoris vita et rer. verborumq. index.* Bas., N. Bryling et Bm. Calybæus, 1551. fol.

6 leaves of preliminary matter, 292 pages, 4 leaves, and 317 pages. Only the text and translation without the scholia. It is not much known, and must not be confounded with the preceding. *Ib., ibid.*, 1553. fol. is only a new title.

9953 — *copiæ cornu s. oceanus enarationum Homericar., ex Eustathii in eundem commentariis concinnatar., Hadr. Junio auctore (acc. Ilias et Odys., gr.).* Bas., Froben et Episcop., 1558. fol.

4 leaves of preliminary matter, 571 and 360 pages, 44 leaves, index and printer's symbol. An unsuccessful selection of the best of Eustathius's commentary.

9954 — *opera cum comment. Eustathii (gr.).* Bas., Froben, 1559-60. fol. 2 parts in 3 vols.

Part I. (in 2 vols.) has without the preliminary pieces 1519 pages; and part II. 847 pages, and 65 leaves of index. A reprint of the Roman edition of 1542, but instead of Devarius's index, a much shorter one by Sb. Guldenbeck is given. Well printed, and not without value.

9955 — *Ilias. Odys. Batrach. Hymni (gr.). (Genevæ), J. Crispinus Atrebatius, 1559-67. 12°. 2 voll.*

Neat, and scarce in good condition. The *Iliad* is only a reprint of the text of Turnebus, 1554, with some corrections from the Roman edition of 1542. Yet in the printing a Basle edition seems to have been used, from which errors have passed into this edition.

9956 — *Ilias. Odys. Batr. Hymni (gr.) lat. versione ad verbum e regione apposita. (Genev.), J. Crispinus Atrebatius, 1560-67. 12°. 2 voll.*

The text is that of the preceding. Equally neat and scarce. The reprints of 1570 and 86 are of less value.

9957 — *opera græco-latina omnia. In hæc operam suam contulit Sb. Castalio. Bas., Brylinger, 1561. fol.*
10 leaves of preliminary matter, 292 and

317 pages. The text that of No. 9955 with some corrections, particularly in the *Odyssey*.

9958 — *Ἰλιάς. Ὀδύσσεια. Βατρ. Ὕμνοι. Ἐκ τῆς πεμπτῆς καὶ ἐπιμελεστέρας ἀναγνώσεως (gr.).* Cum ind. adjecto. Wormatiæ, hered. Cephalæi, 1563. 8°. 2 voll.

A reprint of *Arg.* 1560 on worse paper.—1566 in *Stephani Poet. Græc.* in the *Iliad* principally after Turnebus, though compared with 18 earlier editions and 1 MS., but superficial. Stephens followed for the first time certain principles with respect to the particles and prepositions.

9959 — (the title the same as No. 9957). Bas., Brylinger, 1567. fol.

10 leaves of preliminary matter, 292 and 317 pages. The text is printed from Stephen's recension.

9960 — *omnia ejus quæ exstant opera (gr. l.). Stud. et cura Oberti Gifanii quam emendatissime edita cum ejusd. scholiis et indd. novis. Arg., Theodos. Rihel, without date (1572). 8°. 2 voll.*

Stephens's text, with the addition of the translation from No. 9956. The various readings in the margin are from Stephens. Gifanius's annotations and indices are hastily done. The dedication is dated 13 cal. Apr. 1572. The Dresden library possesses 3 different editions under the above title. I take that to be the first, the 1st vol. of which has 893 pages besides the unnumbered leaves, and the 2nd 827 pages, and in which the dedication has the above date. It is tolerably neatly printed. In the 2nd edition the year is omitted under the dedication; vol. I. has 913 pages, and vol. II. 837. It is in large 8°. in larger characters, and likewise tolerably sharp and clean. In the 3rd the date of the dedication and the pagination are the same as in the 1st, but it is upon bad paper, and slovenly printed with blunted types.

9961 — *Quæ exstant omnia (gr. l.), præter operam Sb. Castalionis nunc ad postremam Stephani ac alior. quorund. editionem collata. Acc. Plutarchi liber de Homero. Bas., Brylinger, 1582. 8°. 2 voll.*

9962 — *quæ extant omnia (gr.) cum lat. vers., aliquot jam locis castigatiore. Perpetuis item justisque in Iliada et Odysseam J. Spondani commentariis, Pindari Theb. epitome Iliados latinis versibus, et*

Daretis Phrygii de bello Troj. libri a Corn. Nepote latino versi carmine. Indices Homeri textus et commentarii. locupletissimi. Bas., Euseb. Episcopus, 1583. fol.

499 pages, 14 leaves, 380 pages, and 12 leaves. The text from Bas. 1567. The first edition in which any thing was done for the explanation of the subject matter. Repeated, Bas., Sb. Henricpetri, 1606. fol. Bas. 1686. fol. is only a new title to this last. Geneva. or Col. Allobr. 1606. fol. is perhaps likewise only a new title.

9963 — Ilias et Odyssea, alia item carmina ejusd. (gr.), cum interpretat. lat. repurgata. Adjecti Homericæ centones, item proverbialium Homeri versuum libellus. Without place (*typis H. Stephani*), 1588. 12°. 2 voll.

Correctly printed. The translation is corrected. There also appear to be copies with the year 1589.

9964 — opera gr. l. Excud. P. Stephanus, 1604. 12°. 2 voll.

The Centones are omitted, but *Coluthus*, *Tryphiod.*, and *Indices* are added.

9965 — opera (gr.) una cum Colutho et Tryphiod. Ap. J. Vignon, 1609. 12°. 2 voll.

9966 — eadem (gr.) cum Æm. Porti lat. interpr. Acc. ejusd. prolegg. Ap. J. Vignon, 1609. 12°. 2 voll.

This as well as (*Genev.*), *Jac. Stoer*, 1617. 12°. 2 vols. and (*ib.*), *Mt. Berjon*, 1621. 16°. 2 vols. are only reprints of No. 9964.

9967 — opera gr. l. ex ed. H. Stephani. Ed. postrema, diligenter recogn. per J. T. P. Par., Libert, 1622–24. 8°. 2 voll.

A reprint of No. 9963. Not common.

9968 — opera (gr.) cum interpr. lat. Acc. Homeri centones et proverbialium Homeri versuum libellus. Ed. postrema diligenter recogn. a J. T. P. Amst., Laurentius, 1648 (also, Amst., Ravestein, 1650). 8°. 2 voll.

The text of the preceding.

9969 — Ilias et Odyssea, et in easd. scholia s. interpretatio Didymi (gr.). Cum lat. vers. indiceque græco rerum ac variantium lectt. Accurante Corn. Schrevelio. Amst., Elzevir

(other copies, LB., Hack), 1656. 4°. 2 voll. Very scarce on large paper.

Very fine. The text after Turnebus and Stephens, but very incorrect, with Giphanius's translation corrected. The scholia are arbitrarily mutilated and interpolated by Schrevelius. Bitterly censured in *Mercii Casauboni De nupera Homeri edit. Lugd. Bat. diss. Lond.* 1659. 8°; also in *Casauboni Epp. Rot.* 1709. fol. p. 157–182. The large paper copies are very difficult to be distinguished from the small paper. Caillard's copy on large paper (sold for 451 fr.) is 9 French inches high, and 7 inches 1 line broad. 13 guineas the duke of Marlborough.

9970 — Ilias et Odyssea, gr. l. Cbr., Field, 1664 (other copies, 1665). 8°. 2 voll.

A reprint of No. 9967.

9971 — opera gr. l. Græca ad principem H. Stephani ut et ad primam Dem. Chalcondylæ edit. atque insuper ad codd. MSS. sunt excussa. Ex latinis selecta sunt optima etc. Curante J. H. Lederlino et St. Berghero. Amst., Wetstein, 1707. 12°. 2 voll.

A neat small edition; in other respects nothing but Stephens's text, without even its errors being corrected. More correct than the edition of 1743. Reprinted, *Patavii*, 1744, or 62, or 77. 8°. 2 voll.

9972 — Ilias et Odyssea (gr. l.) et in easd. scholia s. interpretatio veterum. Item notæ perpetuæ in textum et scholia, variæ lectt. etc., cum vers. lat. emendatissima. Acc. batrachom., hymni et epigrammata una cum fragmentis, et gemini indd. Totum opus cum plurimis MSS. et opt. edit. collatum, auctum, emendatum et integritati restitutum. Op., stud. et impensis Josuæ Barnes. Cbr., Crownfield, 1711. 4°. 2 voll.

Stephens's text, printed from Schrevelius's edition, after having been compared with several MSS. and old editions. But the various readings are very uncertainly indicated, and are mixed with the editor's own conjectures. Barnes has also dealt with the scholia in a very arbitrary manner. But his edition has the merit of a more accurate prosodiacal examination of the text. The translation is corrected.

9973 — Ilias, gr. lat. Annotatt. scrip-

sit atq. edid. Sm. Clarke. Lond. 1729-32. 4°. 2 voll. (Ed. II. ib. 1754. 4°. 2 voll.)—*Odyssea*, item *batrachom.*, *hymni et epigr.* *Homero vulgo adscripta*, gr. lat. Edid. annotationesque ex notis nonnullis MSS. a Sm. Clarke relictis partim collectas adjec. Sm. Clarke (fil.). Lond. 1740. 4°. 2 voll. Very scarce on large paper.

Barnes's text, with some corrections, but not from MSS. Excepting the really useful annotations, the editor has given little more than Barnes, whose various readings he has not even once introduced accurately enough into his own edition. The translation is corrected. The 2nd edition of the *Iliad* of 1754 is indeed enlarged with the Greek scholia, but it is less fine and less correct. There is only one edition of the *Odyssey*, and that of 1754 is a mistake.

9974 — *Eustathii commentarii in Homeri Iliadem* (gr.). Alex. Politus nunc prim. lat. vertit, rec., notis perp. illustravit. Acc. notæ Ant. Mar. Salvini. Flor., Paperini, 1730-33. fol. 3 voll. Also on large paper.

Unfinished, and containing only books 1-5. It was intended to be in 10 vols.

9975 — *opera* gr. lat. Juxta ed. Sm. Clarkii. Amst., Wetstein, 1743. 12°. 2 voll.

Properly only an incorrect impression of No. 9971, and not Clarke's text. Neat.

9976 — *opera* gr. l. ex ed. Sm. Clarke (cur. J. L. Lebeau). Par., Brocas, 1747-48. 12°. 2 voll.

Also, *ib.* 1750. 12°. 2 voll.

9977 — *Ilias et Odyssea*, gr. Ox., th. Sheld., 1750-58. 8°. 2 vols. Also on large paper.

9978 — *opera*, gr. Glasguae, Rb. et And. Foulis, 1756-58. small fol. 4 voll. Also on large paper.

Clarke's text. Fine, and correctly printed, as each sheet was corrected 6 times over.

9979 — *opera omnia* ex rec. et cum notis Sm. Clarkii, gr. lat. Acc. varietas lectionum MS. Lipsiensis et edd. vett. cura J. A. Ernesti, qui et suas notas adpersit. Lps., Georgi, 1759-64. large 8°. 5 vols.

(10 d. 16 gr.) Very scarce on writing paper.

Ernesti has added to this complete impression of Clarke's edition, the various readings of the Leipzig MS. and of the old editions. Clarke's notes are sometimes enlarged, and the 5th vol. is furnished with his own. *Riccius Dissertat. Homer. Lps.* 1784. large 8°. (1 d. 16 gr.) may be added to it as a 6th vol.

9980 — *opera* gr. l., ex ed. Sm. Clarke. Lond. 1760-68. 8°. 4 voll.

9981 — *opera omnia cum scholiis pseudepigraphis Didymi* (gr.). Ox., typ. Clarend., 1780. 8°. 4 parts in 2 vols. Also on large paper.

9984 — *Ilias et Odyssea*, gr. Ox., typis academicis, 1800. small 4°. 4 vols. (1l. 10s.)

Clarke's text corrected from Ernesti, Vilkinson's edition, and an Oxford MS. At the end of the *Odyssey* are the various readings of a Harleian MS. on 88 separate pages, done for it by Porson: yet Porson had no part in the edition. The edition was prepared at the cost of three brothers, the marquiss of Buckingham, baron Grenville, and Thomas Grenville; and (according to Brunet) Th. Grenville, Randolph, Cleaver, and Rogers undertook the more immediate superintendence of it. Only 50 copies were struck off on large vellum paper, which are enlarged with 3 plates, and were only made presents of by the editors. The Dresden library possesses one of these copies. They are so costly, that one was sold at Porson's sale for

87l 3a., and a 2nd for 99l. 15s. at a London sale in 1804.

A fine and correct reprint of Ernesti's edition, with the addition of Wolf's *prolegomena*. But the *Hymnus in Cererem* is wanting, and the *corrigenenda et addenda* of Ernesti's edition are not inserted in their proper places. 100 copies on large paper.

- 9996 — 2. *Ilias*. Ilias i. e. de rebus ad Trojam gestis (gr.). Typis regis. Par., Adr. Turnebus, 1554. 8°.

2 leaves, 554 pages, and 1 leaf. A fine, correct, and scarce edition. The Aldine text forms the groundwork, but is frequently corrected from the Strasburgh editions and from the Roman edition of 1542, which Turnebus for the first time accurately compared, and added various readings from earlier editions at the end. A standard edition in a critical point of view. Hoym's Catalogue mentions a copy on large paper.—The Odyssey has not appeared (the Odyssey bound up with it in de Bosch's copy [Cat. p. 170] was from a Strasburgh edition), but it appears to have been in the press, as the British Museum, lord Spencer, and Renouard possess a fragment of it, which contains the *Batrachom.* and *Hymns*, and has the pagination 427–498.

The prolegomena are of the highest, and especially of paleographic value. The text is without accents, but with the critical marks of the Alexandrian grammarians. The scholia are valuable, but incorrectly printed.

- 10004 — I' Iliade vulgarizzata letteralmente in prosa e recata poeticamente in verso sciolto ital. da Melch. Cesarotti. Ed. II. col testo greco. Padova, Brandolese, 1798–1802. large 8°. 10 vols.

- 10005 — Ilias, gr. (ed. Aloys. Lambert). Parmæ, Bodoni, 1808. large fol. 3 vols.

A splendid edition, of which only 170 copies were printed. The text is after Clarke and Ernesti, sometimes corrected from Wolf, Heyne, and the *editio princeps*. There are 2 copies on vellum, one in the Royal library at Paris, and the other in the possession of the late viceroy of Italy.

- 10006^a — Ἰλιάς μετὰ παλαιὰς παραφράσεως ἐξ ἰδιοχειρου του Θεωδωρου Γαζην πρωτον τυπος ἐκδοθεισης, ἡ προστιθεται καὶ Βατραχομουμαχία συν τῇ ἰδίᾳ παραφράσει ἐκδιδομένη το δευτερον, παρὰ Νικολαιου Θησεως. Ἐν Φλωρεντίᾳ, Ν. Καρλῆ, αἰμα-β (1811–12). 8°. 4 voll. (60 paoli).

10016 — *Odyssea*, gr. *Ox., th. Sheld.*, 1705 or 50. 8°.

There are copies of both editions on large paper, which are scarce. *Odys. gr. lat. Ed. et annot. adj. Sm. Clarke, Lond.* 1758. 8°. 2 vols. is very incorrect.

10017 — 'Ὀδυσσεὺς σὺν τοῖς σχολίοις. Βατραχον. Ὑμνοί. Ἐπιγράμ. Δειψανα. *Ox. αψπβ* (1782). large 8°. 2 vols.

10018 — 4. *Batrachomyomachia*. *Myobatrachomyomachia*, gr. lat. Without place or date. 4°.

26 leaves with 24 lines, without signatures, catchwords, and pagination. Leaf 1^a begins, without farther superscription, *ρχομενος πρῶτον μουσων*. On the *folio recto* of each leaf is the Greek, with a Latin interlinear version; on the reverse a Latin metrical translation. Morelli, in *Cat. Pinelli*, II. 281, considers this very scarce edition to be very old, and the *editio princeps*, but Dibdin, in *Bibl. Spenc.* II. 53, thinks it was printed at Venice, not before 1490.

10019 — *batrachom.* gr., cum glossis græcis interlin. *Ven., Leonicus Cretensis*, 1486. 4°. 23 leaves with signatures.

One of the rarest editions of an ancient classic. The lines are printed alternately red and black. Leaf 1^a line 1 is, ὈΜΗΡΟΥ ΒΑΤΡΑΧΟΜΥΟΜΑΧΙΑ.

10020 — *batrachom.*, gr. *Par., Æg. Gourmont*, 8 cal. Oct. 1507. 4°.

The second Greek book printed at Paris, and very scarce.

Erfurt is sometimes incorrectly stated to be the place of printing.—Also in *Æsopus. Bas., Froben*, 1518. large 8°. (not 4°.)

10022 — *batrachom.* (gr. lat.), a Lh. Lycio emendatius edita et illustrata, nunc recogn. et perpurgata. Acc. Ph. Melanchthonis et H. Stephani annott. et Sim. Lemnii conversio versib. heroicis. *Lps., Vögelin*, without date. 4°.

The preface is incorrectly dated MDXLX.

I conjecture that it must mean 1570, as Stephens's edition first appeared in 1566. An edition of Lycius of 1541, noticed elsewhere, is a mistake. Repeated, *Ff.* 1604. 4°. *Lps.* 1607 or 22. 8°.

10023 — batrachom., gr. Ad veterum exemplarium fid. recusa, glossa græca, variantib. lectt., versionib. lat. et commentariis, nec non indd. illustrata (ed. Mch. Maittaire). Lond., Bowyer, 1721. large 8°.

Fine, scarce, and only 204 copies printed. XXIV pages, 46 unnumbered leaves, and 75 pages. A facsimile at p. 17. All the copies are in large 8°, and there is not a large paper copy, but perhaps a copy on Dutch paper, in a private library at Naples. There is first a faithful copy of the entire edition of 1486, likewise printed in black and red; then follows a corrected text after the modern editions, with inedited interlineary glosses and 2 Latin translations.

The Aldine text.

10111 — (the same title). Par., Jac. Kerver, 1551. 8°. with neat woodcuts.

Corrected and completed from a MS. A pretended edition, *ib.* 1605. 4°. I take to be a misunderstanding of the date, printed thus, MDVC.

- 10113 — Hori Apollinis selecta hieroglyphica (gr. et lat., edente Jul. Franceschino). Romæ, 1599 or 1616. 16°.

- 10118 HORATIUS Flaccus, Q. Opera. Without place or date. small fol.

The first edition, extremely scarce, and distinguished by good various readings, which was printed in Italy between 1470 and 73. 147 leaves, with 26 lines in a full page, without signatures, catchwords, and

pagination. Its rather ill formed Roman character Maittaire erroneously compares with the types of Zarotus in Milan, and Gesner equally erroneously with those of Jenson. It is rather that of the undated Flarus of 33 lines in fol. (see above, No. 7667), is distinguished by the form of the *e* and of the semicolon, and resembles Hailbrunn's types. Dibdin also thinks that the edition was really printed in Venice. The copies are bound in different order. The following description is according to Lord Spencer's copy.

In leaf 1^a the first 4 lines are,
QVINTI ORATII FLACCI CAR
MINVM LIBER PRIMVS.
ECENAS ATAVIS EDITE
REGIBVS. (Somewhat differently stated by Fea).

The 5 following lines are at the end of *Carmen secul.* leaf 74^b:

F I N I S

Hoc quicunq, dedit Venusini carmen Horatii:

*Et studio formis correctum effinxit in istis
Vivat. et aeterno sic nomine sacula vincat
Omnia: ceu nunquam numeris abolebitur
auctor:*

The first 2 lines of leaf 75^a,

QVINTI ORATII FLACCI EPI
STOLARVM LIBER PRIMVS.

The *Epistles* fill 30 leaves, and terminate leaf 104^a with FINIS. The *Ars poet.* follows on 10 leaves, which begins in leaf 105^a:

QVINTI ORATII FLACCI POETRIA

The satires, which contain 42 leaves, terminate leaf 147^a with

*Canidia afflasset. peior serpentibus aphris
F I N I S.*

- 10119 — — without place or date. large 4°.

124 leaves (the 100th blank), containing in a full page 33 lines (Dibdin 35) running all across, without signatures, catchwords, and pagination. With fine round characters, similar to those used at Milan from 1472–75. Dibdin would wish to place it only after the edition, *Ferrara, 1474.* but according to Fea it is by de Lignamine and the *Editio princeps*. Leaf 1^a begins, *Quinti Horatii Flacci Venusini Carminum liber | primus ad Meconatem.* The epistles terminate leaf 123^b with 7 verses (*Natales grate numeras etc.*) and the word FINIS.

- 10120 — odæ et ars poetica, cum commentariis Acronis et Porphyrius. Without place or date (*Romæ, Guldinbeck, about 1475*). fol.

The first edition of both the commentators, and according to Dibdin printed

before 1474. 224 leaves, containing in a full page 34 lines running all across, without signatures, catchwords, and pagination. Leaf 1^b begins with a letter of J. Aloysius to Fr. Helius. This letter, Helius's answer, and 2 accounts of Horace's life fill the first 5 leaves; then follows the text with the commentary, which terminates leaf 224^b with

*Explanatio Porphyronis In
arte poetica feliciter Explicuit.*

10121 — odæ et ars poetica, cum comm. Acronis et Porphyronis. Without place or date. fol.

217 leaves with Roman characters, without signatures, catchwords, and pagination. It begins with two accounts of Horace's life. The first line is ORATIUS. QUINTUS. FLACCUS. The first book of the odes has the following superscription:

QUINTI. HORATII. FLACCI. O,
DARUM. AD. MŒCENATEM,
LIBER. PRIMUS.

After the odes, Q. F. Oratii Poetria Incipit. On the reverse of the last leaf, *Explanatio Porphyronis In arte poetica feliciter Explicuit.* Panzer, IX. 326, quotes this edition from Denis's *Lesefrüchten*, II. 18. I fear that it is only a defective copy of the preceding edition.

10122 — Horatii opuscula. (Romæ, J. Ph. de Lignamine, 1471). fol.

The existence of this edition is established by de Lignamine's own testimony in his letter before Cavalca's *Pongie lingua* (see above); yet no copy of it is known. Brunet conjectures it might be *Hor. sermones*, without place, 1470. fol. which were in Petau's and Mansart's library (*Haye*, 1726. 8°. No. 1290.), and were sold for 120 Dutch florins. It cannot however be thought to be the edition of the *Sermones* of 1470 in Gothic letter, to be met with further below, No. 10248, because de Lignamine never printed in Gothic letter. See above, No. 10119.

10123 — Opera. Mediol., Ant. Zartotus, 16 Mart. 1474. large 4°. Acronis in Horatii opera expositio. ib., id., idibus Sextilib. 1474. large 4°. 2 voll.

The first dated edition of Horace, very scarce. Both vols. belong together. Vol. I. contains 124 leaves (the 59th blank) with 34 lines, and leaf 1^a line 1 is, *QUINTI Horatii Flacci Venusini Carmi.* Vol. II. has 147 leaves with 33 lines, and leaf 1^a line 1 is, *Acronis Commentatoris Egregii In Quinti Horatii.*

10124 — epistolæ et odæ. Ferrariæ,

Agst. Carnerius, 1474. small 4°. (not 8°.)

Extraordinarily scarce. 106 leaves with 26 lines, without signatures, catchwords, and pagination. The Epistles begin leaf 1^a with the following superscription;

QVINTI ORATII FLACCI EPI
STOLARVM LIBER PRIMVS.

They contain 30 leaves. Leaf 31^a commences the odes in the following manner,
QVINTI ORATII FLACCI CABI
MINVM LIBER PRIMVS.
ECOENAS ATAVIS EDI/
TE REGIBVS.

The book ends in leaf 106^b with the following colophon:

FINIS.

*Ferrarie impressit regnâte sub hercule diuo
Regia quo gaudet nunc lianora viro:
Carnerius puer Augustinus: cui dedit almâ,
Bernardus lucem bibliopola bonus.*

M. CCCC. LXXIIII:

10125 — opera. Neapoli, Arnaldus de Bruxella, 15 Nov. 1474. 4°.

Very scarce. The colophon is at the end of the odes. The edition appears to be an impression of a MS.

10126 — opera. Mediol., Ph. de Lavagnia, 16 Febr. 1476. fol.

124 leaves with 34 lines, and signatures which are on the right hand 2 inches below the text, and are consequently sometimes cut away. A fine and scarce reprint of the text of *Mediol.* 1474.

10127 — opera. Mediol., Ph. de Lavagnia, 3 id. Maji 1477. fol.

Very incorrect, and sometimes entire verses are omitted, for instance, *Od.* I. 4, 18.

10128 — opera. Tarvisii, Hm. Levilapis, (*Lichtenstein*), 1477. fol.

No copy is known, and its existence has been doubted, but Panzer, XI. 338, thinks that it really is extant.

10129 — opera. Ven., Ph. Condam Petri, 15 Sept. 1478. fol.

With 36 lines, and the signatures *Az-Pej*. Fine and scarce, but very faulty. Brunet has also, *ib.*, *id.*, 15 Sept. 1477. fol.

10130 — opera. Ven., Ph. Condam Petri, 18 Sept. 1479. fol.

118 leaves (the 1st blank) with 36 lines, and the signatures *a-p*. Word for word a reprint of the preceding, and yet really a fresh impression.

10131 — opera, cum commentariis Acronis per L. de Strazarolis recognitis, præcedente Porphyronis

in Horatii opp. commentario per Rph. Regium castigato. Without place (*Ven.*, not *Patav.*). 1481. fol.

It appears to contain a critically corrected text.

- 10132 — opera, cum comm. Cp. Landini. Flor., Ant. Miscominus, nonis Aug. 1482. fol.

6 leaves of preliminary matter, 265 numbered leaves with 46 lines, and 1 leaf of typographical errors. Very fine and of value. A new recension of the text, and the first edition of this commentary. Reprinted, *Ven.*, *J. de Forlivio*, 17 Maji 1483. fol. *ib.*, *Reynald. de Noviomagio*, 16 Sept. 1483. fol. *Ven.*, *Bn. de Tridino*, 1486 or 91. fol. *ib.*, *J. de Forlivio*, 1490. fol.

- 10133 — Opera, cum commentariis Acronis et Porphyrii. Mediol., Ant. Zarotus, 5 id. Mart. 1486. fol.

Chiefly the text of the Venetian editions, but Alex. Minutianus has corrected the Porphyrio from a MS. Concerning the expression in *diali arce* in the colophon, see *Lit. Wochenblatt*. I. 119, 229.

- 10134 — opera, cum comm. Acronis, Porphyrii et Landini. Ven., G. Arrivabenus, pridie non. Febr. 1490. fol.

3 leaves of preliminary matter and 253 leaves. A new recension of the text, and superintended by J. Fr. Philomusus.

- 10135 — opera, cum comm. Ant. Mancinelli, Acronis, Porphyrii et Cp. Landini. Ven., Ph. Pincius, prid. cal. Mart. 1492. fol.

6 leaves of preliminary matter and 291 leaves. It deviates sometimes in the text from the earlier Venetian editions. Reprinted, *Ven.*, *Pt. J. de Quarengis*, 1492. fol. *ib.*, *Locatellus*, 1494. fol. *ib.*, *Pincius*, 1495 or 1509. fol. *ib.* (*Bd. Fontana*), 16 Febr. 1495. fol. *ib.*, 13 Jul. 1498. fol. *ib.*, *Sim. Bibilaqua*, 1498. fol. *Ven.*, *J. de Tridino*, 1499. fol. *Mediol.*, *Alex. Minutianus*, 1502. fol. *ib.*, *Pachel*, 1508. fol. *ib.*, *L. de Bebulco*, 1512. fol. (very incorrect). *Ven.*, *Agst. de Zannis*, 1514. fol.

- 10136 — opera, cum quibusdam annotationibus imaginibusque pulcherrimis aptisque ad odarum concentus et sententias. Arg., J. Reinh. Gurninger (or Grüninger), 4 id. Mart. 1498. fol. with woodcuts.

6 leaves of preliminary matter, 207 numbered leaves, and 6 leaves of index. Not scarce in Germany, but prized and

sought after, partly on account of its originating directly from German MSS., and partly on account of its numerous woodcuts. The most remarkable of these woodcuts is leaf 28, the representation of the 9 muses. Jac. Locher was the editor.

- 10137 — libri IV carminum. Lps., Thanner, 1498. 4°. Carmen epodon. *ib.*, *id.*, 1498. 4°. Carmen seculare. *ib.*, *id.*, 1498. 4°. Epistolar. liber. *ib.*, *id.* (1498). 4°. Sermorum s. satyrar. opus. *ib.*, *id.*, without date. 4°.

Superintended by J. Honorius Crispus Cubitensis.

- 10138 — Horatius. Ven., Aldus, m. Majo 1501. 8°.

Very scarce, and containing a new recension from MSS. 143 unnumbered leaves, and 1 blank leaf at the end. Copies on vellum in the Royal library at Paris, in the libraries of the king of England, at Bern and Munich, in the library of Lord Spencer (bought at Paris for 1200 fr.), and of count Trivulzio at Milan.

- 10139 — Horatius (c. præf. Bd. Philologi). Flor., Ph. (*Junta*), 5 non. Oct. 1503. 8°. 153 leaves.

Very scarce and correct. Chiefly the text of the preceding.

- 10140 — odæ, carmen epodon et seculare cum Ant. Mancinelli et Jod. Badii Ascensii explanatione (acc. de arte poet., sermones et epp.) Par., Ascensius, 1503. fol.

Chiefly after *Ven.* 1492, yet with some peculiar readings. Reprinted, *ib.*, *id.*, 1511 and 16. fol.

- 10141 — poemata, in quib. multa correctæ sunt et institutiones suis locis positæ commentariis. quodammodo vice funguntur. Ven., Ald., m. Mart. 1509. 8°.

24 leaves (the last blank), 310 pages, and 1 blank leaf. A reprint of the Aldine of 1501, and almost as scarce. The corrections that are added are in some degree of importance, and it has not yet been sufficiently made use of; see *Horat. ed. Vanderbourg*, I. 347. Lord Spencer has a copy on vellum.

- 10142 — (the same title). (*Lugd.*) 26 Febr. 1511. 8°.

24 leaves of preliminary matter (the last 2 blank), and 310 pages. Very scarce, yet is it nothing but an incorrect reprint of the preceding, as *Vanderbourg*, I. 347 and 349, proves. Sim. Carpentarius is said to have

superintended it.—A pretended edition, *Par., H. Stephani*, 1513. 12°. is only a misprint for 1613.

- 10143 — *Poemata nuper quam accuratissime castigata*. Flor., Ph. Junta, m. Febr. 1514. 8°.

The text is sometimes corrected from Aldus. A pretended Juntine edition of 1516 is only a typographical error for 1519.

- 10144 — *poemata nuper quam accuratissime castigata*. Adnotatt. aliquot Mth. Bonfinis. Lugd., Bm. Trot, m. Aug. 1518. 8°.

A reprint of the Aldine of 1509, with some additions from the Junta edition of 1514.

- 10145 — *poemata omnia*. Centimetrum Marii Servii. Adnotatt. Aldi Manutii in Horatium. Ratio mensuum, quibus odæ ejusd. poetæ tenentur eodem Aldo auctore. N. Perotti libellus ejusd. argumenti. Ven., Ald. et And. socer, m. Nov. 1519. 8°.

8 leaves of preliminary matter (1 blank), 189 numbered, and 3 unnumbered leaves (of the last the 2nd is blank). The text after the Aldine of 1509, and the most correct Aldine edition of Horace. Lord Spencer has a copy on vellum.

- 10146 — *poemata*. Without place or date (*Ven., Gr. de Gregoriis*). 8°.

A reprint of the preceding. It is distinguished by the two following errors in the letter of Aldus, which is prefixed, line 2 *imprissis* (instead of *impressis*) *vergilianis operibus*, and line 3, *Flaccum aggressi* (instead of *aggressi*).

- 10147 — *opera cum quatuor commentariis Acronis, Porphyrii, Mancinelli et Ascensii cumque adnotatt.* Mth. Bonfinis et Aldi Manutii a (Bd.) Philologo recognitis. Par., Ascens., 1519. fol.

6 leaves of preliminary matter and 188 leaves. The text occasionally deviates from the Ascensian edition of 1503. Reprinted, *Par., Pt. Gromorsus*, 1528. fol. *ib., Ascens.*, 1529. fol. *ib., Roigny*, 1543. fol. Enlarged with the commentary of J. Britannicus, *Ven., Tacuinus*, 1536. fol.

- 10148 — *poemata*. Flor., hered. Ph. Juntæ, 1519. 8°. 176 leaves.

A very correct reprint of the Junta of 1514.—*Bas., Cratander*, 1520. 8°. is a faithful impression of the Aldine text.

- 10149 — *poemata*. Ven., Alex. Paganinus, 1521. 24°.

Very scarce and sought after, because it is one of the books in which Paganinus sought to introduce new and singular types.

- 10150 — *poemata omnia, stud. ac dilig. H. Glareani recognita, ejusd. annotationib. illustrata*. Friburgi Brisgoiæ, 1523. 8°.

The text of the Aldine of 1519 with some emendations, sometimes too bold. Corrected, *ib.* 1533. 8°. and often.

- 10151 — *Horatius, Juvenalis et Persius*. Bas., Val. Curio, 1524. 8°. with the signatures *a-z* and *A-K*.

Superintended by Mch. Bentinus, and very correct. The text of the Juntine with a MS. made use of by J. Sichert.

- 10152 — (the title the same as No. 10145). Ven. et And. socer, m. Sept. 1527. 8°.

8 leaves of preliminary matter (the 8th blank), and 192 leaves. Word for word a reprint of the Aldine of 1519 with its errors.

- 10153 — *Horatius, Persius, Juvenalis (cum comm. Acronis)*. Bas., Curio, 1527 or 31. 8°.

The text from *Bas.* 1524; but Acron is corrected.

- 10154 — *opera cum annotatiunculis in margine adjectis et N. Perotti de metris odar. Horatii libello*. Par., Sim. Colinæus, 1528. 8°.

Very correct, scarce, and sought after. The Aldine text. Also, *ib., id.*, 1533 or 39. 8°, and *ib., id.*, 1531, 40, or 43. 12°.

- 10155 — *omnia poemata, cum ratione carminum et argumentis ubique insertis, interpretibus Acrone, Porphirione, Jano Parrhasio, Ant. Mancinello nec non Jod. Badio Ascensio. Scholiisque Erasmi Rot., Politiani, Sabellici etc. Præterea annotatt.* Ant. Thylesii, Fr. Robortelli atque H. Glareani. N. Perotti libellus de metris odar. Ven., Hi. Scotus, 1544. fol. 2 leaves of preliminary matter and 245 leaves.

Reprinted, *Ven., Pt. de Nicolinis*, 1553. fol. *Ven., Bonellus*, 1559 or 62. fol.

- 10156 — *Poemata*. Ratio mensuum, quib. odæ ejusd. poetæ tenentur. Centimetrum Marii Servii. Variæ

lectt. ex vetustiss. codd. Par., Rb. Stephanus, 1544. 8°. 174 pages and 15 leaves.

The various readings are really from MSS., and indeed Italian MSS. as it appears.

10157 — poemata omnia, ad castigatissimi cujusque exemplaris fidem quam diligentissime restituta. Par., Audoenus Parvus, 1545. 12°.

A neat and correct reprint of the Colman edition of 1543.

10158 — Horatius. M. Ant. Mureti in eund. annotatt. Aldi Manutii de metris Horatianis. Ejusd. annotatt. in Horatium. Ven., P. Manutius, 1555. 8°.

8 leaves of preliminary matter, 144 numbered, and 36 unnumbered leaves. A new recension by Muretus from a MS. Also, *ib.*, *id.*, 1559, 61, and often, in 8°. and enlarged with the notes of J. Mch. Brutus, *ib.*, *Ald. Manut.*, 1564. 8°. The Aldines of 1551, 52, or 57, are nonentities.

10159 — opera grammaticor. antiquissimor. Helenii Acronis et Porphirionis commentariis illustrata, admixtis interdum C. Æmilii, Jul. Modesti et Terentii Scauri annotatiunculis: edita auctius et emendatius per G. Fabricium *etc.* Bas., H. Petri, 1555. fol. 36 leaves of preliminary matter and 1411 pages.

Scarce, and a very distinguished edition. Fabricius has deserved well particularly for the corrections of the scholiasts. Repeated, *ib.*, *id.*, 1570 or 80. fol. Previously less complete, *ib.*, *id.*, 1545. fol.

10160 — opera cum annotatt. Thdr. Pulmanni. Antw., Nutius, 1557. 8°.

The Aldine text corrected from MSS. by Pulmann.

10161 — Horatius ex fide atque auctoritate X libror. MSS. op. Dion. Lambini emendatus, ab eodemque commentariis illustratus. Lugd., J. Tornæsius, 1561. 4°. 2 parts in 1 vol.

Part I. 8 leaves of preliminary matter, 493 pages and 7 leaves (the 7th blank). Part II. 543 pages and 10 leaves (the 10th blank): A new and excellent recension after 10 MSS.

Sir William Hamilton, bart. at Edinburgh possesses a copy on large paper,

hitherto unknown, which is besides of peculiar value on account of its being enlarged, in W. Canter's own handwriting, with short explanations, and with various readings from 2 MSS. of Horace (in part as yet unused), and from 1 MS. of Acron and Porphyrio.

10162 — (the same title). Adjecimus J. Mch. Bruti explicatt. Index rer. et verbor. Ven., P. Manut., 1566. 4°. 2 parts in 1 vol.

Part I. 8 leaves of preliminary matter, 242 leaves, and 12 leaves of index. Part II. 210 leaves, 9 leaves of index, and 1 blank leaf. A reprint of the preceding, enlarged with the notes of Brutus. In France this edition of the recension of Lambinus is preferred to all other editions of the same.

10163 — Horatius ex castigat. Thdr. Pulmanni ad Mureti, Lambini aliorumq. editionem atque vet. aliquot libros collatus et scholiis illustratus. Antw., Plant., 1566. 12°.

A new recension from MSS., with a careful specification of the various readings. Enlarged, *ib.*, *id.*, 1577. 16°.

10164 — Horatius op. Dion. Lambini emendatus, nunc ab eod. recognitus et cum aliquot aliis exemplarib. antiquis comparatus, multis locis purgatus iisdemque commentariis amplificatis illustratus. Par., J. Macæus, 1567. fol. 2 parts in 1 vol.

In this and recension Lambinus made use of 6 other MSS. Part I. 6 leaves of preliminary matter, 336 pages, and 10 leaves. Part II. 386 pages and 13 leaves. Reprinted, *Ff.* 1577. fol.

10165 — Opera illustrata argumentis et castigat. Fabricii. Cum indd. adagior. Lps., Vögelin, 1571. 8°.

Giunta's text, corrected from MSS., forms the groundwork. Often repeated.

10166 — poemata omnia cum ind. Th. Treteri. Antw., Plantin., 1576. 8°.

10167 — poemata novis scholiis et argumentis ab H. Stephano illustrata. Ejusd. H. Stephani diatribæ de hac sua ed. Horatii et variis in eum observationib. Ap. H. Stephanum, without date (1577). 8°.

8 leaves of preliminary matter, 135, 134, and 112 pages. A new and careful recen-

sion from MSS. Enlarged, *ap. H. Steph.* 1588. 8°. of which, *exc. P. Steph.* 1600. 8°. is an unaltered reprint.

- 10168^a — Horatius ex fide atque auctoritate complurium libror. MSS. op. Dion. Lambini emendatus et cum diversis exemplarib. antiquis comparatus commentariusque explicatus et ab eodem recognitus dilucidiusque illustratus. Ed. III. Lutet., J. Macæus, 1579. fol. 2 parts in 1 vol.

6 leaves of preliminary matter, 348 pages, 22 leaves, 412 pages, and 38 leaves. The title of the 2nd part has the year 1587. According to *Bibl. Sariana*, p. 4, the genuine, best, and most complete edition of Lambinus's Horace. Reprinted, *Ff.* 1596. 4°.

- 10168^b — opp. cum comm. Bernardini Parthenii Spilimbergii. Ven., Nicolinus, 1584. 4°.

Ven., Ald., 1585. 4°. is only a new title.

- 10169 — F. Ceruti in Horatii carmina, epodon, satiras atque epp. paraphrasis (cum textu). Veronæ, Hi. Discipulus, 1585. 4°. 2 parts in 1 vol., 244 and 265 pages.

- 10170 — prælectt. Pt. Gualterii Chabotii, quib. Horatii poemata omnia triplici artificio, dialectico, grammatico et rhetorico explicantur (cum textu). Bas., Ostenius, 1589 (new title, 1591). fol. 18 leaves of preliminary matter, 989 pages, and 9 leaves.

The commentary contains much useless bombast. Also, *ib., id.*, 1594. fol. A new edition, superintended by Jac. Grasser, *Col. Munatiana* (Bas.), 1615. fol. is indeed enlarged, but it is less prized, because the words of other authors cannot be distinguished in it from Chabot's annotations.

- 10171 — Horatius, cum commentariis et enarrationib. commentatoris veteris et Jac. Cruquii. Acc. Jani Doussæ in eund. commentariolus. Item auctarium commentatoris veteris a Cruquio editi. (*LB.*), ex off. Plantin. Raphelengii, 1597. 4°. 8 leaves of preliminary matter, 695 pages, and 8 leaves.

The reprint, letter for letter alike, and less fine, *ib.* 1611. 4°. is erroneously con-

sidered as the better edition. Previously less complete, *Antw., Plant.*, 1578 (new title, 1579). 4°. Cruquius made use of ancient MSS. since destroyed, from whence he gave the inedited ancient scholia. He conjectures too boldly, but with many errors he has contributed very much towards the explanation of his author.—The edition, *Witt., Crato*, 1598. 8°. contains only the text of Lambinus.

- 10172 — Horacio. Sus obras (lat.) con la declaracion magistral en lengua Castellana por Villen de Biedma. Granada, Mena, 1599. small fol.

Erroneously stated in the *Bipont Notiz.* as a translation.

- 10173 — poemata omnia, argumentis et scholiis viror. doctiss. illustrata cum indicatione diversar. lectt. partim e VI codd. vett. MSS. partim ex opt. notæ libris aliquot impressis stud. et op. G. Bersmanni. Lps. 1602. 8°.

Bersmann made use of 6 MSS. The 2nd enlarged edition, *ib.* 1616. 8°.

- 10174 — Horatius ex fide et auctoritate MSS. emendata et commentariis illustrata a Dion. Lambino. Acc. Hadr. Turnebi in eund. Horatium commentarii. Insuper et Thdr. Marcilii quotidiana et emendatæ lectiones. Par., Bm. Macæus, 1604. fol.

6 leaves of preliminary matter, 380 and 462 pages, 24 leaves (*inadd.*), 4 leaves, and 163 pages (*Marcilii lectt.*). In the copies with the new title-leaf, *ib., id.*, 1605. fol., the notes of Marcilius are not mentioned, but they are really to be found in them (as likewise in the edition of 1605 with a new title).

- 10175 — Horatius cum Lævini Torrentii commentario, nunc prim. in luc. edito. Item Pt. Nannii in artem poet. Antw., ex off. Plant., 1608. 4°. 10 leaves of preliminary matter, 839 pages, and 23 leaves.

A new recension from MSS. Torrentius is less bold in conjecture than Cruquius, but some of his corrections are very happy. He had not such good MSS. as Cruquius, and busied himself less with criticism, but was a more learned man.

- 10176 — opera cum animadvv. et notis Dn. Heinsii longe auctiorib.

Ejusd. liber de satira Horatiana. LB., L. Elzevir, 1612. 8°.

A new recension.

10177 — Horatius (cum notis Jani Rutgersii). Lutet., Rb. Steph., 1613. 12°.

Chiefly Heinsius's text. It contains much that is good, even for the critic. *Persius*, *ib.*, *id.*, 1614. 12°, and *Juvenal*, *ib.*, *id.*, 1616. 12°. are sometimes along with it. Copies of these 3 works on large paper are scarce.

10178 — opera omnia cum novis argumentis. Sedani, J. Jannon, 1627. 32°.

Very scarce and neatly printed with very small type, yet easy to read (called the *Sédanais* or *Parisienne*). Greatly sought after in France.

10179 — Horatius. Acc. nunc Dn. Heinsii de satira Horatiana ll. II. Cum ejusd. in omnia poetæ animadversionib. longe auctorib. LB., ex off. Elzevir., 1629. 12°. 3 parts in 1 vol.

A complete copy ought to contain, the above title engraved, a printed chief-title of 1629 agreeing with it, 6 leaves of dedication, 3 leaves, ode by Heinsius, and *veterum judicia*, 3 leaves, *vita Horatii*, 3 leaves, advertisement (*amicæ lector*), an advertisement of 1628 relating only to the text (which is not properly belonging to a complete copy, and is therefore often wanting), 239 pages of text, then 250 pages, *Heinsii animadver.*, with a printed title of 1629; lastly, 286 pages (the last wrongly numbered with 296), *de satira Horat.*, with a half-title.—The best edition of the recension by Heinsius, fine, and complete copies scarce.

10180 — opera. Par., typ. regia, 1642. fol.

10181 — Horatius ex rec. Dn. Heinsii. LB., Elzevir, 1653. 12°.

Only a new title to that part of the edition of 1629 which contains the text.

10182 — Horatius cum commentariis selectissimis varior. et scholiis integris J. Bond. Acc. indd. Curante Corn. Schrevelio. LB., Hack, 1670. 8°.

Better than the editions, *ib.* 1653, 58, and 63. 8°. In this edition, *Rutgersii lectt. Venusinæ*, is to be met with for the first time, but mutilated.

10183 — opp., rec. Tanaq. Faber, et notulas et monita ad odas addidit,

cum specimine novæ interpretationis. Salmurii, Pean, 1671. 12°.

Corrected from conjecture only, often rather arbitrarily, but sometimes very happily. Heinsius is violently attacked. Faber was a man of genius, but too much taken up with himself.

10184 — Hor., Dn. Heinsius recensuit. Amst., Dn. Elzevir., 1676. 18°.

Neat, and it seems to be rather scarce.

10185 — opp., ex edit. et cum scholiis J. Bond. Amst., Dn. Elzevir., 1676. 12°.

The finest and most correct edition of this commentary, and very scarce in good condition. Bond's notes (at first, *Lond.* 1606. 8°), are for a beginner without being on that account of no consequence.

10186 — cum interpretatione et notis Pt. Rodellii, ad Ser. Galliar. Delphinum. Tolosæ, Colomerius, 1683. 8°. Also, *Lond.* 1690 and 1711. 8°.

The offensive passages are omitted. What Rodellius wanted in learning was compensated by taste and feeling. His commentary (written at his own suggestion) is short, but very spirited, and contains some acute conjectures, which are his own.

10187 — opera. Interpretatione et notis illustrav. L. Desprez, in us. Delphini. Par., Leonard, 1691. 4°.

One of the rarer editions in *us. Delph.* Reprinted, *Lond.* 1694 and often, the last time in 1815. large 8°. (12s.) *Ven.* 1727. 4°. *Neap.* 1771. 4°. *Amst.* 1695. 8°. *Hag. Com.* 1708. 8°.

10188 — opera, cum notis Ed. a Zurek. Harlemi, Braau, 1696. 8°. 2 parts in 1 vol.

Correct and not of frequent occurrence.

10189 — Horatius. Acc. Jani Rutgersii lectt. Venusinæ (ed. Pt. Burmann.). Traj. Bat., Halma, 1699. 12°.

Heinsius's text. Prized.

10190 — opp. ad optimor. exemplarium fid. recensita. Acc. variæ lectt. (ed. Jac. Talbot). Cbr., Tonsen, 1699. 4°. Also on large paper.

A careful recension from MSS. and old editions, with good various readings. Finely printed. Repeated, *Cbr.* 1701 or 1707. 12°.

10191 — œuvres d'Horace, en lat. et en franç. avec des remarques par

And. Dacier. Ed. III. Par. 1709. 12°. 10 vols. Also on large paper.

Le Fevre's text. Dacier's commentary gives proof of great reading, and is very industriously done. He does not imbibе however the spirit of Horace, and judges him and his age quite perversely. At first, Par. 1681. 12°. 10 vols.

10192 — — Ed. V. augm. de notes de Bentley, de Cuninghame et de Sanadon. Amst., Wetstein, 1727. 12°. 10 voll. Also, Hmb., Vandenhoeck, 1733. 4°. 4 parts in 2 vols., or in 12°. 10 vols.

10193 — Horatius ex rec. et cum notis atque emendatt. Rch. Bentley. Cbr. 1711. 4°.

Corrected from MSS. and conjectures in more than 800 passages. It forms an epoch in Latin criticism. Even where Bentley errs his acuteness and learning are astonishing. These notes are at the end of the book. *Bentley curæ noviss. ad Hor. nunquam alias edita*, in the *Museum Crit.* Cbr. I. 194. etc. are of no importance.

Writings in opposition, *Aristarchus ampullans in curis Horatianis s. querimonia epistolaris ad Bentleyum, auctore Philargyrio Cantabr.* Lond. 1712. 8°. (*J. Ker*) *quaternæ epp., I. et II. ad Rch. Bentleyum, III. ad Es. Spanhemium, IV. ad L. F. Bonetum.* Lond. 1713. 8°. *J. le Clerc* *Judgment and censure of Bentley's Horace, transl. from the French.* Lond. 1713. 8°. *The Odes, Epodes, and Carmen Sec. in Lat. and Engl. with a transl. of Bentley's notes. To which are added notes upon notes.* Lond. 1713. 8°. 24 parts in 2 vols. Rch. Johnson *Aristarchus Anti-Bentleyanus. Nottinghamia*, 1717. 8°. (*Jer. Marklandi*) *ep. orit. ad Fr. Hare, in qua Horatii loca aliquot et alior. veterum emendantur.* Cbr. 1723. 8°. (In addition, *Marklandi nota aliquot in Hor. in the Classic. Journ.* XVIII. 126 etc.) See also No. 10199.

10194 — (the same title). Ed. III. Amst., Wetstein, 1728. 4°. 2 parts in 1 vol. Very scarce on large paper.

This correct reprint is even preferred to the original edition, because Th. Treter's index, enlarged by Is. Verburg, is annexed, and the notes are brought immediately under the text. Ed. II. Amst. 1713. 4°. (scarce on large paper) stands in somewhat less estimation.

10195 — Horatius. Ad nuperam Rch. Bentley edit. accurate ex-

pressus. Notas addid. Th. Bentley. Cbr., Crownfield, 1715. 8°.

Bentley's notes with some corrections specified by himself, and some additions of his own to his notes.

10196 — Opp. ad fid. codd. MSS. emendata (per Pt. Burmannum). Traj. 1713. 12°.

After Bentley, from whom he deviates where he is too bold. With corrections from MSS.

10197 — opp. (ed. Mch. Maittaire). Lond., Tonson, 1715. 12°. Also on large paper.

10198 — opp. expurgata, interpretatione ad verbum, variis lectt. ac notis illustrav. J. du Hamel. Par. 1720. 8°.

Du Hamel made use of MSS., but he has frequently altered the text with as much precipitation as ignorance. Repeated, 1730 and 64.

10199 — poemata. Ex antiquis codd. et certis animadvv. emendav., variasque scriptor. et impressor. lectt. adjec. Alex. Cuningham. Hag. Com., Th. Jonson, 1721. 8°. Ejusd. animadvv. in Bentley edit. et notas in Hor. ib., id., 1721. 8°. 2 voll.

A new recension from MSS. His notes are very learned, and his corrections in part very happy. But he is too unjust and bitter against Bentley, and often falls into the same errors which he censures in him. Consult *Gli. Cortii additamentum ad Cuningamii animadvv. in the Act. Erudit.* 1722. p. 377 etc. There are only copies on large paper of the first vol. of the above edition, that is, the text. Lond., Vaillant et Prevost, 1721. 8°. 2 vols. is only a new title.

10200 — eclogæ, una cum scholiis perpet., tam vett. quam novis. Adjecit etiam sua textumque ipsum restituit W. Baxter. Lond., Bowyer, 1725 (new title, 1735). 8°.

On large paper, one of the rarest large paper editions. (The Dresden large paper containing Baxter's portrait by Vertue.) At first, Lond. 1701. 8°. The 2nd edition is enlarged with notes against Bentley. His corrections are not from MSS., and are rather unhappy, and his explanations are full of mania after allegories and etymologies, and often without taste.

10201 — poesies (en lat.), disposées

suivant l'ordre chronologique et trad. en franç. avec des remarques et des dissertations crit. par Noël Et. Sanadon. Par., Chaubert, 1728. 4°. 2 voll. Also on large paper.

The text chiefly after Cuningham, yet with the use of Bentley's and the earlier editions, and containing the editor's own corrections, for the most part equally bold and unhappy (*Par.* 1782. 12°. is only an impression of the text). In his commentary he combines solidity with taste and feeling, and is the first commentator of Horace, who handles him with reference to the beauties of his composition.

10202 — (the same title). Amst. (*Par.*), 1756. 12°. 8 voll. Also on large paper.

In this edition much was altered from the papers left behind by Sanadon, but as those who had the care of the papers have not mentioned their names, it is a matter of doubt how much credit can be attributed to them. The text is printed after the *vulgata*, and Sanadon's alterations are only placed underneath. In the copies which really have *Paris* in the title, much was omitted which is found in that dated from *Amst.*

10203 — opera. Lond., æneis tabulis incidit J. Pine, 1733–37. large 8°. 2 voll.

The text of the edition, *Cbr.* 1701. 12°. engraved throughout, and very neat. But the vignettes are less happily conceived. The subscription-price was 2 guineas. Properly the first impressions only are particularly sought after, which are distinguished by the mistake on the coin of Augustus, T. II. p. 108, where *Post Est* stands instead of *Potest*. This error is corrected in the two later and considerably cheaper impressions. *Berol.* 1745. 8°. is a neat impression of this edition.

10204 — Opp. minutissimis characteribus edita. Par., typ. regia, 1733. 18°.

Sought after on account of its neatness. Commonly with the *Phædrus* of 1729, which is printed with the same types.

10205 — œuvres en lat., trad. en franç. par Dacier et Sanadon, avec les remarques crit., hist. et géogr. de l'un et de l'autre. Amst. 1735. 8°. 12 voll.

Prized and not of frequent occurrence.

10206 — Horatius (edente J. Jones). Lond., Brotherton et Nourse, 1736. 8°. Also on large paper.

This editor assures us that he has made

use of some MSS. In criticism he is far inferior to Bentley and Cuningham; yet is the edition mentioned in Wolf's *Lit. Analect.* I. 272, as "*editio minime spernenda, etsi audaciorum plena conjecturarum.*"

10207 — poemata, ex castigatt. et obss. Bentleji, Cuninghami et Sanadonis emendata. Lond., Nourse, 1740. 12°.

10208 — opp. Lond., Brindley, 1744. 18°.

10209 — Horatius ad lectt. probatiores diligenter emendatus et interpunctione nova sæpius illustratus. Glasg., Rb. Foulis, 1744. 12°.

Scarce and very correct, and said not to have a single typographical error. Also on large paper in 12°, and extremely scarce on fine paper in 8°. *Ib.*, Foulis, 1750. 12°. is not sought after.

10210 — opp. ed. J. Hawkey. Dublinii, e typogr. academice, 1745. 8°. Also on large paper.

Very correct, and greatly sought after.

10211 — carmina nitori suo restituta, accurate St. And. Philippe. Lut., Coustelier, 1746. 12°.

Neat and correct. *Ib.*, Barbou, 1754. 12°. is a new title.

10212 — opera. Lond., Gu. Sandby, 1749. large 8°. 2 vols. with 1 title-plate, and 35 plates after the antique.

Particularly fine. The rarest edition of this series of Sandby's typographical productions, which consists of Horace, Virgil (1750), Terence (1751), and Juvenal and Perseus (1763). At the end of the 2nd vol. are various readings and conjectures. The edition in small 8°. is quite different, in smaller characters, the last impressions of the plates, and far less sought after.

10213 — opp. Glasgæ, in ædd. acad., 1760. small 8°. Also on large paper in 4°.

10214 — works, transl. into Engl. prose, with the Latin text, and crit. notes (by D. Watson, revised by Sm. Patrick). Ed. IV. Lond. 1760. 8°. 2 voll.

Prized on account of the notes. Also, Lond. 1792. 8°. 2 voll.

10215 — Horatius (ed. J. Livie). Birminghamiæ, Baskerville, 1762. 12°.

Scarce. One of the finest and most correct 3 F

rect of Baskerville's typographical productions. *Ib.*, *id.*, 1772. 12°. is far less fine and correct.

- 10216 — carmina nitori suo restituta. Par., Barbou, 1763. 12°. with plates.

Superintended by Jos. Valart, who allowed himself arbitrary alterations. The edition of 1775 is more prized.

- 10217 — Horatius ex rec. et cum notis atq. emendatt. Rich. Bentleji, cum præf. J. F. Fischeri. Lps., Weidmann, 1764. large 8°. 2 voll. (4 d.)

- 10218 — poemata, scholiis s. annotatt., instar commentarii, illustrata a J. Bond. Aurelianus, Couret de Villeneuve, 1767. 12°.

A fine but incorrect reprint of *Amst.* 1676.

- 10219 — Horatius. Birmingh., Baskerville, 1770. large 4°.

The finest and rarest of Baskerville's typographical productions in 4°. after the Virgil. 5 indifferent plates after Gravelot are usually appended to it.

- 10220 — opp. ad fid. 76 codicum. Curante Jos. Valart. Par., Lambert, 1770. 8°.

The 76 *codd.* mentioned in the title are only to be understood of those which were made use of in the earlier editions. Valart himself has only used 2 MSS., even these very superficially, and compared some old editions, but this also is not carefully done.

- 10221 — Carmina, deterrent recentibus plerumque maculis, nitori suo restituta. Par., Barbou, 1775. 12°.

Superintended by J. N. Lallemand, who has again rejected Vallart's arbitrary alterations in the edition, *ib.* 1763. 12°.

- 10222 — opera omnia ad exemplar Bentleji excusa. Without place or date (*Prague*, about 1775). oblong 8°. 2 vols.

This edition, which contains the text only, and is not fine, C. Egon, prince of Fürstenberg, caused to be printed at his own expense, and gave away as presents only, consequently it is very scarce in Germany. Mitscherlich erroneously places it as early as in the year 1760. As Villoison had caused two pretended odes of Horace (*Lib. I.* 39, 40.), found in a Vatican MS. by Csp. Pallavicini, to be printed in the supplement to his annotations on Longus,

1778, Fürstenburg had them also printed after him in 1780, and inserted them in his edition, T. I. between p. 83 and 85. At the same time he prefixed the following new title to the 1st vol., *Opp. omnia, prius ad exemplar Bentleji excusa, nunc insertis duob. odis novissime repertis* (likewise without the place or date of printing), and 1 leaf, first with a notice respecting the discovery of these odes. Care should therefore be taken to obtain one of these last copies. These odes were printed for the last time with a French translation in *Horatii carmina ed. Vanderbourg*, T. I. p. 358–61, and in the Horace by Fea and Bothe. Consult also *A Dissertation concerning two Odes of Horace, which have been discovered in the Palatine library at Rome. Lond.* 1789. 4°.

- 10223 — carmina cum annotatt. gallicis L. Poinsinet de Sivry. Par., Lacombe, 1777. 8°. 2 voll.

The editor has received into the text too many conjectures of his own and others, which are sometimes very hasty, and in his explanations he has shewn the strangest mania for paradoxes.—*Hor. poemata cum comm. J. Minellii. Matriti*, 1776. 8°.

- 10224 — opp., recens., varietate lectionis et perp. annotatione illustrav. Ch. D. Jani. Lps. 1778–82. large 8°. 2 voll. (3 d.)

The *vulgata lectio* forms the groundwork, corrected from MSS. and old editions with great circumspection. Unfinished, and containing only the odes. An unaltered new impression, *Lps.* 1809. 8°. 2 vols. (the 2nd vol. is only a new title). Consult also C. L. Baueri *progr. I–VI. animadv. Horatiana ad edit. Jani. Hirschbergæ*, 1780 etc. 4°.

- 10225 — poemata, selectis fere omnium interpretum notis illustrata op. F. DorigHELLI. Patav. 1780. 8°. 3 voll.

A new impression, *Lps.* 1815. 8°. (1 d. 16 gr.), also, *Glasg.* 1796. large 8°. *Edinh.*

1806. 8°. At first in 1752 and 72. Gesner gave Baxter's text with some important alterations of his own. His notice of the various readings from MSS. and old editions is not accurate.

- 10229 — carmina. Curav. Jer. Jac. Oberlin. Arg., Rolland et Jacob, 1788. 4°. On vellum paper (12 d. 6 gr.)

With various readings from 4 Strasburg MSS. hitherto uncollated. Fine, but not sufficiently so for a show-edition, and not sought after. There is a copy on vellum.

- 10230 — opera. Parmæ in ædd. Palatinis typis Bodonianis, 1791. fol.

This book and the Homer are the two greatest masterpieces of Bodoni. The impression only amounted to 200 copies, 50 of which were on vellum paper. There are also 4 copies on vellum, which however do not correspond with the reputation of Bodoni's press. This edition, which contains a new recension from MSS., was directed by J. N. de Azara and Enn. Quir. Visconti, C. Fea and St. Arteaga took part in it.—In addition, *Lettera di St. Arteaga a Gi. Bt. Bodoni, intorno alla censura pubblic. da Clementino Vannetti contro l'edis. Parmense dell' Orasio del 1791. Crisopoli (Bodoni), 1793. small 4°.*

- 10231 — Opp., cum variis lectt., notis varior. et indice locupletiss. (cura C. Combe et H. Homer). Lond., Brown, 1792–93. large 4°. 2 vols. on vellum paper (2l. 12s. 6d.).

30 copies on very large paper in 4 vols. Gesner's text. Overloaded with notes, not always happily selected, and yet not complete or sufficient. Finely printed, but not much sought after.

- 10232 — opp. Parmæ, in ædd. Palatinis typis Bodonianis, 1793. large 4°, some on fine paper.

A reprint of the edition of 1791. According to Bodoni's statement only 150 copies were printed, some of them on fine paper.

- 10233 — quæ supersunt, rec. et notulis instrux. Gilb. Wakefield. Lond., Kearsley, 1794. 8°. 2 parts in 1 vol. with plates (10s. 6d.). Scarce on large paper.

Properly after Baxter's recension, but corrected with equal critical acuteness and boldness, especially in the punctuation. Very neat and correctly printed.

- 10234 — opp. Par., Pt. Didot natu major, 1799. large fol.

A very fine edition, with 12 excellent

vignettes designed by Percier. The impression was 250 copies (subscription-price 240 fr.), 100 copies of which with plates *avant la lettre* (360 fr.) Two copies on vellum (Didot's finest specimen of printing on vellum), one of which, with the original designs, Hibbert of London bought at Junot's sale in 1816 for 140l.

- 10235 — opp., ad exemplar Bentleji recudenda curavit, argumentis præmissis, notis crit. adjectis, vita auctoris enarrata, indicibusq. illustrav. J. Ch. F. Wetzel. Lignitii, Sigert, 1799. 8°. 2 voll. (2 d.)

Designed to be in 5 vols., whereof the above first two contain the odes. Chiefly the common text. The commentary is occupied particularly in the explanation of Horace from his Greek models. The *notitia lit.* is extremely faulty, and little to be depended upon, and in particular the prefixed critical survey of the editions is frequently in direct contradiction with the bibliographical list which follows it.

- 10237 — opp. cum locis quibusd. e græcis scriptorib. collata a St. Weston. Lond. 1801 or 5. 8°.

- 10238 — Horatius cum scholiis perp. J. Bond (edid. N. L. Achaintre). Par. 1806. 8°. (7 fr., on large paper 12 fr., on vellum paper 24 fr.)

A very neat and correct critical small edition, which contains a new and careful recension after 13 MSS. But Fea's own corrections are not happy. A new impression, superintended by F. H. Bothe. *Hild.* 1820. 8°. 2 voll.

- 10240 — eclogæ cum scholiis vett. Castigav. et notis illustr. Gu. Baxter: varias lectt. et obs. addid. J. Mthi. Gesnerus, quib. et suas adpersit J. C. Zeunius. Ed. auctior et emendatior, cum ind. verbor. co-

Previously, *ib.* 1809. 8°.

10241 — opp., edente J. Hunter. Cupri Fisanorum, 1813. 8°. 2 voll. Also on large paper.

Very neat. Hunter had already superintended an earlier edition, which was good. *Andreapoli* (*St. Andrews*), 1797. 12°.

The commentary contains much useless bombast. Also, *ib., id., 1594. fol.* A new edition, superintended by Jac. Grasser, *Col. Munatiana (Bas.)*, 1615. fol. is indeed enlarged, but it is less prized, because the words of other authors cannot be distinguished in it from Chabot's annotations.

sidered as the better edition. Previously less complete, *Antw., Plant., 1578* (new title, 1579). 4°. Cruquius made use of ancient MSS. since destroyed, from whence he gave the inedited ancient scholia. He conjectures too boldly, but with many errors he has contributed very much towards the explanation of his author.—The edition, *Witt., Crato*, 1598. 8°. contains only the text of Lambinus.

- 10172 — Horacio. Sus obras (lat.) con la declaracion magistral en lengua Castellana por Villen de Biedma. Granada, Mena, 1599. small fol.

Erroneously stated in the *Bipont Notit.* as a translation.

- 10173 — poemata omnia, argumentis et scholiis viror. doctiss. illustrata cum indicatione diversar. lectt. partim e VI codd. vett. MSS. partim ex opt. notæ libris aliquot impressis stud. et op. G. Bersmanni. Lps. 1602. 8°.

Bersmann made use of 6 MSS. The 2nd enlarged edition, *ib.* 1616. 8°.

- 10174 — Horatius ex fide et auctoritate MSS. emendata et commentariis illustrata a Dion. Lambino. Acc. Hadr. Turnebi in eund. Horatium commentarii. Insuper et Thdr. Marcilii quotidiana et emendatæ lectiones. Par., Bm. Macæus, 1604. fol.

6 leaves of preliminary matter, 380 and 462 pages, 24 leaves (*indd.*), 4 leaves, and 163 pages (*Marcilii lectt.*). In the copies with the new title-leaf, *ib., id., 1605. fol.*, the notes of Marcilius are not mentioned, but they are really to be found in them (as likewise in the edition of 1605 with a new title).

- 10175 — Horatius cum Lævini Torrentii commentario, nunc prim. in luc. edito. Item Pt. Nannii in artem poet. *Antw., ex off. Plant.*, 1608. 4°. 10 leaves of preliminary matter, 839 pages, and 23 leaves.

A new recension from MSS. Torrentius is less bold in conjecture than Cruquius, but some of his corrections are very happy. He had not such good MSS. as Cruquius, and busied himself less with criticism, but was a more learned man.

- 10176 — opera cum animadvv. et notis Dn. Heinsii longe auctiorib.

Ejusd. liber de satira Horatiana. LB., L. Elzevir, 1612. 8°.

A new recension.

10177 — Horatius (cum notis Jani Rutgersii). Lutet., Rb. Steph., 1613. 12°.

Chiefly Heinsius's text. It contains much that is good, even for the critic. *Persius*, *ib.*, *id.*, 1614. 12°, and *Juvenal*, *ib.*, *id.*, 1616. 12°. are sometimes along with it. Copies of these 3 works on large paper are scarce.

10178 — opera omnia cum novis argumentis. Sedani, J. Jannon, 1627. 32°.

Very scarce and neatly printed with very small type, yet easy to read (called the *Sédanais* or *Parisienne*). Greatly sought after in France.

10179 — Horatius. Acc. nunc Dn. Heinsii de satira Horatiana ll. II. Cum ejusd. in omnia poetæ animadversionib. longe auctiorib. LB., ex off. Elzevir., 1629. 12°. 3 parts in 1 vol.

A complete copy ought to contain, the above title engraved, a printed chief-title of 1629 agreeing with it, 6 leaves of dedication, 3 leaves, ode by Heinsius, and *veterum judicia*, 3 leaves, *vita Horatii*, 3 leaves, advertisement (*amice lector*), an advertisement of 1628 relating only to the text (which is not properly belonging to a complete copy, and is therefore often wanting), 239 pages of text, then 250 pages, *Heinsii animadver.*, with a printed title of 1629; lastly, 286 pages (the last wrongly numbered with 296), *de satira Horat.*, with a half-title.—The best edition of the recension by Heinsius, fine, and complete copies scarce.

10180 — opera. Par., typ. regia, 1642. fol.

10181 — Horatius ex rec. Dn. Heinsii. LB., Elzevir, 1653. 12°.

Only a new title to that part of the edition of 1629 which contains the text.

10182 — Horatius cum commentariis selectissimis varior. et scholiis integris J. Bond. Acc. indd. Curante Corn. Schrevelio. LB., Hack, 1670. 8°.

Better than the editions, *ib.* 1653, 58, and 63. 8°. In this edition, *Rutgersii lectt. Venusinæ*, is to be met with for the first time, but mutilated.

10183 — opp., rec. Tanaq. Faber, et notulas et monita ad odas addidit,

cum specimine novæ interpretationis. Salmurii, Pean, 1671. 12°.

Corrected from conjecture only, often rather arbitrarily, but sometimes very happily. Heinsius is violently attacked. Faber was a man of genius, but too much taken up with himself.

10184 — Hor., Dn. Heinsius recensuit. Amst., Dn. Elzevir., 1676. 18°.

Neat, and it seems to be rather scarce.

10185 — opp., ex edit. et cum scholiis J. Bond. Amst., Dn. Elzevir., 1676. 12°.

The finest and most correct edition of this commentary, and very scarce in good condition. Bond's notes (at first, *Lond.* 1606. 8°.), are for a beginner without being on that account of no consequence.

10186 — cum interpretatione et notis Pt. Rodellii, ad Ser. Galliar. Delphinum. Tolosæ, Colomerius, 1683. 8°. Also, *Lond.* 1690 and 1711. 8°.

The offensive passages are omitted. What Rodellius wanted in learning was compensated by taste and feeling. His commentary (written at his own suggestion) is short, but very spirited, and contains some acute conjectures, which are his own.

10187 — opera. Interpretatione et notis illustrav. L. Desprez, in us. Delphini. Par., Leonard, 1691. 4°.

One of the rarer editions in *us. Delph.* Reprinted, *Lond.* 1694 and often, the last time in 1815. large 8°. (12s.) *Ven.* 1727. 4°. *Neap.* 1771. 4°. *Amst.* 1695. 8°. *Hag. Com.* 1708. 8°.

10188 — opera, cum notis Ed. a Zurek. Harleml, Braau, 1696. 8°. 2 parts in 1 vol.

Correct and not of frequent occurrence.

10189 — Horatius. Acc. Jani Rutgersii lectt. Venusinæ (ed. Pt. Burmann.). Traj. Bat., Halma, 1699. 12°.

Heinsius's text. Prized.

10190 — opp. ad optimor. exemplarium fid. recensita. Acc. variæ lectt. (ed. Jac. Talbot). Cbr., Tonsen, 1699. 4°. Also on large paper.

A careful recension from MSS. and old editions, with good various readings. Finely printed. Repeated, *Cbr.* 1701 or 1707. 12°.

10191 — œuvres d'Horace, en lat. et en franç. avec des remarques par

And. Dacier. Ed. III. Par. 1709. 12°. 10 vols. Also on large paper.

Le Fevre's text. Dacier's commentary gives proof of great reading, and is very industriously done. He does not imbibe however the spirit of Horace, and judges him and his age quite perversely. At first, Par. 1681. 12°. 10 vols.

10192 — — Ed. V. augm. de notes de Bentley, de Cuninghame et de Sanadon. Amst., Wetstein, 1727. 12°. 10 voll. Also, Hmb., Vandenhoeck, 1733. 4°. 4 parts in 2 vols., or in 12°. 10 vols.

10193 — Horatius ex rec. et cum notis atque emendatt. Rch. Bentley. Cbr. 1711. 4°.

Corrected from MSS. and conjectures in more than 800 passages. It forms an epoch in Latin criticism. Even where Bentley errs his acuteness and learning are astonishing. These notes are at the end of the book. *Bentley cura noviss. ad Hor. nunquam alias edita*, in the *Museum Crit.* Cbr. I. 194. etc. are of no importance.

Writings in opposition, *Aristarchus ampullans in curis Horatianis s. querimonia epistolaris ad Benilejum, auctore Philargyrio Cantabr.* Lond. 1712. 8°. (*J. Ker*) *quaternæ ep., I. et II. ad Rch. Bentleyum, III. ad Es. Spanhemium, IV. ad L. F. Bonetum.* Lond. 1713. 8°. *J. le Clerc* *Judgment and censure of Bentley's Horace, transl. from the French.* Lond. 1713. 8°. *The Odes, Epodes, and Carmen Sec. in Lat. and Engl. with a transl. of Bentley's notes. To which are added notes upon notes.* Lond. 1713. 8°. 24 parts in 2 vols. *Rch. Johnson Aristarchus Anti-Bentleyanus. Nottinghamia*, 1717. 8°. (*Jer. Marklandi*) *ep. crit. ad Fr. Hare, in qua Horatii loca aliquot et alior. veterum emendantur.* Cbr. 1723. 8°. (In addition, *Marklandi nota aliquot in Hor.* in the *Classic. Journ.* XVIII. 126 etc.) See also No. 10199.

10194 — (the same title). Ed. III. Amst., Wetstein, 1728. 4°. 2 parts in 1 vol. Very scarce on large paper.

This correct reprint is even preferred to the original edition, because Th. Treter's index, enlarged by Ia. Verburg, is annexed, and the notes are brought immediately under the text. *Ed. II. Amst.* 1713. 4°. (scarce on large paper) stands in somewhat less estimation.

10195 — Horatius. Ad nuperam Rch. Bentley edit. accurate ex-

pressus. Notas addid. Th. Bentley. Cbr., Crownfield, 1715. 8°.

Bentley's notes with some corrections specified by himself, and some additions of his own to his notes.

10196 — Opp. ad fid. codd. MSS. emendata (per Pt. Burmannum). Traj. 1713. 12°.

After Bentley, from whom he deviates where he is too bold. With corrections from MSS.

10197 — opp. (ed. Mch. Maittaire). Lond., Tonson, 1715. 12°. Also on large paper.

10198 — opp. expurgata, interpretatione ad verbum, variis lectt. ac notis illustrav. J. du Hamel. Par. 1720. 8°.

Du Hamel made use of MSS., but he has frequently altered the text with as much precipitation as ignorance. Repeated, 1730 and 64.

10199 — poemata. Ex antiquis codd. et certis animadvv. emendav., variasque scriptor. et impressor. lectt. adjec. Alex. Cuningham. Hag. Com., Th. Jonson, 1721. 8°. Ejusd. animadvv. in Bentley edit. et notas in Hor. ib., id., 1721. 8°. 2 voll.

A new recension from MSS. His notes are very learned, and his corrections in part very happy. But he is too unjust and bitter against Bentley, and often falls into the same errors which he censures in him. Consult *Gli. Cortii additamentum ad Cuningamii animadvv. in the Act. Erudit.* 1722. p. 377 etc. There are only copies on large paper of the first vol. of the above edition, that is, the text. *Lond., Vaillant et Prevost*, 1721. 8°. 2 vols. is only a new title.

10200 — eclogæ, una cum scholiis perpet., tam vett. quam novis. Adjecit etiam sua textumque ipsum restituit W. Baxter. Lond., Bowyer, 1725 (new title, 1735). 8°.

On large paper, one of the rarest large paper editions. (The Dresden large paper containing Baxter's portrait by Vertue.) At first, *Lond.* 1701. 8°. The 2nd edition is enlarged with notes against Bentley. His corrections are not from MSS., and are rather unhappy, and his explanations are full of mania after allegories and etymologies, and often without taste.

10201 — poesies (en lat.), disposées

suisant l'ordre chronologique et trad. en franç. avec des remarques et des dissertations crit. par Noel Et. Sanadon. Par., Chaubert, 1728. 4°. 2 voll. Also on large paper.

The text chiefly after Cuninghame, yet with the use of Bentley's and the earlier editions, and containing the editor's own corrections, for the most part equally bold and unhappy (*Par.* 1782. 12°. is only an impression of the text). In his commentary he combines solidity with taste and feeling, and is the first commentator of Horace, who handles him with reference to the beauties of his composition.

10202 — (the same title). Amst. (*Par.*), 1756. 12°. 8 voll. Also on large paper.

In this edition much was altered from the papers left behind by Sanadon, but as those who had the care of the papers have not mentioned their names, it is a matter of doubt how much credit can be attributed to them. The text is printed after the *vulgata*, and Sanadon's alterations are only placed underneath. In the copies which really have *Paris* in the title, much was omitted which is found in that dated from *Amst.*

10203 — opera. Lond., æneis tabulis incidit J. Pine, 1733–37. large 8°. 2 voll.

The text of the edition, *Cbr.* 1701. 12°. engraved throughout, and very neat. But the vignettes are less happily conceived. The subscription-price was 2 guineas. Properly the first impressions only are particularly sought after, which are distinguished by the mistake on the coin of Augustus, T. II. p. 108, where *Post Est* stands instead of *Potest*. This error is corrected in the two later and considerably cheaper impressions. *Berol.* 1745. 8°. is a neat impression of this edition.

10204 — Opp. minutissimis characteribus edita. Par., typ. regia, 1733. 18°.

Sought after on account of its neatness. Commonly with the *Phædrus* of 1729, which is printed with the same types.

10205 — œuvres en lat., trad. en franç. par Dacier et Sanadon, avec les remarques crit., hist. et géogr. de l'un et de l'autre. Amst. 1735. 8°. 12 voll.

Prized and not of frequent occurrence.

10206 — Horatius (edente J. Jones). Lond., Brotherton et Nourse, 1736. 8°. Also on large paper.

This editor assures us that he has made

use of some MSS. In criticism he is far inferior to Bentley and Cuninghame; yet is the edition mentioned in Wolf's *Lit. Analect.* I. 272, as "*editio minime spernenda, etsi audaciorum plena conjecturarum.*"

10207 — poemata, ex castigatt. et obss. Bentleji, Cuninghami et Sanadonis emendata. Lond., Nourse, 1740. 12°.

10208 — opp. Lond., Brindley, 1744. 18°.

10209 — Horatius ad lectt. probatioribus diligenter emendatus et interpunctione nova sæpius illustratus. Glasg., Rb. Foulis, 1744. 12°.

Scarce and very correct, and said not to have a single typographical error. Also on large paper in 12°, and extremely scarce on fine paper in 8°. *Id.*, Foulis, 1750. 12°. is not sought after.

10210 — opp. ed. J. Hawkey. Dublinii, e typogr. academiciæ, 1745. 8°. Also on large paper.

Very correct, and greatly sought after.

10211 — carmina notori suo restituta, accurate St. And. Philippe. Lut., Coustelier, 1746. 12°.

Neat and correct. *Id.*, Barbou, 1754. 12°. is a new title.

10212 — opera. Lond., Gu. Sandby, 1749. large 8°. 2 vols. with 1 title-plate, and 35 plates after the antique.

Particularly fine. The rarest edition of this series of Sandby's typographical productions, which consists of Horace, Virgil (1750), Terence (1751), and Juvenal and Perseus (1763). At the end of the 2nd vol. are various readings and conjectures. The edition in small 8°. is quite different, in smaller characters, the last impressions of the plates, and far less sought after.

10213 — opp. Glasgæ, in ædd. acad., 1760. small 8°. Also on large paper in 4°.

10214 — works, transl. into Engl. prose, with the Latin text, and crit. notes (by D. Watson, revised by Sm. Patrick). Ed. IV. Lond. 1760. 8°. 2 voll.

Prized on account of the notes. Also, Lond. 1792. 8°. 2 voll.

10215 — Horatius (ed. J. Livie). Birminghamiæ, Baskerville, 1762. 12°.

Scarce. One of the finest and most cor-

rect of Baskerville's typographical productions. *Ib.*, *id.*, 1772. 12°. is far less fine and correct.

- 10216 — carmina nitori suo restituta. Par., Barbou, 1763. 12°. with plates.

Superintended by Jos. Valart, who allowed himself arbitrary alterations. The edition of 1775 is more prized.

- 10217 — Horatius ex rec. et cum notis atq. emendatt. Rch. Bentleji, cum præf. J. F. Fischeri. Lps., Weidmann, 1764. large 8°. 2 voll. (4 d.)

- 10218 — poemata, scholiis s. annotatt., instar commentarii, illustrata a J. Bond. Aurelianis, Couret de Villeneuve, 1767. 12°.

A fine but incorrect reprint of *Amst.* 1676.

- 10219 — Horatius. Birmingh., Baskerville, 1770. large 4°.

The finest and rarest of Baskerville's typographical productions in 4°. after the Virgil. 5 indifferent plates after Gravelot are usually appended to it.

- 10220 — opp. ad fid. 76 codicum. Curante Jos. Valart. Par., Lambert, 1770. 8°.

The 76 *codd.* mentioned in the title are only to be understood of those which were made use of in the earlier editions. Valart himself has only used 2 MSS., even these very superficially, and compared some old editions, but this also is not carefully done.

- 10221 — Carmina, deterisis recentibus plerumque maculis, nitori suo restituta. Par., Barbou, 1775. 12°.

Superintended by J. N. Lallemand, who has again rejected Vallart's arbitrary alterations in the edition, *ib.* 1763. 12°.

- 10222 — opera omnia ad exemplar Bentleji excusa. Without place or date (*Prague*, about 1775). oblong 8°. 2 vols.

This edition, which contains the text only, and is not fine, C. Egon, prince of Fürstenberg, caused to be printed at his own expense, and gave away as presents only, consequently it is very scarce in Germany. Mitscherlich erroneously places it as early as in the year 1760. As Villoison had caused two pretended odes of Horace (*Lib. I.* 39, 40.), found in a Vatican MS. by Csp. Pallavicini, to be printed in the supplement to his annotations on Longus,

1778, Fürstenburg had them also printed after him in 1780, and inserted them in his edition, T. I. between p. 83 and 85. At the same time he prefixed the following new title to the 1st vol., *Opp. omnia, prius ad exemplar Bentleji excusa, nunc insertis duob. odis novissime repertis* (likewise without the place or date of printing), and 1 leaf, first with a notice respecting the discovery of these odes. Care should therefore be taken to obtain one of these last copies. These odes were printed for the last time with a French translation in *Horatii carmina ed. Vanderbourg*, T. I. p. 358–61, and in the *Horace* by Fea and Bothe. Consult also *A Dissertation concerning two Odes of Horace, which have been discovered in the Palatine library at Rome. Lond.* 1789. 4°.

- 10223 — carmina cum annotatt. gallicis L. Poinsinet de Sivry. Par., Lacombe, 1777. 8°. 2 voll.

The editor has received into the text too many conjectures of his own and others, which are sometimes very hasty, and in his explanations he has shewn the strangest mania for paradoxes.—*Hor. poemata cum comm. J. Minellii. Matrisi*, 1776. 8°.

- 10224 — opp., recens., varietate lectionis et perp. annotatione illustrav. Ch. D. Jani. Lps. 1778–82. large 8°. 2 voll. (3 d.)

The *vulgata lectio* forms the groundwork, corrected from MSS. and old editions with great circumspection. Unfinished, and containing only the odes. An unaltered new impression, *Lps.* 1809. 8°. 2 vols. (the 2nd vol. is only a new title). Consult also C. L. Baueri *progr. I–VI. animadv. Horatiana ad edit. Jani. Hirschbergæ*, 1780 etc. 4°.

- 10225 — poemata, selectis fere omnium interpretum notis illustrata op. F. DorigHELLI. Patav. 1780. 8°. 3 voll.

- 10226 — opp. ad opt. edd. collata. Præmittitur notitia lit. Bip. 1783 or 92. 8°. (18 gr.)

- 10227 — opp. Avenione, 1785. 24°. Very neat.

- 10228 — eclogæ una cum scholiis vett. Castigav. et notis illustrav. Gu. Baxterus. Varias lect. et obs. addidit J. Mthi. Gesnerus, quib. et suas adpersit J. C. Zeunius. Lps., Fritsch, 1788. 8°. (1 d. 8 gr.)

A new impression, *Lps.* 1815. 8°. (1 d. 16 gr.), also, *Glasg.* 1796. large 8°. *Edinb.*

1806. 8°. At first in 1752 and 72. Gesner gave Baxter's text with some important alterations of his own. His notice of the various readings from MSS. and old editions is not accurate.

- 10229 — carmina. Curav. Jer. Jac. Oberlin. Arg., Rolland et Jacob, 1788. 4°. On vellum paper (12 d. 6 gr.)

With various readings from 4 Strashurg MSS. hitherto uncollated. Fine, but not sufficiently so for a show-edition, and not sought after. There is a copy on vellum.

- 10230 — opera. Parmæ in ædd. Palatinis typis Bodonianis, 1791. fol.

This book and the Homer are the two greatest masterpieces of Bodoni. The impression only amounted to 200 copies, 50 of which were on vellum paper. There are also 4 copies on vellum, which however do not correspond with the reputation of Bodoni's press. This edition, which contains a new recension from MSS., was directed by J. N. de Azara and Enn. Quir. Visconti, C. Fea and St. Artega took part in it.—In addition, *Lettera di St. Artega a Gi. Bt. Bodoni, intorno alla censura pubblic. da Clementino Vannetti contro l'ediz. Parmense dell' Orasio del 1791. Crisopoli (Bodoni), 1793. small 4°.*

- 10231 — Opp., cum variis lectt., notis varior. et indice locupletiss. (cura C. Combe et H. Homer). Lond., Brown, 1792-93. large 4°. 2 vols. on vellum paper (2l. 12s. 6d.).

30 copies on very large paper in 4 vols. Gesner's text. Overloaded with notes, not always happily selected, and yet not complete or sufficient. Finely printed, but not much sought after.

- 10232 — opp. Parmæ, in ædd. Palatinis typis Bodonianis, 1793. large 4°, some on fine paper.

A reprint of the edition of 1791. According to Bodoni's statement only 150 copies were printed, some of them on fine paper.

- 10233 — quæ supersunt, rec. et notulis instrux. Gilb. Wakefield. Lond., Kearsley, 1794. 8°. 2 parts in 1 vol. with plates (10s. 6d.). Scarce on large paper.

Properly after Baxter's recension, but corrected with equal critical acuteness and boldness, especially in the punctuation. Very neat and correctly printed.

- 10234 — opp. Par., Pt. Didot natu major, 1799. large fol.

A very fine edition, with 12 excellent

vignettes designed by Percier. The impression was 250 copies (subscription-price 240 fr.), 100 copies of which with plates *avant la lettre* (360 fr.). Two copies on vellum (Didot's finest specimen of printing on vellum), one of which, with the original designs, Hibbert of London bought at Junot's sale in 1816 for 140l.

- 10235 — opp., ad exemplar Bentleji recudenda curavit, argumentis præmissis, notis crit. adjectis, vita auctoris enarrata, indicibusq. illustrav. J. Ch. F. Wetzel. Lignitii, Sigert, 1799. 8°. 2 voll. (2 d.)

- 10236 — opp. illustrav. Ch. Gu. Mitscherlich. Lps., Crusius, 1800. large 8°. 2 voll. (6 d., on writing paper 8 d., on vellum paper 13 d. 8 gr.)

Designed to be in 5 vols., whereof the above first two contain the odes. Chiefly the common text. The commentary is occupied particularly in the explanation of Horace from his Greek models. The *notitia lit.* is extremely faulty, and little to be depended upon, and in particular the prefixed critical survey of the editions is frequently in direct contradiction with the bibliographical list which follows it.

- 10237 — opp. cum locis quibusd. e græcis scriptorib. collata a St. Weston. Lond. 1801 or 5. 8°.

- 10238 — Horatius cum scholiis perp. J. Bond (edid. N. L. Achaintre). Par. 1806. 8°. (7 fr., on large paper 12 fr., on vellum paper 24 fr.)

Two copies on vellum.

- 10239 — opp., ad MSS. codd. plurimis in locis emendavit notisq. illustrav., præsertim in iis, quæ Roman. antiquitates spectant, C. Fea. Romæ, 1811. 8°. 2 voll.

A very neat and correct critical small edition, which contains a new and careful recension after 13 MSS. But Fea's own corrections are not happy. A new impression, superintended by F. H. Bothe. *Hildb.* 1820. 8°. 2 voll.

- 10240 — eclogæ cum scholiis vett. Castigav. et notis illustr. Gu. Baxter: varias lectt. et obs. addid. J. Mthi. Gesnerus, quib. et suas adpersit J. C. Zeunius. Ed. auctior et emendatior, cum ind. verbor. co-

piosissimo. Lond. 1813. 8°. (12s., on large paper 1l. 1s.)

Previously, *ib.* 1809. 8°.

10241 — opp., edente J. Hunter. Cupri Fifanorum, 1813. 8°. 2 voll. Also on large paper.

Very neat. Hunter had already superintended an earlier edition, which was good. *Andreæpoli* (*St. Andrews*), 1797. 12°.

10242 — Horatius ex rec. Gesneri et Zeunii. Cum præcipua lectionis varietate. LB., Luchtmans, 1815. small 12°. (2 fl.)

10243 — opp., rec. et illustrav. F. Gu. Döring. Ed. II. auctior et emendator. T. I. Lps. 1815. 8°. (1 d. 12 gr.)

10244 — lyrica, ab omni obscenitate purgata. Atque in eadem commentarii Acronis, Porphyrius, Chabotii, Lambini, Torrentii, Ceruti. Col. Agr. 1632. fol.

10245 — carminum libri V, rec. et ex vetustis exemplarib., editt. et commentariis emendav. G. Wade. Lond., Bowyer, 1731. small 4°.

Very scarce. The text is corrected from MSS. and old editions.

10246 — carminum libri V, ad fid. 18 MSS. Paris., recens., notis illustrav. et gallicis versib. reddid. C. Vanderbourg. Par., Schoell, 1812–13. 8°. 2 parts in 3 vols. (20 fr., on vellum paper 40 fr.)

A real masterpiece, both as it regards the critical part and the explanation.

10247 — pars sexta operum Horatii, ipsi et Sidonio Apollinari laudes Phœbi et Dianæ dicta, ex antiquiss. recensione Sidonii nunc prim. edita, argumentis et nova paraphrasi colostrata, auctore J. Pt. Anchersen. Havn. 1752. 8°.

10373 — history of England from the invasion of Jul. Cæsar to the revolution in 1688. Lond. 1770. large 4°. 8 vols. Also on very large paper.

A good edition. The first, Lond. 1759-62. 4°. 6 vols. is less complete.

10374 — — Lond. 1796. large 8°. 8 vols. with portraits. In addition, The history of England from the revol. to the death of George II, by Th. Smollett. Lond. 1796. 8°. 5 vols. with portraits.

The work by Adolphus forms a third continuation, of the reign of George III. up to 1783; see ADOLPHUS. Another continuation of Hume, from 1688 to 1802 (less prized as it appears), see under BELSHAM. — Other editions are, Lond., Cadell, 1802. large 8°. 8 vols. with plates; with Smollett, 5 vols., and Adolphus, 3 vols. 7l. 4s., on large paper 11l. 4s.) — The following have only Smollett's continuation:

10375 — — *Lond.*, *Bensley*, 1806. fol. 10 vols. with many plates.

A splendid edition, with fine plates (some of them are certainly rather indifferent). Rb. Bowyer undertook the work. It appeared in 70 Nos., and the subscription price was 73l. 10s., and double that sum with plates on Chinese paper.

10376 — — with the continuation by Smollett. *Lond.* 1810. large 8°. 16 vols. with plates (11l. 4s., on large paper 19l.).

A fine edition, and prized. The plates are valuable. Scarce on large paper.

10377 — — with the continuation by Smollett. *Lond.*, *Corrall*, 1811. 24°. 15 vols. (3l. 15s.)

A very neat pocket edition. In the edition, revised by *G. Berkely Mitchell*, *Lond.* 18... 8°. 8 vols. (3l. 12s.) Hume's statements concerning religion are omitted.

10378 — *histoire de la maison de Plantagenet*, trad. (par *Mme Bellet*). *Amst.* (*Par.*) 1765. 4°. 2 voll. *Hist. de la mais. de Tudor*, trad. All 7 vols. also on large paper. A new edition amended and corrected, *Par.* 1819-20. 8°. 16 vols. (88 fr., on vellum paper 176 fr.) The Italian translation by *Castelli* remains unfinished. Two new translations are begun, by *Pt. Antoniutti*, *Ven.* 1819. 4°. and by *Mch. Leoni*, *Ven.* 1819. 8°.

10379 — *Geschichte von England übs. von Gbh. Timäus. Lüneburg, Herold*, 1806-7. large 8°. 2 vols. (5 d.)

The earlier translation (by *J. Jac. Dusch* and others), *Bresl.* 1762-71. large 4°. 6 vols. (10 d. 12 gr.) is of no value.

Bauer, 1775-82. 8°. 12 pieces in 3 vols. (2 d. 12 gr.)

At the end of this scarce work, the 3rd vol. of which remains in MS., there ought to be 12 leaves of heraldic plates. A new, but unaltered impression of the 1st vol. is *Ingolst., Sartorius*, 1598. fol.

10385 — metropolis Salisburgensis, cum notis Cp. Gewoldi. Ratish. 1719. fol. 3 parts in 1 vol.

This edition is very incorrectly printed. At first, *Ingolst.* 1582. fol. Of the 2nd edition, *Monachii*, 1620. fol. 3 parts in 1 vol., those copies are very scarce in which the passage, in part II. p. 87, concerning the old chapel at Regensburg is to be found; *Nequaquam tacenda hoc loco.... et imitatores inveniant.* This leaf was obliged to be reprinted, and the passage omitted: see *Zapf's Liter. The first edition of this piece, *Ff. a. O., J. Hanaw*, 1510. 4°. 46 leaves, is the rarest of Hutten's writings. The following is as an explanation thereto: *U. Hutten's Jugendleben von Mohnike. Greifsw. 1816. 8°.*

10413 — (anon.) Imperator. Romanor. libellus. Una cum imaginibus ad vivam effigiem expressis. Arg., Wfg. Cæphalius, 1525. 8°.

8 leaves of preliminary matter, 88 numbered and 4 unnumbered leaves. The first edition. Containing portraits of the Roman, Byzantine, and German emperors, in woodcuts, down to Charles V. and the archduke Ferdinand. The likenesses are white upon a black ground, in a round form; and copies of them are in the collection, *Illustrium imagg. Rom.* 1517. 8°. The text however is different from this collection, and Huttich's book is altogether more complete.

10414 — imperator. et Cæsarum vitæ cum imaginib. ad vivam effigiem expressis. Libellus auctus cum elencho et iconis consulum ab Authore. Arg., Wfg. Cæphalæus, 1534. 8°. with woodcuts, 8 and 89 leaves.

This is the 4th edition of the preceding book (the 2nd, *ib., id., 1526.* 8°.; the 3rd, under another title, *AV., Sleymer,* 1533. 8°.), enlarged and corrected. The portraits are different from those of the 1st edition, and for the greatest part ornamented with borders. *Lugd., Bths. Arnolletus,* 1550. 8°. is a reprint of this edition, enlarged with Latin disticha, but with smaller and quite different portraits.

10415 — Romanor. principum effigies: cum historiæ. annotatione, olim ab J. Huthichio (*sic*) confecta: nunc vero alicubi aucta et longe castigatiora op. J. Sambuci. Ed. III. Arg., ap. Vuolfium Cephaleum, 1551 (*sic*, instead of 1552). 8°. with woodcuts.

8 and 206 leaves. The likenesses are those of the edition of 1534. Besides other things, this edition is enlarged with the series of the Roman consuls, and with representations of consular coins. In leaves 128b-141a is *S. Ruffi Libellus de historia Romanor., "multis modis castigatior,"* as Sambucus says in the notice prefixed. Fabric., in *Bibl. Lat.*, and Moller, in *Diss. de S. Ruffo*, did not know of this edition of Rufus.

The 3 articles above, respecting a book

of no great consequence in itself, might find room here as a small addition to a critical literary history of Iconography, because I could accurately describe most of the editions from my own inspection. See also GRYNÆUS.

10454 ICONES insignium aliquot viror. Lugd., J. Tornæsius, 1559. 8°. with woodcuts.

8 leaves of preliminary matter and 236 pages. It contains 145 portraits of learned men from classic antiquity, but of moderns only that of Blondus Flavius. The designs and engravings of this collection of representations of ancient statues are very good. Doncker, Dondyns, Matham, Ferreria, Neefs, Backer, Wieling, Poelenburgh, and Doedeys are mentioned as the draughtsmen. The engraving is by J. E., that is, J. Episcopus or Bisschop († 1686).

10480 IMAGO primi seculi societatis Jesu, a provincia Flandro-Belgica ejusd. societatis representata (a J. Tollenario). Antw., Moretus, 1640. fol. with neat plates.

Scarce, but by no means so much so as is always stated, and greatly fallen in price since the more peaceful and equitable appearance of things. The hyperbolical eulogiums, which exist in this work, are only the innocent pedantry of the order, which is to be found equally strong in the history of other orders. And was not the flashing of the so called (mental) enlightenment, which certain German antagonists exhibited even to a disgusting excess, in the end the same pedantry again?

10482 IMITATIONE Christi, de.

Incipit libellus consolatorius ad instructionem devotor. cujus primum capitulum est de imitatione Christi etc. (AV.), Gth. Zainer, (about 1472). fol. Gothic letter, 76 leaves with 35 lines.

The first edition, which however is properly a piece of *Hieronymus* (see above, No. 9696). In the colophon *Thomas, Montis S. Agnetis in Trajecto regularis canonicus*, is mentioned as the author.

The history and literature of the well-known controversy concerning the author of this work is in *Catal. Bunav. T. I. Vol. II. p. 1648 sq. Vallière Catal. IV, 180 etc. Meusel Hist. lit. bibliogr. Magas. St. I. p. 127 etc. Millin Voy. en Savoie, II. 361. Barbier Dict. des anon. et pseud. I, 390 etc. III, 414. Ant. Alex. Barbier Diss. sur 60 traductions franç. de l'imit. de J. C. (avec des considérations sur la question relative à l'auteur de l'imit., par Gence). Par. 1812. 8°. (Consult *Muratori Antiq. ital. III, 980*). The work has been attributed to St. Bernard, to Gerson chancellor of Paris, to the German canon Thomas à Kempis, and to the Italian Benedictine abbot J. Gersen. Hr. Gence adduces no unimportant grounds for considering the chancellor Gerson as the true author. Namely, Gerson appears to have been the author of the *Interielle consolation* (see *Consolation*, above), and the later Thomas à Kempis paraphrased this in Latin.*

10483 — J. Gerson de imitatione Christi et de contemptu omnium vanitatum libri. Ven., Pt. Loslein de Langencen, 1483. 4°. Gothic letter.

The 1st edition with a date, 2 leaves of table of contents, and 50 numbered leaves in 2 columns, with 39 lines, and the signatures a-f.

10484 — Incipiūt ammoniōnes ad spirituale vitā utiles. Ca. primū de imitacōe xpi. In civitate Metensi, J. Coloni et Gerhardus de nova civitate, 1482. 4°. Gothic letter.

24 leaves, without signatures, catchwords, and pagination. The first dated book printed at Metz, and sold at d'Ourches's sale at Paris in 1811 for 24 fr. It contains only the 1st book. The edition, *Lunemborch, J. Luce*, 1493. 8°. is the first book printed at Lüneburg.

10485 — de imitatione Christi. Lugd. (Bat.), ap. J. et Dn. Elzevirios,

without date (about 1653). 12°. 257 pages with the title-plate.

One of the rarest Elzevir typographical productions and the most sought after, and very dear in good condition. Copies with large margins (4 French inches 11 lines high) are sold in Paris for 108, 140, even 150 fr. Equally neat, but less sought after, are *LB., Elsev.*, 1658. 12°. *Amst., Elsev.*, 1679. 12°.

Other neat editions and sought after are *Col., Corn. ab Egmond*, 1629. 32°. *Par., Sh. Martin*, 1657. 12°. (on large paper in 8°. *Renouard*). *Patav., Jos. Cominus*, 1728. 8°. *Glasg., Foulis*, 1751. 12°. *Edinburgi, Ruddimannus*, 1757. 12°. *Aurelia*, 1784. 16°. *Ed. N. Beauzée. Par., Barbou*, 1789. 12°. with plates (8 fr., on Dutch paper 15 fr.). *Solisbaci, Seidel*, 1815. 12°. (9 gr.) *Par., e typ. reg.*, 1640. fol. with plates, is respectable, but very cheap. The editions by Jos. Valart are neat, but mutilated, *Par., Barbou*, 1758. or 64, or 73. 12°. with plates.—*De imitat. II. IV ad veram lect. revocati et auctori suo, Th. a Kempis, denuo vindicati per Fr. Jos. Desbillons. (Manhem.)* 1780. 8°.

10486 — de imitatione Christi II. IV. Par., Didot junior, 1788. very large 4°. On vellum paper.

A fine edition with a picture of the Saviour by Klaubert. The entire impression was 200 copies, many of which were spoilt by water or in the pressing. Some copies also in fol. Unfortunately it was printed after Valart's bad text.

10487 — — Parmæ, ex regio typogr. (Bodoni), 1793. large fol.

A splendid edition, but likewise Valart's text. Only 162 copies, 15 of which are on vellum paper.

10488 — viator Christianus recta ac regia in cælum via tendens, ductu Th. de Kempis. Nova cura rec. et notis illustrav. Jac. Merlon. Horstius. Par., Nyon, 1804. 18°. 2 voll. Also on vellum paper.

Containing *De imit.* and *De vera sapientia*. The book and title are only reprints, but very neat, of an edition of 1643.—Put into better Latin by Sb. Castello, *Cbr.* 1685. 12°. *Ff.* 1707. 12°. In Latin versæ by Thdr. Graswinkel, *Rott.* 1661. 8°. and by Duquesnay de Boisguibert, *Par.* 1729. 8°.

10492 — Jesu Christoren imitacionea (en langue basque). Bayonan, 1720, or 60, or 69. 12°.

On blue paper in the Bibl. Riccardiana.—L'imitaz. di Cristo in lat. ed in italiano (dal Card. Henriquez). Roma, 1754-55. 8°. 3 voll.

10495 — cy comance le liure tres-salutaire, la Ymitation Jhesu Christ et mesprisement de ce monde, premierement compose en latin par saint Bernard ou par autre devote personne, atribue a maistre Jehan Gerson...et apres translate en françois en la cite de Tholouse (*sic*). Tholose, A. Mayer Alaman, 28 May 1488. 4°. Gothic letter, with the signatures *a-p* and *A-D*.

The first French translation of this book and extremely scarce, only a single copy of which, in the Royal library at Paris, is known; but important on this account, that it removes the uncertainty whether the earlier typographical productions of Mayer belong to the Spanish town Tolosa, or to the French Toulouse. See also MAINO.

10496 — — Par., J. Lambert, 16 Nov. 1493. small 4°. Gothic letter, with woodcuts, 110 leaves.

The same translation with some alterations. A copy on vellum in the Bibl. S. Geneviève at Paris. The edition, *Rouen*, 1498. 4°. Gothic letter, contains a translation (prepared in 1447.) different in the first 3 books, but agreeing in the 4th with the preceding.—(By Mch. de Marillac), *Par., Cramoisy*, 1630. 12°. (best edition). By Ant. Girard, *Par., le Petit*, 1641. 8°. and often. By L. Is. le Maistre de Sacy, *Par.* 1663 or 90. 8°. with plates, and corrected by the Abbé de la Hogue, *Lond, Dula*, 1797. 12°. or *Par., Crapelet*, 1812. 12°. with 8 plates (5 fr., on vellum paper 8 fr.). By Jos. Valart (after his mutilated text), *Par., Barbou*, 1759, or 73, or 80. 12°. with plates. The translation by N. Beauzée is the most prized, *Par., Barbou*, 1788. 12°. with plates (also on Dutch paper), of which *Par., Barbou*, 1801. 12°. and *Par., Delalain*, 1811. 12°. with plates are less fine reprints. The translation (by J. B. Modeste Gence), *Par.* 1820. 12°. (2 fr. 50 c., on vellum paper 5 fr.) is after a critical use of MSS. and very accurate.—*Par., Moreau*, 1643. 8°. is remarkable on account of the writing characters which are made use of. In French verse by Pt. Corneille, *Rouen*, 1656. 4°. with plates, or *Par.* 1665. 8°. with plates, of which an earlier edition (only of the 1st book) is to be noticed, *Leyde, J. Sambix (J. et Dn. Elsevir)*, 1653. 12°.

10497 — de l'imitation de J. C. Traduction nouv. dédiée au roi (par l'abbé Fr. Timoléon de Choisy). *Par., Dezallier*, 1692. 12°. with plates.

Tolerably scarce, and notorious on account of an anecdote. The vignette before the dedication represents the chapel at Versailles, and at the beginning of the 2nd book a lady is kneeling before a crucifix, and is surrounded by young girls who sit on the steps. To which is added the superscription, borrowed from Psalm 45. v. 11, *Audi filia*. That de Choisy by this picture meant madame de Maintenon with the damsels of the abbey of St. Cyr is certain; but it was not his fault that mockers recollected the following verses of this psalm; *Et vide, et inclina aurem tuam... et concipiet rex decorem tuum*, nevertheless the rapid spread of this malicious completion of the quotation induced the Abbé entirely to suppress the plate, and to place in its stead a simple crucifix. The old plate however is found again in the edition of 1694, but in none of the following editions. Misapprehension has made out of this story, that de

Choisy dedicated the book to madame de Maintenon, and added the motto, *Concupiscet rex decorem tuum*. Consult *Chardon Mélanges*, III. 270. *Barbier Dict. des anon.* I. 391. *Wiener Lit. Zeit.* 1813, *Int. Bl.* p. 119.

10500 IMPERATO, Ferrante. Dell'istoria naturale libri XXVIII. Na-poli, 1599. fol. with woodcuts.

Finer than the 2nd edition, enlarged with

notes by Mar. Ferro, *Ven.* 1672. fol. with woodcuts. In Latin, *Lps.* 1695. 4°.

10501 IMPERIALI, Jos. Ren. Bibliothecæ Card. Imperialis catalogus secundum auctor. cognomina ord. alphabetico dispositus una cum altero catalogo scientiar. et artium (op. Justi Fontanini). Romæ, 1711. fol.

Somewhat more bibliographically accurate than other catalogues of that period, and with (insufficient) statements of the writings contained in the works. A systematic list is appended, in which the names only of the authors are given, which are then to be sought for in the alphabetical catalogue. The system (not to be preferred) which forms the groundwork is again printed in *J. D. Keler's Sylloge scriptor. de ordin. ac ornanda bibl.* *Ff.* 1728. 4°. p. 145 etc.—*Catalogo della libreria del Card. Gius. Ren. Imperiali.* *Roma*, 1793. 8°. 2 vols. is more recent.

10502 IMPERIALIS, J. Museum historicum et physicum. Ven., ap. Juntas, 1640. 4°. with 57 portraits by And. Salmincio.

Particularly sought after on account of the plates, in other respects of no value. The *Mus. hist.* without the plates is re-printed in *Allatii Apes urbana.* *Hmb.* 1711. 8°.

10503 IMPOSTORIBUS, de tribus. Anno M. D. IIC. (1598). small 8°.

Title-plate and 46 pages with the signatures A-F. The 46th page has only 54 lines of text, and underneath stands TANTUM! Only 3 copies of this printed edition are known for certainty; in the Royal library at Paris (for 474 livres from Valliere, who had purchased it for 300 livres), in what was formerly the Crévanna library and in Renouard's. Renouard thinks this edition was really printed in the year 1598 or at least in the next century; Brunet on the contrary, who also had Renouard's copy before his eyes, considers it to be a German typographical production of the 18th century. Crévanna conjectured that there is an error in the date, and that it ought to be 1698. That there must certainly have been a printed edition already in the first third part of the 17th century is evident from *Campanella's Atheism. triumph.* *Par.* 1636. 4°. præf. p. 2, which mentions the piece as printed in Germany, and the writer of which seems to have had it before his eyes. Also Cl. Hardy assured Leibnitz (†1678.) that he had seen the piece itself, and so described the printing, as if it resembled the printing of Racow (*Marokand dictionn.*

I. 320. n. R). But that there is also a later undated reprint in 8°. made in Germany, which P. Straube, the Vienna bookseller, disposed of in the year 1753, may be seen in *Schelhorn's Ergötzlichkeiten*. III. 2080 etc.

10504 — *de tribus mundi impostoribus*, Mose, Christo et Mahumet, breve compendium. Without place or date. small 8°. 64 pages.

Printed at Berlin or rather Giessen in 1792. The book, *De tribus impostoribus, des trois imposteurs*. Ff. sur le Mein (Rott., Böhm), 1721. small 4°. 60 pages. Yverdon, 1768. 12°. without place (Holland), 1775. 8°. and without place (Germany), 1777. 8°. 152 pages, is in French, and nothing else than the well known *Esprit de Spinoza*.

Inquiries concerning the age and origin of this production have been conducted in a strange manner. Instead of employing themselves with the piece really extant, persons have hunted after unvouched and odious traditions of old chroniclers, according to which the emperor Frederick II. is said to have indulged in similar expressions, by word of mouth, and they have taken all pains to convert these expressions into a written production, which either he himself or his chancellor Pt. de Vineis or some other person is said to have written. As the above piece is throughout unaccordant with that remote period, and as it sometimes bears in the MSS. another title (*De imposturis religionum*), it has been strangely maintained, that the piece did not exist at all, and that which was really extant was a supposititious fabrication of a later date. That there is however no other than the one quoted is certain. Florim. Ræmundus, *De orig. hæres*. lib. II. c. 16, gave the first decided testimony, who assures us he saw it in the possession of his teacher Rt. Ramus at Paris († 1572), and Mersenne in *Quæst. in Genesin*, Par. 1623. fol. gives even its contents according to the relation of another person. Were these testimonies not extant, one might almost feel tempted to think that it was first written after 1609 or even 1622, inasmuch as the following passage occurs in it: *An vero credendum est, quia bonæ feminiculæ Franciscum, IGNATIUM, Dominicum et similes tanto cultu prosequuntur, dicere rationem, ad minimum SANCTORUM hominum aliquem esse colendum?* But Ign. Loyola was first canonized in 1609 and spoken of as a saint in 1622. As to the rest, the usual MSS. terminate with the words *a quo currere incepisti*, the more complete MSS. on the contrary, *Testimonia eorum, qui extra ecclesiam Judaicam vel Christianam sunt, omittimus. Tantum.*

10562^a — — Without place or date. large fol. half Gothic letter.

10565 — liber de responsione mundi et astror. ordinatione. (*AV.*), Gth. Zainer, 7 Dec. 1472. fol. 20 leaves with 38 lines.

In the printing entirely like No. 10561. According to Dibdin, *Decam.* II. 354, Lord Spencer has a copy on vellum; yet it is not mentioned in the *Bibl. Spenc.*

- 10579 ISOCRATIS oratt., gr. Curante Demetr. Chalcondyla. Mediol., H. Germanus et Sb. ex Pontremulo, 24 Jan. 1493. fol.

196 leaves (besides the 2 blank after the 14th and 31st) with 34 lines (not 35, as Dibdin states), and the signatures a-8 and A-CC. The first edition, very fine and very scarce, and very correctly printed. But in the corrupted passages it offers little help, and for the most part only confirms the readings of other editions. There is a copy on vellum in the Ambrosian library at Milan. A pretended edition in 8°. with the same place of printing and date, was only a copy of this edition cut even to the very text; Lord Spencer now possesses it, Vallière did formerly.

- 10580 — Isocratis orationes. Alcідamantis contra dicendi magistros. Gorgiæ de laudibus Helenæ. Aristidis de laudibus Athenar. et de laudibus urbis Romæ. Ven., Ald. et And. socer, 4 non. Maji 1513. fol.

A second colophon states, *menae Apr. 1513, 197 pages, 1 blank leaf, and p. 98-167.* The pagination is very incorrect. This edition forms the 3rd vol. of the *Orator. gr.*, but is often met with by itself. It is not from the same MSS. as the *editio princeps*, but it affords as little aid in the corrupted passages, and is less correctly printed.

- 10581 — oratt. (gr.) Haganos, ex off. Seceriana, 1533. 8°.

The text of the *editio princeps* corrected from the Aldine: yet it has a few readings which are not to be found in these two editions.

10582 — *Isocrates nuper accurate recognitus et auctus*. Isocrates, Alcidas, Gorgias, Aristides, Harpocration (gr.). Ven., hered. Aldi Manutii et And. Asulani, m. Jul. 1534. fol.

116 leaves, the last of which contains the anchor. A less fine and less scarce reprint of the edition of 1513. A copy on vellum in the Royal library at Paris. This edition appears to have been not yet accurately collated.

10583 — oratt. (gr.) Ff., Brubach, 1540. 8°.

10584 — oratt. et epp. (gr.) Ven., ex off. Farrea, 1542 (at the end 1543). 8°.

10585 — oratt. et epp. (gr.) Bas. 1546. 8°.

The Aldine text, but with the typographical errors corrected, and enlarged with the 10th letter to Dionysius.

10586 — oratt. et epp. (gr.) Ven., Pt. Nicolinus Sabiensis, 1549. 8°. 276 leaves.

10587 — oratt. doctor. viror. opera, partim melior. exemplarium collatione, multo emendatiores excusæ. Acc. ejusd. epp. et Suidæ difficilior. dictionum explicatio (gr.). Bas., Mch. Isingrin, 1550. 8°.

23 leaves, 1 blank leaf, and 563 pages. There are other copies of the same printing without the year being stated. Also, *ib.*, *id.*, 1555 or 61. 8°.

10588 — scripta, quæ nunc extant, (gr. l.) per Hi. Wolfium correctæ et de integro conversæ et annot. adornatæ. Bas., Oporinus, 1553. large 8°.

8 leaves of preliminary matter, 1034 pages, and 3 leaves. Also, *Bas.*, *Opor.*, 1558. large 8°. 8 leaves, 1033 pages, and 1 leaf. See appendices to this last edition in No. 10629.—Wolf corrected the text from a MS. and old editions (with the exception of the *editio princeps*), yet he has too often arbitrarily altered it. He previously published a Latin translation, *Bas.*, *Oporin.*, 1548. fol., which he afterwards worked up afresh.

10589 — scripta, quæ quidem nunc extant, omnia gr. lat. postremo recognita, annotatt. novis et eruditiss. illustrata castigationibusq. expolita Hi. Wolfio interprete et auctore.

Additi sunt rer. et verbor. ind. Bas., ex off. Oporin., 1570. fol.

6 leaves of preliminary matter, 738 pages, and 9 leaves of index. Then the *annotatt.* with a separate title, 4 leaves of preliminary matter, 846 pages, and 16 leaves of index and colophon. The somewhat verbose commentary, written chiefly for young scholars, contains little that is important, and much that is irrelevant, but the *castigatt.* are very serviceable. Wolf's most complete edition.

10590 — scripta omnia gr. lat. postremo recognita Hi. Wolfio interprete cum rer. et verbor. ind. Bas., ex off. Oporin., 1571. large 8°.

8 leaves of preliminary matter, 1121 and 31 pages. A manual edition without notes. Repeated, *ib.*, *id.*, 1582 and 87. large 8°. *Bas.*, *Hi. Gemusæus*, 1594. large 8°, and *Bas.*, *Waldkirch*, 1602. 8°, not a neat impression.

10591 — oratt. doctor. viror. opera partim melior. exemplarium collatione multo emendatiores excusæ (gr.) Adjecimus Hi. Wolfii argumenta et marginum annott. Bas., Guarinus, 1571 or 79. 8°.

Previously, *ib.*, *id.*, 1567. 8°. A reprint of No. 10587, and chiefly Aldus's text.

10592 — oratt. et epp. (gr.) cum lat. interpr. Hi. Wolfii ab ipso postremum recognita. H. Stephani in Isocratem diatribæ VII. Gorgiæ et Aristidis quædam (gr. lat.). Gu. Cantero interprete. Exc. H. Stephanus, 1593. fol.

14 leaves of preliminary matter, 427, 131, and XXXIV pages, 1 blank leaf, 4 unnumbered leaves, 31 pages, and 9 leaves of index; printed on bad paper. Wolf's text forms the groundwork, but altered according to Aldus and his own taste. Somewhat hastily done.

10593 — oratt. et epp. (gr.) cum lat. interpr. Hi. Wolfii ab ipso postremum recognita. Ed. II. Oliva P. Stephani (*Genevæ*), 1604. 8°.

A less neat impression of the text than the preceding, without notes. *Genev.*, *Jac. Crispinus*, 1642. 8°. is only a new title. *Genev.*, *Chouet*, 1651. 8°. is a fresh reprint, but corresponding word for word.

10594 — oratt. et epp. (gr.) Ed. postrema. Lond., hered. J. Norton et J. Bill, 1615. 8°.

Wolf's text.—*gr. lat.* *Cbr.*, *Hayes*, 1686. 8°.

10595 — oratt. et epp. (gr.) cum lat. interpr. Hi. Wolfii. Ed. postrema recognita et a mendis purgata. Par., J. Libert, 1621. 8°.

With H. Stephens's preface. Without notes.

10596 — oratt. et epp. (gr.) cum nova interpr. (interlin. ad verbum). Cura J. T. A. Par., Sb. Chappelet, 1621. large 8°.

Enlarged with grammatical notes (by Ambr. Pezier). *ib.*, *id.*, 1631. large 8°.

10597 — *λογοι τινες* (gr.) Rec. Ph. Fletcher. Ox., th. Sheld., *αψκς* (1726). large 8°. Very scarce on large paper.

10598 — Oratt. VII et epp. (gr. lat.), codd. MSS. et impressis exemplarib. collatis, varias lectt. subjecit, vers. novam notasque ex Hi. Wolfio potissimum desumptas adjunx. Gu. Battie. Cbr. 1729. 8°.—(T. II.) oratt. XIV. Varias lectt., versionem nov. ac notas adjunx. *idem*. Lond., without date (1748). 8°. 2 vols. Also on large paper.

The 2nd vol. is scarce. Battie had 6 MSS., but he knew not how to make use of them, and he gives almost entirely Wolf's text. He was deficient in acuteness and learning, and even his notes, which contain nothing, are chiefly from Wolf. His translation is not elegant.

10599 — opera omnia (gr. lat.) Varias lectt., versionem nov. ac notas adjunx. Gu. Battie. Lond. 1749. 8°. 2 voll. Also on large paper.

A new impression of the preceding edition.

10600 — opera omnia gr. lat. cum versione nova, triplici ind., variantt. lectt. et notis. Edid. Athan. Auger. Par., Didot., 1782. 8°. 3 voll.

On *pap. d'Annonay* in 4°. 100 copies (108 fr.) A new recension from 16 MSS., but Auger has rather corrupted than corrected the text; the various readings are not noted with sufficient certainty, and almost nothing is done towards the elucidation of the author. The notes are merely critical. Finely but very incorrectly printed.

10601 — opera omnia (gr.) ad opt. exemplor. fid. emendav., varietate lect., animadvv. crit., summario et

indice instrux. W. Lange. Hal., Hemmerde, 1803. 8°. (4 d., on writing paper 5 d. 8 gr.)

A new recension from 2 MSS. and old editions. A 2nd vol. is to contain the commentary.

10602^a — *λογοι και επιστολαι μετα σχολων παλαιων. Οἱς προσετέθησαν σημειώσεις και των Αὐτοσχεδιων στοιχησμων περι της Ἑλληνικης παιδειας και γλωσσης ακολουθια* (edid. Diamant Coray). Par. 1807. 8°. 2 voll. (21 fr.)

70 copies on large paper, almost all of which were sent to the east. A new and careful recension from a very ancient MS. The annotations are indeed properly for the younger reader, but they contain much that is valuable.

10602^b — oratt. et epp. Ad opt. libror. fid. accurate editæ. Lps., Tauchnitz, 1820. 12°. 2 voll. (1 d. 8 gr.)

115 leaves with 35 lines, without signa-

tures, catchwords, and pagination. The first dated edition of the Latin original, and probably the first edition of all, and at the same time Schlüssel's last typographical production. Often reprinted under the titles, *Consolatio peccatorum*, or *Processus Luciferi*, or *Lis Christi et Belial*. The following editions are still remarkable: without place or date (*Arg., Mt. Flach*), fol. Gothic letter, with 38 lines; without place or date (*Col.*), fol. Gothic letter, 96 leaves in 2 columns, with 36 lines; and without place or date (*Lovan. or Col., J. de Veldener*), fol. Gothic letter, with a letter to Veldener of the date of 1474 on the reverse of the 1st leaf.

- 10665 — cy cōmence le procès de Belial à l'encontre de Jesus (transl. par Pt. Ferget). (*Lyon*), 1482. fol. Gothic letter, with woodcuts.

Very scarce and probably the first edition of this translation. The leaves are not numbered, but it has the signatures *ai-tijj*. Leaf 1^a is blank, but on the reverse is a large woodcut with the title. The 2nd edition, *Lyon, Mathys Huss*, 22 Mars 1484. fol. Gothic letter, is equally scarce. The rest are not sought after.

- 10666 — — (German). Bamberg, Albr. Pfister, without date. fol.

The first edition of the Latin translation, extremely scarce. Described in Sprenger's *Buchdruckergesch. von Bamberg*, p. 28-30. and in Panzer's *Suppl. zu den Annal. der deutsch. Lit.* p. 21, long before Dibdin, who in *Bibl. Spenc.* III. 181. assures us that it was not to be found in Panzer's Latin annals, where certainly he could not find it. Printed with the types of Pfister's Latin Bible, with 28 lines, without signatures, catchwords, and pagination. According to Sprenger the piece consists of 90 leaves. Leaf 1^a contains a table of contents in 17 lines, and begins, *Von der Zeit der gedonten orteil*. Leaf 1^b contains an explanation of the abbreviations and citations. Leaf 2^a begins the preface of the translation, the first line of which, is (*i*) *N dem namē der heilige und vngeteiltē driualtikeit*. According to Dibdin, however, lord Spencer's copy, which wants the first leaf, has 93 leaves. Sprenger considers 1462 to be the date of printing, and in that case this edition is older than the above Latin one of 1472. It has no woodcuts, neither has the edition, without place (*Augsp., J. Bämle*) or date. fol. 80 leaves with 30 lines.

- 10667 — hie hebt sich an eyn gutt nuczlich buch von der rechtlichen überwündung cristi wider sathan. (*Augsp.*), Gth. Zeiner, am freytag

nach sant Johans tag, 1472. fol. with woodcuts, 86 leaves.

The first dated edition of this translation, here corrected. Another edition of Zainer's with the same date, which however states *Den achten tag Jacob des merern* is probably only an alteration of the colophon, and no new impression. *Augsp., J. Bämle*, 1473. fol. with woodcuts, and *Strb., J. Knoblocher*, 1477. fol. still have some value. The later editions, more and more altered, are not sought after.

- 10668 — Belyals Klage over Jesum. Magdborch, dorch Mauricium Brandiss, 1492. fol. with woodcuts.

The low Saxon translation is very scarce.

- 10669 — der Sondaren troest, of een geestelyk en geïnstrueet Proces tusschen Christus en Duyvel. Haerlem, 15 Febr. 1484. fol.

Also, *Antw., H. Eckert van Homberch*, 1512 or 16. fol.—Concerning the author and his book, consult *Marchand Dictionn.* II. 117-123. *Murr's Journ.* II. 380-95. IV. 339. *Deutscher Mercur* 1781. VII. 64-71.

- 10670 JACOBUS de Voragine s. Viragine. Aurea legenda, alias historia Longobardica vocitata. Without place or date (*Bas., Bertholdus*, about 1470). fol. Gothic letter.

With 2 columns and 61 lines, without signatures, catchwords and pagination. According to Brunet the book begins with a single leaf, which contains the prologue and the list of chapters; leaf 175^b terminates the text, and last of all follow 8 leaves of index. Panzer, IV. 240, reckons 222 leaves in all.

- 10671 — — without place or date (about 1472). fol. Gothic letter.

2 columns with 41 lines, without signatures, catchwords, and pagination. Valliere possessed this and the following edition.

- 10672^a — — without place or date (*Arg., H. Eggesteyn*), fol. Gothic letter.

297 leaves, with 2 columns and 42 lines, without signatures, catchwords, and pagination.

- 10672^b — — without place or date large fol. Gothic letter.

Of the same age as the preceding edition. 245 leaves in 2 columns with 47 lines, without signatures, catchwords, and pagination. Leaf 1 is a *tabula festivitatum, temporum et sanctor. in hoc libro*. Leaf 2^a

col. 1 line 1 is *Incipt plogus super legenda sancto*. Leaf 245^b ends in the 2nd column *Explicit lampartica hystoria sanctorum*. In the Dresden copy is the following MS. note, *Pns* (presens) *liber ptz* (pertinet) *Johani Escholt psbitero*. *Compaitz* (comparratus) *est Año dñj M. cccc. lxxiiij. ptūo* (protunc) *in studio lipscensi degens*.

10673 — — without place or date (*Arg., G. Husner*), small fol. Gothic letter.

420 numbered leaves with 38 lines running all across the page.

10674 — — without place or date (*AV., Gth. Zainer*), small fol. Roman characters, 398 leaves.

10675 — — Tholosa, Parix, without date. small fol.

360 leaves (the first 2 are the prologue and table of contents) in 2 columns with 39 lines. With Roman characters, but with Gothic letter initials. The colophon in 8 Latin verses stands at the end of the table of contents. Whether the book was printed in Toulouse in Languedoc or at Tolosa in Biscay is as hard to determine as is the year of its being printed, although there is an edition of the *Melusina* in the Spanish language, *Tolosa, J. Paris*, 1489. fol. which Paris is probably the same person as Parix.

10676 — — Par., U. Gering, Mt. Crantz et Mch. Friburger, 1 Sept. 1475. fol. Gothic letter.

281 leaves, and 10 leaves of table of contents (according to Dibdin) with 2 columns and 45 lines. Probably the first dated edition, since the edition without place, 1474. fol. in Panzer IV. 12, is quite another book (see below, *VITE di SS. Padri*), and the pretended edition, *Col., Cr. Winters de Homborch*, M. CCCC. LXX., fol. Gothic letter, with signatures, depends only on a copy (Gaignat and Vallière) in which the last numerals of the date have been erased, and which probably was of the edition, *ib., id.*, 1481. fol. (as it is really different from the edition, *ib., id.*, 1476. fol. Gothic letter).

10677^a — — Nrb., J. Sensenschmid et And. Frisner, 7 cal. Apr. 1476. large fol. Gothic letter.

278 leaves in 2 columns, without signatures, catchwords, and pagination. The later editions are of no value. Panzer reckons 74 editions of the Latin original alone (6 of which are uncertain) up to the year 1500 inclusive, not to speak of translations. Consult concerning the work, *Fabricii Lux salutaris evangelii*, p. 214.

Ej. Bibl. gr. Harl. X. 156. Acta SS. Jan. T. I. pref. p. 19.

10677^b — — *legende di tutti li sancti et le sancte dalla Romana sedia acceptati et honorati* (tradotte dal latino di Jacopo di Voragine) per N. Manerbi (Malermi). (*Ven.*), N. Jenson, without date (1475). fol.

In 2 columns, without signatures, catchwords, and pagination. First 3 leaves, the first of which contains a letter of Malermi's, dated June 1, 1475. A copy on vellum in 2 vols. was set down in Edwards the London bookseller's catalogue of 1796 at 30l., and 500 fr. was paid for it at McCarthy's sale.

10678 — — la légende dorée, dicte la vie des saints en françois, veu et diligemment corrigée auprès du latin par J. Batallier. Lyon, Bm. Buyer, 18 Avr. 1476. fol. Gothic letter.

3 leaves of prologue, 342 leaves of text, and 14 leaves of index, without signatures, catchwords and pagination; in 2 columns. The first edition and very scarce, in which all the remarkable passages are to be found, on account of which the first editions of this work are sought after. Thero belongs: *Légende des saints nouveaux qui ont été prins et colligés en Vincent historial en divers lieux, lesquels saints ne sont point insérés dedans la grande légende; veue et corrigée par Juliant et J. Bathelier. ib., id.*, 20 Aoust, 1477. fol. Gothic letter.

10679 — — la même, translattée de lat. en franç. par frère J. de Vignay. Par., Ant. Vérard, 10 Fevr. 1490. fol. Gothic letter, with woodcuts.

This translation was made shortly after 1333. Dibdin, *Decam.* III. 110 and 413, mentions copies on vellum of the editions, *Par., Vérard*, 1480. fol. (in Towneley's sale at London, 1815, 24l.), and, *ib., id.*, 1488. fol. (in Hibbert's possession). There appears however to be a mistake in Dibdin in the figures, as no one is acquainted with these editions. There are also copies on vellum of the edition, *ib., id.*, 1496. fol. The editions, *Par., N. de la Barre*, 1499. small fol. Gothic letter, and *Par., Jac. Nyverd*, without date. fol. Gothic letter, with woodcuts, 256 leaves in 2 columns with 45 lines, are not noticed by Panzer.

10680 — — dat Passionael, in Latine aurea Legenda. Delf, 5 Sept. 1472. fol. 2 voll. Also, Goude, Ger. Leeu, 1478–80. fol. 2 vols. in 2 columns with 35 lines.

Both vols. are seldom found together.

10681 — the golden Legend. Westmestre, W. Caxton, 20 Nov. 1483. large fol. Gothic letter, with woodcuts.

The first edition of this translation and very scarce. 444 numbered leaves in 2 columns besides the 2 tables of contents. The 2nd edition, *ib.*, *id.*, 20 Mai, 1493. fol. Gothic letter. The 3rd, *ib.*, *Wynkyn de Worde*, 8 Jan. 1498. fol. Gothic letter.

10682 — Bohemian. Pilsen, (between 1475–79). fol.

276 leaves in 2 columns with 36 lines. Only one copy is known, in which the last leaf (and in it probably the colophon) is wanting. *Alstadt Prag*, 1495. fol. with woodcuts is likewise very scarce.

As to the rest, *LEBEN der Heiligen* and *VITA patrum* are different from this work.

JACOBUS, see also CESSOLIS, CLUSA, DONDIS, KÖNIGSHOFEN, MAGNI.

10683 JACOPONE da Todi. Laude. Fir., Fr. Bonaccorsi, 28 Sept. 1490. 4°.

The first edition, and very scarce, of these spiritual songs, as the edition, *ib.*, *id.*, 1485. 4°. which Brunet mentions, is a confusion of it with the *Laude di Feo Belcari* (see BELCARI). *Brescia, Bn. di Misinti*, 1495. 4°. *Ven., Bn. Benafio*, 1514. 4°. *Ven.* 1556. 8°. are reprints. Although very incorrect, yet these old editions are remarkable, inasmuch as they contain poems, in which the author vehemently attacks the Romish court, and copies, from which these passages have not been torn out, are scarce.

10684 — i cantici, ristampati con l'aggiunta di alcuni discorsi, e la vita sua (da Gi. Bt. Modio). Roma, Salviani, 1558. 4°.

A neat edition of the same poems, although much is omitted, and the text agrees too little with the quotations of the academy della Crusca.

10685 — poesie spirituali, accresciute di molti altri suoi cantici nuovamente ritrovati e distinte in VII libri, con le annotaz. di Fr. Tresatti. Ven., Misserini, 1617. 4°.

The most complete edition, and cited by the academy della Crusca, but very incorrect. An intended edition by Bottari (*Lettere pittoriche*, IV. 363.) has not appeared. The hymn on the Passion, *Stabat mater dolorosa*, falsely ascribed to Innocent III, is by Jacopone, and is at the same

time a parody on his Christmas hymn, *Stabat mater speciosa*.

JACQUES, see BOURBON.

10686 JACQUIN, N. Jos. Selectar. stirpium Americanar. historia. Vindob. 1763. fol. 2 parts in 1 vol. with 183 plates (10 d.).

There are 3 copies on Dutch paper with illuminated plates, which are possessed by the author's son, the Imperial library at Vienna, and the archduke Anthony.

10687 — selectar stirpium Americanar. historia, in qua ad Linnaeanum systema determinatæ descriptiones sistuntur plantar. illar. quas in insulis Martinica, Jamaica, S. Domingo etc. observavit rariores; adjectis iconibus ab authoris archetypo pictis. (Vindob. about 1780). large fol.

137 pages of text, 2 leaves, *explicatio tabularum*, and 264 representations, painted by the hand (not engraved). It is asserted that not more than 12 copies exist (consult *Bibl. Firmiana*, T. 3. P. II. p. 61. *Esprit des journ.*, Janv. 1782. *Cobres Katal.* II. 590. *Catal. bibl. Banks.* III. 183), and the copy in the Royal library at Dresden was bought in 1818 for 500 dollars. Besides this edition, a MS. list of Jacquin's writings drawn up by the bookseller Artaria, which I have before me, also mentions, *Ejusdem operis editio picta*, with 264 tables painted by the hand, of which only 25 copies exist.

10688 — observationes botanicæ. Vindob. 1764–71. fol. 4 parts in 1 vol. with 100 plates (10 d. 6 gr.).

Only 162 numbered copies of this work were struck off. A new edition, *ib.* 1804, etc. fol. in 24 numbers.

tionibus. Pythagoræ aurea verba. Symbola Pythagoræ. Xenocratis liber de morte. Mars. Ficini liber de voluptate. (Omnia lat., interprete Mars. Ficino), Ven., Aldus, m. Sept. 1497. fol.

184 leaves with 37 lines, and besides them 1 leaf with the register, and 1 blank leaf after the colophon. The first edition of this translation, fine and scarce.

10708 — de mysteriis Ægypt. etc. (as in the preceding). Xenocratis liber de morte. Mercurii Trismegisti Pimander. Ejusdem Asclepius. Mars. Ficini de triplici vita ll. III. Ejusd. lib. de voluptate. Præclarissimar. sententiar. hujus operis brevis annotatio. (Omnia lat.) Ven., Aldus et And. socer, m. Nov. 1516. fol.

175 leaves (the last numbered 1777 by mistake), and 1 leaf with the anchor. More complete than the first edition, but less scarce and fine.—Also, Lond. 1552 or 1570. 12°. The translation of Ficinus does not contain the book *De myst.* entire, but only in fragments.

10709 — de mysteriis Ægyptior., nunc primum ad verbum de græco (latine) expressus, N. Scutellio interprete. Adjecti de vita et secta Pythagoræ flosculi, ab eod. Scutellio ex ipso Jamblichō collecti. Romæ, Ant. Bladus, 1556. 4°.

10 leaves, 148 pages, 3 leaves, 68 pages, and 3 leaves. It contains the translation of the entire book from a perfect MS., but the translation is not good.

10710 — de vita Pythagoræ et protrepticæ orationes ad philosophiam lib. II. Nunquam hactenus visi: nunc vero gr. et lat. primum editi cum necessariis castigatt. et notis. 9 leaves of preliminary matter, 224, 176, and 80 pages. The editor has often read his MS. wrongly, and translated it still

more erroneously: it is also incorrectly printed. Jamblichus wrote a work *Περὶ τῆς Πυθαγορικῆς ἀλγεσέως* in 10 books, 5 of which have been printed. The first is this *De vita Pythag.*, the 2-5 are the following numbers, 10713-17.

Corrected from a Paris MS., the MS. conjectures of N. Rigaltius being also made use of. Obrecht's translation at first appeared anonymously, *Arg.* 1700. 8°.

10712 — de vita Pythagorica liber, gr. lat. Textum ad fid. codd. MSS. recognovit, U. Obrechtii interpretationem lat. passim mutavit, Kusteri aliorumq. animadversionib. adjecit suas Thph. Kiessling. 10736 JANUA s. de Balbis, J. de. Summa, quæ vocatur catholicon.

Mog., without the printer's name, 1460. large fol. Gothic letter.

The 1st vol has 1 blank and 189 printed leaves, and the 2nd 184 printed leaves (Dibdin's statement of 191 leaves for the 1st vol is wrong). In 2 columns with 66 lines, without signatures, catchwords, and pagination. The first edition and very costly, respecting which it is now certain that it was printed by Guttenberg, not by Faust and Schöffler. Leaf 1a line 1 is, (i) *Neipit summa que vocat catholicon. edita a fra*. This and the following line are printed in red. The colophon *Altissimi præsilio* etc. is on the *folio recto* of the last leaf but one; on the reverse a list of rubrics follows, which ends on the *folio recto* of the last leaf, in the 8th line of the 1st column. It is often bound in 2 vols. (the 2nd vol. commencing with the letter I.)

The following copies on vellum are known: in the Royal libraries at Paris, Dresden (particularly fine and with a very good margin), and Munich, in the library of the hospital of Cuss in the Moselle, in Grenville's library in London (bought from M'Carthy's library for 2620 fr., previously in the Harleian library, then in Gaignat's 1222 fr., and Vallière's 2001 fr.).

10737 — — AV., Gth. Zainer, luce ultima m. Aprilis, 1469. fol. Gothic letter.

510 leaves in 2 columns with 49 lines, without signatures, catchwords, and pagination. Almost as scarce as the preceding edition, and somewhat finer. The colophon at the end in 19 Latin verses, *Grammaticæ partes et vocum proprietates* etc., the initial letters of the first 9 lines of which form the name *Guntnerus*.

10738 — Summa, quæ vocatur catholicon. Without place or date (*Arg., Mentelinus*, about 1470–75). large fol. half Gothic letter.

In 2 columns with 67 lines. It is distinguished by the strange form of the R, and has been considered by some, quite erroneously, as even earlier than the edition of 1460.

10739 — — Without place or date. large fol. Gothic letter.

391 (not 394) leaves in 2 columns, with 58 (not 56) lines in a full column, without signatures, catchwords, and pagination. The type is fine and remarkable, and the paper-mark is a rose. The Dresden copy has at the end the MS. notice, 1482 in *festo commemoracionis S. Pauli doctoris genitum*, and the Crevenna copy (*Catal.* III. 32, and in his 2nd *Catal.* III. 34.) has in writing the year 1483; conse-

quently *Panser*, IV. 93, incorrectly sets it down as first printed about the year 1486. The edition of 56 lines, mentioned by *Panser*, IV. 92, is a nonentity, and is the same as this, the number of lines in which was incorrectly stated in the first *Crevenna* catalogue.

10740 — — Without place or date. fol. Gothic letter.

396 leaves in 2 columns, with 65 lines. The last edition known to me is, *Lugd., Dury*, 1520. fol.

10741 JANUS Pannonius. *Poemata* (ed. Sm. comes Teleki). Traj. ad Rh. 1784. 8°. 2 voll. (5 fl. 5 st., on large paper 10 fl. 10 st.)

Rossi, in *Annal. hebr. typ.* I. 3, announces this edition as the first Hebrew printed book he knew of. The copy described by him had 113 leaves; but he thought that 2 or 3 leaves were wanting. Rossi possessed a copy on vellum of the edition, *Soncini*, 1487. fol.

10744 JARDIN, le, de dévotion, auquel l'âme dévote quiert son amoureux Jhesucrist. Brugis, per Colardum Mansion (about 1475). fol. Gothic letter.

29 leaves with 23 lines running all across the page, and large Gothic letter characters. The first book printed at Bruges, and extremely scarce.

10745 JARDIN de plaisance et fleur de rhétorique. Par. (*Ant. Vêrard*). Without date. fol. Gothic letter, with woodcuts.

248 leaves in 2 columns, with the signatures a-ii. The last 7 leaves are a *table*. Probably the first edition. The author seems to call himself *Jourdain* in leaf 9, and in leaves 136 and 139 he calls himself *Jean de Calais*. His work could not have appeared before 1498 at the very earliest, as his poem to king Charles VIII. is superscribed *au feu roi*. Other editions are, *Par.*, 29 Oct. 1505. fol. Gothic letter. *ib.*, *Moh. le Noir*, without date. 4°. Gothic letter. *Lyon, Oliv. Arnollet*, without date. small fol. Gothic letter. *Par.*, *Ph. le Noir*,

10814 JOANNES de Ketam. Fasciculus medicinæ. Ven., J. et Gr. de Gregoriis, 15 Oct. 1495. fol. Gothic letter.

The first book with anatomical woodcuts, see *Leips. Lit. Zeit.* 1804. *Intellbl.* p. 122.

10815 JOANNES de Sacrobosco. Sphæra mundi. Ferrariæ, And. (*Gallus*), 1472. fol. 24 leaves.

The first dated edition, very scarce. *Dibdin Bibl. Sp.* III. 501. mentions quite erroneously, *Ven.*, *Renner de Hailbrun*, 1478. 4°. as the editio princeps. *Par.*, *Guido Mercator*, 1468 (instead of 1498). fol. Gothic letter (with J. Petit's mark, the

copies with Mercator's mark have the right year 1498), is remarkable on account of the false date.

10816 JOANNES Salisberiensis s. Sarisberiensis. Policraticus s. de nugis curialium et vestigiis philosophorum. ll. VIII. Without place or date. fol. Gothic letter, 249 leaves in 2 columns with 40 lines, without signatures, catchwords, and pagination.

Panzer and Dibdin attribute this first edition to Arn. ther Hoernen at Cologne, and set it down to about the year 1472. Santander, who compared its type with the *Bernardi sermones* of 1481 (see above, No. 1991), thinks that it was printed at Brussels by the *fratres vite communis*, about 1476. The last opinion appears to me to be the correct one. The following collation deviating from earlier collations may be depended upon. Leaf 1^r (the folio recto is blank), line 1 is, (*h*)*c liber intitulatur de nugis*. Underneath are testimonies respecting the author, next 50 leaves of alphabetical index, then 1 blank leaf, 4 leaves, *Eutheticus Joannis ep. Carnot. in policraticon*, and again 1 blank leaf. Leaf 38^a begins the text, and leaf 246^b ends it. After the colophon are 3 leaves, *subscripta metra* etc. (*de membris corporis adversus stomachum conspirantibus*). Concerning a MS. of this last poem, see *Millin Magas. encycl.* 1795. IV. 90. It is also printed in *Fabricii Bibl. med. et inf. lat. ed. Mansi*, IV. 296–300.

(*Lugd.*) *Fradin*, 17 cal. *Maji* 1513. 8°. and *Par.*, *Rembolt et J. Parvus*, 25 *Mai* 1513. 4°. do not appear to be printed after the 1st edition. A MS. is made use of in *LB.*, *Fr. Rapheleng.*, 1595. 8°.

10817 — Policraticus s. de nugis curialium et vestigiis philosophorum libri VIII. Acc. ejusd. *Metalogicus*. *LB.*, *Maire*, 1639. 8°. *Amst.*, *Boom*, 1664. 8°. is only a new title.

The edition of 1595 forms the groundwork, and is compared with one of the two editions of 1513. The *Metalogicus* is here corrected and completed.—*Policrat.* also in *Bibl. PP. Col. T. XV.*, and in *Bibl. PP. Lugd. XXIII.* 244 etc.

10818 — (*anon.*) les vanitez de la cour. *Par.*, *Quinet*, 1640. 4°. 659 pages.

Salisbury eveque de Chartres sur les vanitez de la cour. Par., *Quinet*, 1647. 4°. is only a new title. This translation by *Fr. Eudes de Mezeray* is so scarce, that, according to *Hist. litt. de la France*, XIV.

112, it is not to be found in any library in Paris. An earlier French translation by Denis Soulechat, made in 1373, exists only in MS.; there is also one such on vellum under the title, *Policraticon ou traces des philosophes et des trufes et vanitez de ceux qui suivent les traces des princes* in the catalogue of the marquis de St. Philippe (Haye, 1726. 8°), T. I. p. 245. No. 3059.

- 10819 — metalogicus. E cod. MS. bibliothecæ Cantabr. Nunc prim. editus. Par., Hadr. Beys, 1610. 8°.

The first edition, but very incorrect and incomplete. Better in the editions of the *Policrat.* of 1639 and 64. But it is not at all in the editions of 1513, nor in the *Bibl. PP. Lugd.*

- 10820 — epistolæ CCCII in Gerberti epp. ed. J. Masson. Par. 1611. 4°, and therefrom in *Bibl. PP. Lugd.* XXIII. 410 etc. Epp. XCIII in Thomæ Cantuar. epp. ed. Ch. Lupus. Bruxell. 1682. 4°. Epp. historicæ VII cum MSS. codd. collatæ et emendatæ in du Chesne script. hist. Franc. IV. 453 etc. Epp. CVI in Boucquet script. rer. Gall. XVI. 488–625.

An edition of all the letters of John of Salisbury prepared by St. Baluzius, remains in MS. in the Royal library at Paris; consult *Mch. J. Jos. Brial Notice de deux MSS. latins de la bibl. impér., contenant les lettres de Jean de Salisbury*, in *Notices et extraits* T. IX. P. II. p. 93 etc.—*Carmina in Fulberti Carnot. carminibus* ed. And. - 10821 JOANNES de Tambaco. Consolatio theologiae. Without place or date (*Mog., Pt. Schöffer*, about 1478). 4°. Gothic letter.

99 leaves with 27 lines, without signatures, catchwords, and pagination.

- 10822 — without place or date (*Eustadii, Mch. Reyser*). fol. Gothic letter.

294 leaves (according to Panzer, 281 according to Dibdin) with 44 lines, without signatures, catchwords, and pagination.

- 10823 JOANNES Thessalonicensis. Oratio et fragm. in Gallandi *Bibl. PP.* XIII. 185 etc.

- 10824 JOANNES de Turrecremata. Expositio brevis et utilis super toto

psalterio. Romæ, U. Gallus, 4 Oct. 1470. large 4°.

202 leaves, including the register (according to Brunet, 204 according to Fossil) with 33 lines, without signatures, catchwords, and pagination. The first edition, very scarce. It begins with a letter, *Beatissimo . . . domino Pio secundo*, and after the colophon follows one leaf with the register.

- 10825 — Expositio brevis et utilis super toto psalterio. (*AV.*), J. Schussler, prid. non. Mayas 1472. fol. Gothic letter.

134 leaves with 35 lines, without signatures, catchwords, and pagination. Still more scarce than the preceding. In other copies of the same printing the year and day are omitted in the colophon.

- 10826 — — Mog., Pt. Schoyffer, 3 id. Sept. 1474. fol. Gothic letter.

The editions, *ib.*, *id.*, 10 Mart. 1476. fol. Gothic letter, and *ib.*, *id.*, 4 Apr. 1478. fol. Gothic letter, are not sought after.

- 10827 — — Romæ, Lupus Gallus, 21 Febr. 1476. large 4°.

204 leaves, the last of which contains *Registrum hujus Libri*.

- 10828 — — Cracis impressa, without date. fol. Gothic letter.

147 leaves with 37 lines, in the same type with which Gth. Zainer printed *Kempis* (see No. 10882). G. W. Zapf (*über eine alte und höchst seltene Ausg. von des J. de Turrecr. Expl. in Psalt. Nrb.* 1803. 4°) thought it was printed by Zainer at Cracow about 1464 or 65. J. Bt. Bernhart (in *Aretin's Beitr.* V. 49 etc.) on the contrary considered it to be printed later at Greits in Voigtland by the wandering printer J. Schauer (see the rejoinders of both in the *Neuen lit. Anz.* 1807. 2nd and 3rd supplements). Bandtke is for Cracow. Only 3 copies are known.

- 10829 — meditationes positæ et depictæ de ipsius mandato in ecclesiæ ambitu S. Mariæ de Minerva Romæ. Romæ, U. Han, die ult. Decemb. 1467. small fol. Gothic letter.

The first edition of this piece, extremely scarce, and at the same time the first dated typographical production of U. Han. 34 leaves with 34 woodcuts in contours. Fully described in Dibdin's *Decam.* I. 384 etc. Only 2 copies are known. In that of Lord Spencer's (only lately bought from the Royal library in Stuttgart) empty spaces are left for the 3 woodcuts in leaves 3, 9, and 27; in that belonging to the public

library at Nuremberg, these woodcuts, delivered after the book was printed, are pasted in. The colophon is in the middle of leaf 34^a. As to the rest the piece contains explanations of the 34 paintings, with which the author caused the church *alla Minerva* at Rome to be ornamented.

10830 — — without place, 24 Dec. 1472. fol. Gothic letter.

16 leaves in 2 columns with 34 lines, and the signatures *a* and *b*, without woodcuts, catchwords, and pagination. The type is that of the *Gesta Christi* (see above), consequently not that of Pt. Drach at Spire.

10831 — — (with the title contemplationes). Without place (*Col., Cr. Homborch* ?), 1472. fol. Gothic letter.

15 leaves in 2 columns with 38 lines, without woodcuts, signatures, catchwords, and pagination.

10832 — — Romæ, U. Gallus et Sim. de Luca, 17 Oct. 1473. small fol.

30 leaves with 33 woodcuts. Likewise very scarce. Also, *ib.*, U. Gallus, 9 Dec. 1478. small fol. with 33 woodcuts.

10833 — — without place, J. Nu-meister, 3 Sept. 1479. small fol. Gothic letter.

48 leaves with 26 lines in a full page, and with 34 woodcuts, without signatures, catchwords, and pagination. A fine and very scarce edition, which Dibdin, *Bibl. Sp.* IV. 39, thinks was printed not at Foligno, but at Mentz.

10834 — — Albie, 17 Nov. 1481. 4°. with woodcuts.

The first book printed at Albi. The other editions are not sought after.

Neat and scarce. The copies with the new title, *ib.*, Fiselier, 1583. 12°. are enlarged with several poems or with leaves 289–294. These additions are not to be found in the edition of 1574, but perhaps in that at Lyon, Rigaud, 1597. 12°. 298 leaves.

10840 JÖCHER, Ch. Gli. Allgemeines Gelehrtenlexicon. Lpz., Gleditsch, 1750–51. 4°. 4 voll. (16 d.) Also on writing paper.—J. Cp. ADELUNG Fortsetzung u. Ergänzungen zu Jöcher's allg. Gel. Lex. (*A–J*). Lpz., Gleditsch, 1784. 4°. 2 voll. (9 d. 8 gr.)

The continuation by H. W. Rotermund, which is joined to Adelung as vols. 3–6. (of the 6th vol. only 2 numbers, as far as Raymund) *Delmenhorst*, 1810. and *Brem.* 1813–19. 4°. is far inferior to both these works, and is as incomplete and faulty as it is destitute of plan, and nowhere to be depended upon. An *Allgemeines Gelehrtenlexikon*, aiming at completeness, can only be the work of several learned men, who are literary men by profession (not in conjunction with something else or as an amusement), and who live within reach of very rich libraries. The excellent suggestions of the very judicious Chardon la Rochette (probably not entirely prized by his own countrymen according to their merit), in his *Mélanges*, II. 268. III. 80 and 295, are preeminently adapted as fundamental laws for such a work.

10844 JOHNSON, Ben. *Works*, with notes, critical and explanatory, and an original life of the author by W. Gifford. Lond. 1816. 8°. 9 vols. (6l. 6s., on large paper 9l.)

The best edition. The first collection of his works, Lond., Bishop, 1640. fol. The following are still of value: Lond. 1716. 8°. 6 vols. with plates, *with notes by Pt. Whalley*. Lond. 1756. 8°. 7 vols. with plates.—*Dramat. Werke, aus dem Engl. von Dt. W. Andreas*. 1r Bd. (*Sejan*). Erf. 1797. 8°. (12 gr.)

10845 — the dramatic works of Ben Johnson and Beaumont and Fletcher; the first printed from the text and with the notes of Pt. Whalley, the latter from the text and with the notes of G. Colman. Lond. 1811. large 8°. 4 vols. (5l. 5s. in 4°. 7l.)

10846 JOHNSON, Reh. *Grammatical commentaries, or an apparatus to a new national grammar*. Lond. 1706. 8°.

His *Noctes Nottinghamiæ* are also celebrated. His *Aristarchus Antibentlej.*, see under HORATIUS.

10847 JOHNSON, Sm. *Works*, with an essay on the life and genius of Johnson, by Arthur Murphy. Lond. 1816. large 8°. 12 vols. (4l. 16s., on large paper 7l. 4s.)

Also in 12 vols. in 12°. (2l. 14s.) The edition by J. Hawkins, Lond. 1788. 8°. 16 vols. is incomplete and badly arranged.

10848 — dictionary of the Engl. language. Lond. 1816. 4°. 2 vols. (5l. 5s.)

Also, Lond. 1784. fol. 2 vols., and in smaller type, *ib.* 1786. fol. in 1 vol. are good. The edition *ib.* 1805. large 8°. 4 vols. is fine.

10849 — dictionary of the Engl. lang. With numerous corrections and the additions of many thousand words, by H. J. Todd. Lond. 1818. 4°. (11l. 11s.)

This new dear edition is very incomplete. A third perhaps of the treasures of the English language are sought for in it in vain. The French censure the bad selection of the French words introduced into it, and their old French orthography.

10850 — (J. Cp. Adelung's) *neues grammat. krit. Wörterbuch der Engl. Sprache*, vornehmlich aus Sm. Johnson's Werke, mit vielen Wörtern, Bedeutungen u. Beispielen vermehrt. Lpz., Schwickert, 1783—96. large 8°. 2 vols. (5 d.) C. Glo. Küttner's u. W. Nicholson's deutsch-engl. Wörterb. *ib.*, *id.*, 1805—13. large 8°. 3 voll. (10 d.)

10851 — collection of the English poets, with prefaces biographical and critical. Lond. 1779. 12°. 68 vols.

Also, Lond. 1790. 12°. 75 vols. on velum paper. Lond. 1807. 18°. 124 parts in 62 vols. is badly printed. Johnson has omitted Surrey, Wyatt, Spenser, and Chaucer in his collection.

10852 — the English poets from Chaucer to Cowper, including the series edited with prefaces biographical and critical by Johnson, and most approved translations. The whole re-edited, with additional lives. by Alex. Chalmers. Lond. 1810. large 8°. 21 vols. (25l.)

The best edition and convenient. The following article is a separate impression of the historical introductions.

10853 — lives of the most eminent English poets, with critical observations on their works. Lond. 1816. 8°. 3 vols. (1l. 4s. in 12°. 12s.)

In German, with notes (by Ch. F. von Blankenburg), *Altenb.* 1781—83. 8°. 2 vols. (1 d. 20 gr.)

large 8°. 3 vols. (1l. 4s., in 12°. 14s.)

Johnson wrote this romance in order to pay the funeral expenses of his mother, and the debts which she had left behind her. Translated into Spanish by Doña Ines Joyes y Blake, *Madr.* 1798. 8°. In French (by madame Belot), *Par.* 1768. 12°. And, together with *Dinarbe*, or the continuation of Rasselas, under the title, *Le vallon fortuné*, *Par.* 1817. 12°. 3 vols. In German (by J. F. Schiller), *Mainz*, 1785. 8°. (10 gr.) and another translation, *Meissen*, 1786. 8°. (14 gr.)

10858 — a diary of a journey into North Wales in the year 1774, by Sm. Johnson. From the original MS. in his own handwriting: together with a facsimile of a part of the MS., with illustrative notes. By Rich. Duppa. Lond. 1816. 8°. (9s.)

An insignificant piece left behind him, with a stupid commentary. See also Boswell.

10859 JOHNSON, Th. *Novus græcor. epigrammatum et poematum delectus, cum nova vers. et notis.* Ed. X. emendatior. Lond. 1757. 8°.

The best edition. It is a chrestomathy from the anthology; and, according to Chardon, the notes are valuable.

10860 JOHNSTONE, J. *Lodbrokar quida s. Lodbrochi epicedium or the death-song of Lodbroc*, now first correctly printed from various manuscripts with a free English translation, a literal Latin translation, and Islando-Latino-glossary and explanatory notes. Sought after on account of the dissertations of du Fresne, which are not to be met with in the following edition. Previously edited by Ant. Pt. de Rieux, *Poitiers, Marnef*, 1547 or 61. 4°, arbitrarily altered from a bad MS., and by the editor. *Avec les obs. de Cl. Menard. Par.*, Cramoisy, 1617. 4°.

B. Mellot, Cl. Sallier et J. Capperonier). *Par.*, impr. roy., 1771. fol.

This edition gives the genuine text from MSS., and often very different from the preceding edition; but it does not contain the dissertations of du Fresne. According to it is the text in the *Collection univ. des mémoires. T. I. II. Lond.* 1785. 8°.

At first, *Ff.* 1659. 4°. A very learned work, and not so much a literary history of philosophy, as a history of all literature. According to the *Schles. gelehrt. Neuigkk.* I. (1734) 254, the work is said to have been properly the labour of Marq. Gudius, and a satisfaction for an offended husband.

10897 JOSEPHUS, Flav. Opera (gr., ed. Arn. Peraxylus Arlenius). Bas., Hi. Frobenius et N. Episcopius, 1544. fol. 6 leaves of preliminary matter and 967 pages.

The first edition, superintended by Diego Hurtado Mendoza, from MSS. Sgm. Gelenius had part in it. Scarce and fine, but not sought after.

10898 — opera, quæ extant. Quæ græco-latina editio græcor. Palatinæ bibl. MSS. codicum collatione castigatione facta est. Aurel. Allobr., Pt. de la Rovièrre, 1611. fol. 4 leaves of preliminary matter, 1102 pages and 13 leaves of index.

The corrections from MSS. of the Heidelberg library, mentioned in the title, were to have followed, together with other notes, in a 2nd vol. which however has never appeared. (*Gen.*), *J. Crispin*, 1634. (other copies 35). fol. is an incorrect reprint. Th. Ittig's edition, *Col. (Lps.)* 1691. fol. accords in the pages and lines with the edition of 1611, of which it is an enlarged and corrected reprint.

10899 — antiquitatum Judaicar. ll. IV priores et pars magna quinti, gr. lat. Cum exemplarib. MSS. collati et illustrati notis Ed. Bernardi. Item historiar. de bello Jud. liber primus et pars secundi, gr. lat. ad codd. MSS. itidem recogniti et emendati. Ox., th. Sheld., 1700. fol.

1 title, 352 pages. Then *De bello Jud.* (cura H. Aldrichii) with a separate title, *Ox.* 1687. 2 leaves of preliminary matter, and 132 pages. As the curators of the press were dissatisfied with the prolixity of Bernard's notes, the superfluous fulness of his various readings, and the repetition of the faulty translation of Rufinus, mutual disagreements in consequence arose, in the sequel of which Bernard resigned

the editorship before the completion of the work; it therefore remains unfinished.

10900 — opera omnia (gr. lat.). Ad codd. fere omnes cum impressorum MSS. rec., nova vers. donav. et notis illustrav. J. Hudsonus. Ox., th. Sheld., 1720. fol. 2 vols. Also on large paper.

A new recension, very correct, and finely printed. Hudson died whilst engaged in it, and Ant. Hall brought it to a termination. Scarce on large paper.

10901 — opera omnia, gr. lat. cum notis et nova versione J. Hudsoni. Acc. notæ integræ Ed. Bernardi, Jac. Gronovii, Fr. Combefisii, J. Sibrandæ, H. Aldrichii, J. Coccei, Ez. Spanhemii, Hodr. Very incorrectly printed, but greatly sought after on account of its rich exegetical apparatus, and preferred to the preceding edition. Scarce on large paper and very dear. — J. Scaliger's and Cr. Sm. Schurzfleisch's notes to Josephus were first printed in *Villoison Epp. Vinarr.*

10902 — opera omnia gr. lat. excusa ad editionem Lugduno-Bat. Havercampii cum Oxoniensi Hudsonii collatam. Curav. Fr. Oberthür. Lps., Schwickert, 1782-85. large 8°. 3 vols. (9 d.) Also on writing paper.

A correct impression, but the promised notes and indices have not appeared. Valpy printed new titles to it in London in 1814, by which each vol. is divided into two halves.

The first edition of this translation. Altogether 287 leaves in 2 columns with 50 lines, without signatures, catchwords, and pagination. That Ruffinus is not the translator, but Cassiodorus, is proved in *Muratori Antiq. ital.* III. 920. consult *Fontanini Hist. lit. Aquilej.* 392 etc. Concerning the oldest MS. of this translation in the library at Milan, see *Fontanini*, 393 etc. and *Muratori*, l. c. 919.

10960 JOURNAL des savans, par le Sieur Hédouville (Denys Sallo) et continué par J. Gallois, de la Roque, L. Cousin, Dupin, Fontenelle, de Vertot, Terrasson, Burette, du Resnel, des Fontaines, Trublet, Moncrief, de Guignes, Bouguer, Clairaut, Gaillard, Dupuy, Macquer, de Lalande etc. Par. 1665-1792. 4°. 111 voll.

The first number appeared on the 5th of January, and the 13th on the 30th of March, 1665. On account of some expressions in favor of the freedom of the Gallican church and against a decree of the Inquisition, its farther continuation was forbidden at the desire of the Roman church. The government were willing to permit it again to proceed, provided that each leaf was previously submitted to a censor, especially appointed for that purpose. On account of this condition Sallo gave up the conducting of it, and the abbé Gallois undertook it, who continued the Journal from January 4, 1666, but

at long intervals. Consequently only 42 numbers appeared in 1666, only 4 in 1669, only 1 in 1670, only 3 in 1671, none at all in 1673, and again only 1 in 1674. (The years 1665-84 are usually bound in 8 vols. owing to their thinness, and sometimes there is added in order to complete them, *J. Bt. Denis Recueil de mémoires et conférences qui ont été présentées à Mgr. le Dauphin.* Par. 1672-74. 4°. 328 pages). From 1675 the journal appeared less irregularly, and since 1685 it has regularly formed a thinner or thicker yearly volume.

The conducting of it was no longer in the hands of an individual after 1702, but of an entire society. Each of the years 1707, 8, and 9 has a supplemental volume. In later times the publication no longer took place weekly, but monthly, and the last part is for July 1792. It is next to impossible to complete copies, in which the last years are wanting; the years 1778 and 1789-92, and the supplemental volumes, are particularly scarce.

To the above 111 vols. may be joined: 1. *Tables jusqu'en 1750, par l'abbé de Clauastre.* Par. 1753. 4°. 10 voll. 2. *Journal des sav., par Baudin des Ardennes, Camus, Daunou et Lunglès.* Par., 16 *Nivôse*—30 *Prairial* an 5 (1797). 4°. 12 parts or 394 pages. This continuation again failed from want of interest. 3. *Journal des savans, par Dacier, Silv. de Sacy, Gosselin et Cuvier.* Par. Sept. 1816 etc. 4°. In monthly parts, the annual set 36 fr. and franc de port 40 fr. (Sept.—Dec. 1816 cost 12 fr.) It is going on.

10961 — le même journal des savans, augm. de divers articles, ann. 1665-1753. Amst. 1684 etc. 12°. 172 vols. 2 vols. of which are index.—Le même, combiné avec des extraits des meilleurs journaux, ann. 1764-75. 84 voll.—Le même combiné avec les meilleurs journaux anglais, ann. 1776—Juin 1782. 45 voll.—Altogether 381 vols. in 12°.

From that time up to 1790 this reprint was continued in Paris itself; each month formed a vol. in 12°. Complete sets are scarce, but not dear.

10968 **JOUVENCEL**, le. Par., Ant. Vêrard, 27 Mars 1493. fol. Gothic letter, 98 leaves.

The first edition, very scarce and fine, a copy of which on vellum is in the Imperial library at Vienna. The 2nd edition, Par., Mch. le Noir, 1529. 4°. Gothic letter, is very faulty. The author and hero of this allegorical romance, written about 1461, and containing rules of life for military persons, is Admiral J. du Beuil; consult *Sainte-Palaye* in the *Mém. de l'ac. des inscrr.* XXVI. 700 *etc.* *Mélanges tir. d'une grande bibl.* V. 222. The MSS. of which there is one in *Bibl. Valère*, II. 643 and another in *Senebier Cat. des MSS. de la bibl. de Genève*, p. 450 *etc.* are far preferable to the faulty printed editions.

date. (Par. 1650). 4°. 718 pages. Also on large paper.

Written in defence of Mazarin, and known under the name of Mascarat, which one of the persons in the book bears, and under which the printer Camusat is to be understood. Naudé is intended under the name of *Saint-Ange*. Formerly greatly sought after, but now fallen in price. In some copies there is a *table* of 4 pages, prepared by Mercier de Saint-Leger, only 12 copies of which are said to have been printed.—The edition, without place or date (Par. 1649). 4°. 492 pages and 1 leaf of errata, is far less complete and of no value, although it is more scarce than the 2nd as Naudé had only 250 copies of it struck off, in order to be laid before Mazarin and some others for previous examination; consult *Patin Lettres à Spon*, I. 227.

The first edition, and very scarce, of this

translation of the *Speculum hum. salut.* The figures are copied from those in the Latin original. First 3 leaves, prologue and contents. Also (*Lyon, Mhi. Huss*), 12 Mai 1482. large fol. Gothic letter, with woodcuts, 3 and 201 leaves, in 2 columns. *ib.*, *id.*, 1483. fol. Gothic letter, with woodcuts. The woodcuts are the same in all the three editions. The later editions, *Par.*, *N. Desprez*, without date. fol. Gothic letter; *Par.*, *Ph. le Noir*, 1531. fol. with woodcuts, etc. are cheaper.

- 11003 — la vraye exposition et déclaration de la bible, tant du vieil que du nouvel testament, selon de Lyra et autres docteurs. Without place or date. small fol. Gothic letter, with woodcuts.

A scarce edition; the types resemble those with which Bm. Bayer printed his *N. Testam.* at Lyons in 1477. The work begins with Genesis, and ends with the Apocalypse, and has 2 columns and signatures as far as CCv.—See also BIBLIA gall, JACOB. de Voragine, RODERICUS and NOUV. TESTAMENT.

- 11004 JULIEN. Atlas topographique et militaire, qui comprend les états de la Couronne de Bohème et la Saxe Electorale avec leurs frontières etc. par Julien. Par. 1758. fol.

- 11005 JULIUS dialogus. F(austi) A(ndrelini F(oroliuensis) libellus de obitu Julii Pontificis Maximi. (Without place). Anno domini. M. D. XIII. 8°. Gothic letter, 16 leaves.

The 1st edition extremely scarce. Consult *Nova miscellanea Lips. VI.* 340 etc.

- 11006 — Julius. Dialogus viri cuspiani eruditissimi, festius sane ac elegans etc. Without place or date. 8°.

32 leaves with the signatures A-D. The title is in 16 lines. Leaf 32^a, the last or 26th line is, *Pagella A 4. uersu 7. lege pro eripuisse erupisse.*

- 11007 — — the same title. Without place or date. 8°.

28 leaves (the last blank), with the signatures A-D. The title is in 15 lines. Leaf 276, the last or 24th line is, FINIS. The two following pieces, bound up with it in the Dresden copy,

appear to belong to it; *Oratio ad Christum pro Julio II.* (8 leaves, the last blank,) and *Philalethis dialogus* (28 leaves).

Concerning this often printed satire, (the last time in *Hi. Balbi Opp. ed. Retzer I.* 496-538), see *Marchand Dictionn. II.* 269. *Freytag Appar. lit. I.* 1384 (*ibique citatos*). *Roscoe's Life of Leo X.* vol. II. p. 153 not. *Retzer's Nachr. von Balbi Leb. u. Schrr.* p. 65. *Balbi Opp. ed. Retzer T. I. p. XLIV.* *Panzer's Hutten in literar. Hinsicht*, p. 184 etc. *Allg. lit. Ans.* 1798, p. 1814 etc. The most recent translation is by Jos. von Retzer in the *Olla potrida*, 1791. I. 31-37. U. von Hutten, Erasmus, or Coel. Secundus Cnrio, are erroneously mentioned as the author; there is something in favour of Dr. Dryander; the initials in the title of the first edition appear to signify Faust. Andrelini; but the piece is perhaps with most certainty attributed to Hi. Balbi. This conjecture agrees very well with those initials. Balbi might easily feel tempted, by the annexation of them, to direct the suppositions of his readers, and in a worse case, the more serious inquiries of the party attacked, to Andrelini, who was his mortal enemy, and had previously attacked him in a vehement piece (*de fuga Balbi ex urbe Parisia ecloga. Par.* 1508. 4°.)

10 leaves of preliminary matter, 327 pages and 6 leaves. The first separate edition, in which Lycosthenes has completed the lost commencement of the book from other authors, but has distinguished it from the genuine text by asterisks. Reprinted, *Lugd., J. Tornæsius*, 1553. 12°. At first with *Plinii Epp. Ven., Ald.*, 1508. 8°. which text the old editions mostly repeat, yet the impression with *Plinii Epp. Par. Rb. Steph.* 1520, 33, 36, 39, and 44-8°. has something of its own, from conjecture, but not from MSS.

respondence with Wilkes and his private letters to his printer Woodfall. Ed. II. Lond., 1817. 8°. 3 vols. (2l. 2s., on large paper 3l. 3s.)

The best edition of a book obsolete for foreigners (as Renouard very justly remarks). The first separate collection of these letters appeared, *Lond.* 1772. 2 vols. The various conjectures respecting the true author have at last remained fixed on Ph. Francis (q. whether justly?); consult Gentz in *Wiener Jahrbuch. der Lit.* I, 255 etc. and the *Conversationslex.* under *Junius*. In French, *Par.* 1791. 8°. 2 vols.

This edition, with a commentary, was superintended by L. Mireus, and contains a new recension, chiefly according to Ant. Augustini's emendations (in consequence often called *corpus juris Augustini*). In the pandects the inscriptions are here for

the first time complete. The edition, without the commentary, *Par.*, Guillard, 1552-53. 8°. 8 vols., superintended by the same person, has another text. The 1st complete edition of the entire *corp. jur.* can be formed from the parts which appeared separately, *Ven.*, *Rubeus*, 1476-78. fol. Haloander's edition see under the numbers 11055, 66, 87, and 91.

11030 — *digesta*. Par., Merlin et Desboys, 1562. 7 parts in 5 vols. Codex. 1562. Novellæ. 1562. Institutt. 1560. Ren. Auberti index. 1562. Enchiridion titulor. juris. 1560. 8°. Altogether 11 vols.

Without the commentary. Ant. Contius superintended the Codex and the Institutions, who step forward in the Institutions as Haloander's opponent, and corrected much from MSS. Repeated (with the glosses) *ib.*, *ib.*, 1566. fol. 5 vols.

11031 — *jus civile mstor. libror. ope emendatum et perpetuis notis illustrat.* L. Russardo auctore. Lugd., Rovillius, 1561. fol. 2 voll.

Superintended with very cautious criticism, and furnished with various readings from MSS. and old editions. Russardus made use of 7 MSS. in the Institutions, and 15 in the Codex. The Pandects are printed from Torelli's edition. Also, *Antw.*, *Plantin.*, 1567. 8°. in 8 or 10. vols. The edition without the commentary, by L. Charondas, *Antw.*, *Plantin.*, 1575. fol. is distinguished for the accuracy with which it is printed.

11032 — *corpus juris civ.* Authore Dion. Gothofredo. Genève, Stoer (other copies, *Lugd.*, *Vincentius*), 1583. 4°.

Lugd., *Honoratus*, 1585. 4°. is only a new title. The first edition by Godefroy, and at the same time the first with the title, *Corp. jur. civ.* It contains Godefroy's own notes, but is very faulty, and of no critical value. Of the frequent reprints, *Par.*, *Vitray*, 1627. fol. 2 vols. (also on large paper) is very fine: the newest edition is, *Corpus jur. civ. cum notis Dion. Gothofredi. Acc. fragmenta jurispr. AntJustinianæ.* Ven. 1819. 4°. Besides this edition, Godefroy superintended a second without notes, *Lugd.* 1589. 8°. and often; and a third with the commentary, *Lugd.* 1589. fol. 6 vols.; and the best edition, *ib.* 1627. fol. 6 vols. (known by the name of *lion mouchet*, on account of the printer's symbol, and often wanting the 6th vol. or the index by Droyz.) These different editions by Godefroy deviate greatly from each other in the text.

11033 — corpus juris civ. cum notis integris Dion. Gothofredi, lectt. variis et notis selectis varior. Op. et st. Sim. van Leeuwen. Amst., J. Blaeu et L. et Dn. Elzevirii, 1663. fol. 2 voll.

Very fine certainly, and greatly sought after, but not free from great typographical errors. The text is a reprint of Godefroy's first edition, and Leeuwen's own notes are entirely worthless. A reprint, with the addition of the notes of Fr. Modius, and the omission of the Greek text, *Ff. a. M.* 1663. or 88. 4°. (with the symbol of the clasped hands,) has been more praised than it deserves. *Lps. Gleditsch*, 1740. 4°. is neat and correct. The reprint, *Neap.* 1790. fol. 4 vols. is not of frequent occurrence.

11034 — corpus jur. civ. Ed. nova, prioribus correctior. Amst., Dn. Elzevier, 1664. 8°. 2 voll.

The 1st vol. 12 leaves of preliminary matter, and 1037 pages. The 2nd vol. 1 title (of 1663), 820 pages, and 1 leaf. Greatly sought after on account of the uncommon neatness of its small type, but only a reprint of Godefroy's 2nd edition, and so incorrect as to want entire lines. It may be distinguished from the later editions by the typographical error, *pars secundus*, p. 150.

11035 — corpus jur. civ. Amst., vidua Dn. Elzevirii, 1681. 8°. 2 voll.

A less fine and a cheaper reprint of the preceding edition with the same errors. A copy on green paper, 46 fr. Crévénna, 63 fr. 5 c. M'Carthy. *Amst. Blaeu*, 1700. 8°. 2 vols. is inferior still in printing and paper, and is equally incorrect.

11036 — corpus juris civ. academici. Auctore Cp. H. Freiesleben. Altenb. et Lps. 1721. small 4°.

A bad text, but convenient for reference. Freiesleben has for instance distributed an alphabetical index of the rubrics throughout the work in such a manner, that he has inserted single leaves, in which the rubrics are arranged under A, B, C, etc. and has marked them by strips of parchment projecting out. Often printed, the last time, *Col. Munat. (Bas.)* 1789. 4°. Beware of the extremely incorrect edition, *cum praf. J. Gli. Heineccii. Hal.*, 1735. 4°.

11037 — corpus jur. civ. Codicib. vett. MSS. et opt. quibusque edit. collatis recens. G. Ch. Gebauer, et

post ejus obitum editionem curav. G. A. Spangenberg. Gött., Dietrich, 1776-97. large 4°. 2 vols. (18 d.)

A new recension, but not satisfactory. An edition is still wanting, which should contain a text purified according to correct fundamental laws.

11038 — 2. *Institutiones*. Institutio- num libri IV, cum glossa. Mog., Pt. Schoyffer, 24. Mai 1468. large fol. Gothic letter.

The first edition, extremely scarce, printed from a MS. not preeminent. 103 leaves in 2 columns. Each page is surrounded with the commentary. Leaf 1^a. col. 1 is printed in red, and the first line is, *In nomine dñi nři ihesu cristi*. Leaf 103^b. col. 2. has the colophon, printed in red, in 18 lines, and underneath (in black) 24 Latin verses on the discovery of the art of printing: *Scema tabernaculi* etc. Underneath these are the printer's coat of arms, printed in red, which are wanting in some copies. The type of the text is that of the Bible of 1462, the type of the commentary is that of the *Cic. de off.* 1465. Copies on vellum, in the royal library at Paris, the University library of Leipsic, the library at Ingolstadt, the cathedral library at Magdeburg, in lord Spencer's library (previously in Pinelli's, 85l. 1. and in Brienne's, 1880 fr.) Renouard's, and formerly prince Palm's. M'Carthy's copy was bought up at 1200 fr. and again offered for sale at 1800 fr.

11039 — institutiones cum apparatu, et feudorum usus liber. Arg., H. Eggestein, 17. cal. Oct. 1472. fol. Gothic letter.

The second edition. Merely an impression of the preceding, 148 leaves in two columns. Leaf 148^a. col. 2. has the colophon in 11 lines, printed in red; *Hic feudoꝝ usus liber* etc. Spangenberg, *Einkl. in das Justin. Rechtsbuch*, p. 653. not. 22. speaks of copies on vellum: I know of none.

11040 — institutt. cum glossa. Mog., Pt. Schöffner, 29. Oct. 1472. fol. Gothic letter.

The third edition. Merely an impression of that of 1468. 103 leaves in 2 cols. M'Carthy's copy on vellum (previously, 340 fr. Gaignat, 315 fr. Boissot, 650 fr. Vallière) was offered for sale at 700 fr. The duke of Devonshire possesses another copy. Spangenberg incorrectly places this edition before the preceding.

11041 — institutt. cum glossa. Ro-

mæ, Ln. Pflugl et G. Lauer, 26 Jan. 1473. large fol.

The fourth edition. This edition, hitherto unknown, is in the imperial library at Vienna: see Spangenberg, p. 653. Without signatures, catchwords, and pagination; the text is printed in Gothic letter, the commentary in Roman characters.

11045 — institutt. cum glossa. Lovanii, J. de Paderborne in Westfalia, 21 Nov. 1475. fol.

The eighth edition. According to the colophon compared with MSS. and earlier editions.

The ninth edition. It has signatures.

11047 — institutt. cum glossa. Mog., Pt. Schoiffer, 10 cal. Jun. 1476. large fol. Gothic letter.

The tenth edition. 103 leaves without signatures, catchwords, and pagination. It entirely corresponds with Schöffler's editions of 1468 and 72.

11048 — institutt. cum glossa. Bas., Mch. Wensler, pridie cal. Jun. 1476. large fol. Gothic letter.

The eleventh edition. 106 leaves with 67 lines, without signatures, catchwords, and pagination. Only an impression of Schöffler's edition. *Ib., id., prid. cal. Aug. 1478.* fol. Gothic letter, is a faulty repetition of it, and, *ib., id., 1481.* fol. Gothic letter, is still more faulty.

11049 — institutt. cum glossa. Ro-

mæ, apud S. Marcum (*Vitus Pu-echer*), 15 Jul. 1476. fol.

The twelfth edition.

11050 — institutt. cum glossa. Ven., Jac. Rubeus, 4. non. Quint. 1476. fol. Gothic letter, 89 leaves.

8 leaves of preliminary matter (the 8th blank) and 281 pages. The text is materially rectified by a comparison of the parallel passages in the Pandects and in the Codex. He had no MSS. The edition is extremely scarce.

11056 — institutt. ll. IV. E regione latinis Theophili græcam translationem emendatam opposuimus (cura Jod. Pt. Neidharti). Bas., H. Petri, 1544. 8°.

The Theophilus is here greatly mutilated.

The first and only genuine edition by Cujas (the edition by C. Annib. Fabrot, Par. 1643. 12° contains a spurious text) with a text critically corrected from MSS. *Gött.* 1772. 8°. (12 gr.) is a more accurate impression of the same with critical observations by J. Bh. Köhler.

11065 — 3^a. *Pandectæ*. Digestor. s. pandectar. juris civ. libri 50. *Par.*, Rb. Steph., 1527. 8°. 5 voll.

The well known abbreviation *f* was ori-

ginally a twisted *D* (that is, *Digestum*), and must never be read as *P* (Π) or *Pandecta*. Consult Spangenberg, p. 166.

- 11107—oratt. et epp. Ven., Bn. Benalius, without date (1492). fol. 66 leaves.

- 11108 JUSTINIANUS, Ln. Devotissime e sancte laude. (*Ven.*, Bm. de Cremona), 1474. 4°.

Very scarce, and probably the 1st edition. Also, *Ven.*, Ln. di Basilea, 1475. 4°. *Vicencie* (without the printer's name), 1475. 4°. with the signatures a-i and 26 lines; *Ven.*, *Vidali*, 1517. 8°. with woodcuts.

Justiniano, le laude de Tomm. de Aquino, item certe altri dignissime laude. Bressa, Bernardino de Misintis, 1495. small 4°. 107 leaves with the signatures a-o.

- 11110 JUSTINIANUS, Lr. Opera. Brixie, Ang. Britannicus, 1506. fol. 2 voll.

The first edition, fine and scarce.

- 11111—livro da regra e perfeiçam da conversassam dos monges, traduzido por Donna Catharina, filha del rei D. Duarte. No mosteiro de S. Cruz de Coimbra, por German Galharde, 1531. fol.

This edition, of a translation greatly prized on account of its antiquity and peculiar purity of language, is cited by the Lisbon academy. A new edition, *Lisb.* 1791. 4°. (800 rees.)

- 11112 JUSTINIANUS, Pt. Rerum Venetar. ab urbe cond. ad a. 1575 historia. Nunc ab eodem denuo revisa et rerum memorabilium additione exornata. Cum ind. Ven., L. Avantius, 1576. fol.

Arg. 1610 (other copies 1611), fol. is enlarged with other pieces. The first edition, *Ven.* 1560. fol. is less complete, but is said to contain much that was suppressed in the second edition.

- JUSTINIANUS, see also GIUSTINIANI and GIUSTINIANO.

- 11113 JUSTINUS. Justini historici clarissimi in Trogi Pompeji historias

ll. 44. Ven., N. Jenson, 1470. large 4°. (not fol.)

140 leaves with 30 lines, without signatures, catchwords, and pagination. The first edition, very scarce and fine. Leaf 1^a line 1 is, (C)V M MULTI EX ROMANIS. Leaf 140^a 4 verses, *Historias veteres peregrinaque gesta revolvo*, etc., and the colophon. A copy on vellum in the library of the king of England.

11114 — Justini historici politissimi epitoma in Trogi Pompei historias. (*Romæ*), U. Gallus, without date (1470-71). fol.

138 leaves with 32 lines, without signatures, catchwords, and pagination. In leaf 138^a, after the 12th line of the text, is a colophon in 6 verses, *Anser Tarpeji custos*. It is sometimes erroneously considered as the 1st edition; it has however valuable readings of its own. Not very finely printed.

11115 — — Romæ, Cr. Sweynheym et Arn. Pannartz, 26 Sept. 1472. fol.

92 leaves with 38 lines, without signatures, catchwords, and pagination. Leaf 92^b is the colophon in 6 verses, *Aspicias illustris lector etc.* More scarce than either of the preceding. It is printed from a MS. and has many readings of its own. That Florus is to be found along with it, is a mistake.

11116 — Justini historici clarissimi in Trogi Pompei historias exordium. (*Mediol.*), Ant. Zarotus, idib. Jun. 1474. fol.

According to Fischer's conjecture it is an impression of Jenson's edition.

11117 — — Mediol., Cp. Valdarfer, cal. Jun. 1476. fol. Gothic letter.

108 leaves, without signatures, catchwords, and pagination. Faithfully printed from a good MS.

11118 — — Ven., Ph. condam Petri, 12 Dec. 1479. fol.

103 leaves with 36 lines and the signatures *a-s*. The last leaf contains the colophon and the register. The edition, without place or date, fol. 102 leaves with 36 lines and the signatures *a-n*, described in the *Bibl. Spenc.* II. 113 etc. is only a copy of this edition of 1479, wanting the last leaf. It might be this very copy which in the *notitia lit.* of the Bipont edition was made an *editio princeps* (with signatures!).

11119 — Justinus et Florus. Without place or date (about 1490). fol.

67 leaves with 55 lines and the signa-

tures *a-l*, without catchwords or numbering of the leaves. Justin ends in leaf *h* 2^b, and Florus begins leaf *h* 3^a. In this edition Ph. Beroaldus's letter is to be found, but none by Sabellicus (to whom, notwithstanding, this edition is often attributed). Because in the first-named letter mention is made of the printer H. de Colonia of Siena, this edition has in consequence been ascribed to his press (*Panzer*, XI. 338). But this letter is also printed with the same words in other editions, and the type rather resembles that with which Bernardinus Novariensis printed Suetonius at Venice in 1489. In the Dresden copy the former librarian Clodius has quite erroneously written, *Ven., J. Taubin. de Tridino*, 1512, from which edition this differs throughout.

11120 — — without place or date. fol.

58 numbered leaves with 59 lines and signatures. This is the first edition that is known, in which besides the letter of Beroaldus, that of Sabellicus is also to be found. *Santander Dictionn.* III. 74. and *Beloe's Anecdotes*, IV. 27. after him, ascribe it to the printer Bernardinus Rasinius Novocomensis, mentioned in Sabellicus's letter, but otherwise unknown; and think that it was printed at Venice about 1475. Panzer, who, IV. 149, took it for the *editio princeps*, did not think of the numbering of the leaves and the signatures. I, for my part, do not think it was printed before 1490. And what if the Bernardinus Rasinius Novocomensis of Sabellicus were no other than the Venetian printer Bernardinus Novariensis, conjecturally mentioned in the note to the preceding article? Gronovius, in the preface to the edition of 1760, compares the type with that of the Suetonius etc. *Ven., J. Rubens de Verceilis*, 1490. fol. (see also *LIVIVS*, No. 12080). As to the rest, Sabellicus gave the first critical edition of Justin, and appears to have made use both of MSS. and old editions.

11121 — Justinus historicus (et Florus). Ven. (*Ant. Moretus*), 8 Nov. 1497. fol. Gothic letter.

54 leaves with 61 lines and the signatures *a-i*. A reprint of the preceding, also with the letters of Beroaldus and Sabellicus. In the last, instead of Bernardinus Rasinius of the preceding edition, Ant. Moretus is set down, probably because he was the printer of this 2nd edition. Gronovius and Fossi in *Bibl. Maghab.* II. 23. state this as an undated edition, because they refer its real date to the letter of Sabellicus, under which it stands. But as the letter and this date are separated from one another by the register, the incorrect-

ness of this reference is evident, and the letter itself is probably older, perhaps already written at the commencement of the year 1490.

- 11122 — Justinus et Florus. At the end, Mediolani apud Minutianum impressio finita 1502 id. Jan. In fol.

In all 120 with a (very incorrect) numbering of the leaves, 38 lines, signatures *a-t*, and with catchwords and column-titles. A very scarce and fine edition, and still uncollated. The letter of Beroaldus stands before the Florus, but that of Sabellicus is wanting. M. Guillon in his memoir of Minutius in the *Bibliographie de France*, 1820, p. 531, attributes it to S. Rufus, and sets it down in the year 1517, both erroneously. Also an edition, *Mediol., Minut.*, 1520. fol. in Panzer, VII. 399, arises perhaps only from a typographical error.

- 11123 — Trogi Pompeji historia per Justinum in compendium redacta proxime quam emendatissime edita (acc. Florus et S. Rufus). Mediol., Ln. Vegius, 1510. fol. 125 leaves.

- 11124 — Justini historia. L. Flori epithomata quatuor in decem Titi Livii decadas. S. Ruffi de historia Romana opus. Nerva Coccejus *etc.* Without place, 9 cal. Aug. 1510. 8°.

Scarce. It is, as well as the Quintilian of the same date, a typographical production of Lyons; not a Juntine edition, for which it has often been taken on account of the lily in the title-page. Neither is it a reprint of the Juntine text, but it was superintended by Agst. Becharius after Sabellicus's recension, with some alterations. Gronovius and Panzer put it down to the 19 cal. Aug. 1500, by a misapprehension.

- 11125 — Justinus una cum L. Floro nuper castigatus (a Mariano Tucio). Flor., Ph. de Giunta, 3 cal. Febr. 1510. 8°. XI and 204 leaves.

This scarce edition of February is later than the preceding one of August, as February was then the 12th month of the year.

- 11126 — Justini historia ex Trogo Pompejo 34 epitomatis collecta. Lucii Flori epithomata IV quam cultissima in X Titi Livii decadas. S. Ruffi de historia Romana opus. Par., Dion. Roce, without date (about 1510). 4°.

12 leaves of preliminary matter, and 140 numbered leaves. J. Barbier's symbol is

in the title. An incorrect reprint of the text of Sabellicus (according to others of Becharius). Other copies bear Bonnemère's, J. Parvi's, or Fr. Regnault's names.

- 11127 — Justini ex Trogo Pompejo historiæ, nuper emendatæ (acc. Florus). Ven., J. Tacuinus de Tridino, 1512. fol.

According to Fischer this edition has many and good various readings of its own.

- 11128 — Justini ex Trogo Pompejo historiæ cum multis memorabilibus in margine. Addito indice. Lps., Jac. Thanner, 1514. fol. 86 leaves.

The index is wanting in all the copies. J. Camer's edition, *Vienna, Singrinus*, 1517. 4°. has nothing peculiar.

- 11129 — Justini epitome in Trogi Pompeji historiis. L. Flori de rebus Romanis epitome. S. Ruffi libellus. Hæc omnia ad vetus exemplar reposuit Pt. Danesius. Par., impress. Ant. Aussurdus impensis J. Parvi, 1519. fol.

With some various readings from old editions, and a MS. of the 12th century.

- 11130 — Trogi Pompei externæ historiæ in compendium ab Justino redactæ. Externor. imperator. vitæ auctore Æmylio Probo. Ven., Ald. et And. Asulanus, m. Jan. 1522. 8°.

204 leaves (the first 4 of which are unnumbered). Tolerably scarce. Very carefully corrected by Fr. Asulanus from MSS. and old editions, sometimes also from conjecture.

- 11131 — Trogi Pompei externæ historiæ in compendium ab Justino redactæ. Without place or date (*Ven., Gr. de Gregorius*, about 1523). 8°.

A reprint of the Aldine.

- 11132 — Trogi Pompeji externæ historiæ in compendium ab Justino redactæ. Externor. imperator. vitæ Æmylio Probo auctore. P. Velleji Paterculi historiæ Rom. duo volumina nuper reperta, cum ind. Flor., hered. Ph. Juntæ, 1525. 8°. 16 and 268 leaves.

Almost entirely after the Aldine, from which it only deviates now and then (after MSS. or from conjecture?). What Ormavius praises in it, belongs to the Aldine.

- 11133 — Justini ex Trogo Pompejo historia recognita et ab omnib. mendis repurgata (acc. scholia G. Majoris). Haganose, J. Secer, 1526. 4°.

10 leaves of preliminary matter, 161 and 2 leaves. The editor G. Major used, according to Fischer, only the more ancient editions (according to others a MS. also), introduced the best readings into the text, and placed the various readings, with some conjectures, in the margin. *Ib., id.*, 1533. 4°. is an unaltered reprint.

- 11134 — Justini in Trogi Pompeji historias ll. 44 a J. Sichardo recogniti et illustrati. Adjecimus J. Aur. Victorem. Cum ind. Bas., Cratander, 1526 or 30. 8°.

Sichard's performance is greatly praised by Modius and Bernegger. Enlarged with G. Major's notes, *Bas., Westheimer*, 1543. 8°.

- 11135 — Justini historiae et S. Aur. Victor. Par., Sim. Colinaeus, 1530. 8°.

- 11136 — Justini ex Tr. Pompeji historiis externis ll. 44. Acc. ex S. Aur. Vict. de vita et morib. Romanor. imp. epitome. Omnia ex varior. exemplarium collatione castigata. Lugd., Sb. Gryph., 1538, 43, 51, or 55. 8°.

Often repeated. Also, *ib., id.*, 1546 or 48. 12°. *Lugd., Frellon*, 1568. 12°. *Par., Marnes*, 1585. 12°.

- 11137 — Justini historiae, veteris exemplaris beneficio repurgatae. Par., Rb. Stephanus, 1543. 8°.

- 11138 — Justini ex Trogi Pompeji historiis externis ll. 44. Par., J. L. Tiletanus, 1543. 8°.

- 11139 — Justinus. Trogi Pompeji histor. Philippicar. epitoma, ex MSS. codd. emendatio et prologis auctior (ed. J. Bongarsius). In eandem notae. Exceptiones chronologicae. Variar. lectt. libellus. Par., Dion. du Val, 1581. 8°.

Scarce, and greatly prized. Bongarsius used 10 MSS. and 3 editions collated with MSS. His collation is very carefully done (yet he does not distinguish the MSS. and takes no notice of the older editions), his recension as cautious as it is judicious, and in his annotations he offers many very happy conjectures. He also gives, for the first time, the prologues of the single books,

VOL. II.

but very faultily. Renouard has a copy on large paper.

- 11140 — Justinus. Tr. Pompeji historiari. Philipp. epitoma, nuper ex MSS. codd. emendata et prologis a Bongarsio aucta. Nunc vero secundo recognita et ad MSS. item libror. Fuldensium maxime fid. ex integro emaculata a Fr. Modio. Ff., J. Wechel, 1587 or 91. 12°.

The text of Bongarsius, sometimes altered. In the annotations Modius gives the various readings of two Fuldensian MSS. only compared in some passages, and some happy conjectures of his own.

- 11141 — Justinus. Trogi Pompeji historiari. Philippicar. epitoma, e MSS. codd. correcta multisque scholiis illustrata (a Jac. Bongarsio). Acc. Victorini Strigelii commentarius (Jac. Bongarsii notae et variar. lectt. liber, et Thph. Cangiseri scholia in X libros anteriores). Ursellis, Sutorius, 1602. 8°.

8 leaves of preliminary matter, 322 pages, 7 leaves, 171 pages, 18 leaves, 372 pages, and 8 leaves. *Arg., Zetzner*, is an unaltered reprint and not neat. The commentaries of Strigel and Cangiser only regard the exegetical department. So also Parcus in the edition, *Ff. 1630*. 8°.

- 11142 — Justini in historias Tr. Pompeji epitomar. editio nova accurante Mthi. Berneggero. *Arg., Zetzner*, 1631. 8°.

Principally Bongarsius's text, yet subjected to a strict examination. Divided into chapters for the first time, with a good index by Freinsheim. Enlarged, *ib. 1653*. 8°.

- 11143 — Justinus ex M. Zuerii Boxhornii nova rec. Amst. 1638, 44, 60, or 80. 12°.

Bongarsius's text. Boxhorn's few annotations contain conjectures, and readings of a Leyden MS.

- 11144 — historiari. ex Trogo Pompejo ll. 44. Cum notis Is. Vossii. LB., ex off. Elzevir., 1640. 12°.

8 leaves of preliminary matter, 278 pages of text, 39 pages of notes, and 27 leaves of index. There are two editions of this date. This collation relates to the finer one (with a dedication to Thuro Bielke). The other has not this dedication, and contains 294 pages of text.—Bongarsius's text, which Vossius has often and very happily cor-

rected in the annotations. There is also an excellent explanation.

- 11145 — Justinus cum selectissimis varior. obs. et accurata rec. Ant. Thysii. LB., Wyngaerden, 1650. 8°.

Bongarsius's text and a bad selection of notes. Slovenly reprinted, *Vratisl.* 1660. 8°.

- 11146 — Justinus cum notis selectissimis varior. Berneggeri, Bongarsii, Vossii, Thysii. Editio accuratissima. Accurate S. D. M. C. (Corn. Schrevelio, Med. Doct.) Amst., L. et Dn. Elzevirii, 1659 or 69. 8°.

Finely printed, yet of no value. Bongarsius's text.

- 11147 — Justinus ex rec. et cum emendatt. Tanaq. Fabri. Salmurii, 1671. 12°.

Bongarsius's text. Many happy conjectures, but sometimes too bold, are added.

- 11148 — Justini in historias Phil. Tr. Pompeji epitomar. ll. 44 ex rec. et cum notis J. Vorstii cumque ind. J. Freinsheimii pleniore reddito. Lps., Gohl, 1673. 8°.

Vorstius has also done something in the critical part (yet without MSS.), and enlarged the index.

- 11149 — historię, interpretatione et notis illustrav. Pt. Jos. Cantel, ad us. Delphini. Par. 1677. 4°.

One of the worst editions in *us. Delph.* Also *Lond.* 1701, and the last time, 1814. 8°. (8a.)

- 11150 — Justinus ex rec. et cum notis J. Schefferi. Hamb. et Amst. 1678. 8°.

Equally bold and unhappy in conjecture. The editor has also enlarged the index considerably.

- 11151 — M. Juniani Justini ex Tr. Pompeji historiis externis ll. 44. Omnia quam diligentissime ex varior. exemplarium collatione recensita et castigata. Lond., Horton, 1686. small 8°.

Various readings from MSS. are placed in the margin. The preface is subscribed R. H.

- 11152 — historię philipp. ex nova rec. J. G. Grævii cum ejusd. castigatt. His acced. integrę notę Jac. Bongarsii, Fr. Modii, Mthi. Ber-

neggeri, Is. Vossii, Tanaq. Fabri, J. Vorstii et J. Schefferi. Ed. IV. LB. 1701. 8°.

Bongarsius's text forms the groundwork, which the editor often alters (particularly from the Juntine), and never without ground. The editions, *Ultraj.* 1668. 12°. *Amst.* 1694. small 8°. only contain his own notes.

- 11153 — M. Juniani Justini historiar. ex Tr. Pompejo ll. 44. MSS. codicum collatione recogniti annotationibusq. illustrati (a Th. Hearne). Ox., th. Sheld., 1705. 8°. Scarce on large paper.

After 4 MSS. and the more ancient editions, with a careful statement of the various readings. The notes are historical and antiquarian.

- 11154 — hist. Phil. (cura Mch. Maittaire). Lond., Tonson, 1713. 12°. Also on large paper.

- 11155 — historię Philipp. Variantes lectt. adjec. Pt. Burmannus. LB. 1722. 12°.

Grævius's text, sometimes altered, with various readings from MSS. and editions, already made use of by previous editors. Very incorrectly printed.

- 11156 — historię Philipp. ex rec. J. G. Grævii cum ejusd. et J. F. Gronovii animadvv. Acc. libellus variar. lectt. cum ep. Sgm. F. Dresigii super locis quibusd. Justineis, curante J. F. Fischero. Lps. 1757. 8°. (20 gr.)

The various readings of several editions, hitherto uncollated, are added.

- 11157 — hist. Philipp. cum integris commentariis Bongarsii, Modii, Berneggeri, Boxhornii, Vossii, J. F. Gronovii, Grævii, Fabri, Vorstii, Schefferi et excerptis Glareani atque editoris Oxoniensis. Curante Abr. Gronovio. Ed. II. LB., Luchtmans, 1760. large 8°.

Chiefly Grævius's text, yet with the collation of MSS. and the older editions (only in certain places). As yet the best edition. In his earlier edition, *LB.* 1719. 8°. his own notes are wanting, and the various readings are less complete.

- 11158 — historiar. ex Trogo Pompejo ll. 44. Nova ed. ad codd. MSS. et opt. edd. recognita, correctæ. Acc.

liber variar. lectt. Par., Barbou, 1770. 12°.

Fischer's text, sometimes corrected from MSS. by J. Agst. Capperonnier.

11159 — historix Philipp. ad opt. edd. collatæ, præmissa notitia literaria etc. Arg. 1802. 8°. (18 gr.)

11160 — historia. Textum Græv. passim refinxit, argumentis et tabula chronol. præmissis, temporib. ad marginem notatis, notis crit. et hist. subjectis indicibusq. rer. et verbor. illustrav. J. Ch. F. Wetzel. Lignitii, Siegert, 1806. large 8°. (1 d. 20 gr., on vellum paper 2 d. 20 gr.)

Demetr. Philippides is the author of this translation into modern Greek.† Villoison possessed an earlier one, Ven. 1686. 4°.

124 leaves (the last blank) with 35 lines and the signatures a-p, with a letter of Girol. Squarzacico, who probably was also the translator.

11165 — Justino nelle historie di Trogo Pompejo, novamente in lingua Toscana tradotto. Ven., Zoppino, 1524. 8°.

Also, Ven., de Gregori, 1526. 8°. *ib.*, da Sabbio, 1535. 8°. *ib.*, Bindoni, 1542. 8°.

Belonging to the *Collana Lat.* and

preferred on account of its notes to the translation by Bon. Zucchi, Ven., Muschio, 1590. 4°.

11167 — les œuvres de Justin sur les faits et gestes de Troge Pompée, trad. de latin en fr. par Gu. Michel, dit de Tours. Par., Janot, 1538. fol. Gothic letter.

The edition, Par., Janot, 1540. 8°. 16 leaves of preliminary matter and 271 leaves, has not bad woodcuts (in outline). Other translations, by Cl. de Seyssel, Par., Vasconsan, 1559. fol., by Collomby Caucigny, Par. 1627. 8°, by D. L. M. (L. Ferrier de la Martinière), Par. 1708. 8°. 2 vols. The first edition and fine, yet not at a

there belongs to it, *Ep. ad Diogn. et or. ad

JUSTUS de Comitibus see CONTI.

11188 JUVENALIS, Decimus Junius. Satirarum liber. Without place (*Ven., Vindelinius de Spira*), 1470. large 4°.

This is now received as the first edition, and is one of the rarest of the *edit. princip.* 65 leaves (according to Brunet and the copy in the Royal library at Paris, 71 according to Dibdin and lord Spencer's copy) with 30 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 and 2 are,

EMPER EGO AUDITOR TAN
tum nunquam ne reponam?

The separate satires have no superscription. On the *folio recto* of the last leaf, after the 15th line, is the following colophon:

Juvenalis Aquinatis satirarum
liber ultimus foeliciter expliciit
M. CCCC. LXX.

11189 — Juvenalis satiræ. (*Romæ*), U. Gallus, without date (about 1470). 4°.

It is considered as the 2nd edition, and has not yet been collated. 80 leaves (the 1st blank) with 25 lines, without signatures, catchwords, and pagination. Leaf 1^a lines 1 and 2 are,

Emper ego auditor tatum: nunq̃
ne reponam?

(The Spencer copy has in the 1st line *ergo* and *nūq̃*, and in the 12th line *agāt*, instead of *ego*, *nunq̃*, and *agant* in the Dresden copy. The 1st leaf was probably suppressed on account of the typographical error *ergo*; and if so, the Spencer copy is the 1st impression, and the Dresden the 2nd.) In leaf 79^a, under the 6th line, stands FINIS, and underneath the 6 well known verses, *Anser Tarpeji custos* etc. Leaf 80^a is a register in 3 columns.

According to several bibliographers, the satires of Persius on 14 leaves with 25 lines belong to this edition besides. But as Juvenal has a separate colophon and a separate register, in neither of which is mention of Persius made, it is more probable that the latter was published by itself as a distinct piece. Dibdin's proof (*Bibl. Spenc.* II. 117) from the superscriptions of the satires, which are wanting in the

Juvenal, whilst they are extant in the Persius, can be dispensed with on the above grounds, and altogether does not say much. In the edition, *Brix.* 1473, Juvenal is *with* and Persius *without* superscriptions, and yet they both belong to one another.

- 11190 — Juvenalis et Persius. Brixiae, without the printer's name and date. fol.

68 leaves without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *EMPER ego auditor tantum?* Juvenal contains 58 leaves with 32 lines, and ends, leaf 58^b, with *FINIS*. Then the Persius on 10 leaves with 34 lines, which begins, leaf 59^a line 1, with *Auli Flacci Persii satyra prima*; and leaf 68^b thus ends:

(:). FINIS. (:). BRIXIE.

The types are the same with which Ferrandus printed Lucretius at Brescia in 1473, as is generally admitted. But yet they are here newer, and in better condition, than in the Lucretius. The text is printed from a MS. but seldom deviating from the *editio princeps* of 1470.

- 11191 — Juvenalis et Persius. Without place (*Ven.*) or date. fol.

72 leaves with 32 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Iunii Iuvenalis aquinatis liber primus*. Juvenal ends leaf 61^a. Persius begins leaf 62^a, and ends leaf 72^a, *Inuentus crisyppe tui finitor aceris*. Vallière's Catalogue compares the type with the *Decor puellar.* of Jenson, Crévenna with the Virgil of Vindel de Spira. Both are wrong according to Dibdin, *Bibl. Spenc.* II. 123, who discovers also the type to be different from those of Valdarfer and de Colonia. This edition appears to be the same which *Rupertii* erroneously gave out as the *editio princeps*.

- 11192 — Juvenalis et Persius. Without place or date. fol.

Page for page and line for line a reprint of the preceding, with the same type and by the same printer. Yet has it fewer abbreviations than the preceding. Lord Spencer possesses both editions.

- 11193 — Juvenalis et Persius. Without place or date (*Par.*, *Gering*, *Crantz et Friburger*, about 1472). fol.

72 leaves with 32 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Decimi Iunii Iuvenalis Satyrar liber primus*. Juvenal ends, leaf 61^b, thus: *In prauos mittens tela seueræ notæ*. Persius begins leaf 62^a, and line 1 is, *Auli persii flacci in satyrar librum prolo.*—Leaf

72^a ends with 4 Latin verses superscribed, *Erhardi tetrastichon ad germanos libraries ingenuos*.

- 11194 — Juvenalis satiræ. Without place, Jac. de Fivizano, without date. 4°.

72 leaves with 27 lines, without signatures, catchwords, and pagination. Leaf 1^a line is, *IVNII IVVENALIS AQVINA-TIS*. The printer first came to Venice in 1477 certainly; but as in the copy in the Royal library at Paris an earlier possessor of the book has written, *MEI Barth. Zeff M. CCCC. LXXIII*, this edition must consequently have been printed in 1473 at latest; and it may be assumed that the printer exercised his art, which he had learnt at Venice, at first in his own home (at Luni or at Fivizano), and first betook himself to Venice at a later period. The words of the colophon also seem to speak to the same purpose; *Veneta doctus in urbe, jam pridem Lunæ patria clara tenet*.

- 11195 — Juvenalis et Persius. Brixie, jubente presbytero Petro Villa, 13 cal. Aug. 1473. fol.

Still uncollated and very scarce. 60 leaves with 38 lines, without signatures, catchwords, and pagination. Juvenal ends, leaf 51^a, with *FINIS*. Leaf 52^a begins the Persius. The separate satires of Juvenal have no superscription, although those of Persius have.

- 11196 — Juvenalis satiræ. Liber Ovidii epistolarum (heroid.). Monteregali, per Ant. Matthiæ quondam Andree de Antwerpia et Baldisalem Corderiumque socium, 18 Febr. 1473. 4°.

Very scarce, and later than the preceding, as February was then the 12th month of the year. 136 leaves with 27 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Iunii Iuvenalis aquinatis satyra*. Juvenal ends leaf 72^a; and 73^a begins Ovid, which ends leaf 136^a.

- 11197 — Juvenalis et Persius. Ferrariæ, And. Gallus, 1474. 4°.

At the end of the Juvenal is the date, and at the end of the Persius a colophon of 4 verses; *Impressi Andreas hoc opus etc.*

- 11198 — Juvenalis et Persius. Mediol., Ant. Zarotus, 1474. fol.

The text of this edition appears to have little peculiar.—*Rom.* 1474. is a nonentity: see No. 11200.

- 11199 — Juvenalis satiræ. Without

place or date (*Neap., Sixt. Reisinger*, about 1474). 4°. (not 8°.)

78 leaves with 25 lines (the first page has 24 lines, and the last 26), without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Emper ego audior tantum*. It is printed with the types of the Horace that appeared in Naples in 1474. Fossi, III. 91, erroneously takes it for a production of U. Han's at Rome, 1468-69. Vacant spaces are left for the Greek words.

- 11200 — Juvenalis satiræ cum commentariis Domitii Calderini. Ven., Jac. de Rubeis, 8 cal. Maj. 1475. large 4°. (not fol.)

The first edition of this commentary. 85 leaves, Juvenal; and 10 (according to others 9) leaves, *apologia commentarii in Martial.* A second subscription, *Romas, cal. Sept. 1474*, relates only to the completion of the commentary, and is wrongly referred to the printing. The text is corrected from MSS. and repeated in *Ven., Th. de Alexandria*, 19 Jul. 1483. fol. *Ven., Bl. de Tortis*, 22 Jul. 1483. fol. *ib., id.*, 30 Mart. 1485, fol. 62 leaves (the first and last blank); *Ven., And. Chatarensis*, 24 Mart. 1488. fol. It sometimes deviates in the text, and appears to have been corrected by some scholar. *Vincitæ, Henr. librarius*, 1480. fol.

- 11201 — Juvenalis et Persii satirarum opus. Lovanii, J. de Westphalia, 20 Sept. 1475. small fol. Gothic letter, 86 leaves.

- 11202 — Juvenalis et Persius. Without place or date (about 1475). fol.

60 leaves with 38 lines, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *Iunii Juvenalis aquinatis liber primus*. Juvenal ends leaf 51^b, with the verse, *Vt leti phaleris omnes: & torquibus omnes*. Leaf 52^a line 1 is, *Auli Flacci Persii Satyra prima*; and Persius ends leaf 60^b, *Inuentus crisyppe tui finilor acerui*. In Roman characters, yet with Gothic letter capitals occasionally. According to Dibdin the paper is thin and bad, and on account of its ill-shapen type this edition may possibly be earlier than the preceding. Vallière's *Catal.* and Brunet find these types somewhat to resemble those with which G. Lauer printed the *Rationale* in 1477.

- 11203 — Juvenalis et Persii satiræ. Without place or date (about 1481). fol.

71 leaves with 32 lines and the signatures *a-h* (in the Juvenal) and *a-b* (in the Persius). Leaf 1^a line 1 is, *Iunii Juu-*

nalis Aquinatis Satyra Prima. Juvenal ends leaf 60:

EXPLICIT. IVVENALIS. A
QVINATIS. FELICITER. E
MENDATVM. PER. M. M.
A. S. M.

(Probably *M. Ant. Sabellicum?*). Leaf 61^a line 1 is, *Auli Flacci Persii satyra prima*. Leaf 71^a line 34 is, *FINIS*. Leaf 71^b is a register. The number of lines is stated in *Bibl. Pinell.* II. 334. at 33, but it is decidedly 32 in the Persius at least, which alone the Royal library at Dresden possesses. Morelli probably reckoned the signature line. Consult *Mittarelli Bibl. S. Mich. Venet.* II. 227.

- 11204 — Juvenalis satiræ. Without place or date. 4°.

With the signatures *a-g*, and 35 lines. According to Vallière's *Catal.* printed about 1475, and the types have a resemblance to *Cicero. Orr. Ven., Valdarfer*, 1471. Leaf 1 begins with a register (*incipia cartarum primi quaternionis*). At the end, *D. Junii Juvenalis Aquinatis Satirarum ad linam non indiligenter redactarum. FINIS*.

- 11205 — Juvenalis et Persius. Mediol., Ph. Lavanian (*sic*), 10 cal. Nov. 1476. 4°.

Also, *ib., id.*, 6 cal. Jun. 1478. fol.

- 11206 — Juvenalis et Persius. Mediol., Ant. Zarotus, 1476. fol.

Only a reprint of No. 11198. Also, *ib., id.*, 9 Oct. 1479. fol.

- 11207 — Juvenalis satiræ. Pinerolii, Jac. de Rubeis, 8 cal. Nov. 1479. fol.

With the signatures *a-g*, without catchwords and pagination. Concerning the printer, Rupert ought not have set the Biponts right.

- 11208 — Juvenalis et Persii satiræ quam diligentissime castigatæ per Pt. Agst. Philolphum. Mediol., Ant. Zarotus, 11 Jul. 1481. fol.

- 11209 — Juvenalis satiræ cum comm. G. Vallæ. Ven., Ant. de Strata, 8 Nov. 1486. fol.

86 leaves (the first and last blank) with the signatures *a-m*. The first edition of this commentary, and the text corrected from MSS.

- 11210 — Juvenalis satiræ cum comm. Calderini et Vallæ. Ven., Thdr. de Ragazonibus, 16 Jun. 1491. fol.

119 leaves (the first blank) with the signatures *a-u*. The first combined edition of these two commentaries.

11211 — Juvenalis satiræ cum tribus commentariis, videlicet Ant. Mancinelli, Calderini, Vallæ. Ven., J. de Cereto de Tridino, 2 Dec. 1492. fol.

8 leaves of preliminary matter, 188 numbered and 3 unnumbered leaves. The first edition of this commentary by Mancinellus, and the text is corrected from MSS. Often repeated.

11212 — Juvenalis satiræ cum comm. Mancinelli, Calderini, G. Merulæ et Vallæ. Ven., J. de Cereto, 24 Jul. 1498. fol.

12 leaves of preliminary matter and 206 leaves. The first united edition of these four commentaries, and containing also a revision of the text. Merula's commentary at first (without Juvenal), *Tarvisii, Bm. de Confalonieris*, 1478. fol. Ven., *Gbr. Petri*, 1478. fol.

11213 — Juvenalis satiræ. Par., G. Wolff et Thielmann Keruer, 3 id. Febr. 1498. 4°.

84 leaves with 23 lines, and the signatures *a2-l*.

11214^a — Juvenalis familiare commentum cum Ant. Mancinelli (et Jod. Badii Ascensii) explanatione. Lugd., N. Wolf pro St. Gaynardo (*sic*), 14 cal. Dec. 1498. large 4°. Gothic letter.

6 and 198 leaves. The commentary of Badius is of no value. The text is chiefly from Ven. 1492, yet some various readings are to be met with.

11214^b — Juv. et Persii satiræ. Mediol., Alex. Minutianus, without date. fol.

An edition hitherto unknown, and not even mentioned in Guillon's memoir respecting Minutianus in the *Bibliogr. franç.* 1820, p. 369 etc. All the typographical productions of Minutianus are very scarce. A copy was sold at the duke of Marlborough's sale in London in 1819 for 1l. 11s. 6d.

11215 — Juvenalis. Persius. Ven., Aldus, m. Aug. 1501. 8°.

78 (not 76) unnumbered leaves and without the anchor. The colophon is printed in cursive characters. The first Aldine and genuine, and a new and good recension from MSS. and older editions. Copies on vellum in the Royal libraries at Paris and London, and in Lord Spencer's library.

11216 — Juvenalis. Persius. Ven.,

Aldus et And. socer, m. Aug. 1501. 8°.

76 numbered leaves and with the anchor. The colophon is in capitals. The second Aldine, and which appeared first about 1513. It differs materially from the first Aldine.

11217 — Juvenalis. Persius. Without place or date (*Lugd.* 1502). 8°.

78 unnumbered leaves. A more neat, but very incorrect reprint of the genuine Aldine, with which it agrees page for page. In the last lines of the book some vacant spaces are left for the Greek words. Lord Spencer has a copy on vellum (previously 75 fr. Gaignat, 240 fr. Vallière, 350 fr. M^cCarthy.)

11218 — Juvenalis. Persius. Without place or date (*Lugd.* 1502). 8°.

A more correct repetition of the preceding reprint. Corrected according to the caution before the Lyons reprints, which Aldus published. The Greek words at the end of the book are to be found here.

11219 — Juvenalis nuper impressus cum commentariis J. Britannici, ad amussim castigatus, nec non alior. interpretum sententiis additis. Mediol., impressum a Petromartire de Mantegatiis, 1503. fol.

6 and 138 leaves. The first accredited edition of this commentary with a date is *Briz.*, *Ang. et Jac. Britannicus*, 1501. fol. Ruperti erroneously mentions *Briz.* 1486. fol. as such (this is only Persius with the commentary of Britannicus), and the passages of Ascensius quoted by Quirinus *De liter. Briz.* l. 145. treat not of the commentary of Britannicus, but of Mancinellus. —Of the later editions, that without place, 4 Dec. 1509. fol. 6 and 137 leaves, deserves some regard on account of the woodcut.

11220 — Ju. Juvenalis una cum An. Persio nuper recogniti (cum præf. Mariani Tuccii). Flor., Ph. de Giunta, m. Oct. 1513. 8°. 80 unnumbered leaves.

Not yet collated. The Dresden copy is collated with MSS. and the more ancient editions, in the Juvenal by G. Fabricius, and in the Persius by another and older hand. An edition, *Flor.*, *Ph. Junta*, 1507. 8°. mentioned in Dibdin's *Decem.* II. 268. without proof, is probably a mere error, and it was also unknown to Bandini.

11221 — Juvenalis. Persius. (*Lugd.*), Bm. Trot, 1515. 8°.

Also, *ib.*, *id.*, 1515. 8°. A reprint of the Aldine, so also *Lugd.*, *Gu. Hugon*, 1511. 8°.

11222 — Juvenalis satiræ emaculatus impressæ. Arg., J. Knoblauch, nonis Jan. 1518. 4°.

According to Ruperti a new and good recension from MSS. in which the Aldine text forms the groundwork. The great confusion which prevails in Ruperti with respect to the Aldine editions, makes me almost conjecture that this edition contains nothing else than the text of the first Aldine (unknown to Ruperti).

11223 — Ju. Juvenalis una cum Au. Persio nuper cogniti. Flor., hered. Ph. Juntæ, m. Majo 1519. 8°. 80 leaves.

11224 — Juvenalis satiræ XVI. Persii satiræ VI. Cum annotatiunculis (Curionis) in margine adjectis. Par., Sim. Colinaeus, 1528. 8°.

The Aldine text, but with some corrections of its own. Neat and prized. Also, *ib.*, *id.*, 1535. 8°. and *ib.*, *id.*, 1542. 12°.

11225 — Juvenalis. Persius. Ven., hered. Aldi et And. soceri, m. Mart. 1535. 8°. 78 leaves.

The text is mixed up of the two Aldines of 1501. Very correctly printed and not common.

11226 — Juven. satiræ XVI. Persii satiræ VI. Ad vetustissima scripta exemplaria emendatæ: quor. varias lectt. ad calcem rejecimus. Par., Rb. Stephanus, 1544 (at the end 1545). 8°.

Very correct, and with good various readings from a MS. *ib.*, *id.*, 1549. 8°. is after other MSS. still.

11227 — Juvenalis opus, nunc demum ab omnib. mendis purgatum et plurib. collatis exemplarib. suo candori restitutum. Interprete J. Britannico una cum Jod. Badii Ascensii explanatt. Ven., Bindonus et Pasinus, 1548. fol. with woodcuts, 6 leaves of preliminary matter, and 143 leaves.

11228 — Juv. et Persii satiræ cum doctissimor. viror. commentariis atque annotatt. Additus est index. Bas., Froben et Episcop., 1551. fol.

4 leaves of preliminary matter, 645 pages, and 11 leaves. Very incorrectly printed.

11229 — Juv. et Persii satiræ, cum

vetustissimis iisque MSS. codd. nunc denuo collatæ et emendatæ. Lugd., her. Sb. Gryphii, 1560. 12°.

The alterations are not numerous.

11230 — Juven. satirar. ll. V. Persii satirar. lib. I. Thdr. Pulmanni in eosdem annotatt. Antw., Cp. Plantinus. 1565. 8°. 160 pages.

A new but superficial recension after 4 MSS. whose readings are not completely marked, nor sufficiently distinguished. In the margin are the scholia of Hadr. Junius. Also, *Antw.*, *Plantin*, 1566 or 85. 12°.

11231 — Persii satirar. lib. I. Juv. satirar. ll. V. Sulpiciæ satira I. Cum vett. commentariis nunc prim. editis. Ex bibl. Pt. Pithei, cujus etiam notæ quædam adjectæ sunt. Lut., Patisson, 1585. 8°.

An excellent new recension from MSS. The old scholia are printed herein for the first time. Good copies are greatly sought after. The reprint, *In officio Sanctandreeana*, 1590. 8°. is corrected by Commelinus.

11232 — Juvenalis satirar. ll. V. Ex duob. MSS. exemplarib. et vetustiss. MS. commentario correcti. Præterea Persii satirar. lib. I. Cum analysi et commentariis Eilhardi Lubini. Acc. index. Hanov., typis Wechel., 1603. 4°.

12 leaves of preliminary matter, 755 pages, and 22 leaves. Lubinus had MSS. and would have given a new recension, but he was not equal to it. He seldom gives the various readings, and his commentary has nothing in it. Also *Hanov.* 1619. 8°. at first *Rostoch.* 1599. 8°.

11233 — Juv. et Persii satiræ omnes. Cum indd. absolutissimor. omnium vocabulor. et phrasium præcipuar. stud. et cura Jos. Langii. Friburgi Brisgoiæ, Helmlin, 1608. 4°.

Langius directed his industry solely to the index, which however extends only to the words, and not to the phrases.

11234 — Juv. satiræ XVI cum veteris scholiastæ et J. Britannici commentariis, quib. acc. Pt. Pithei, Cœlii Sec. Curionis et Thdr. Pulmanni notæ et varr. lectt. Additus est index. Lutet., Orry (other copies *Morellus*), 1613. 4°.

8 leaves of preliminary matter, 724

pages, and 48 leaves of index. Prized but not dear. To which may be added: *Persii satirar. liber. Ad hunc emendatt. et commentarius, plures et auctiores, quam priore editione, Thdr. Marcilii. Par., Orry, 1613. 4°.* 6 leaves of preliminary matter, 188 pages, 8 leaves, 95, 50, and 142 pages.

- 11235 — Juv. satiræ XVI et in eas commentarii Is. Grangæi, Bertr. Autumni, Domit. Calderini. Ad-ditus est index. Par., Fouet, 1614. 4°.

8 leaves of preliminary matter and 531 pages. 4 leaves and 184 pages. 4 leaves and 273 pages, 24 leaves of index. All with separate titles. The commentary of Autumnus is only copied from others. That by Grange is more exegetical than critical, and is very learned, but dwells too much on single points.

- 11236 — Juv. satirar. ll. V. Sulpiciæ satira. Nova editio, cura N. Rigaltii. Lutet., Rb. Stephanus, 1616. 12°.

Neatly printed. A valuable new recension from MSS. whose various readings are not however specified. The notes are short, but full of matter.

- 11237 — Juv. et Persii satiræ cum adnotatt. Th. Farnabii. Ed. III. emendatior et auctior. Lond. 1620. 8°.

The notes are selected from earlier commentaries, not always happily. At first, *Lond. 1612. 12°.* Also, *Amst. 1642, 48, 50, and 68. 12°.* *Hag. Com. 1683. 12°.*

- 11238 — Diego LOPEZ declaracion magistral sobre les satiras de Juvenal y Persio (con el texto lat.). Madr., Carrera, 1642. 4°.

Commonly quoted as a Spanish translation, but quite erroneously.

- 11239 — Juv. (et Persii) satiræ. Par., typ. regia, 1644. fol.

Striking in appearance, but not sought after.

- 11240 — Juv. et Persius ex doctor. viror. emendatione. Amst., L. Elzevier, 1651. 24°.

Amst., Dn. Elsevier, 1671. 18°. is badly printed. Both are sometimes admitted into the Elzevir series for want of an edition in 12°.

- 11241 — Juv. et Persii satiræ cum notis Fr. Guyeti, J. Peyraredi et alior., accurate Mch. de Marolles, cum ejusd. versione et interpr. gal.

lica. Par., de Luyne, 1671. small 8°.

Also with a French title. The translation is in prose.

- 11242 — Juv. (Sulpiciæ) et Persii satiræ cum veteris scholiastæ et varior. commentariis, accurate Corn. Schrevelio. LB., Hack, 1671. 8°.

Previously, *LB. 1648, 58, and 64. 8°.* Schrevelius has made use of 4 MSS. and the older editions, and sometimes corrected the text therefrom, but he has not given the other various readings. The scholia are too arbitrarily altered, and the selection of the notes is bad.

- 11243 — Juv. et Persii satiræ cum veteris scholiastæ et varior. commentariis. Acc. N. Rigaltii de satira Juvenalis diss. Amst., Wetsten., 1684. 8°.

A repetition of the preceding edition, with various readings from a Beale MS., and enlarged with Grævius's notes. Belongs to the series *cum notis varior.*

- 11244 — Juv. et Persii satiræ. Interpretatione ac notis illustrav. L. Prateus, in us. Delphini. Par., Leonard, 1684. 4°.

One of the better editions in us. Delph. The offensive passages are omitted and collected together at the end. Also, *Lond. 1691, and often; the last time, 1817. 8°.* (gs.) *Dublinii, 1737. 4°.* (also on large paper).

- 11245 — Juv. satiræ, scholiis veterum et fere omnium eruditor. commentariis partim integris partim selectis illustratæ; acc. eorund. viror. claror. ad scholia veterum notæ, quib. subjicitur index. Recens., concinnav. et sua illis spicilegia subjecit H. Ch. Henninius. Ultraj., Zyll, 1685. 4°.

Very scarce on large paper.

Schrevelius's text altered only in some few passages, although Henninius made use of 8 MSS. and the older editions. His selection of notes is not happy, and the internal arrangement of the edition is inconvenient. Copies on large paper were sold at Paris for 408 and even 420 fr. yet only by accident.

- 11246 — Juv. satiræ cum scholiis veterum et commentariis integris, selectis et conquisitis fere omnium eruditor. Acc. Auli Persii satirar. liber, Is. Casaubonus rec. et commentario libro illustravit. Ed. no-

viss. auctior et emendatior ex ipsius auctoris codice, cura et op. Merici Casauboni. LB., van der Aa, 1695. 4°. with plates.

Only a new new title to the preceding edition with the addition of Persius and some plates.

11247 — Juv. et Persii satiræ (acc. variantes lectt., ed Mch. Maittaire). Lond., Tonson et Watts, 1716. 12°. Also on large paper.

With various readings from the older editions, which however are not of much service.

11248 — Juv. et Persii satiræ, ex opt. codd. recens. notisque selectis illustrav. Th. Marshall. Ed nova emendatior. Lond., Hooke, 1723. 8°.

A text made up of several editions, together with some corrections peculiar to itself. The notes are chiefly a selection from others.

11249 — Juv. et Persius ad fid. opt. libror. accurate recensiti. Gött. 1742. 12°. Correct.

11250 — Juv. et Persius. Lond., Brindley, 1744. 18°.

11251 — Juv. et Persius. Par., Coustelier, 1746. 12°. Also on Dutch paper.

Par., Barbou, 1754. is only a new title. A new edition, *Par., Barbou, 1776* and 1801. 12°. (5 fr.)

11252 — Juv. et Persii satiræ. Edente J. Hawkey. Dublinii, 1746. 8°.

Very correct and fine. Scarce on large paper.

11253 — Juv. et Persii satiræ. Ex recognitione St. And. Philippe. Lut. Par., Grangé, 1747. 12°.

11254 — Juv. satiræ ex rec. Heninii. Persii sat. ex rec. Casauboni. Glasg.-Rb. et And. Foulis, 1750. 8°.

Previously *ib.*, *ib.*, 1742. 8°.

11255 — Juv. et Persii satiræ. Birminghamiæ, J. Baskerville, 1761. large 4°.

11256 — Juv. et Persii satiræ. Tabulis æneis illustravit et notas varior. selectas suasque addid. G. S. (Gu. Sandby). Cbr., Sandby, 1763. large 8°. with 15 plates.

Fine. At the end are various readings,

some of which are from a MS. The small edition in 8°. is quite different from this, and far inferior: see HORATIUS Ed. Sandby.

11257 — Juv. et Persii satiræ cum annotatt. Th. Farnabii, quib. nonnullas addidit Roderic. ab Oviedo. Matriti, 1775. 8°.

11258 — Persii et Juv. satiræ ad opt. editt. collatæ, acc. Sulpiciæ satira, C. Lucilii fragmenta. Biponti, 1785. large 8°. (16 gr.)

11259 — Juv. satiræ XVI. Ad opt. exemplarium fid. recensitæ, varietate lectionum perpetuoque commentario illustratæ et ind. uberrimo instructæ a G. Alex. Kuperti. Lps., Fritsch. 1801. large 8°. 2 vols. (6 d.)

A new recension from MSS. and the older editions, which however leaves much still to be wished for. *Ed. II. Emendata. Lps., Hahn, 1819.* large 8°. 2 vols.

11260 — Juv. et Persii satiræ ad opt. exemplarium fid. recensione atque procæmio et ind. rer. instructæ a G. L. König. Gött., Dieterich, 1803. 8°. 11263 — Juv. et Persii satiræ. Medi-ol., Mussi, 1807. fol.

A splendid edition and only 70 copies. 22 dollars at Göschen's in Leipsic.

11264 — Juv. satiræ XVI ad opt. exemplarium fidem recensitæ, perpetuo comm. illustratæ atque proce-

mio et argumentis instructæ a G. Alex. Ruperti. Secundum edit. Gottingensem. Ox. 1808 or 17. 8°. (10s. 6 d.)

- 11265 — Juv. satiræ, ad codd. Parisinos recensitæ, lectionum varietate et commentario perpetuo illustratæ a N. L. Achaintre. Acc. Hadr. et C. Valesiorum notæ adhuc ineditæ. Par., Didot, 1810. 8°. 2 voll. (18 fr., on vellum paper 36 fr.)

A new recension after 36 MSS., and the explanations are often better than those of Ruperti; but he is deficient in a varied erudition and acquaintance with the ancients. Finely printed. Only 10 copies on large vellum paper.—C. F. Heinrich *Progr.: Exponitur judicium literarium de nupera Juv. editione Paris. Kilon. 1811. 4°. 16 pages.*

A fine edition, some copies of which are on large paper in folio, and 2 on vellum (one of which has 2 pictures by Marchais). The translation (in prose) is by no means an entirely good one, notwithstanding the great care bestowed upon it. Previously, Par. 1770 and 82. 8°. Ed. IV. Par. m 12 (1803). 8°. 2 vols. (12 fr., on vellum paper 24 fr. Also on large vellum paper), contains the last correction of the translation.

(that is, Sim. LEMNIUS). Monachopornomachia. Without place or date. 8°. 3 sheets.

Very scarce. A smutty pasquinade on Luther in a dramatic form, which is not to be excused because Luther had previously really done an injury to the author. Printed entire in *Murr's neuem Journ.* II. 85 etc. Consult *Strobel's neue Beitr.* Bd III. St. I. p. 137 &c.

11283 JUVENCUS, Caj. Vestius Aquilinus. Juvencus presbyter immensam evangelice legis majestatem heroicis versibus concludens. Without place or date (*Daventriæ*, *Rch. Paffroet*, about 1490). 4°. Gothic letter.

Statius Müller. *Delices physiques choisies.* trad. en fr. par Mth. Verdier de la Blaquière. Nrb. 1766-67. large fol. 2 vols. with 1 title plate, 1 portrait, and 38 and 53 illuminated plates (80 d.).

With a German and French text. The plates are carefully illuminated and really fine. The German text was printed anew by itself, with some augmentations and a preface by J. E. Imm. Walch, Nrb. 1778. large fol. and the French text by itself with the same augmentations, ib. 1779. large fol.

11480 — *lapides diluvii universalis testes.* Sammlung von Merkwürdigkeiten der Natur u. den Alterthümern des Erdbodens. Nrb. 1755-73. fol. 3 parts in 5 vols. with illuminated plates (90 d.).

Greatly sought after, as it is still the best executed and finest work on this subject. To the 1st vol. there is also a new text, J. E. Imm. Walch *Die Naturgeschichte der Versteinerungen.* Nrb. 1773. fol. The 2nd vol. of the 3rd part, of the year 1773, which contains the tables of classification and the index in 128 pages,

is often wanting. Number of the plates: 1st vol. 1 title-plate, 2 engraved titles, and 56 plates. 2nd vol. 1st part 81 plates, 2nd vol. 2nd part 50 plates. 3rd vol. 1st part 84 plates (28 of which only properly belong to this vol., but the rest are supplemental tables).

Also with a French text, *Recueil des monumens des catastrophes* etc. Nrb. 1768-78. fol. 3 parts in 5 vols. with the same illuminated plates. The above collation also applies to this edition.

11481 — *Vergnügen der Augen u. des Gemüths, in Vorstellung einer Sammlung von Muscheln u. andern Geschöpfen, welche im Meer gefunden werden.* Nrb. 1757-72. 4°. 6 parts in 3 vols. with illuminated plates (50 d.).

The plates are very carefully and finely illuminated. The first 5 vols. contain each 30 plates, and the 6th vol. 40, each vol. has 1 title-plate besides. In the 6th vol. there is a general index of 100 pages. Also with a French text, *Les délices des yeux et de l'esprit*, etc. Nrb. 1760-73. 4°. 6 parts in 3 vols. with the same illuminated plates.

11482 — *thesaurus rei herbariæ hortensisque universalis.* Allgemeines Blumen-Kräuter-Frucht- u. Gartenbuch (lat. et germ.). Nrb. 1770-72. large fol. 2 vols. with 200 and 101 illuminated plates.

Fine, but of little use. The 2nd vol. appeared before under the title, *Regnum Floræ. Das Reich der Blumen.* Nrb. 1750. fol. with 101 illuminated plates. A new edition of the entire work, with some additions by G. Rdf. Böhmer, Nrb. 1788. fol. 2 vols. with inferior plates.

His *Allgem. Künstlerhistorie*, Nrb. 1759 or 66. 4°. with plates, is of no value.

Rich and solid contents. To indefatigable industry of collection, and a genuine spirit of inquiry, my worthy friend added the rarer faculty of connecting together single things, with sense and fitness, into one productive whole. He was a scholar in the true sense of the word. May a favourable lot befall the rich collections he has left behind him for a life of Pt. Mosellanus and for a history of Leipsic.

11494 KOELER, J. D. Sylloge aliquot scriptor. de bene ordinanda et ornanda bibliotheca. Ff. 1728. 4°. 2 parts in 1 vol.

11497 KÖNIG, G. Mthi. Bibliotheca vetus et nova. Altorf. 1678. fol.

11498 KÖNIGSHOFEN, Jac. von. (anon.) Hie vahet an die Cronica, wie got geboren ward. Without place or date (*Augsp.*, *Bämler*, about 1474). fol. 181 printed leaves

with 50 lines, without signatures, catchwords, and pagination.

Exceedingly scarce, and probably the first edition of this chronicle which was unknown to Schilter. The above title forms leaf 1^a, line 1 and 2. Leaf 183^a, the 9th or last line is, *swellff jare*. The type is the same as that with which Bämle printed the *Regiment junger Kinder* in 1474. That the book however was printed before 1477 is evident from the copy described in *Braun Bibl. monast. Udalt. et Afræ*, I. 48, which is furnished with a MS. continuation, terminated according to the subscription in *unser lieben frauen aubent* (7 Sept.) 1477. This edition contains only the first 3 chapters or books (in Schilter, p. 1-214), and wants the history of the bishops and town of Strasburg, which yet is in it in Schilter. The 2nd chapter begins leaf 73^b, and the 3rd leaf 145^b. Consult Panzer's *Deutsche Ann. Suppl.* p. 14.

11499 — hie nach volget ein Cronica vō allen kaysern vñ künigen. Without place or date, 80 leaves.—Hie nach volget die Reformation... Siegmunds. Bämle, 1476. 8 leaves.—Hie nach volget von allen Bābsten. ib., id., 1476. 56 leaves.—Altogether 192 leaves in fol. without signatures, catchwords, and pagination.

These 4 extremely rare pieces together form one whole, and indeed Nos. 1 and 4 are probably the 2nd edition of Königshofen's chronicle, which was also unknown to Schilter. Consult Panzer's *Deutsche Ann.* I. 90, and *Suppl.* 36. All 4 pieces repeated, *Augsp.*, *Ant. Sorg*, 1480. fol. 8 leaves of preliminary matter and 157 numbered leaves, and *ib.*, *Schönsperger*, 1487. fol. But *Dye cronica von Keysern vnd bebstem.* *Augsp.*, *Sorg*, 1487. fol. and *CRONICA*, above, No. 4146. are different from this work.

Schilter had this work printed from a MS. The work known in print, and which goes as far as 1386, is only an abridgment prepared by the author himself. The larger work (up to 1382) has not yet been printed.—Consult *J. G. Kunisch: Jac.*

Other copies with F. Waarmond's name have, *Leyden*, 1668. 8°. His excessive niceness of words proved unfortunate to the author. Their high mightinesses imprisoned him for life and confiscated his book. More toleration is shewn in the present day. Consult *Unschuld. Nachrr.* 1714. p. 231-253.

11513 KOPP, U. F. *Tachygraphia veterum exposita et illustrata.* Manhemii, sumtibus auctoris, 1817. large 4°. 2 vols. with many woodcuts and plates (8 golden ducats).

11514 KORAN. *Al-Coranus s. lex Islamitica Muhammedis (arab.) ad optimor. codicum fidem edita ex museo Abr. Hinckelmanni.* Hmb. 1694. 4°.

The first edition of the entire Koran and scarce.

Concerning an earlier edition, but not yet discovered, consult *J. Mch. Langii Diss. de Alcorani prima inter Europæos editione arabica.* Altorf. 1703. 4°. (*Muscul lit. bibliogr. Magas.* III. 179). *Clement Bibl. cur.* I. 141 sq. *J. Bn. de Rossi Diss. de Corano arabico Venetiis Paganini typis impresso.* Parmæ, 1805. 8°. 16 pages. *Schnurreri Bibl. arab.* p. 402-4. The chief source is *Thesori Ambr. Albonensis Introductio in chaldaic. linguam.* Papiæ, 1539. 4°. leaf 83b and 200b. It is stated herein that this edition was printed by Alex. Paganinus Brixiensis (at Venice), and a passage is quoted from it with an accurate statement of the sheet and leaf (it is the last but one in the 5th layer). Erpenius in his *Rudimenta lingue arab.* LB. 1620. 8°. ascribes this edition to about the year 1530, and assures us that all the copies were burnt. Rossi on the contrary thinks it was printed about 1518, and Schnurrer before 1509 (as after that year no other typographical production of Paganinus the father is to be met with). The existence of the edition can scarcely be doubted from the preciseness of Albonensis's specification.

11515 — *Alcorani textus universus ex correctioribus Arabum exemplaribus summa fide atque pulcherrimis characteribus descriptus, et ex arabico idiom. in latinum translatus; appositis notis atque*

refutatione. Præmissus est prodromus totum priorem tomum implens, auctore L. Marraccio. Patavii, 1608. fol. 2 parts in 1 vol.

Still the best and finest edition, in the copies of which there are differences; consult *J. And. Mch. Nagel Diss. de prima Alcorani sura. Altorf. 1743. 4°*. The *Prodromus* appeared previously by itself, *Rom. 1691. 8°*. 4 vols.

11516 — Coranus arabice, impressus jussu Catharinæ H. Russor. Imp. (*Petropoli, 1787*). small fol. 477 pages with 17 lines, and 4 leaves, list of chapters.

Very scarce, as it did not come into the market; and neat and convenient, but not very correct, and in a critical point of view of no great value. It is in Beigel's rich library at Dresden. The Molla (judge) Usman Ismael was the editor. It is said to have been repeated unaltered, *ib. 1790 and 93. Casan, 1809. fol. 477 pages*, is also a reprint of the same.

11517 — Coranus arabice. Casan, 1803. large 4°. or in 5 vols. in 8°.

11518 — Machumetis Alcoran (lat.). Petrus abbas Cluniac. ex arab. lingua in lat. transferri curavit. Adjunctæ sunt confutationes multorum authorum. Hæc omnia in unum volumen redacta sunt op. et st. Thdr. Bibliandri. Bas., Oporinus, 1543. fol.

The first edition of this Latin translation made in 1143 by Robertus Retinensis or Ketenensis. A complete copy ought to contain 12 leaves of preliminary matter, 230 pages, 5 leaves *varr. lecti*. Next, with a separate title, the *Confutatt.*, 4 leaves and 178 pages. *Historia de Saracenorum. orig.* of 163 pages. *J. Cantacuseni contra Mahom. fidem assertio lat. per Rd. Gualtherum*, of 6 leaves, 124 pages, and 2 leaves; and the same book in Greek, of 5 leaves, 108 pages, and 1 leaf, colophon.

In a copy in the Dresden library, in other respects completely alike, the *Hist. de Saracenorum. orig.* is of another printing (although also of 163 pages), and is distinguished by the addition in the title, *Ph. Melanthonis præfatio* etc., which is wanting in the first impression.—This translation is in other respects only a very deficient and extremely free abridgment. With respect to the opposition which Bibliander met with in editing it at Basle, see *Kircher's Leben Myconii*, 351 etc.

11519 — — (the same title), without place (*Tiguri*), 1550. fol.

12 leaves of preliminary matter, and 227 pages. Then the *Confutatt.* of 4 leaves and 358 pages. *Hist. de Saracenorum. orig.* 235 pages. This second edition is indeed enlarged, but it contains the Greek pieces only in a Latin translation, whereas the first has them both in Greek and Latin.

11520 — Mohammedis fides Islamitica i. e. Alcoranus ex idiomate arab. lat. versus per Marraccium. Edid. Ch. Reineccius. Lps. 1721. 8°.

11521 — l' Alcorano di Macometto nel qual si contiene la dottrina, la vita, i costumi e le leggi sue. Tradotto nuouamente dall' arabo in lingua italiana. Without place (*Ven., And. Arrivabene*), 1547. 4°. 5 leaves of preliminary matter, L and 100 pages.

Concerning this very scarce translation, but only made from the Latin translation, and moreover abridged, see Sacy in *Notices et extraits*, T. IX. P. I. p. 103–109. In the Dresden copy (formerly Gr. Hoym's) leaf IV. occurs twice, each time with differences.

11522 — l'Alcoran de Mahomet, traduit de l'Arabe en fr. par (And.) du Ryer. Suivant la copie imprim. à Par., chez Ant. de Sommeville, 1649. 12°. 686 pages.

Greatly to be preferred certainly to the Latin translation, but it has also many errors and arbitrary omissions and additions. This edition is the finest, and was probably printed by the Elzevirs at Leyden. Another edition with the same date, which is in a smaller character, and badly printed, is distinguished by its having only 416 pages. Duryer's translation at first, *Par., Sommeville, 1647. 4°*. The editions *suiv. la copie à Paris (Leide, Elsevier)*, 1672. 12°. *Haye, Moetjens*, 1683 or 85. 12°. are still greatly prized. *Amst. 1770 or 75. 12°*. 2 vols. are enlarged with Sale's introduction.

11523 — le Coran, trad. de l'arabe accompagné des notes et précédé d'un abrégé de la vie de Mahomet, par N. Savary. Par. 1783. 8°. 2 voll.

This translation also does not equal that of Sale in correct representation of the sense. The edition, *Par. an 7 (1798). 8°*. 2 vols. (also on vellum paper and on large

vellum paper) is less prized. Also, *Amst.* 1786. 8°. 2 vols.

- 11524 — the Koran, commonly called the Alcoran of Mohammed, transl. into English immediately from the original Arabic, with explanatory notes; to which is prefixed a preliminary discourse, by G. Sale. Lond. 1734. 4°.

Very carefully and accurately done, and particularly prized on account of its very useful introduction (which has been translated into French by itself, *Genève*, 1751. 8°.) Also, *Lond.* 1764, or 1801, or 1812. 8°. 2 vols. (11. 4s.) *The Alcoran of Mahomet, translated out of Arabic into French, and newly englished (by Taylor).* *Lond.* 1649. 4°. *ib.* 1688. 8°. is only made from Duryer's French translation.

Made from the bad Italian translation. Scarce. — That by J. Lange in *Happellii Thesaur. exoticor.* P. II. after p. 288, is only from Glasemaker's Dutch translation. Translated into German from Marracci's Latin translation in *D. Nerretor's Mohammedan. Moschee.* Nrb. 1703. 8°. After G. Sale's English translation by Thdr. Arnold, *Lemgo*, 1746. 4°.

A translation at fourth hand, as it is

made from the German of Schweigger; and Schweigger only translated the Italian translation of the Latin translation! — *Mahomets Alcoran door du Ryer uit d' Arabische in de Fransche, en door J. H. Glauemaker in de Nederlantsche Taal vertaalt.* *Rott.* 1698. 8°.

The Spanish translation by J. Andræus Maurus and J. de Segovia does not appear to have been printed: see *Notices et extraits*, T. IX. P. I. p. 110. A lexicon for the Koran see under WILLMET. Another has the title, *Nedockum-ool Poorkan (index vocabulor. in Corano).* *Calcutta*, 1811. 4°.

- 11528 KORB, J. G. *Diarium itineris in Moscoviam* Ign. Cp. de Guarient et Rall. Viennæ Austr. (1700). fol. with 19 plates.

Badly written, but as interesting as it is to be depended upon. It is said to have been suppressed at the desire of the Russian court, on account of the many disreputable traits it related of Peter I. It is at least very scarce. Only four books, or the 1st part, are usually known, (thus much only at Dresden), which together contain 60 *Kühlpsalmen*. Copies which contain all the parts mentioned, are exceedingly scarce, and comprehend together 8 books or 117 songs. Besides this the Royal library at Dresden possesses, *Des Kühlpsalters 10s Buch*. Amst. 1687. 8°, and *Weseler Kühlpsalm. eilftes Kühljubil.* without place, 1687. 12°. 4 leaves. The book appears to be very deserving of a closer examination. There is to be found therein, wherever his enthusiastic fixed ideas do not take possession of the author, a depth of feeling, a fire and force of expression, a correctness and versatility of language, and a lightness of versification, which agreeably surprise, and excite the desire of something more forcibly characteristic of the man. Kühl-

mann appears not to have been merely a crazy enthusiast; in part he was so certainly. Besides his interest in the combination-system of instruction might speak for him.

Yet as it did not sell, Colbert disposed of it to Cramoisy, who fixed the price at 12 livres; but on account of the continuing deficiency of demand, 300 copies were obliged to be destroyed as waste paper. 11589 LACTANTIUS Firmianus, Luc. Cael. De divinis institutionib. adversus gentes libri VII, nec non ejusd. de ira dei liber unus una cum libro de opificio hominis. In monasterio Sublacensi, (Sweynheym et Pannartz), die antepenult. Octobris, 1465. fol. 185 leaves with 36 lines, without signatures, catchwords, and pagination.

The first edition, and at the same time the first book printed in Italy with a date. At first are 9 leaves, list of chapters, and then 1 blank leaf. The 11th and 12th leaves, which are wanting in almost all the

copies, contain *Lactantiæ errata*. Then again 1 blank leaf. The text begins leaf 14^a, and the *Institut.* end on leaf 157^b. 12 copies at least are known in England and France, and one on vellum in the library at Carlsruhe. It contains also several Greek passages (yet vacant spaces are left for many of them), and thus, with the *Cicero De off.* of 1465, gives the first specimens of Greek printing.

11590 — opera. Romæ, Sweynheym et Pannartz, 1468. fol.

The 2nd edition, tolerably scarce. 218 leaves with 38 lines, without signatures, catchwords, and pagination. At first 9 leaves, list of chapters; and 2 leaves, *errata Lact.* The text of the preceding, yet enlarged with the poems *De phœnices* and *De paschate*, and the Greek passages omitted in the preceding, are here altogether completed.

11591 — opera. Romæ, Sweynheym et Pannartz, 1470. fol.

The 3rd edition, corrected by J. And. Aleriensis. 222 leaves with 38 lines, without signatures, catchwords, and pagination. The first 12 leaves contain the editor's letter to Paul II., list of the chapters, and *errata Lact.* That the *Nephytomon* ought to be included, is an incorrect assertion.

11592 — opera. (Ven.), Adam, 1471. fol.

The 4th edition, a reprint of that of 1468. 218 leaves (the first 11 a list of chapters and errata) with 38 lines, without signatures, catchwords, and pagination. The name Adam in the colophon is to be explained neither by Ad. Rot at Rome, nor by Ad. de Ambergau. Mercier de S. Léger takes Adam de Rotwil for the printer; but Fossi (with whom Panzer and Dibdin, *Bibl. Spenc.* I. 217, agree) thinks, in the *Bibl. Magliab.* II. 44, that the name Adam must signify, not the printer, but the author of the final verses prefixed to it, who was Adam Montaltus Genuensis. This conjecture appears indeed improbable to me, on account of the name being separated from the verses by the date of the year. Vindel. de Spira at least, to whom Fossi is inclined to ascribe the edition, is certainly not the printer, since both the Latin, and particularly the Greek types are quite different from those of the immediately subsequent edition.

A copy on vellum 291 fr. Gaignat. Also in the library at Blenheim in England (*Bibl. Spenc.* I. 212), and in the Hunterian museum at Glasgow (*Dibb. Decam.* III. 320) there are copies on vellum. According to *Schönemann's Bibl. PP. lat.* I. 190, there are different copies. In the usual

copies the words MCCCCLXXI. ADAM stand over the final verses; in others they stand under them. Both sorts of copies are also to be distinguished by some typographical errors.

- 11593 — Opera. (Ven.), Vindelinius de Spira, 1472. fol.

The 5th edition and very fine. 202 leaves with 41 lines, without signatures, catchwords, and pagination. At the commencement 11 leaves, list of chapters and errata, then 1 leaf *quomodo legendi sint libri Lact.* After the colophon (leaf 195) there follow 7 leaves, *Nephytomon s. epitome divinar. institut.*, which sometimes are wanting.

- 11594 — opera. Romæ, U. Gallus et Sim. N. de Luca, 12 Febr. 1474. fol.

The 6th edition, superintended by Ang. Cneus Sabinus, which contains a new recension, but made use of by no editor prior to Blinemann. 257 (not 256) leaves with 37 lines, without signatures, catchwords, and pagination. Leaves 1-13 contain a letter of J. And. Aleriensis, a list of chapters and errata, leaf 14 is blank, and leaf 15 contains a letter of the editor. The last leaf of the book, which is often wanting, contains a *register*.

- 11595 — opera. Rostock, per fratres domus viridis-orti (*viridis horti*) ad S. Michaelen, 5 id. Apr. 1476. fol. Gothic letter.

The 7th edition, very scarce, and the first book printed at Rostock. The *Nephytomon* and the poems are wanting, and vacant spaces are left for the Greek passages. 202 leaves (the first 11 contain a list of chapters and errata), without signatures, catchwords, and pagination. A copy on vellum 331 fr. Vallière.

- 11596 — opera. Ven., And. de Pal-tasichis et Boninus de Boninis, 12 Mart. 1478. fol.

The 8th edition and not of frequent occurrence. 211 leaves with 38 lines, without signatures, catchwords, and pagination. In some copies the typographical error *impresecunt* is corrected, and the word *catarsensis* after *pallasichis* omitted. A copy on vellum 368 fr. M'Carthy, which Brunet incorrectly mentions as a copy of the following edition.

- 11597 — opera. Ven., J. de Colonia et J. Manthen, 27 Aug. 1478. fol.

The 9th edition and very correct. 216 leaves with 37 lines, and the signatures a-s. Leaf 1 is blank. Leaves 2-12 contain the list of chapters and errata. The

colophon is leaf 207^b, and leaf 208 contains the *register*. The last 8 leaves, or leaves 209-216 contain the *Nephytomon*. The following editions are of no scientific or commercial value; Ven., *Thdr. de Ragasonibus*, 1490. fol. *ib.*, *Benafius*, 1493. fol. *ib.*, *Bon. Locatellus*, 1494. fol. *ib.*, *Bovilaqua*, 1497. fol.

- 11598 — opera perquam accurate castigata (et Tertulliani apologet.) Ven., J. de Tridino, 1502. fol.

7, 160, and 22 leaves. A new revision by J. Pt. Valerianus. *Per., J. Petit*, 1509 or 13. 4°. follow it. The latter, although very incorrect, has nevertheless some good readings of its own.

- 11599 — opera nuper per Jan. Parrhasium accuratissime castigata (et Tertulliani apol.) Ven., Tacuinus, 1509. fol.

12 leaves of preliminary matter, 160 and 22 leaves. Lactantius has a colophon of the 3rd of January, and Tertullian of the 9th of November, but the preface is dated 1510. A new recension, in which for the first time the Greek passages appear correctly. Reprinted, Ven., *J. de Tridino*, 1521. fol.

- 11600 — Opera (et Tertull. apol., cura Mariani Tuccii). Flor., Ph. de Giunta, m. Oct. 1513. 8°. 8 and 302 leaves.

It has much that is peculiar to it. Tuccius however seems only to have made use of editions, and not of MSS. A copy on vellum in the Riccardi library at Florence, previously in the *Bibl. Petav.* p. 394. No. 1187.

- 11601 — opera (et Tertull. apol.) Ven., Aldus et And. socer, m. Apr. 1515. 8°.

16 unnumbered, 348 numbered, and 12 unnumbered leaves. Then Tertullian (which forms an essential part of the book) with 4 unnumbered and 48 numbered leaves. Corrected from MSS. by J. Bt. Egnatius. Corrections and various readings are annexed, which Blinemann has forgotten to make use of.

- 11602 — opera. Bas., Cratander, m. Febr. 1521. small 4°.

10 leaves, 433 pages, and 1 leaf, the printer's symbol. After the preceding; yet the annexed corrections are, with selection, received into the text. *Bas., Cratander, et Bebel*, 1532. fol. *Antw., Graepheus*, 1532. 8°. *ib.*, *Gymnicus*, 1539. 8°. are reprints.

- 11603 — opera. Tertulliani liber

apologeticus. Ven., hered. Aldi et And. soceri, m. Mart. 1535. 8°.

12 leaves of preliminary matter, 328 numbered leaves, 16 unnumbered (the last 2 blank), 47 numbered, 1 blank and 44 unnumbered (errata and indices). A new recension by Honorat. Fasitellus from MSS., ancient editions, and sometimes from (very circumspect) conjecture. The divisions of chapters are here again omitted. Of less value than the 1st Aldine. The editions, *Lugd.*, *Gryph.*, 1541. 8°. *ib.*, *J. Tornæsii*, 1548. 8°. *ib.*, *id.*, 1556 (very neat) or 67. 12°. *Par.*, *Marnes*, 1565. 12°. repeat its text.

11604 — opera ad vetusta exemplaria MSS. sedulo collata et a mendis vindicata. Col., Pt. [Quentel, 1544. fol.

It has something peculiar to it, and is very correct.

11605 — opera omnia. Acc. Xysti Betuleji commentaria. Bas., H. Petri, 1563. fol.

12 leaves of preliminary matter, 559 pages, and ten leaves. The text is corrected from a MS. and the older editions, and still oftener from conjecture. The commentary chiefly contains merely theological and philosophical common-places.

11606 — opera stud. Mch. Thomasii emendata, cum notis ejusd. Antw., Plantinus, 1570. 8°.

The Aldine of 1535 and the edition of Betuleius form the groundwork, 2 Bolognese and 7 Vatican MSS. being also made use of, whose various readings however he mostly places in the margin, and seldom admits into the text. The passages which might cause Lactantius to be suspected of Manicheism or other errors are omitted. The notes are valuable. Repeated, *ib.*, *id.*, 1587. 8°.

11607 — omnia, ex fide et auctoritate libror. MSS. emendata. *Lugd.*, *J. Tornæsii*, 1587. small 8°.

It has much that is peculiar to itself and excellent from 7 MSS. It also contains corrections by Jac. Cujacius.

11608 — opera quæ extant omnia, a Jos. Isæo recognita, emendata et notis illustrata. Cæsænæ, Nerius, 1646 (new title, *Romæ*, *Mascardi*, 1650). fol.

A new recension from 16 MSS. and old editions; but Isæus has still more strictly than Thomasius excluded all pas-

sages suspected of error in doctrine. The annotations are learned, but mostly theological.

11609 — opera, cum notis Ant. Thysii. LB. 1652. 8°.

The text of Thomasius. The notes are of little value.

11610 — opera cum selectis varior. commentariis op. et st. Servati Galæi. LB. 1660. 8°.

The text of Thomasius with various readings and corrections from MSS. and earlier editions. The selection of notes is bad.

11611 — opera quæ extant, ad fid. MSS. recognita et commentariis illustrata a Th. Spark. Ox., th. Sheld., 1684. 8°.

The text of Thomasius forms the groundwork, 5 MSS. and the editions of Betuleius and Isæus being also made use of. The notes are very short. Lactantius's poems are not included.

11612 — opera ad fid. codicum tam impressor. quam MSS. recensita. Cbr. 1685. 8°.

Chiefly the text of Thomasius, 2 MSS. being also made use of.

11613 — opera. Cp. Cellarius recens. et adnotationib. illustrav. Lps. 1698. 8°.

Cellarius used the edition of Thysius as the groundwork, and introduced some corrections from 6 MSS. and the older editions. Repeated by J. G. Walch, *Lps.*, 1715. 8°. As to the latter edition, consult *Miscell. Lips.* III. 334 etc.

11614 — opera omnia emendata et illustr. a Cp. A. Heumanno. Gött. 1736. 8°.

Cellarius's text. The corrections (chiefly from conjecture) are placed in the notes.

11615 — opera omnia cum notis integris Cp. Cellarii et selectis aut excerptis varior. Omnia ex maximo MSS. et edit. apparatu recens., notis crit. et indice latininitatis instrux. J. Ldf. Bünnemann. Lps. 1739. large 8°.

A new, careful, and judicious recension from 52 MSS. and 62 editions. For its elucidation he has done less. The text alone after him, *Hal.* 1764, 65. 2 vols. (14 gr.) and, *Bipontii*, 1786. 8°. 2 vols. (1 d. 12 gr.) About 1739 an edition of Lactantius in fol. and with plates, from MSS. and with critical notes, was to have

appeared at Salzburg; and the printing was already commenced, but it came to a stand-still. See *Schelhorn's Ergötzlichkeit*. I. 128 etc.

- 11616 — opera. Ed. noviss. ad 8o et amplius MSS. codd. editosque 4o collata et emendata atque notis uberioribus illustrata. Cui manum primam adhibuit J. Bt. le Brun, extremam imposuit N. Lenglet du Fresnoy. Par., de Bure, 1748. 4°. 2 voll.

A new recension; but much that is unnecessary is received into it, and it is not edited with so much care as its rich materials demanded. Copies on large paper are scarce, as most of them were destroyed in a damp warehouse. The bare text of this edition in *Gallandi Bibl. PP.* IV. 229-436. and (Fr. Oberthür) *Wirceb.* 1783, 84. 8°. 2 voll.

- 11617 — opera, variantib. lectionib., annotationib., castigationib. ac dissertatt. illustrav. Eduard. a S. Xaverio. Romæ, 1754-59. 8°. 14 voll.

The best part is the collation of an old Bolognese MS. The grammatical notes are only for scholars, and the explanation of things is as prolix as it is for the most part unnecessary. An edition in 3 folios, which the editor announced in a prospectus at Rome, 1751. 4°. has not appeared.

- 11618 — divinar. institutionum liber V s. de justitia. Accurante D. Dalrymple de Hayles. Edinburgi, 1777. 8°.

- 11619 — epitome institutionum divinar. Anonymi historia de hæresi Manichæor. etc. Ex bibl. reg. Taurin. cod. eruit, rec. lucique publ. dedit atque illustravit Cp. Mthi. Pfaff. Par. 1712. 8°.

- 11620 — epitome divinar. institutt. Eam ex vetustiss. MS. Taurinensi nuper editam recens. et suis animadvv. illustrav. ac emendav. J. Davisius. Cbr. 1718. 8°.

Also notes thereto in *Misc. obs. in auctt. vet. ac rec. IV.* 20 etc. 409 etc.

- 11621 — de mortibus persecutor. cum notis St. Baluzii, acc. varior. animadvv. tam editæ quam ineditæ. Rec., suis auxit, cum versionib. contulit P. Bauldri. Traj. ad Rh. 1693 (other copies 1692). 8°.

At first in *Baluzii Miscell. II.* 1 etc.; and by itself, *Par.* 1679. 8°. *Ox., th. Sheld.*, 1680. 12°. By J. Columbus, *Abow.*, 1684. 8°. Notes thereto in *Misc. obs. in auctt. vet. ac rec. IV.* 31 etc. and in *Nova Miscell. Lps. X.* 119 etc. Consult *Maischel de bibl. Paris. (ed. Lips.)* p. 177-225.

- 11622 — de mortibus persecutor., ad Colbertinum cod. denuo emendatus st. et op. N. le Nourry. Par. 1710. 8°.

Le Nourry denies it to have been written by Lactantius, but he is sufficiently refuted by several persons. Lactantius's poems in *De Christo Jesu aliquot reliquæ vet. poetar. eccles. ed. And. Rivinus. Lps.* 1652. 8°. The *Phoenix* in the *Claudianus Burmanni* and in *Wernsdorffii Poet. lat. min.* III. 298 etc. Heumann too hastily ascribed the *Symposium* to him. See *SYMPOSIUS*.

A new title, with an addition on the historians and poets of Normandy, *ib.* 1816. 8°.

11630 LAFRERIUS, Ant. Speculum Romanæ magnificentiæ, omnia fere quæcunque in urbe monumenta extant, partim juxta antiquam, partim juxta hodiernam formam accuratiss. delineata repræsentans. Romæ, without date (1575). fol. 118 leaves.

Well got up. The plates collected together under the above title, previously indeed published separately, were engraved in the years 1544-75. The Dresden copy struck off on large paper, contains several leaves by Ant. Salamanca, Th. Barlachi, Cl. Duchet (of 1582 and 83), and others, which do not indeed belong to the work. The above number of leaves I have taken from Heineken's MS. continuation of the *Dictionn. des artistes*.—A second collection, which Brunet announces from Vallière's Catal. under the title, *Recueil de diverses antiquités de Rome, grav. par lui à Rome*, 1554 etc. large fol. is the same work, but without the above title.

The last work at first, *Sth.* 1775. 8°. in 1 vol. and in German from this edition (by J. G. Pt. Müller), *Greifsw.* 1776. 8°. (18 gr.) and in French by Agander, *Par.* 1788. 12°.

11633 LAGNIET, Jac. Recueil des plus illustres proverbes, mis en lumière par Jac. Lagniet. Par. without date. 4°. with plates.

This book consists of rather grotesque plates, and has no text but what is engraved on each plate. The copy sold at Méon's sale in 1803 for 122 fr. contains 4 books, viz. 1. *Proverbes moraux* in 141 plates. 2. *Proverbes joyeux et plaisans* in 106 plates. 3. *La vie des gueux* in 31 plates. 4. *La vie de Tiel Ulespiëgle* in 36 plates. The copy, on the contrary, described in Vallière's Catal. T. I. Suppl.

p. 67. contains only 3 books; the 1st. of 57 numbered and 32 unnumbered plates; the 2nd. of 73 numbered and 42 unnumbered; the 3rd. of 30 numbered, and then of 35 (*vis d. Wierpięgle*) and 28 plates.

11640 **LAIRE**, Fr. X. Specimen historicum typographiæ Romanæ XV. seculi. Romæ, 1778. 8°.

His determinations of undated typographical productions are extremely faulty, and by no means to be depended upon; consult *Dibdin Bibl. Sp. II.* 205. A copy on vellum (probably the only one), 300. fr. d'Hangard. There appeared in opposition: *Lettere tipografiche dell' abb. N. Ugolini* (that is, *J. Bt. Audiffredi*). *Magonsa* (Roma), 1778. 8°. 56 pages. Of Laire's reply: *Ad abbatem Ugolini epistola auctoris libri, cui titulus: Spec. typogr. Rom. Arg.* (Par., Didot, 1779). 8°. only 18 copies were struck off, 6 of which were on pap. d'Annonay.

11641 — index libror. ab inventa typographia ad a. 1500, chronologicè dispositus. Senonis, 1791. 8°. 2 vols. Catal. des livres de la bibl. de M.*** (le Cardinal de Loménie de Brienne), faisant suite à l'index

libror. etc. par Gu. Debure l'aîné. Par. 1792. 8°. Catal. d'une partie des livres du Card. de Loménie de Brienne. Par. 1797. 8°.

The cardinal Loménie de Brienne formed a plan of collecting a library proportionately embracing all departments, intending to have made it a public one, which however was sold by auction in consequence of his misfortunes. It is a pity that this catalogue does not specify the whole of his very numerous collection. Laire wrote besides anonymously: *Dissertation sur l'origine et les progrès de l'imprimerie en Franche-Comté pendant le 15^e siècle*. Dole, 1785. 8°.

11650 LAMA, Gius. de. Vita del cavaliere Giambat. Bodoni tipografo italiano, e catalogo cronologico delle sue edizioni. Parma, stamperia ducale, 1816. 4°. 2 vols.

The first vol. contains Bodoni's life, written in a somewhat too panegyric strain; the second a very correct and circumstantial list of his typographical productions. The subscription-copies only have come into circulation; the rest were confiscated on account of the repeated mention of a then powerful family, whom Bodoni greatly censures. Unfortunately I have not been able to procure a copy.

11651 LAMA, Pt. de. Iscrizioni antiche collocate ne' muri della scala Farnese e spiegate da Pt. de Lama. Parma, stamp. Carmignani, 1818. small fol. 130 pages.

Containing in 2 divisions, *Iscris. Vellejati* and *Iscr. antiche Parmensi*. The inscriptions are engraved and inserted in the text.

11653 — et Agst. Pyrame DECANDOLLE. Flore française ou description de toutes les plantes qui croissent naturellement en France. Par. 1805. large 8°. with plates. 4 parts in 5 vols. (48 fr.)

11654 LAMBARDE, Gu. Ἀρχαιογραφία s. de priscis et antiquis Anglor. et Saxonum legibus libri (lat. et sax.), ed. Abr. Wheloc. Cbr. 1644. fol.

Previously, Lond. 1568. 4°.

11655 — perambulation of Kent. 1596. 4°. Gothic letter, with 1 map.

The best edition. According to Logman's Catalogue there ought to be 2 maps. Previously, *ib.* 1576. 4°. Gothic letter, with 1 map. Lond. without date, 8°. is more recent.

11656 — dictionarium Angliæ topographicum et historicum. An alphabetical description of the chief places in England and Wales, now first published from a MS. Lond. 1730. 4°. Also on large paper.

11657 LAMBECIUS, Pt. Historiæ literariæ prodromus et tabula duplex chronographica universalis. Acc. in hac ed. ejusd. iter Cellense, Alex. Ficheti arcana studior. methodus et W. Langii catal. MSS. bibl. Medicæ, curante J. Alb. Fabricio. Lps. et Ff. 1710. fol.

11658 — commentarior. de bibliotheca Cæsarea Vindobonensi libri VIII. Vindob. 1665-79. fol. 8 vols. with plates.

The commencement of the 9th vol. is in *Schelhornii amanitatt. V.* 97-115. Concerning Gentilotti's inedited continuation, see *v. d. Hagen's Museum I.* 547.

11659 — Dn. de NESSEL catalogus s. recensio specialis omnium codd. MSS. græcor., nec non linguar. orientalium bibl. Caes. Vind. Vindob. et Nrb. 1690. fol. 2 vols. with plates.

An abridgment and farther continuation of the preceding work, and still more scarce, as it may be joined to the first

and second edition of it. Since many layers of the work were entirely destroyed, and the plates were wanting, the bookseller Monath at Nuremberg caused the layers that were wanting to be printed afresh in 1733, and new impressions, to be made from the plates that were preserved at Vienna. It is advisable therefore to choose old copies. *Jac. F. Reimmanni Bibliotheca acoomatica. Hannov. 1712. 8°.* is an abridgment of Lambecius and de Nessel.

- 11660 — Pt. Lambecii commentarior. de bibl. Caes. Vindob. libri VIII. Ed. II. op. et st. Ad. Fr. Kollarii. Vindob., Trattner, 1766–82. fol. 8 vols. with plates (36 d.). *Analecta monumentorum omnis ævi Vindobonensis, op. et st. Ad. Fr. Kollarii. ib., id., 1761. fol. 2 vols. with plates (12 d.).* Ad. Fr. Kollarii ad Lambecii commentarior. libros VIII supplementor. liber primus posthumus (ed. Mch. Denis). *ib., id., 1790. fol. (3 d. 8 gr.)* Altogether 11 vols.

Kollar's additions are insignificant; and he superintended the new edition so negligently, that when Lambecius sometimes cites pages that have gone before, he has not once altered the citation according to the pagination of the new edition. According to private information, this edition is said to have become scarce already, owing to the bombardment of Vienna in 1809. Dibdin, *Decam. T. I. p. XXXVII. not.*, thinks his copy defective, because the representation of the old Roman calendar (in the old edition, lib. IV. p. 276) is wanting. But Kollar had already admitted this into his *analecta Vindob.* I. 959, and consequently on good ground omitted it here.—There may also be added thereto; *Codices arab., pers., turc. bibl. Caes. Reg. Vindob. recens. Jos. de Hammer. Vienna, 1820. fol.* and above, DENIS. Concerning the old German MSS. of the Imperial library, see v. d. Hagen's *Museum I. 547.*

- 11661 LAMBERT, Aylmer Bourke. Description of the genus pinus. Lond. 1805. large fol. with 38 plates. Appendix. *ib.* 1807. large fol. with 6 plates.

Of the 6 plates of the *Appendix*, 3 are a compensation for 3 wrong plates of the work. Only a few copies with illuminated plates (at the duke of Marlborough's sale in 1819 for 30l. 19s. 6d.).

DEO GRATIAS .. AMEN.* Spaces are left for the Greek passages. 76 leaves, the first and last 2 of which are blank (so Fossi, Dibdin reckons only 71 printed leaves), with 25 lines, without signatures, catchwords, and pagination. The first edition, extremely scarce, and at the same time the first printed Greek book. Leaves 1 and 2 are a Greek and Latin preface of Demetrius Cretensis. Leaf 3^a begins the book itself, and the first line is, ΕΠΙΤΟΜΗ ΤΩΝ ΉΘΩΝ ΤΟΥ ΛΟΓΟΥ.

- 11733 — Eadem, gr. cum vers. lat. J. (Crastoni) monachi Placentini. Mediol. 3 cal. Oct. 1480. 4°.

The 2nd edition, very scarce. 98 leaves (the last blank) in 2 columns, with 31 lines, and the signatures *a-m*. Not an abridgment (as some think), but a complete impression of the preceding edition. Leaf 1^b begins with a Latin letter of Bonus Accursius.

- 11734 — eadem, gr. cum vers. lat. Vincentiæ, Ln. de Basilea, 18 cal. Jul. 1489. 4°.

The 3rd edition, likewise very scarce. 98 leaves in 2 columns, with the signatures *a-m*, and 31 lines. Leaf 1^b also begins with a letter of Bonus Accursius. A literal impression of the preceding edition, placed by mistake by Panzer under the year 1488, and repeated, *ib.*, *id.*, 1491. 4°.

To this edition of 1489 also belongs, Κονστ. Λασκαρεως (sic) προομιον του περι δυναμτος και ηθματος τριτου βιβλιου. Without place or date (from the same press). 4°. 20 leaves (the 1st, 19th, and 20th are blank), with the signatures *a-c*, and 31 lines. Only 2 copies of this piece are known, Lord Spencer's (formerly Pinelli's) and Renouard's. It has sometimes been erroneously taken for a part of the editions of 1476 and 1480.

- 11735 — Lascaris erotemata (gr.) cum interpretat. lat. De literis græcis ac diphthongis et quemadmodum ad nos veniant. Abbreviationes quibus frequentissime græci

utuntur. Oratio Dominica et duplex salutatio b. virginis. Symbolum apostolor. Evangelium d. Joannis Evangelistæ. Carmina aurea Pythagoræ. Phocylidis moralia, (gr.) Omnia suprascripta habent e regione interpretationem lat. de verbo ad verbum. Ven., Aldus, ult. Febr. 1494-8. Mart. 1495. 4°. 166 leaves.

A very scarce edition, and printed from a copy of the edition of 1476 corrected by Lascaris himself, and not only the first dated book, but even the first typographical production of Aldus, as Renouard, *Ann. des Aldes*, I. 2. II. 9 sq. shews. Museum (which Dibdin, *Bibl. Spenc.* II. 178, considers as the first book printed by Aldus) was printed during the printing of Lascaris.

The title, preface of Aldus, and Lascaris form the first part of the book of 140 leaves with the signatures *a-s*. Leaf 140^b is a colophon in 6 lines of the 8th of March 1495. At the end are also 2 leaves (*errata*, and a passage of Moschopulus), which appear to have been delivered afterwards, and are often wanting.—The 2nd part is an essential part of the book, and ought not to be wanting; but the *Introd. ad ling. hebr.*, printed for the first time in a *Manutii rudim. gramm. lat.* of 1501, does not belong to this book.

In the public library at Nuremberg (*Panser* III. 378.) is a copy of this edition, in which layer 5, or leaves 137-140, is reprinted, and the colophon is set down in 14 lines, and dated ult. Febr. 1495.

- 11736 — Lascaris de octo partib. orationis liber I. Ejusd. de constructione lib. II. Ejusd. de nomine et verbo lib. III. Ejusd. de pronomine opusculum (gr. lat.) Cebetis tabula. De literis græcis ac diphthongis etc. (as above). Phocylidis poema ad bene beateque vivendum. Omnia hæc cum interpretat. lat. Introductio perbrevis ad hebr. linguam. Ven., Aldus, without date (1498-1503). 4°.

298 unnumbered leaves (2 of which are blank). The appendix of 24 leaves, the last 4 of which contain *errata* and the *register*, are often wanting.—More complete than the preceding edition, and more scarce than the edition of 1512.

- 11737 — Lascaris institutiones universæ cum plurimis auctariis nuperrime impressæ (gr. lat.) Fer-

rarizæ, J. Maciochius, 3 cal. Sextil. 1510. 4°.

Scarce. With the signatures A-Z and a-n, each 8 leaves. Superintended by J. Mar. Tricelius.

11738 — Lasc. de octo partibus orationis etc. (as in No. 11736). Phocylidis poema ad bene beateque vivendum. De idiomatib. linguar. tres tractatus Joannis grammatici. Eustathii Corinthi cum interpretat. lat. Introductio perbrevis ad hebr. linguam. Ven., Aldus, m. Oct. 1512. 4°.

More complete than No. 11736. 274 unnumbered leaves (the last blank) and 20 leaves, appendix. To be collated according to the register and the Latin note before the preface. The Latin signature *hiiii* is by mistake marked *Ciiii*, and consequently often bound up in the wrong place. The colophon is on the reverse of *p ii*.—A reprint of it, without place or date (*Bas., Froben, 1518*). 8°. 408 numbered and 24 unnumbered leaves.

11739 — the same title. Flor., Bn. Junta, without date. 4°.

A more complete reprint of the preceding edition, and apparently earlier than the following.

11740 — Lascaris de octo partibus orationis etc. Flor., Ph. Junta, m. Nov. 1515. 4°. 288 leaves.

Enlarged with *Plutarch. de his quæ apud Homerum linguis* and some other pieces, otherwise very incorrect.

11741 — Lascaris de octo partibus orat. lib. I. Ejusd. de constructione lib. II. Ejusd. de nomine et verbo lib. III. Ejusd. de pronomine opusc. (gr. lat.) Lovanii, Thodoric. Martinus, without date. 4°.

Of no separate value, but very scarce. 200 printed leaves in all with signatures. After the colophon (*CC 2b*) 2 leaves, *laudatio in dei genitricem*.—*Ven., Mch. Sessa, 1521*. 4°. is still of value.

11742 — Lascaris de octo orat. partib., una cum ejusd. authoris et alior. opusculis atque additionib. (gr. lat.) Ven., Nicolinis de Sabio, 1540. 8°.

11743 — Lascaris grammaticæ compendium. Adjectis in fine quibusd. opusculis, ad græcæ linguæ scientiam aptissimis. Cum lat. interpr.

11881 LEPIDI comici veteris Philodioxos fabula, ex antiquitate eruta ab Aldo Manutio. Lucæ, 1588. 8°.

Very scarce. This piece, written in prose, was by no means composed by an old Roman poet, but by C. (Marsuppi) Aretinus († 1453), under whose name it is quoted in *Alb. Eyb. margarita poet.* Roscoe, in his life of Lr. de Medici, attributes it with less probability to Leo Bt. Alberti. There are extracts from it in *Beloe's Anecdotes*, V. 263 etc.

11921 LEYSER, Polyc. Dissertatio de ficta medii ævi barbarie, in primis circa poesin lat. Helmst. 1719. 4°. 70 pages.

The first attempt to defend the literary honour of the middle ages, and uncommonly scarce. I possess the author's own copy, with his notes in his own handwriting (not to be found in No. 11923). That his particularly clear head took up the matter exactly on this unfavourable side (notwithstanding the great variety of the poetic forms of the middle ages), was only a love of paradox in him, and must be distinguished from the partiality, poverty, and flatness with which many more recent panegyrist of that important time pretend to embrace the matter of an entire age in mere forms, or its character in single phenomena. In 1719 such insipid and unhistorical *a priori* conclusions were not yet indulged in.

11922 — historia poetar. et poematum medii ævi decem post ann. Chr. 400 seculor. Halæ, 1721. 8°.

Scarce, and at a good price. Properly the book of documents to the preceding article. The literary notices are indeed made use of in *Fabricii Bibl. med. et inf. lat.*, but the Latin poems of the middle ages, printed here for the first time, and the critical apparatus to many others printed before, give a peculiar value to this book.

8 leaves of preliminary matter, 401 pages, and 6 leaves. Consult *British Librarian*, p. 131, 198. Of a new edition, *Lond.* 1811. large 4°. (2l. 12s. 6d.) only 75 copies were printed, and 25 on large paper in folio (4l. 4s.).

11928 — *præludia oratoria, declamatt. et dissertatt. morales.* F. Morellus e MSS. nunc prim. edid. idemque lat. vertit. *Adjectæ sunt notæ et varr. lectt. cum duplici ind. Par., Cl. Morellus rec., castigav., lat. vertit et notis illustrav. ib., id., 1627. fol. 2 voll.

The 1st vol. 44 leaves of preliminary matter, 948 pages, and 17 leaves; the 2nd, 8 leaves of preliminary matter, 735 pages, and 12 leaves. Scarce, on large paper. There are also copies of the 2nd vol. with a new title, *Lut., Piget, 1647.* This edition is very faulty, because the MSS. were very incorrectly and imperfectly used by Morell. His translation is obscure and unfaithful.

11929 — oratt. et declamatt. (gr.) Ad fid. codd. MSS. rec. et perpetua annotat. illustrav. J. Jac. Reiske.

Altenb., Richter, 1791-97. large 8°. 4 vols. (11 d. 12 gr.)

A new recension and completion from 6 MSS. and enlarged with 5 unprinted orations. This edition is said to have first appeared in 4°. (the 1st vol. of it, *ib.* 1784.) but the octavo size was afterwards chosen on account of its cheapness. The Leipzig University library possesses a more correct reprint of the first 4 sheets of the 4th vol.

Harwood and Clarke have without any ground whatever called this edition extremely scarce, and it was really bought at Paris in 1817 for 52 fr., nay, Longman indeed offers it for as much as 7 guineas. I am certain that in Germany it might be bought for a few pence. As to the rest, this and the preceding number are reprinted in *Jac. Gothofredi Opuscul. Genev.* 1641. 4°. and in his *Opp. jurid. minor. LB.* 1733. fol. p. 350.

4 leaves of preliminary matter (title, table of contents, advertisement of Fr. à S. Columbano, and of the editor, Fr. Zeno), and 256 numbered leaves in 2 columns with the signatures *A-DD*. The first and very scarce edition of a book finished in 1385, and filled with absurd tales, to which a paltry religious hatred has affixed a value, which indeed it never deserved. The history of the spider, which was the principal cause of its celebrity, is in leaf 72^a (not 78) col. 1. The price of the book (480 fr. Gaignat, 450 fr. Vallière) has greatly fallen in more recent times (80 fr. M^cCarthy).

11940 — opus. Auree t inexplicabilis bonitatis t continentie. Conformitatu scilicet vite Beati Frâ. ad vitâ. d. nri Jesu xpi. Mediol., Zanotus Castilioneus, 1513. fol. Gothic letter.

12 leaves of preliminary matter, and 229 numbered leaves in 2 columns, with the signatures *a-C*; the second edition equally

scarce and complete, superintended by J. Mapellus, and enlarged with an index. The history of the spider is here in leaf 63^a col. 1. The following is the 3rd edition, considerably altered, and purified of the most striking fables: *Liber aureus inscriptus liber conformitatum vitæ b. Francisci ad vitam J. C. nuno denuo editus atque correctus a Jerem. Buccio. Bon., Benatius*, 1590 (new title, 1620). fol. With respect to the writings against it, see the most noted under **ALCORANUS**. *H. 8 leaves (the 8th blank). This is the extremely rare list, of which as yet no second copy is known, and which was even unknown to Renouard (*Suppl. aux ann. des Aldes*, p. 64.). All the works men-

tioned in this list are also to be found in Renouard, except the following: *Multorum viror. illustr. tres poematum libri, heroïcis, elegiacis et lyricis carminibus conscripti*. As it is not observed of this, as of others, that it has not yet been printed, it probably really appeared, and consequently there may be here something to discover.

11949 **LIBRO** de albeysteria emendado y coregido : y añadidas en el sessanta y nueve preguntas (por Manuel Diaz). Toledo, 27 Mayo 1511. 4°. Gothic letter. 96 and 6 leaves.

11950^b **LIBRO** chiamato el Trojano in rima historiato : el qual tratta la Destruttion de Troja fatta per li Greci, et come per tal Destruttion fu edificata Roma, Padoa, e Verona, et molte altre Cittade in Italia. Et tratta le Battaglie che furono fatte in Italia per Enea, et come ando e torno da l'Inferno etc. Ven., Agst. Bindoni, 1553. 4°. with woodcuts, 112 unnumbered leaves in 2 columns.

Crescimbeni, V. 38, considers a Jac. di Carlo to be the author, because there is at the end of an edition, *Finito il libro decto Trojano stampato et composto.. nella città di Venesia per me Ser Jacopo di Carlo prete Fiorentino nell' a. 1491*. Tiraboschi, T. VI. P. II. p. 192, follows him without any farther proof; he mentions an edition, *Mil.* 1518. not occurring in any other notice. Hayn mentions *Ven.* 1491. 4°. (which Crescimbeni only notices besides himself), *Ven., Manfrino*, 1509. 4°. and *ib., Bindoni e Pasini*, 1536. 4°. The two last are also otherwise confirmed. The above edition of 1553, and a more recent one, *Ven., Zoppini fratelli*, 1587. 8°. (in the catalogue of the Royal library at Paris, *Bell. lettr.* T. I. p. 432. No. 3549^b.) are not noticed in Hayn.

But what if this poem of 20 cantos in *Ottaverime* had another author than has been hitherto supposed? The above colophon might only refer to the printing,

and this Jac. di Carlo did really possess a printing-press at work from 1487 to 1489, not at Venice indeed, but at Florence (*Santander Dictionn.* l. 271.); what inclines me to this conjecture is, that I unexpectedly found in the last 3 stanzas of the 20th canto the following acrostic, which I was disposed to refer to the author: *Angilus Johannes Francoi* (scanus?) *ad Andream f* (ratrem or filium?) I wish that some Italian scholar would follow up this track farther. I will only observe besides, that the poem is a working up of a Latin original, as the author says, l. i. st. 1: *per farne a più gente disciplina, vulgar tradussi l'opera latina.*

AV., Raldolt, 1488. fol. is doubtful.

11961 — (anon.) *pronosticatio latina anno 88. ad magnam conjunctionem Saturni et Jovis, quæ fuit 84. ac eclipsim solis anni sequentis scz. 85. confecta ac nunc de novo emendata.* Mog. 8 Jun. 1492. fol. Gothic letter, with woodcuts. 32 leaves, with the signatures *A-F*.

11964 — (*anon.*) Dyse Practica vnnnd Prenostication ist getruckt worden zu Mentz im M. CCCC. XCII. Jar: vnd werdt bis man zelt M. D. LXVII. jar. Without place or date. fol. with woodcuts.

46 leaves (the last a woodcut), with the signatures *A-H*, then Luther's preface on 2 separate leaves in somewhat different types, but with the same paper-marks. The title is only to be understood as declaring that the Latin original appeared at Mentz in 1492; and this translation, erroneously set down in Panzer's *Deutsch. Ann.* I. 198, under 1492, could not on account of Luther's preface have been printed before 1527. As the blocks which were used for its woodcuts are the same as in the edition of 1530 (No. 11968), where they are only a little worn, it is certain that both editions were the production of one printing establishment (probably at Strasburg), and the dates could not have been far distant from each other. The woodcuts of the edition, *Mog.* 1492, are quite different.

11965 — Prenostication zu tüetsch die do vssdruckt glücks vnd vnglücks die grosse Coniunction vnd die Eclipsis *etc.* At the end, Gedruckt vff grüneck ym iar 1497. am letzten tag des Octobers. In 4°. 65 leaves, with woodcuts.

Probably printed by J. Knoblauch at Strasburg.

11966 — Practica meyster Johann liechtenbergs, so er vor etzlicher zeit gemacht hat. Without place, 1526. 4°. with woodcuts.

11967 — die weissagung Johans Liechtenbergs deutsch, zugericht mit vleys. Sampt einer nutzlichen vorrede vnd vnterricht D. Mt. Luthers. Witt., Hans Luft, 1527. 4°. with woodcuts. 72 leaves.

With the same preface, *Strb.*, without

date, 8°. Also in *Propheccien u. Weissagungen Paracelsi, Lichtenbergers* *etc.* without place or date, 4°. with woodcuts, 117 leaves.

11968 — Practica u. Prenostication (as in No. 11964). Without place (*Strb.*), 1530. fol. with woodcuts.

48 leaves, with the signatures *A-H*. Without Luther's preface.

11969 — die Weissagungen J. Liechtenbergers. Deutsch mit schönen Figuren zugericht. Ff. a. M. 1551. 8°. with woodcuts.

Also, without place, 1587. 4°. (without Luther's preface, and without woodcuts.) Without place, 1620. 4°. is mutilated; *Weissagungen.* (*Lps.*) 1689. 4°. 32 leaves. Also in the *Europäisch. Staatswahrseger. Th. II.* Berl. 1742. 8°.

11970 — die prognosticatio J. Liechtenberger, toe gerycht mit vlyth, dar man wunderding in vyndt. Cölln, Pt. Quentell, 1528. 8°. with woodcuts.

11971 — pronosticatione in vulgare rara et piu non odita laquale expoue (*sic*) et dechiara alcuni influxi del cielo: et la inclinazione de certe constellatione. Modena, Piero francioso (Pt. Maufer), 14 Apr. 1492. 4°. Gothic letter, 48 leaves, with woodcuts.

Also *Mil.*, *Scinzenseler*, 1523. 4°. 40 leaves, with woodcuts.

11972 — Pronostigatie van J. Lichtenberg, met Aanmerkingen uitgegeven door A. Fokke. Amst. 1810. large 8°. (18 stivers.)

These predictions of Lichtenberg were at different times industriously sought after; but perhaps never more zealously than after the fatal battle of Jena, when the inquiries after them in all Saxon libraries were inconceivably great. It was said that every thing was most substantially predicted in the work, and it was, as to the rest, quite natural, that some found nothing therein, and others every thing. Luther's edition of 1527 still most frequently occurs; but the earlier editions are very scarce. Consult *Allg. lit. Anz.* J. 1799, p. 1999. J. 1800, p. 501, 1685. J. 1801, p. 55. *Neuer lit. Anz.* 1807, p. 314. *Pezzer's Deutsche Ann.* I. 229. A pretended postil of Lichtenberg (*Bernhard's Curiose Hist. der Gel.* 661.) is a nonentity.

When will German scholars at length unite to set this compilation entirely aside, which is careless and faulty throughout, and has given occasion to numberless errors? Even the most cautious use of it is hazardous.

12046 LIPPI, Lr. (under the name of Perlone ZIPOLI). Malmantile racquistato. Fir., Rossi, 1676. 12°.

The first edition of this poem, superintended by Gi. Cinelli: it contains a collection of all Florentine proverbs and phrases. Cinelli's preface, in which some Italian scholars are vehemently attacked, was obliged to be suppressed (consequently copies containing it are very scarce), and to be replaced by another.

12051 LIRER, Th. (anon.) In diser Chronick würdet ... begriffen gar vil mengerlei schöner alter geschichten so ... geschehen zu den Zeiten do die schwäbischen land vnd andre land haiden gewesen seind. Without place or date (*Ulm, Dinkmut*). fol.

62 leaves with signatures, without catchwords or the leaves being numbered. Probably the first edition of this very old chronicle, and unknown to Wegelinus. Lirer's chronicle fills the first 49 leaves, and has 19 woodcuts. The last 13 leaves contain a shorter chronicle, chiefly Suabian, of some unknown person, and have no woodcuts.

12052 — (the same title). *Ulm.*, Cr. Dinkmut, 12 Jan. 1486. fol.

68 leaves (the first and last blank) with 32 lines and the signatures *a-k*, without catchwords and pagination. Lirer's chronicle ends leaf 53^a, and has 21 woodcuts. Then leaf 53^b a larger woodcut, and leaves 54^a–67^a the anonymous chronicle.

12053 — (the same title). *Ulm*, Cr. Dinkmut, am dornstag nach vnser frawen himelfart, 1486. fol.

Completely coinciding in its interior arrangement with the first edition of this year, but deviating from it in different passages, and especially in the orthography.

12060 LISTER, Mt. Historiæ s. synopsis methodicæ conchylior., quorum omnium pictura ad vivum delineata exhibetur, libri IV, cum appendicibus. Lond. 1685-93. small fol. with plates.

A work greatly prized and sought after, complete copies of which are very scarce; but copies on large paper are extremely rare (1158 livres Limare, 1091 liv. Miraubeau, 701 fr. Bosquillon, 880 fr. M'Carthy). M'Carthy's copy is 1 foot 4 inches high (old Paris measure).

The known copies have (besides a separate number to each shell) sometimes a numbering throughout, in the corner of each plate underneath, and sometimes not. These last unnumbered copies by no means contain the first impressions, on the contrary they contain fewer shells by far than the first, and are only to be collated with the help of a numbered copy. The work ought to contain 1057 plates on 468 leaves, and 22 plates in the appendix. In the numbered copies are these mistakes in the numbering:

The 53rd large plate (*Harderi Tabb. anat.*) is unnumbered.—The 71st plate (on the same leaf with plates 69-73, and representing shells under the letter A) is unnumbered.—No. 89 is passed over.—No. 101 is thrice

in the same leaf, 101, 101^a, 101^b.—No. 164 is passed over, but No. 168 occurs twice (168, 168^a).—The 335th plate (containing the 172nd shell of the 3rd part) is wrongly numbered 336. The right number 336 (with the 173rd shell) follows after that.—No. 373 (with the 214th shell, *Pinnas magna*) is unnumbered.—The small plate 435 is wrongly numbered 455, and the number stands in the upper, not the under, corner.—No. 480 (on the same leaf with 479) is wrongly numbered 446.—No. 535 (on the same leaf with 536) is wrongly numbered 435.—No. 633 (on the same leaf with 632 and 634) is numbered 632.—No. 822 occurs twice; the first plate (after No. 820) contains the 38th and 39th shells, the second plate two shells of the number 41.—No. 846 occurs twice; the first plate contains shells 74 and 75, and the second the title of the 12th section of the 4th book.—No. 883 is doubled.—No. 923 is passed over.—No. 931 occurs twice; the 1st plate contains the 26th shell, and the 2nd a very large muscle, without name and number.—No. 961 is passed over.—No. 965 is doubled, and the first plate is wrongly numbered 956.—After the 1057 plates are to be found, only in a few copies, 2 plates, the first of which is entitled, *Appendicis ad conchylior. synopsis tabula quarta*; and the 2nd, *Tabula quinta*. Next is an *index tabular.* (namely the following) on 8 printed pages; and last of all 22 plates with the numbers 1-22, the 15th, 16th, and 18th of which are the same as the numbers 195, 196, and 222 above.

In the entirely complete Dresden copy on small paper (in which only the 2 plates after No. 1057 are wanting) the false numberings in numbers 435, 480, 535, 633, and 965 are corrected in the plate, and leaves 214 and 931 (of the 2nd plate) are numbered.

12061 — — Ed. II. Rec. et indicib. auxit Gu. Huddesford. Ox., typ. Clarend., 1770. fol. with plates (5l. 5s.).

If the first edition has an advantage on account of the first impressions, so has this second a peculiar one also on account of the addition of two very necessary indices. Three leaves of observations by Lister in English are also added. The book contains IV, 6, 7, 12, and 77 pages of text, and 1059 and 22 plates. According to *Cobres Catal.* I. 412, the numbers 89, 164, 923, and 961 are wanting, which the editor never delivered; and the numbers 195, 196, and 222, which are to be found in the numbers 15, 16, and 18 in the series of the last 22 plates. The following numbers are inserted: 101^a, 101^b, 168^a, 512^a, 822^a, 846^a, 883^a, 931, 965^a, 960^a.

The first edition, and very scarce, only 275 copies of which were printed. 411 leaves in all, without signatures, catchwords, and pagination. At first 22 leaves of preliminary matter; viz. 2 leaves, Andreæ's letter (leaf 1^a line 1 is, (*F*) *ausito ac felici solo tuâ Vrben Patet Beatissime*); and 20 leaves, *Epitome decadum*. Then from leaf 23 to 165 the 1st decade; from 166 to 303 the 3rd; and from 304 to 411 the 4th. The copies may consequently be also divided into 3 vols. Sir Mark Masterman Sykes in England possesses a copy on vellum (bought at Edwards's sale in 1815 for 903l.).

12072 — — ex recogn. J. Ant. Campani. (*Romæ*), U. Gallus, without date. fol. 2 vols.

The 2nd edition, and fine. Printed at the latest in the middle of the year 1470, for Campanus in his preface to Quintilian, dated August 1470, mentions it as having already appeared. Laire, Rewiczky and his review in the *Allg. deutsch. Bibl.* LXII. 507, erroneously take it to be the *editio princeps*; and Dibdin's grounds also (*Bibl. Spenc.* II. 132), in which for the first time he would make it out to be the third, and would place it after the following one, are altogether invalid. 447 leaves in all, with 45 lines, without signatures, catchwords, and pagination. At first 24 leaves of preliminary matter; viz. 1 leaf, Campanus's letter (beginning *Campanus Cardinali Papiensi meo salutem*); then 22 leaves, *Epitome decadum*, and 1 blank leaf. Then from leaf 25 to 179 the 1st decade; from 180 to 329 the 3rd; and from 330 to 447 the 4th. The colophon, *Anser Tarpei custos Jovis* etc., occurs 3 times, viz. leaf 23^b, and at the end of the 1st and 4th decades.

12073 — cum epist. J. Andreæ, ep. Aler. (*Ven.*), Vindelinius (*de Spira*). 1470. large fol.

The 3rd edition, fine, and the first with a date, and a reprint of the 1st edition. In all 418 leaves with 49 lines, without signatures, catchwords, and pagination. At first 23 leaves of preliminary matter (Andreæ's letter and *Epitome decadum*), then from leaf 24 to 169 the 1st decade; from 170 to 309 the 3rd; and from 310 to 417 the 4th. Leaf 417^b contains the date and colophon of 46 verses (in the 7th and 8th the announcement of the printer), which

end in leaf 418^a. There is besides 1 blank leaf at the beginning of the book, and another at the end of the 1st decade. One vol. of the copy on vellum in 2 vols. in the library at Lyons (sometime in Vallière's library) was destroyed in the siege of Lyons in 1793 by a cannon ball. Count Melzi at Milan has a second copy on vellum.

- 12074 — decades. Romæ, Sweynheym et Pannartz, 16 Jul. 1472. fol.

The 4th edition, and probably only a reprint of the *editio princeps*. Andreas's letter is not in it. With 46 lines, without signatures, catchwords, and pagination. It has more abbreviations than the first edition. At first 20 leaves, *Epitome decadam*, and leaf 1^a line 1 is, *Epitoma decadū quatuordecim*. T. Livii Patavinii. Leaf 21^a begins the text, T. Livii Patavinii *Historia ab Vrbe*.

- 12075 — — Mediol., Ph. Lavagnia, 1478. large fol.

The 5th edition, and apparently a reprint of *Ven.* 1470, with the internal arrangement of which it entirely accords. 417 leaves in all, with 49 lines and signatures. At first 23 leaves of preliminary matter, then from leaf 24 to 169 the 1st decade, with the signatures *A-R*; from 170 to 309 the 3rd, with the signatures *AA-OO*; from 310 to 417 the 4th, with the signatures *PP-JJ*. Only the 3rd decade at Dresden.

- 12076 — decades ex recogn. Pt. Justinii Philelfi. Mediol., Ant. Zarothus, 10 cal. Nov. 1480. fol.

The 6th edition, 50 lines with the signatures *A-R*, *a-o*, *T-AA*. The first 23 leaves contain Andreas's letter and *Epitome decadam*. According to Santander it is only a reprint of the *princeps* (?).

- 12077 — decades. (*Tarvisii*), Mch. Manzolinus, prid. cal. Nov. 1480. fol.

The 7th edition, 51 lines with signatures and column-titles. At first Andreas's letter and *Epitome decadam*. After the colophon a letter of Bm. Parthenius on a separate leaf.

- 12078 — decades a Luca Porro recognitæ. *Tarvisii*, J. Vercellius, 1482. fol. with signatures.

With Andreas's letter. Repeated, *ib.*, *id.*, 1485. fol. 256 leaves with 59 lines and signatures.

- 12079 — decades cum M. Ant. Sabellici annotatt. Ven. (*Bernardin. Herasmius Novocomensis*), 5 Nov. 1491. fol.

22 unnumbered and 232 numbered leaves

with 59 lines and signatures. Corrected by Sabellicus from a MS. *Ven.*, Bm. de Zanis, 20 Jun. 1498. fol. 20 and 229 leaves with 62 lines; *Ven.*, G. de Rusconibus, 4 Dec. 1501. fol. 20 and 229 leaves; *Par.*, *Ascens.*, 1510. fol., are reprints.

- 12080 — decades. Mediol., impressit U. Sinzenzeler (*sic*) impensis Alex. Minutiani, 25 Maji, 1495. fol.

332 leaves (the 1st blank) with 52 lines and signatures. Fine and scarce (8 guineas at Longman's). The 31st book, divided into two books in the earlier editions, is united into one in this; so that there is no 33rd book. The earlier editions numbered the 2nd half of the 31st book as the 32nd, and the 32nd as the 33rd.—At first Andreas's letter, *Epit. decad.*, and a letter of Minutius to Bm. Chalcius, wherein he says that he had used Andreas's recension as the groundwork, corrected *ex vetustiss. exemplaribus*, and completed a hiatus at the end of the 6th book.

- 12081 — decades (cum Andreae epist. et Sabellici annott.). Ven., Ph. Pincius, 3 non. Nov. 1495. fol. with woodcuts.

20 and 253 leaves with 60 lines. With Luc. Ant. Giunta's lily. Repeated, *Ven.*, J. et Bn. Vercellenses, 1506. fol. and *Ven.*, Ph. Pincius, 1511. fol. both of 20 and 253 leaves, and with the same woodcuts.

- 12082 — decades. Mediol., Alex. Minutianus, nonis quintilibus m. Julii, 1505. fol.

With a dedication to Jaffredus Carolus, which does not state whether Minutianus has given any thing new or not. Jan. Parrhasius claimed the corrections of Minutianus as his property (*Liv. Drakenb.* T. VII. p. 332).

- 12083 — Titi Livii Patavini historici dechades (cum præf. Agst. Becharii). Without place or date (*Lugd.*, about 1510). 8^o.

A very scarce edition, and not yet determinedly characterized. The Royal library at Dresden possesses only Decas I. of 46 unnumbered leaves (*Epit. decad.*) and 310 numbered, and Decas II. of 296 numbered leaves.

- 12084 — quæ extant decades, ad decem diversa exempla acri judicio repositæ. Cum Lucii Flori epitome recognita, annotatt. Sabellici et familiaris Ascensii explanatione. Par., J. Parvus, non. Dec. 1513. fol.

40 leaves of preliminary matter and 280 leaves. By Gerardus Vercellanus compared

with 10 MSS. (*veneranda vetustatis codd.*) Also, *ib.*, ex *edd. Ascensianis, nonis Jun.* 1516. fol. 40 and 280 leaves. *ib.*, *sub prelo. Ascensiano, m. Jul.* 1531 (1530 in the title). fol.

12085 — T. Livius Patavinus historicus duobus libris auctus, cum L. Flori epitome, indice copioso et annotatis in libros VII belli Maced. (cum præf. U. de Hutten). Mog., J. Schöffner, m. Nov. 1518. fol.

56 leaves of preliminary matter (title, two prefaces by Hutten and Erasmus, and index), 22 leaves (*Flori Epitome decad.*), 2 leaves (a second title and *Livii præfatio*), 730 pages, 1 leaf (colophon), and 14 leaves (various readings). The last, as also Hutten's preface, are dated 1519. In the earlier published copies, the pieces printed in 1519 are wanting: consult *Hummels Neue Bibl.* St. VI. p. 131. This important edition contains for the first time lib. XXXIII. c. 17 etc. and lib. XL. c. 37 etc. together with various readings to the other books of the 3rd decade, greatly deviating from other MSS., from a very old MS. at Mentz, which has since then disappeared. A copy on vellum in the Cambridge University library. A separate impression of this new discovery is, *Livii Historiar. pars nuper inventa. Roma, Jac. Mazochius, 1519. 8°.*

12086 — ex XIII T. Livii decadibus prima, tertia, quarta (et quintæ libri V). Epitome singulor. libror. XIII decadum. Historia omnium XIII decadum in compend. redacta ab L. Floro. Polybii libri V de reb. Romanis latinitate donati a N. Perotto. Index. Ven., in *ædd. Aldi et And. soceri, 1518–21. et in ædib. hered. Aldi, 1533. 8°.* 5 voll.

Complete copies of all the 5 vols. are very scarce. A copy of the first 4 vols. on large paper (of the 5th there is probably no large paper copy) is in the possession of Renouard; a second is said to be in England. The editor, Fr. Asulanus, received too readily into the text all the readings of the Mentz MS. even when greatly deviating from those usually admitted.

The order and contents of the volumes: 1st vol. with the above principal title, *m. Dec.* 1518, 68 unnumbered leaves (one of which is blank), 365 numbered and 8 unnumbered.—2nd vol. *Decas III, m. Febr.* 1519, 350 numbered leaves, 6 (errata, the date, and anchor) and 48 unnumbered (index).—3rd vol. *Decas IV, m. Nov.* 1520, 12 leaves of preliminary matter, 296 num-

bered leaves, and 44 unnumbered (the last blank), index. — 4th vol. *Livii epitome, Florus et Polyb. m. Mart.* 1521, 56 and 310 leaves, and 1 leaf, the register etc. (Florus and Polyb. are also sometimes met with by themselves).—5th vol. *Decadis V. libri V, hered. Aldi et And. Asul., m. Majo* 1533, 131 leaves, and 5 leaves of index.

The edition, *Ven., Sessa, 1520. fol.* appears to be a reprint of the first 4 vols. of this edition.

12087 — ex 14 Livii decadib. prima, tertia, quarta. Duplex epitome. Polybii libri V de reb. Rom. in lat. traducti a N. Perotto. Index copiosiss. Ven., Aldus et And. socer, m. Febr. 1521. fol.

Very scarce, but less fine than the edition of 1555. It contains the text of the preceding: according to others it deviates from it. 1st decade, 14 leaves of preliminary matter and 106 numbered leaves. 3rd decade, 10 leaves, index, and 102 numbered leaves. 4th decade, *Epitome* and *Flor.*, 10 leaves, index, 127 numbered leaves, and 1 leaf, the anchor. *Polyb.*, 71 numbered leaves and 1 leaf, the anchor. *Polyb.* is sometimes wanting.

12088 — ex 14 Livii decadib. prima, tertia, quarta. Epitome singulor. libror. 14 decadum. Historia omnium 14 decadum in comp. redacta a L. Floro. Polybii libri V de reb. Romanis latinitate donati a N. Perotto. Index copiosiss. Flor., her. Ph. Juntæ, 1522. 8°. 4 voll. *Decadis V. libri V nunc prim. excusi. Flor., Bn. Junta, 12 cal. Maji, 1532. 8°.* Altogether 5 vols.

Almost more scarce than the Aldine of 1518, of which it is only a reprint.

12089 — libri XXX qui soli supersunt, castigatioribus quam antehac unquam visi, auctore Jac. Sobio. Col., J. Soter, m. Aug. 1525. fol.

Correct, and corrected sometimes by Sobius (from conjecture). Repeated, *Col., Cervicornus, 1528. fol.*—The edition superintended by And. Levescatus, *Par., Savetier, m. Apr.* 1529. fol. mostly follows the edition of Ascensius, 1513.

12090 — Livii quicquid hactenus fuit æditum, sed aliquanto quam antea tum magnificentius, tum emaculatius. Acc. quintæ decad. libri V nunq. antehac æditi. Addita est chronologia H. Glareani et index copio-

aiss. Bas., Froben, m. Mart. 1531. fol.

4 leaves of preliminary matter, 244, 243, 210, and 91 pages, 20 leaves, *Epit. decad.*, 16 leaves, index and printer's symbol. *Glareani chronol.* 1 leaf and 45 pages. Important, because it contains for the first time the first 5 books of the 5th decade, discovered by Grynaeus. A separate reprint of this discovery is, *Livii Historiar. decadis V. libri V nunc prim. excusi.* Ven., Luc. Ant. Junta, 10 Jan. 1532. fol.

12091 — decades III cum dimidia, longe emaculatiores, quod nunc demum ad vetera contulerimus exemplaria, ubi quantum sit deprehensum mendorum, indicabunt Beati Rhenani et Sgm. Gelenii adjunctæ annotatt. Acc. chronologia H. Glareani cum ind. Bas., Froben, 1535. fol.

69 pages, 3 leaves, 244, 243, 211, and 91 pages, 20 leaves, *Epit. dec.*, 20 leaves, index, and 28 leaves, *Glareani Chronol.* A reprint of the preceding, but enlarged with the notes of Rhenanus and Gelenius, in which the text is excellently corrected from several MSS. *Glareani Chronol.* is also corrected and enlarged.—A literal reprint, *Lugd., her. Vincentii*, 1537. 8°. 4 vols. Bas., Hervag., 1539 and 43. fol. are reprints, enlarged with a list of the speeches in Livy.

12092 — decades quæ supersunt, cum epitome decad., Rhenani, Gelenii et Lr. Vallæ annotatt., et Glareani annotatt. et chronol. *Lugd., Sb. Gryph.*, 1542. 8°. 4 voll.

The text of the preceding, with the addition of the notes of Glareanus (at first, by themselves, Bas., Isingrin, 1540. fol.) and Valla. Par., *Vascosanus*, 1543. fol. is a finer reprint, and enlarged with the notes of Sabellicus. *Lugd., Sb. Gryphius*, 1554-5. 8°. (not 12°.) 4 vols. is a repetition of this reprint.

12093 — decades III cum dimidia, longe quam hactenus emendatiores, compluribus locis partim Cœl. Sec. Curionis industria, partim collatione melior. codd. suæ integritati restitutis. Ad hæc, Flori epitomæ, Rhenani et Gelenii annotatt., Glareani chronol., index. Bas., Hervag., m. Mart. 1549. fol.

6 leaves of preliminary matter, 829 pages, and then the signatures AAA-PPP, without pagination. Collated and corrected by

Curio, cum vet. aliquot et novis exemplaribus.

12094 — decades III cum dimidia longe quam hactenus ex collatione melior. codd. et doctiss. hominum judicio correctiores et emendatiores. Cum multis annotatt. Par., Audænus Parvus (*ex off. Vascosani*), 1552. fol.

Fine, and very correct. Not a reprint of the edition of Vascosanus, 1543, but of Hervag. 1549, with some enlargements (*Messala Corvinus, Sexti Rufi Hist. Rom.* etc.). A reprint of it again is, Bas., Hervag., m. Sept. 1555. fol. and (enlarged with some corrections from a MS. of Theodoricus Morellius), *Lugd., Ant. Vincentius*, 1553. fol.

12095 — historiæ libri 35 cum universæ historiæ epitomis, a C. Sigonio emendati, cujus etiam scholia simul eduntur. Ven., P. Manutius, 1555. large fol.

4 leaves of preliminary matter, 478 leaves, 98 leaves of scholia with a separate title, and 40 leaves of index. The edition of Vascosanus forms the groundwork, the text of which Sigonius corrected from MSS., ancient editions, and even discovered fragments of old Roman Fasti. He also for the first time paid attention to the emendation of the last 5 books and the epitome. Fine copies, and in good condition, are scarce. Renouard has a copy on large paper.

12096 — (the same title). Ven., P. Manut., 1566. fol.

52 leaves of preliminary matter (the 6th blank), 399 leaves, and 1 leaf, the register and the anchor, and 107 leaves of scholia with a separate title. A less fine repetition of the preceding, yet with a new working up of the scholia.

12097 — libri omnes una cum doctissimorum virorum in eos lucubrationibus. Ff. a. M., Corvinus et Feyerabend, 1568. fol. with woodcuts, 2 parts in 1 vol.

18 leaves of preliminary matter, 988 pages, 10 leaves, index, 56 pages, chronol. The 2nd vol. contains *Annotatt.*, 6 leaves of preliminary matter and 119 pages; *Sigonii scholia*, 82 leaves; *Vallæ annott.*, 112 pages; *Godeleeræi Obs.*, 93 pages. According to the preface the text has something peculiar to itself from the collation of several editions. Jo. Grellius was probably the editor. Repeated, *ib., tid.*, 1578. fol. with woodcuts.

12098 — (the title the same as No. 12095). Ven., in ædib. Manutianis, 1572. fol.

6 leaves of preliminary matter; 48 leaves, index; 399 leaves, text; 109 leaves, scholia; 1 blank leaf; and 52 pages, *defensiones*. The scholia are enlarged, and Sigonius's defences against Glareanus and Robertellus are added. Ven., Aldus, 1592. fol. is badly printed.

12099 — *historiæ Romanæ* II. XLV cum commentariis omnium interpretum. Lut. Par., Mch. Sonnius, 1573. fol.

21 leaves of preliminary matter, 31 pages, 3 leaves, 850 and 534 pages, 22 leaves. Superintended by Jac. Gohory. With the entire exegetical apparatus of the earlier editions.

12100 — *libri omnes nove editi et recogniti et ad vetustissimor. manu exarator. codicum Fuldensium, Mogunt. et Colon. fidem emendati a Fr. Modio. In eund. obss., emendatt., animadv., annotatt. varior. Ipsius demum Modii notæ. Ff., Feyerabend, 1588. fol. 2 parts in 1 vol.*

4 leaves of preliminary matter, 52, 682, and 59 pages. Then the 2nd vol. or *Annot.*, 4 leaves and 613 pages. A repetition of the edition, Ff. 1578, with the addition of Modius's notes, in which Livy is corrected from MSS. very cursorily made use of, and in a manner not to be depended upon, and from old editions.

12101 — *libri omnes superstites recogniti et emendati ad MSS. codd. Fuldensium, Mogunt. et Colon. fidem a Fr. Modio, nunc vero etiam ad membranas bibl. Palat. a Jano Grutero. Acc. obss., emendatt., annotatt. varior. Ff. a. M. 1608 (new title, 1612). fol.*

Corrected from Heidelberg MSS., for the first time divided into chapters, and enlarged with the notes of Fulvius Ursinus and Marcellus Donatus. A new revision (without notes), Ff. 1619. 8°. Ff. a. M. 1628. fol. is enlarged with Gruter's few and insignificant notes, but it is frequently altered in the text, and often from conjecture only. The later reprints in 8° are neither neat nor correct. Par. 1625. fol. (enlarged with F. Morelli's *Escerpta ex Livio*) is also a very incorrect reprint of the edition of 1608.

12102 — *historiar. libri ex rec. Hein-*
VOL. II.

siana. LB., ex off. Elzevir., 1634. 12°. 3 voll.

Sought after, as the finest Livy of the Elzevir press, but nothing more than an incorrect reprint of Gruter's text of 1628. Vol. I. 12 leaves of preliminary matter, 726 pages, and 8 leaves of index. Vol. II. 848 pages (with the title), and 8 leaves of index. Vol. III. 796 pages (with the title), and 7 leaves of index. Good copies are 4 French inches, 10-11 lines high.

12103 — *historiar. libri e rec. J. F. Gronovii. LB., ex off. Elzevir., 1645. 12°. 3 voll. J. F. Gronovii ad Livii libros superstites notæ. ib. 1645. 12°.*

An excellent new recension from MSS. and old editions. Vol. I. 12 leaves, 675 pages, and 16 pages of index. Vol. II. 751 pages (with the title), and 14 pages of index. Vol. III. 774 pages (with the title), and 14 pages of index. Notes; 14 leaves, 808 pages, and 3 pages, errata. The titles of the 2nd and 3rd vols. have the year 1644. Renouard possesses a copy with Tanaq. Faber's MSS. notes. Repeated, LB., ex off. Els., 1654 (the 2nd and 3rd vols. 1653). 12°. 3 vols. to which the notes of the preceding edition must be joined. To both editions is sometimes added, J. Freinshemii *Supplementor. Livianor. decas. Holm., Jansson, 1649. 12°.*—A new revision, with inedited notes by Muretus and Tanaq. Faber, *Amst., L. et Dn. Elzevir, 1665. 8°. 3 vols.*

12104 — *historiar. quod exstat, e rec. J. F. Gronovii. Amst., Dn. Elzevir, 1678. 12°. 1 title and 788 pages.*

Very fine, but in too small a type, and too closely printed. Good copies (5 French inches, 5-6 lines high) are scarce.

12105 — *historiar. quod exstat, cum perpetuis C. Sigonii et J. F. Gronovii notis. Jac. Gronovius probavit, suasque et alior. notas adjecit. Amst., Dn. Elzevir, 1679 (the 2nd and 3rd vol. 1678). 8°. 3 voll.*

Fine and becoming scarce: it belongs to the *variorum* series. Jac. Gronovius made use of MSS. unused before, gave Valæsius's inedited annotations, those of Sigonius entire, and added those left behind by his father. Bas. 1740. 8°. 3 vols. is a cheaper reprint.

12106 — *historiar. libri qui extant, cum interpretat. et notis J. Doujatii, in us. Delphini; acc. libror.*
Q q

deperditor. supplementa per J. Freinshemium. Par. 1679-82. 4°. 6 voll.

Doujatius's explanations are of little value. Freinshem's supplements are given here entire for the first time, and Doujatius has supplied the *lacuna* in the last 5 books. One of the rarer books in *us. Delph.* The correct but less fine reprint, *Ven.* 1714. 4°. 6 vols. (also on large paper) is enlarged with Le Clerc's notes and index.

12107 — historiar. libri qui supersunt, MSS. codd. collatione recogniti annotationibusque illustrati (cura Th. Hearne). Ox., th. Sheld., 1708. 8°. 6 vols. Also on large paper.

Gronovius's text. Hearne's specification of the various readings is very carefully done, but his notes are not numerous.

12108 — historiar. quod extat, cum integris J. Freinshemii suppl. emendationibus et suis locis collocatis, tabulis geogr. et copioso ind. Rec. et notulis auxit J. Clericus. Amst., Wetstein, 1710. 8°. 10 voll.

Gronovius's text. The notes are only for schoolboys. In the 10th vol. there are 14 maps. Faultily reprinted (*o. praf. J. Mithi. Generi*), Lps. 1735. 8°. 3 vols.

12109 — historiar. libri qui supersunt. Lond., Tonson et Watts, 1722. 12°. 6 vols. Scarce on large paper.

Very correct. The index is not by Maittaire. Enlarged with the supplements of Freinshem and others, *ib.*, *id.*, 1749. 12°. 7 vols.

12110 — historiar. libri qui supersunt XXXV cum suppl. libror. amissor. a J. Freinshemio concinnatis. Rec. et notis illustrav. J. Bt. L. Crevier. Par. 1735-42. 4°. 6 vols. Also on large paper.

Gronovius's text, sometimes corrected from MSS. and old editions. There are also very happy conjectures in the short but valuable notes. Freinshem's supplements are corrected. It is becoming scarce. The small edition, *Par.* 1747, 48. 8°. 6 vols. has something peculiar to it; consult *Schaeferi Praef. ad melet. crit.* p. VI. *Walchii emend.* Liv. 274. Reprints of the small edition, *Pata.* 1759. 8°. 6 vols. *Ven.* 1791. 8°. 6 vols. *Lond.* 1813. 8°. 6 vols. (2l. 2s., on large paper 3l. 3s.) *Ox.* 1814. 8°. 4 vols.

12111 — historiar. libri qui supersunt

omnes cum notis integris et excerptis varior., nec non ineditis Jani Gebhardi, C. And. Dukeri et alior. Curante Arn. Drakenborch, qui et suas adnotatt. adjec. Acc. suppl. deperditor. libror. a Freinshemio concinnata. Amst. 1738-46. 4°. 7 voll. Very scarce on large paper.

A new recension from MSS. and old editions, with a rich apparatus of the editor's own notes and those of others. His criticisms are very happy; but he has done less for the explanation. The edition was very slowly, but at length entirely sold, and is rising in price daily, producing already 80 dollars in Germany, and in England even as much as 33l. 12s. on large paper.

12112 — opera, periochis, variis lectt., chronologia et rhetoricis exercitatt. illustrata. Editio postrema Patavina, cui acc. capita XVII (libri XXXIII), quæ hactenus desiderabantur. Adnotatt. varior. excerptæ ex ed. Oxon. an. 1708. Patavii, Manfrè, 1740. 12°. 5 vols. with maps.

The pretended 17 new chapters mentioned in the title are a deception, and have been introduced into the editions all along since 1616. Previously, *ib.* 1694, 1707, 1718, or 1727. 12°. 3 vols.

12113 — historiar. libri qui supersunt, cum omnium epitomis ac deperditor. fragmentis. Ad opt. edd. castigati accurate Th. Ruddimanno. Edinb., Hamilton et Brown, 1751. 12°. 4 vols. Also on fine paper in small 8°.

Neat and very correct. Chiefly after Drakenborch, yet with some alterations from materials already printed. In some copies on fine paper the titles are printed in red and black. *ib.* 1764 or 72. 12°. 4 vols. is less fine and still less correct; and *Amst.*, *Wetstein*, 1752. 12°. 4 vols. is a literal reprint.

12114 — historiar. libri qui supersunt omnes, ex rec. Arn. Drakenborchii cum ind. rerum. Acc. præter varietat. lect. Gronov. et Crever. glossarium Livianum curante A. Gu. Ernesti. Lps. 1769. large 8°. 3 vols.

The dedication copy on writing paper in the Royal library at Dresden. Also, *Lps.* 1785. 8°. 5 vols.

12115 — *historiar. libri qui supersunt XXXV.* (Rec. J. N. Lallemand.) Per., Barbou, 1775. 12°. 7 voll. Also on fine paper.

It contains much that is peculiar to it and valuable.—*Manhem.* 1779–83. 8°. 12 vols. (3 d. 22 gr.) is after Drakenborch, with the various readings of Gronovius and Crevier.

12116 — *historiar. libri qui supersunt omnes, cum integris J. Freinsheimii suppli. Præmittitur vita a Jac. Ph. Tomasino conscripta cum notit. lit. Acc. index.* Bip. 1784–86 or 1806. large 8°. 13 vols. (14 d.)

Drakenborch's text collated with the earlier editions. The *notit. lit.* is here, as also in all the other editions of Livy, not sufficiently characteristic.

12117 — *Historiar. libri qui supersunt omnes, ex rec. Drakenborchii* (ed. H. Homer). Lond., Richie, 1794. 8°. 8 vols. On vellum paper.

Correct, and with a good index. Scarce on large paper (6l. 6s.).

12118 — *opera omnia, animadvv. illustrav. F. And. Stroth, rec. et suas obsa. adpersit F. Gu. Döring.* Gothæ, Ettinger, 1796–1813. 8°. 6 voll. (8 d. 8 gr.)

12119 — *historiar. quæ supers. ex rec. Drakenborchii, cum Ernesti glossario Liv. Ox., typ. Clarend., 1800 or 13. 12°. 6 vols. (2l. 2s.)* Also on large paper.

Neat. To both may be joined, *C. Sigonii Fasti consulares.* Ox. 1801. 12°. (6s., on large paper 8s.)

12120 — *historiar. libri qui supers. omnes, ex rec. Drakenborchii, cum ind. rer. locupletiss. Acc. præter varietat. lectt. Gronovianæ et Crevier. glossarium Livianum, curante A. Gu. Ernesti (et Gf. H. Schæfero).* Lps., Weidmann, 1801–4. 8°. 5 voll. (6 d. 8 gr., on writing paper 10 d., 20 gr., on Dutch paper 12 d. 4 gr.)

12121 — *libri qui supers. omnes, procemio, breviarii libror., ind. rer., tabulis chronol. et hist. et commentario illustrati a G. Alex. Ruperti.*

Gött., Dieterich, 1807–9. 8°. 6 voll. (9 d. 20 gr.)

Hal. 1802–3. 8°. 5 vols. (1 d. 16 gr.) is an unpretending but correct small edition.

12122 — *Livii liber XXXIII. præcipua parte, quæ desiderabatur, expletus ex cod. MS. Edid. Csp. Lusignanus.* Romæ, Zannettus, 1616. 8°.

The first edition of the first 17 chapters of this book from a Bamberg MS. In some copies lib. XLIII. incorrectly stands in the title. Also, *Ven., Ciotti*, 1616. 8°. *Par.* 1616. 8°. *cum notis (J. Horronis).* Puderborn. 1617. 8°.

12123 — *historiar. libri XCI. fragmentum ἀνεκδοτον descriptum et recognitum a Vito Mar. Giovenazzi et P. Jac. Bruns ex schedis vetustiss. bibl. Vatic. Ejusd. Giovenazzi in idem fragm. scholia. 12126 — *las decadas de Tito Livio, romanizadas o traduc. en lengua Castellana por Pt. Lopez de Ayala.* Salamanca, 1497. fol.

12127 — *las quatorze decadas, trasladadas agora nueuamente de latin in nuestra lengua Castellana (por Pt. de la Vega). La primera, tercera*

y quarta enteras segun en latin se hallan; y las otras onze segun la abreviation de L. Floro. Zaragoza, G. Coci, 24 Mayo 1520. fol. with woodcuts.

Also, *Col. Agrippina, Birkmann, 1553. fol.*—Concerning the cheat of the abbé Vella at Palermo with respect to the rediscovered Arabic translation of the lost books of Livy, see (*Jos. Hager*) *Reise von Warschau über Wien. Bresl. u. Lps. 1795. 8°.* p. 195 etc. *Heeren Gesch. des Stud. der class. Lit. I. 129* not vindicated the possibility at least of an Arabic translation.

- 12128 — *Historie di Tito Livio fedelmente interpretate et con somma diligentia di latino in materna lingua traducte.* Roma, appresso al Palatio di S. Marco, 30 Maggio 1476. fol. 3 parts in 1 vol.

The first edition of this translation, already extant in 1448, and cited by the academy della Crusca from the MS., and of which Ruggeri de' Ferrari da Trezzo was only the copyist, not the author. *Paitoni, II. 210*, seems not disinclined to ascribe it to Buccaccio; consult *Massarelli Scritt. d'It. T. II. P. III. p. 1366*. Concerning a very good MS., see *Farsetti Bibl. Manoscritta II. 113* etc. According to Audiffredi the printer was Sim. de Lucca or Vitus Pücher, according to Laire, U. Gallus. Incomplete copies of this edition have been sometimes erroneously taken for a Florentine typographical production.

12189 — — Without place or date (*Arg., Eggestejn*). large fol. Gothic letter.

265 leaves in 2 columns with 42 lines, without signatures, catchwords, and pagination. *Denis Garell. Bibl.* describes a copy with the MS. date 1471. A small edition, *Antw.* 1657. 4°.

12195 — bibliotheca sacra, post Jac. le Long et Ch. F. Börneri iteratas curas ordine disposita, emendata, suppleta, continuata ab And. Gli. Masch. Hal., Gebauer, 1778—90. large 4°. 2 parts in 5 vols. (11 d., 16 gr.)

Unfinished. It contains the original editions, and the Oriental, Greek, and Latin translations of the Bible, and is concluded with a chronological index from 1457 to 1783. This edition is quite a new work, and very carefully done, but often too diffuse, and not perspicuously enough arranged.

12196 — bibliothèque historique de la France, contenant le catalogue des ouvrages imprimés et manuscrits, qui traitent de l'histoire de ce royaume. Nouv. édit. augm. par Févret de Fontette, (L. Th.

Hérissant, Rondet *etc.*) Par. 1768—78. fol. 5 voll. Also on large paper.

An excellent and indispensable work; it is a pity it is not more conveniently arranged. There are said to be only 2 copies on large Dutch paper (sold in 1786 for 480 fr., in 1791 for 230 fr., in 1804 for 216 fr.) The first edition, *Par.* 1719. fol. 2 vols. is at a very low price.

12197 LONG, J. Voyage and travels of an Indian interpreter, describing the manners and customs of the North American Indians, in which is added a vocabulary of the Chippeway language. Lond. 1791. large 4°. with plates.

12198 LONG, Is. le. Boekzaal der nederduytsche Bybels. Amst. 1723 (only a new title, *Hoorn*, 1764). 4°.

12199 LONG, Roger. Astronomy in 5 books. Chr. 1742, 64, and 84. 4°. 3 vols. with plates.

12200 LONGDIT. L'histoire merveilleuse du grand empereur de Tartarie, nommé le grand-can (trad. du lat. de Mr. Aytone, Sgr. de Courcy, par J. de Longdit). Par., J. Saint-Denys, 1529. fol. Gothic letter with woodcuts, and 82 leaves.

Sold dearly very recently (67 and 70 fr. in Paris, 22l. Roxburgh sale, 15 guineas duke of Marlborough's sale). The book is either a new impression, or indeed an abridgment of the history of the east written in French by N. de Salcon, from accounts of Haithon de Courcy, which appeared under the title, *Les fleurs des histoires de la terre d'Orient, compilées par Heycon, Sgr. du Cort.* *Par.*, Junot, without date. 4°. Gothic letter. Salcon himself translated his work in August 1397 into Latin, and the 1st edition is, *Liber historiar. partium orientis, Haythone auctore* (ed. Menrad. Moltherus). *Hagenovæ, Secerius*, 1529. 4°. Also in the *Novus orbis. Bas.* 1555. fol., and in *Marc. Paulus ed. And. Müller. Col., Brandenburg.* 1671. 4°. Translated anew into French according to this last edition, *Récueil des voyages en Asie. T. II. Hays*, 1735. 4°.

12201 LONGINUS, Dion. *Liber de grandi s. de sublimi orationis ge-*

nere. Nunc prim. a Fr. Robortello in luc. editus, ejusdemque annotationib. lat. in margine appositis illustratus (gr.) Bas., J. Oporinus, without date (1554). 4°.

The first edition, and probably made from the Paris codex (see concerning it, *Notices et extraits*, T. VII. P. II. p. 101 etc.), not from the Ambrosian, with the correction of the evident errors.

12202 — de sublimi genere dicendi. In quo cum alia multa præclare sunt emendata, tum veterum poetar. versus notati atque distincti. Ven., P. Manut., 1555. 4°.

23 leaves, and 1 leaf, anchor. From a MS. of St. Mark's library, formerly belonging to Bessarion. Very scarce; but Manutius allowed himself the most arbitrary alterations, and destroyed the true readings by altering the passages of other authors quoted by Longinus from memory according to the editions of those authors. There is a copy in the Royal library at Dresden collated with the Ambrosian codex by Marq. Gudius. Fr. Portus gave chiefly the text of Manutius with some alterations from MSS., and with divisions of chapters, see APHTHONIUS, No. 780.

12203 — — gr. et lat. cum notis Gbr. de Petra. Genevæ, J. Tornæsius, 1612. 8°.

The text of Portus with the addition of a Latin translation.

12204 — liber de grandiloquentia s. sublimi dicendi genere (gr.) lat. redditus, ὑποθεσεὶ συνοπτικαῖς et ad oram notationib. aliquot illustratus. Edendum curav. et notar. insuper auctarium adjunxit G. L. (Ger. Langbaine). Ox. 1636, or 38, or 50. 8°.

An impression of de Petra's edition, with the addition of some notes. Langbaine made use of a MS. (pretended to be written by H. Stephens), from which he gives some things in the notes under the name of Stephens; yet consult Weiske's edition, p. L.

12205 — de sublimi genere dicendi libellus, nunc ultimo accurata ac triplici in latinum expositione (Gbr. de Petra, Dm. Pizimentii et Pt. Pagani) emissus et luculenta prælectione illustratus cura ac diligentia C. Manolesii. Bonon. 1644. 4°.

Only a reprint of the edition of Gbr. de

Petra, with the addition of 2 other translations. Paganus's translation the first time, Ven. 1572. 4°.

12206 — de sublimi libellus, gr. lat. Cum notis, emendatt. et præf. Tannaq. Fabri. Salmurii, 1663. 8°.

The text of Portus with Petra's translation and valuable short notes by the editor, and Greek contents of the chapters.

12207 — de sublimitate commentarius ceteraque, quæ reperiri potuere (gr.). Jac. Tollius e 5 codd. MSS. emendav., et Robortelli, Porti, Petrae, Langbæni et Fabri notis integris suas subjecit, novamque versionem suam lat. et gallicam Boilavii cum ejusd. ac Dacierii suisque notis gallicis addidit. Traj. ad Rh., Halma, 1694. 4°.

A new recension from the Venetian and 3 Vatican MSS., a MS. of Ia. Vossius, and from conjecture. The translation is paraphrastic. Tollius also collected the fragments for the first time. In addition, H. Lh. Schurzleischii progr., Longinus ad fid. codd. a Tollio omissor. recensitus notisque e schedis Cr. Sm. Schurzleischii auctus. Witt. 1711. 4°. The notes of Tollius at first by themselves, LB. 1677. 12°.

12208 — de sublimitate libellus (gr. lat.), cum præf. de vita et scriptis Longini, notis, indd. et variis lectt. (ed. J. Hudson). Ox., th. Sheld., 1710. 8°. Also on large paper.

The text of Tollius with his translation corrected, and a good selection of what is best in his edition. The fragments are enlarged, and various readings from a Cambridge MS. and an index are added. Very scarce on large paper (80 fr. M'Carthy).

12209 — (the same title). Ox., th. Sheld., 1718. (also on large paper) or 30. 8°.

Enlarged with additions from Boivin's and Schurzleisch's notes, and also corrected in the text. Edinb. 1733. 12°. has its text (gr. lat.).

12210 — de sublimitate commentarius (gr.), quem nova vers. donavit, perpetuis notis illustrav. plurimisque in locis emendav. (additis etiam fragmentis) Z. Pearce. Lond. 1724. large 4°.

A new recension from MSS. and the editio princeps, with a new translation (in

bad Latin) and his own notes. The accurate specification of the various readings is Pearce's greatest merit.

- 12211 — (the same title). Lond., Tonson et Watts, 1732. 8°. Also on large paper.

A new revision of the text with an enlargement of the notes. Repeated, Lond. 1743, 52, 62, or 73. 8°. The text (gr. lat.) after it in the edition, *Glasg., Foulis*, 1751. 8°. *ib.*, *id.*, 1763. 8°. or on large paper in 4°.

- 12212 — (the same title). Ed. III. Acc. Fr. Porti in Longinum commentarius integer, nunc prim. editus. Amst. 1733. 8°.

An impression of Pearce's edition of 1724 with an appendix of the corrections and additions of the edition of 1732 (which appeared whilst this was printing), and of the unprinted commentary of Portus, which Toup erroneously indeed would attribute to P. Manutius; see Weiske's edition, p. XXXVIII.

- 12213 — de sublimi libellus græce conscriptus, latino, italico et gallico sermone redditus, additis adnotationib. Veronæ, Tumermani, 1733. 4°. Also on large paper.

A reprint of Hudson's edition of 1710 with corrections of the Latin translation, and the annexation of the Italian translation by Ant. Fr. Gori, and of the French by Boileau. Not quite correctly printed.

- 12214 — de sublimitate (gr.) ex rec. Z. Percii. Animadvv. interpretum excerptis, suas et novam vers. adjec. Sm. F. Nath. Morus. Lps., Weidmann, 1769. 8°. — Mori libellus animadversionum ad Longin. ib. 1773. 8°. Also on writing paper.

The notes, partly critical, are short, but valuable, and the translation is very successful.—*Græce, adjecta vers. gall. cura N. Lancelot. Ratisb.* 1775. 8°.

- 12215 — quæ supersunt, gr. et lat. Rec., notasque suas atque animadvv. adjecit J. Toupus. Acc. emendatt. D. Ruhnkenii. Ox., typ. Clarend., 1778, or 89, or 1806. 8°. (8s. 6d., on large paper 14s.)

A new, but insufficient recension from MSS. (which the editor appears not to have used carefully enough) and the more ancient editions. The first edition, Ox. 1778. large 4° is very incorrect. Renouard possesses a copy of it with notes in Brunck's handwriting.

- 12216 — Διονυσίου Λογγίνου περί

ὑψους. Parmæ, Bodoni, 1793. Dion. Longinus de sublimitate (lat.) *ib.*, *id.*, 1793. fol.

Only 115 copies of this fine edition are said to have been printed, 15 of which are on vellum paper, and 15 on fine paper. In the same year Bodoni also printed an edition in 4°. In most of the copies of both editions Bodoni's preface, of 28 pages, to Pius VI. is wanting, which has been left out of the copies in store on account of its invectives against the French for their invasion of the pope in Italy.

- 12217 — de sublimitate, gr. et lat. Denuo rec. et animadversionib. viror. doctor. aliisque subsidiis instruxit Bj. Weiske. Lps., Weigel, 1809. large 8°. (4 d., on writing paper 5 d.) Also on vellum paper.

A new recension from MSS. with the Latin translation of Morus. Toup's commentary is corrected, and enlarged with the inedited notes of Weiske and others.

- 12218 — tratado do sublime traduz. da lingua grega na portuguesa e illustrado com notas por Custodio José de Oliveira. Lisb. 1771. 8°. — Longino sobre el sublime, por M. Perez Valderrabano. Madr. 1770. 8°. — Dell' altezza del dire, trad. da N. Pinelli. Padova, 1639. 4°. Trattato del sublime, trad. da Ant. Fr. Gori. Fir. 1737. 8°. The last time, *ib.* 1816. 12°. (2½ paoli). — Traité du sublime ou du merveilleux dans le discours, trad. par M. D * * * (Boileau, av. le texte gr.) Par. 1694. 12°. — Vom Erhabenen, gr. u. deutsch von C. H. Heineken. The last time, *ib.* 1806. 8°. (Earlier translations by J. Hall. Lond. 1652. 8°. by J. P. G. S. *ib.* 1680. 12°. by Ln. Welsted. *ib.* 1712. 8°). — Verhandelning over de Verhevenheit en Deftigheid des styls. In het Nederduitsch vertaelt door P. le Clercq. Amst. 1719. 8°.

LONGINUS, see *DLUGOSSUS*.

12219 LONGOLIUS, Cp. *Perduelionis rei defensiones duæ*. Ven., Ald., et And. socer, without date (about 1518). 8°. 60 leaves. Also on strong paper.—Oratt. II pro defensione sua. Or. una ad Luterianos. Epistolar. II. IV. Epistolar. Bembi et Sadoleti lib. I. Longolii vita. Flor., her. Ph. Juntæ, 1524. 4°. 163 leaves. Also, Lugd., Sb. Gryph., 1542. 8°. and often.

In this collection of his works his suppressed *Or. de laudibus d. Ludovici, Francor. regis*. Par., H. Steph., 1510. 4°. (also in *Du Chesne Hist. Franc. script.* V. 500 etc.) is wanting.

LONGUE, see *PRINCESSSES*.

12220 LONGUERUE, L. Dufour de. *Description hist. et géogr. de la France ancienne et moderne*. Par. 1719. fol. 2 parts in 1 vol. with 9 maps by d'Anville.

This inaccurate work, and only written down from memory, was suppressed by the government immediately on its appearance, and could only again be sold after that it had been provided with cancels and a new title (without the author's name), without place, 1722. fol. Of this last edition there are 3 copies on large paper. Only copies of the first edition are still of any value.

12221 — *annales Arsacidar.* Arg. 1732. 4°. *Dissertatt. de variis epochis et anni forma veterum orientalium etc.* Ex manuscriptis eruit J. Dt. Winckler. Lps. 1750. 4°.

12222 — *Longueruana* (publ. par Desmarests). Berl. (Par.) 1754. 12°. 2 voll. Also, Par. 1773. 12°. 3 voll.

Consult *Fréron Années lit.* 1756. T. IV. p. 332-40. In the first edition of this very interesting collection several passages were forced to be suppressed, yet there are copies in which these omissions are given entire.

12223 LONGUEVAL, Jac. *Histoire de l'église Gallicane* (depuis 150-1559), contin. par Pt. Cl. Fontenay, Pt. Brumoy et Gu. Fr. Berthier. Par. 1730-49. 4°. 18 voll. Also, Nismes, 1782. 8°. or 12°. 18 voll.

12224 LONGUS. *Pastoralium de*

Daphnide et Chloe libri IV (gr.) ex bibl. Aloysii Alamanni (ed. Rph. Colombanus). Flor., Ph. Juntæ, 1598. 4°.

4 leaves of preliminary matter, 98 pages, and 1 leaf. The first edition, with the chief various readings from 3 other MSS. There is an incorrect impression of this text without the various readings, but with the Latin paraphrase of Lr. Gamba in the *Achill. Tatius, ex off. Commel.* 1601. 8°.

12225 — *de Daphnide et Chloe* II. IV. Gf. Jungermanus rec., in lat. serm. vertit et notas addidit. Hanoviæ, typis Wechel., 1605. 8°.

An incorrect impression of the edition of 1601, with a new Latin translation (not very elegant). But his notes, chiefly critical, are valuable, and his conjectures are often very happy.

12226 — *pastoralium de Daphnide et Chloe* II. IV. Pt. Moll rec., in lat. serm. vertit, notis et animadversionib. illustrav. Franekeræ, 1660. 4°.

An incorrect impression of the text of the Juntine edition, with the reception of some of its various readings into the text. What there is good in it is purloined from Colombanus and Jungermann (whom he does not mention), what is his own is of no value.

12227 — *pastoralium de Daphnide et Chloe* II. IV. gr. et lat. Editio nova, una cum emendationibus uncis inclusis (cura J. St. Bernardi). Lut. Par., in gratiam curiosor. (*Amst., Neaulme*), 1754. 4°. with plates.

Of this fine edition with 29 plates (engraved herein for the third time) by Audran, and with vignettes by Fokke (after designs by Eisen and Cochin), only 125 copies came into the market. The original price was 25 Dutch florins, and 50 on large paper. It is indeed only a faithful impression of the faulty text of Moll, but maintains its value, on account of the shrewd conjectures of the editor which are inserted.

12228 — *πομπικων των κατα Δαφνιν και Χλοην λογοι τετταρες* (gr.) Recens. L. Dutens. Par., Didot, 1776. 12°.

With various readings from earlier editions, and from Paris MSS. Only 200 copies printed. Renouard possesses the only copy on large paper.

12229 — *pastoralium de Daphnide et Chloe* ll. IV. Curav., varietat. lect. ac notas Columbani, Jungermanni, Mollii et suas cum Lr. Gambaræ expositis addid. Bj. Gli. Lr. Boden. Lps., Junius, 1777. 8°. (1 d. 12 gr.) On writing paper and Dutch paper.

Only an amalgamation of earlier editions.

12230 — *pastoralium de Daphnide et Chloe* ll. IV (gr. lat.) ex rec. et cum animadvv. J. Bt. Csp. de Villoison. Par., Didot, 1778. 8°. 2 parts in 1 vol.

A new recension from 3 MSS. and the earlier editions with excellent explanations. It is a pity that Villoison at the advice of Dacier and Le Blond shortened his commentary, originally half as long again. Consult *Chardon Mélanges*, III. 24 etc. There are also copies on Dutch paper.

12231 — *ποιμενικῶν τῶν κατὰ Δαφνὺν καὶ Χλόην βιβλίοι τετταρες* (gr.). Cum (P. Mar. Paciaudi) proloquio de libris eroticis antiquor. Parmæ, ex regio typographico (Bodoni), 1786. large 4°. LXXIII and 164 pages.

The preface is by J. Bn. de Rossi in Bodoni's name. The impression was large, as besides the usual copies on white paper, there were also 150 on (bad) bluish paper, 10 on *pap. double*, and 10 on vellum paper. Villoison's text. Bodoni furnished a reprint of this edition, at a later period, with the same date, but less fine.

12232 — *pastoralium de Daphnide et Chloe* ll. IV gr. et lat. Textum recognov. selectamque lectionis varietatem adjec. Ch. Gu. Mitscherlich. Biponti, 1794. 8°.

Villoison's text and translation with some alterations. It is the 3rd vol. of the *Scriptor. Erot. Gr.*

12233 — *ποιμενικῶν τὰ κατὰ Δαφνὺν καὶ Χλόην* (gr., rec. Diam. Coray). Par., Pt. Didot, an XI (1802). large 4°. with 9 plates (120 fr.).

Villoison's text corrected from conjecture. These corrections are given in *Chardon Mélanges*, II. 102 etc. 27 copies on vellum paper in large fol. Also 2 copies on vellum, one in 4°. and the other in folio with the original designs. This last was sold at Junot's sale in London in 1806 for 73l. 10s., and shortly after for 37l. 16s.

12234 — *pastoralia*, gr. lat. Cum proloquio Paciaudii de libris eroticis antiquor. Græca recens., notasque crit. adjec. Gf. H. Schäfer. Lps., Sommer, 1803. 12°. (2 d.) Also on vellum paper.

12235 — *ποιμενικῶν λόγοι τετταρες* (gr., edid. Courier). 'Εν 'Ρώμῃ, παρὰ Διὶ τῷ Κατεδιδιώτῃ, γαβί (1810). 8°. 192 pages.

There are only 52 copies, numbered on the title, printed. After a Florence and Vatican MS. with important critical notes. P. 189-192, which were delivered afterwards, are sometimes wanting. An hiatus of the 1st book is now for the first time completed from the first MS. This completion appeared at first very incorrectly under the title, *Λογγοὶ ποιμενικῶν ἀποσπασμάτων μέχρι νῦν ἀνεκδοτῶν* (cum vers. lat. Hi. Amati). 'Εν 'Ρώμῃ, 1810. 8°. 7 leaves.

It is known that the leaf, which contains the fragment, was overflowed with ink (that it happened by shameful design, is too probable), and quite destroyed by subsequent incautious chemical attempts at cleaning it. The fragment is reprinted after the first and only edition with Chardon's notes in *Chardon Mélanges*, II. 107 etc. Also in the *Classical Journ.* VII. 403 etc. *Supplementum Longi pastoral. ex cod. Flor. nuper vulgatum, nunc diligentius editum ab H. C. Abr. Eichstadio. Jen.* 1811. fol. With Eichst. and Beck's notes in *Beckii Acta semin. philol.* II. 187-204. *J. Thph. Kreyssig Obs. ad Longi fragm. in cod. Flor. repertum. Schneeborg,* 1813. 8°. 16 pages.

12236 — *Daphnis u. Chloe*, gr. u. deutsch durch Fr. Passow. Lps. 1811. 12°. (2 d., on vellum paper 2 d. 12 gr.)

12237 — *pastoralia Lesbica s. de amoribus Daphnidis et Chloes poemata, ex textu græco in latinum numeris heroicis deductum. Acc. metaphrasis (prosaica), auct. P. Petitrudel. Par.* 1809. 8°.

12238 — *gli amori innocenti di Dafne e della Clloe. Favola greca, descritta in Italiano da Gi. Bt. Manzini. Bol.* 1643. 4°.

Ciampi has proved that this translation is one and the same with that of Caro, and is either interpolated by a plagiarist or is an impression of his first sketch.

12239 — *gli amori pastorali di Dafni*

e Cloe, ora per la prima volta volgarizzati (da Gasp. Gozzi). Ven. 1766. 8°.

Also, *Par.*, *Pissot e Barrois*, 1781. 12° and in *Gozzi Opere*, T. XI.

- 12240 — gli amori pastorali di Dafni e di Cloe, trad. dalla lingua gr. nella nostra Toscana da Annib. Caro (con una prefaz. di Fr. Daniele). Crisopoli (*Parma*), Bodoni, 1786. large 4°.

Printed at the expense of the marquis de Brème, after a copy of the original MS. No more than 56 copies were printed, 2 on vellum paper, and only given away as presents: yet Bodoni seems to have struck off some copies besides on bluish paper on his own account. Two leaves ought to be met with after the title, containing a letter of the editor, and a letter of the printer. Both are addressed to the person to whom the copy was made a present.

Reprinted, with a new preface, *Lond.* (*Fir.*) 1786. 8°. With Daniele's preface, *Crisopoli (Parma)*, Bodoni, without date (1793). 8°. (only 250 copies). *Par.*, *Renouard*, 1800. 18°. (also in 12°) with plates, 2 copies of which are on vellum. An edition superintended by Sb. Ciampi, and enlarged with a translation of the recently discovered fragment, *Fir.*, *Molini*, 1811. 8°. (also on vellum paper in 4°) or, *Mil.* 1812. 8°. and after this edition in the *Raccolta degli Erot. Gr.*

- 12241 — les amours pastorales de Daphnis et de Chloé (trad. par Jac. Amyot). *Par.*, Sertenas, 1559. 8°.

The first edition of this translation, made from a very good Greek MS. which has since disappeared. Another translation by Pt. Marcassus, *Par.* 1626. 8°.

- 12242 — les amours past. de Daphn. et de Chloé (trad. par Amyot). Without place (*Par.*, *Quillau*), 1718. small 8°. 164 pages with 28 plates by Audran.

At the cost of the regent, Ph. de 'Orleans, by whom are the designs for the plates, and, as it is pretended, only 250 copies. This however is not probable, since the edition frequently occurs. The plates were ready in 1714, as the copy *avant la lettre*, in the Royal library at Paris, has this date. The 29th plate (containing a very intelligible meaning, and called *les petits pieds*) was only added afterwards, and is not to be found in the old copies. There are also copies on larger and whiter paper.

A reprint, without place, 1745. small 8°. (also in 4°) with the same plates retouched, of 159 pages and 20 pages of notes (by Lancelot), has a title-plate of 1718, and has sometimes been sold, after the removal of the printed title, for the true edition of 1718, from which it may be immediately distinguished by the pagination. Some copies of this reprint have instead of the regent's plates those of the following edition.

- 12243 — les amours past. de D. et Chl. trad. par Amyot (avec des notes d'Ant. Lancelot; édit. publ. par Camille Falconet). Without place (*Par.*, *Coustelier*), 1731. 12°. with plates.

The copies on vellum only are prized. The plates are different from those of the regent, and the same as those in *Par.* 1717. 12°. *Amst.* 1734. 12°.

- 12244 — les amours past. de D. et Ch., double traduction d'Amyot et d'un anonyme (le Camus). *Par.* 1757. small 4°. with plates. Also on large paper.

The plates are the same as in 12227.

- 12245 — les mêmes, traduct. nouv. (par de Bure de Saint-Fauxbin). *Par.*, Lamy, 1787. large 4°. 2 parts in 1 vol. On vellum paper with 29 plates.

12 copies on vellum with coloured plates (600 fr. at Paris, 1798, 390 fr. Lamy, 510 fr. M'Carthy). In other respects this translation, as well as that by Mulot, *Mithylène (Par.)*, 1783. 18°. or *Par.* an 6. 16°. with plates, is less prized than that by Amyot.

12319 LUCANUS, M. Annæus. Pharsalia, ex rec. J. Andræ, episc. Aleriensis. Romæ, Sweynheym et Pannartz, 1469. fol.

The first edition, and very scarce; only 275 copies were printed. 109 leaves (the first 2 contain a letter of the editor's and Lucan's life) with 38 lines, without sig-

natures, catchwords, and pagination. Leaf 1^a line 1 is: (h)Oc tempore pater beatissime Paule. II. ueneta. Leaf 3^a begins the text, which leaf 109^a ends. Leaf 109^b is *tabula hujus codicis* in 16 lines. From a not very excellent MS. and apparently not a faithful impression even of that, but corrected by the editor.

12320 — pharsalia. Without place or date (*Ven.*, Hailbrunn, not before 1470). fol.

The 2nd edition (not the 1st, as *Bibl. Pinell.* II. 339, would have it), and scarce. 106 leaves with 40 lines, without signatures, catchwords, and pagination. The first 4 leaves contain Lucan's life, etc. Leaf 5^a begins the text, and leaf 106^a ends with a colophon of 12 verses: *Cum genero inventis Cæsar* etc. Martyni-Laguna erroneously thinks it was printed by Jensen. A copy on vellum in *Bibl. Smith. Ven.* 1746. 8°. p. 40.

12321 — pharsalia. Without place or date (not before, 1473). fol.

With 36 lines, and the signatures *a-p*, without catchwords or numbering of the leaves. First 4 leaves of preliminary matter of the same contents as in the preceding. Leaf 5^a begins the text, and the first 7 verses of the poem are printed in capitals. The last page contains only 14 verses, and underneath, FINIS.

12322 — pharsalia. Halæ, 1472. 4°. Gothic letter.

The above date of what was Revinsky's copy, and is now Lord Spencer's, is decidedly false, and was added by some cheat. According to the description of it in *Bibl. Spenc.* II. 143, it is evident that it is no other than the edition, *cum præf. Pl. Bælici*, without place or date (*Lps. Mt. Herbipolens.*, about 1496. 4°.) Gothic letter, 218 leaves with 19 lines, and the signatures *A–NN* (*A 2* is put by mistake instead of *I 2*). The conjecture that 1472 is a typographical error instead of 1522 consequently falls of itself. As to the rest, the text of the Leipsic edition is only printed from that of *Bristle*, 1486.

12323 — pharsalia. Mediol., Ph. Lavagnia, 6 cal. Mart. 1477. fol.

12324 — pharsalia. (*Ven.*), per juvenem Guerinum, 1477. fol.

With the signatures *a-p*, and 35 lines. First 2 leaves (leaf 1^a blank) *Lucani vitæ*. Leaf 3^a begins the text. The colophon in 12 verses is on the reverse of the last leaf but one. It ends on the *folio recto* of the last leaf, with the passages of Martial and Tacitus respecting Lucan. The text is

probably from one of the two undated editions: it deviates from the Roman edition, and has many good readings of its own.

12325 — pharsalia. (*Mediol.*). Ant. Zarotus, 25 Maii, 1477. fol.

12326 — pharsalia. Lovanii, J. Veldener, without date. fol. Gothic letter.

With Andreas's letter; but it does not appear to be merely a reprint of the Roman edition. Corte thought it was printed before that of *Ven.* 1477; I would place it nearer to the year 1480.—*Panser*, III. 516, has (*Vincensia*), *J. de Rheno*, 11 *Maji*, 1482. 4°.

12327 — pharsalia. Parmæ, Deiphæbus de Oliveriis, 11 cal. Jun. 1483. fol.

With the signatures *a-o*, and 38 lines. The Roman edition seems to form the groundwork, from which however it frequently deviates.

12328 — pharsalia cum comm. Omniboni Leonicensi. *Ven.*, impress. a N. Battibove Alexandrino, 3 id. *Maji*, 1486. fol. 186 leaves.

The text from *Ven.* 1477, yet with good readings of its own. This edition gives the commentary of Leonicensus faithfully after the earlier edition of 1475 (see *LEONICENSUS*, No. 11873); but it is interpolated by J. Faberius and mutilated in *Britia*, *Jac. Britannicus*, 1486. fol. 175 leaves. *Mediol.*, *Scinsenseler*, 1491. fol. *Ven.*, *Bm. de Zanis*, 1492. fol. and in all the subsequent editions.

12329 — pharsalia cum comm. Omnib. Leonicensi et J. Sulpicii Verulani. *Ven.*, Sim. Bevilacqua, die ult. Jan. 1493. fol.

6 leaves of preliminary matter, and 214 unnumbered leaves, with the signatures *a-D*. The commentary of Sulpicius is indeed of no great value, but he handled the text in a critical manner for the first time, yet without MSS. Reprinted, *ib.*, *id.*, 1498. fol. 218 leaves. *Mediol.*, *Pachet*, 1499. fol. and often.

12330 — Lucanus. *Ven.*, Aldus, m. Apr. 1502. 8°.

140 (not 132) unnumbered leaves, with the signatures *A-S 2*. *Ven.* 1493. forms the groundwork, corrected from a MS.

12331 — Lucanus. Without place or date. (*Lugd.* about 1503). 8°.

A reprint of the Aldine, with Aldus's letter to Maurocenus.

12332 — Lucanus. Without place or date. (*Lugd.* about 1512). 8°.

Likewise a reprint of the Aldine, with

Aldus's letter. To be distinguished from the former by a red lily in the title.

12333 — Lucanus. Without place or date. (*Lugd.* 1503). 8°.

140 unnumbered leaves (the last blank), with the signatures *a-s 2*. Aldus's letter is wanting here; and this therefore is the edition of which Aldus speaks in his *Monitum* of the 16th of March, 1503 (*Renouard Annal.* II. 209), and the existence of which was only conjectured by Renouard in the Supplement, p. 86. *Arg.*, *Knoblouch*, 1520. 8°. is an incorrect reprint of it.

12334 — pharsalia, cum familiari atque perlucida annotatione Pt. de Ponte. Par., Gu. le Rouge, 1512. 8°. 386 leaves.

The text of Sulpicius. Very scarce, and without any intrinsic worth: for some time sought after in foreign countries on account of its singular type and the ornamented initials of every verse (90-139 fr. in Paris, 4 guineas in London).

12335 — pharsalia diligentissime per G. Versellanum recognita. Cum commentariis J. Sulpicii Verul., Ph. Beroaldi et Jod. Badii Ascensii. Par., Ascens., 1514. fol.

6 leaves of preliminary matter, and 261 numbered leaves. Containing the commentary of Beroaldus for the first time.

12336 — Lucanus. *Ven.*, Aldus et And. socer, m. Jul. 1515. 8°.

129 numbered and three unnumbered leaves. A reprint of the 1st Aldine (*Ven.*) *de Fontanelo*, 1520. fol. has woodcuts.

12337 — Lucani poema nuperrime impressum atque ad amussim castigatum. *Lugd.*, Gu. Huyon, 1521. 8°.

An incorrect reprint of the Aldine.

12338 — pharsalia. Par., Sim. Colinaeus, 1528 or 37. 8°. *ib.*, *id.*, 1543. 12°.

The text of Aldus, sometimes corrected by Mt. Bessardus. Neat, correct, and scarce.

12339. — de bello civ. libri X. Ejusd. vita. Ad vetustiss. scripta exemplaria emendati, quor. varias lectt. ad calcem rejecimus. Lutet., Rb. Steph., 1545. 8°.

Very neat. It has a mixed text with good various readings.

12340 — pharsaliæ libri X scholiis

per margines illustrati. His H. Glareani annotatt. accedunt. Bas., H. Petri, 1551. 8°.

332 pages, then the scholia of Glareanus (on 140 pages, with a separate title of 1550), which are valuable, and the edition is scarce.

- 12341 — de bello civ. libri X. Cum scholiis, integris quidem J. Sulpicii, certis autem locis etiam Omniboni, una cum annotatt. quibusd. Jac. Micylli. Ff., Egenolph, 1551. 4°.

16 leaves of preliminary matter and 283 numbered leaves. The notes of Micyllus are valuable, and the text also appears to have somewhat peculiar to it.

- 12342 — de bello civ. libri X. Thdr. Pulmanni opera emendati. Acc. ejusd. ad Pisonem poemation, Hadr. Junii beneficio auctori redditum et emendatum. Thdr. Pulmanni variari. lectt. libellus ex MSS. et vulgatis libris multo quam antea auctior. Rer. et verbor. index. Antw., Plantin., 1576. 12°.

A new recension from 8 MSS. The first time, *ib.*, *id.*, 1564. 12°.

- 12343 — pharsaliæ libri X. Cum Lamb. Hortensii explanatt., illustrati mendisque repurgati. Acc. J. Sulpicii commentarii. Bas., Henricpetri, 1578. fol.

28 leaves of preliminary matter, 1376 pages, and 1 leaf, colophon. The commentary of Hortensius is very learned. The text also has somewhat peculiar to itself.

- 12344 — de bello civ. vel pharsaliæ libri X, Gr. Bersmani studio et op. ex IV manu exaratis codd. emendati scholiisque illustrati. Lps. 1589. 8°.

- 12345 — pharsalia ex emendat. Hug. Grotii cum ejusd. ad loca insigniora notis. Acc. variari. lectt. libellus et rer. ac verbor. index op. Thdr. Pulmanni et alior. concinnatus. (LB.), ex off. Plant. Raphelengii, 1614. 8°.

A new recension from materials already printed. In the new edition, LB., Maire, 1626. 8°. he made use of 4 MSS. Oudendorp mentions also an edition of 1639, with insignificant additions. The edition, *ex emend. Hug. Grotii cum ejusd. notis. Amst., L. Elsevir*, 1651 or 57. 24°. and at the same time with Th. Farnaby's notes,

Amst., Blaeu, 1643 or 51. 12°. is mixed up of these three editions.

- 12346 — de bello civ., cum Grotii et Farnabii notis integris et varior. selectissimis, accur. Corn. Schrevelio. LB., Hack, 1669. 8°.

Belonging to the series *cum notis varior.* Previously, *ib.* 1658. 8°.

- 12347 — pharsalia (cura Mch. Maittaire). Lond., Tonson et Watts, 1719. 12°. Also on large paper.

The text is printed from the bad edition, *Lugd.* 1561. 8°. but various readings from 16 editions are appended.

- 12348 — pharsalia eidemque adscriptum carmen ad Pisonem. Gli. Cortius rec. et plurimis locis emendav. Lps. 1726. 8°.

A new recension from numerous MSS. and old editions. It was meant to be the precursor of a larger edition, which did not appear. The editor's MS. collections for it were afterwards in the possession of Martyni-Laguna, with whose library they were burnt in 1807. The same fire destroyed at the same time the entire apparatus which Martyni-Laguna had collected for an edition of his own.—The edition of Cortius reprinted, *Glasgwa*, 1751 and (incorrect) 85. 8°.

- 12349 — pharsalia s. belli civ. libri X. Cum scholiaste hucusque inedito et notis integris et excerptis varior., nec non Th. Maji supplementis, apologia Jac. Palmerii *etc.* Curante Fr. Oudendorpio, qui suas etiam adnotatt. et indd. adjec. LB., Luchtman, 1728. 4°. with 1 map. Also on large paper.

A new recension from 17 MSS. and from old editions, but the various readings are not sufficiently faithful and complete. Oudendorp has merit also for his explanations, and he edited the old scholiasts of Lucan for the first time.

- 12350 — pharsalia cum commentario Pt. Burmanni. LB. 1740. 4°. Also on large paper.

The chief merit of this edition is the critical apparatus of N. Heinsius from 23 MSS., for the first time printed. This and the preceding edition ought to be had together.

- 12351 — pharsalia. Lond., Brindley, 1750-51. 18°. 2 voll. Neat.

- 12352 — pharsalia, cum notis Hug. Grotii et Rch. Bentleji (edid. Rch.

Cumberland). Strawberry - Hill, 1760. large 4°.

Fine, very correct, and scarce, and of great critical value. Bentley completed the first three books only.

12353 — pharsalia, cum supplementis Th. Maji. Par., Barbou, 1767. 12°.

J. Goulin superintended this edition, whose name also appears in some copies.

12354 — pharsalia ex optimis exemplarib. emendata (curav. Ant. Agst. Renouard). Par., Didot., 1795. fol. on vellum paper.

Only 212 copies of this splendid edition were struck off (at 72 fr. apiece), 15 of which were on large paper; besides 5 copies on vellum (lord Spencer and the duke of Devonshire purchased their copies for 120l. each), and 3 on blue paper. The text is blended from a recension of several editions. There are said to be only two typographical errors in it. The *notitia lit.*, taken from the Bipont edition, and corrected by Renouard, might have been given much better by him. It is bibliographically inaccurate, and contains evident nonentities, such as the *Antwerp* (Leyden) edition of 1614, and the edition, *Ven., Jac. Junta* (who only printed at Lyons), 1537. 8°.

12355 — pharsalia ejusque ad Calpurnium Pison. poemation, præmissa notit. lit. Arg. 1807. large 8°. (1 d. 4 gr.) Previously, Bip. 1783. large 8°.

12356 — pharsalia, ad fid. edit. principum et codicum antiquor. Vindobonens. recensita ab Ang. Illycino (Ang. d'Elci). Vindob., Degen, 1811. very large 4°. on vellum paper, with 10 plates (12 ducats, with plates *avant la lettre* 15 ducats).

(Also with plates *avant et avec la lettre* and the leaves etched, 20 ducats). Although the editor made use of 2 MSS. and the old editions, and corrected the text from them, yet is his edition, like Renouard's, of no critical value, because he nowhere states where he alters, or from what source. A smaller impression, *ib., id.*, 1811. 8°. (12 gr., on writing paper 18 gr., on vellum paper 2 d. 16 gr.) is enlarged with some new readings, but is incorrect.

12357 — poema ad Calphurnium Pisonem. Curante Leodegario a Quercu. Par., ap. viduam Attaignant, 1558. 4°.

This poem is claimed for Salejus Bassus,

and printed in *Wernsdorffii Poet. Lat. min. T. IV.*

12358 — la historia, que escrivio en latin el poeta Lucano, trasladada en castellano por Mt. Lasso de Oropesa. Without place or date. fol. Lisb. 1541. fol. Anveres, 1585. 8°. Burgos, Ph. de Junta, 1588 (at the end, 1578). fol.

See also JAUREGUI, No. 10753.

12359 — Lucani pharsalia translata et edita in vulgari sermone metrico per L. Cardin. de Montichiello Luca Manzoli). Mediol., Cassanus de Mantegaziis, 7 Sept. 1492. 4°. with the signatures A-N, in 2 columns.

The first edition that is known. As the months January and February were then the last two of the year, *Romæ, Euchar. Silber*, 10 Jan. 1492. 4°. Gothic letter, with the signatures a-r, is only the second edition. Also, *Ven., Manfred. de Monferato*, 4 Aug. 1495. 4°. It is a life of Julius Cæsar in 10 books in *ottave rime*, which can at most be called only an imitation, and by no means a translation, of Lucan. — Concerning a MS. of an Italian translation of Lucan in prose, see *Morelli Codici volg. Naniani*, p. 71. It was done by some unknown person (whether it were Zuccherio Benicivenni is very uncertain) at the commencement of the 14th century, not from the Latin, but, as it appears, from the provençal dialect, and is cited from a MS. by the academy della Crusca.

12360 — Lucano delle guerre civili, di Giul. Morigi. Ravenna, Tebaldini, 1587. 4°. Farsaglia trasportata in lingua Tosc. in verso sciolto da Alb. Campani. Ven., Sarzina, 1640. 12°. La farsaglia trad. in versi ital. da Cp. Boccella. Pisa, 1804. 4°. 2 voll. (12 paoli, on large paper 20 paoli).

A new Italian translation by Cassi, 1820.

12361 — Lucan, Suétone et Saluste, en françois. Par., par Pt. le Rouge pour Ant. Vêrard, 22 Dec. 1490. large fol. Gothic letter, with woodcuts.

A very fine edition: 201 numbered leaves, 3 R 4

and 4 leaves, table. Of the edition, *Par., Vêrard*, 17 Sept. 1500. fol. there is a copy on vellum, 712 fr. M'Carthy. The work is no translation of these three authors.

12362 — *œuvres*, en lat. et en franç. (par Mch. de Marolles). *Par.* 1624, or 47, or 54. 8°. — *La Pharsale* en vers par Gu. de Brébeuf. *Leyde*, J. Elzevier, 1658. 12°. (greatly sought after). *Haye*, 1683. 12°. with plates; (with Latin text), *Par.* 1796. 8°. 2 vols. with plates (also on large vellum paper, and 3 copies on blue paper). — *La guerre civ. trad. par Philib. Quartier.* *Par.* 1688. 8°. — *La Pharsale trad. par Pt. Touss. Masson.* *Par.* 1766. 12°. 2 voll. — *La Pharsale trad. par J. Fr. Marmontel.* *Par.* 1766. 8°. 2 vols. with plates. With the translation of *Petronius De bello civ.* and of the supplement by Th. May. The *argumenta* of J. Sulpicius are here attributed to Sulpicius Severus!

12369 LUCAS, Fr. S. Biblior. vulgatæ edit. concordantiæ. *Col. Agr., Bths. ab Egmond*, 1684. large 8°.

A neat edition, and sought after. The most complete is, *Avenione*, 1786. 4°. 2 vols.

12370 LUCAS, P. Voyage dans la Grèce, l'Asie mineure, la Macedoine et l'Afrique (publ. par Baudelot Dairval). LUCE, see TRISTAN.

12371 LUCENA. Repeticion de amores: e arte de Axedres con CL juegos de partido. Without place or date (about 1495). 4°. Gothic letter.

Very scarce. Described in *Santander Diction. bibliogr.* III. 122.

LUCERNÆ, see PASSERI.

12372 LUCIANUS. Λουκιανου Ζαμοσατιες διαλογοι (opera, gr.). Flor. (without the printer's name), 1496. fol.

The first edition, fine, and very scarce. 262 leaves with the signatures A, B, a–z, and aa–kk, and 42 lines. Leaf κκ 6a is a Greek colophon. Leaf κκ 7b is a table of contents, and the last word and line is ΤΕΛΟΣ. Then one blank leaf. Of the signatures, γγ and κκ (each of 8 leaves) are often wanting. That the production does not belong to the Juntine press is certain; the types have more resemblance to those of Calliergus at Venice. Although not quite correct, yet does this edition contain so many traces of old and genuine readings, that it may be considered equal to a MS. A copy with miniatures in the Bibl. Riccardi at Florence; a second copy on vellum in the library at Blenheim in England, according to Dibdin.

There are copies to which the Juntine Philostratus of 1517 (54 leaves with the signatures a–g) is appended, and on this account a Greek and Latin general title is prefixed; *Quæ hoc volumine continentur. Luciani opera. Icones Philostrati* etc. Giunta had very probably still some copies of Lucian in the warehouse, and appended Philostratus to them, because Aldus had printed an edition of Lucian, enlarged with Philostratus, in 1503, in order to procure the same sale for his own Lucian. This

was the case, however, with only so many copies of Philostratus, as there were then copies of Lucian in the warehouse; the rest of the impression of Philostratus was sold by itself, and with a separate title.—Dibdin has of himself retracted (in the *Decam.* III. 452) what he previously maintained (*Bibl. Spens.* II. 146), viz. that this general title originally belonged to an edition of 1496.

12373 — opera. Icones Philostrati. Ejusd. heroica. Ejusd. vitæ Sophistar. Icones junioris Philostrati. Descriptiones Callistrati (gr.). Ven., Aldus, m. Jun. 1503. fol.

571 pages, and 1 leaf, table of contents. At the end of the first half, or the Lucian, is a colophon of Febr. 1503. A fine, but very incorrect, edition.

12374 — dialogi et alia multa opera. Imagines Philostrati. Ejusd. heroica. Ejusd. vitæ Sophistar. Imagines junioris Philostrati. Descriptiones Callistrati (gr.). Ven., Aldus et And. socer, m. Oct. 1522. fol.

5 leaves of preliminary matter (title, index, and a half-title, on the reverse of which is a preface by Fr. Asulanus), 571 pages, and 1 leaf (the register, colophon, and anchor). Less fine than the preceding edition, but far more correct, and printed from a copy of the preceding, with MS. corrections by Aldus. Its text forms the groundwork of most of the subsequent editions, and has supplanted the often better text of the *editio princeps*. Many copies of this and of the preceding edition are castrated by the Congregation of the Index Expurgatorius, which tore out the pages 385–92 and 435–440, in order to destroy two passages, p. 386 and 436. Such copies are of no value.

12375 — Luciani Pars I. II. (gr.) Haganosæ, J. Secerius, 1526. 8°. 2 voll.

12376 — Luciani Pars I. II. (gr.) Haganosæ, Pt. Brubach, 1535. 8°. 2 voll.

12377 — opera (gr., ed. Ant. Francinus). Ven., Luc. Ant. Junta, 1535. 8°. 2 voll.

Very correct, and containing a good text, but sometimes altered by Francinus from conjecture (*Luc. Reitsii*, T. I. p. 356). It approaches more to the *editio princeps*, and is not noticed in *Bandini Annal. Junæ*.

12378 — opera (gr., cum præf. J. Ribitti). Bas., Isingrin, 1545. 8°. 2 voll.

- 12379 — opera (gr.). Ff. 1546. 8°. 2 voll.

Incorrect, and containing little that is peculiar. Is the edition, *Ven., Sabio*, 1550. 8°. 2 vols. certain?

- 12380 — opera, quæ græce extant, omnia. Omnia multo quam antea ex diversor. codd. collatione tum doctiss. hominum recognitione castigatiora (cum præf. Ribitti). Bas., Jac. Parvus, 1555. 8°. 2 voll.

An incorrect reprint of 1545, yet has it some readings of its own: consult *Reitz*, T. I. præf. p. 3.

- 12381 — opera omnia gr. et lat. Una cum Gilb. Cognati et J. Sambuci annotatt. Bas., H. Petri, 1563. 8°. 4 voll.

The notes of Sambucus contain nothing. Repeated, *Bas.* 1619. 8°. 4 voll.

- 12382 — opera omnia quæ extant (gr.) cum lat. interpr. J. Bourdelotius cum regiis codd. aliisque MSS. contulit, emendav., supplevit. Adjectæ sunt ejusd. Bourdelotii, Thdr. Marcilii, Gilb. Cognati notæ. Cum ind. Lut. Par., Bertault, 1615. fol. Also on large paper.

14 leaves of preliminary matter, 1158 pages, 5 leaves (*epigr. Luc.*), 4 leaves and 52 pages (notes), 20 leaves (index), and 1 leaf (*Privilegium*). The then very young Bourdelot asserted that he had corrected the text from the Paris MSS. (which Tanaq. Faber clearly proves to be an untruth) and from the *editio princeps*. His annotations are not altogether without merit, and the edition has still some value.

- 12383 — opera omnia (gr. lat.) J. Benedictus ex antiquis libris locorumque sensu emendavit, lat. versionem ita recognovit, ut maxima ex parte propriam fecerit. Ed. puriss. cum ind. locupletiss. Salmurii, Pieded, 1619. 8°. 2 voll.

Very accurately printed, and with some happy corrections; yet Benedictus has not pointed out what he has corrected from MSS. or from conjecture. He also corrected the earlier translation.

- 12384 — opera (gr. lat.). Ex vers. J. Benedicti. Cum notis integris et selectis varior. Acc. inedita scholia in Lucianum ex bibl. Is.

- Vossii (curav. J. Clericus). Amst., Blaeu, 1687. 8°. 2 voll.

A neat impression of the text and translation of the preceding edition, but most incorrect, particularly in the notes and scholia. Yet the notes and scholia alone give it a value. One of the rarer editions *cum notis varior.* At the end of the first book there ought to be 4 leaves and 46 pages of scholia, and at the end of the second book 55 pages, which are sometimes wanting.

- 12385 — opera (gr. lat.) cum nova vers. Tib. Hemsterhusii et J. Mthi. Gesneri, græcis scholiis ac notis omnium proximæ edit. commentatorum et additis alior. Cura Tib. Hemsterhusii et J. F. Reitzii. Amst., Wetstein, 1743. 3 voll. (T. IV. s.) index verbor. ac phrasium Luciani s. lexicon Lucianæum, ad edit. omnes concinnatum a C. Cr. Reitzio. ib. 1746. 4°. All together 4 vols. Also on large paper.

A new recension from MSS. and the earlier editions, which however still leaves much to be wished for: consult *Valckenær in diatr. Euripid.* p. 288 sq. Copies without the 4th vol. lose much of their value, as the index is very hard to obtain by itself.

- 12386 — opp. gr. lat. cum notis selectis cura J. Pt. Schmidt. Mitav. 1776–1800. small 8°. 8 vols. (11 d. 8 gr.)

The text of the preceding, with a selection of its notes.

- 12387 — opp. gr. lat. ad edit. Hemsterhusii et Reitzii accurate expressa cum varietate lect. et annotatt. Bi. ponti, 1789–91. large 8°. 10 vols. (18 d.) Also on Dutch paper.

A good and complete impression of Reitz's edition, yet only an index is given instead of his lexicon. In T. X. p. 123 sq. various readings from Paris MSS. are added.

- 12388 — opp. omnia (gr.) maxime ex fide codd. Paris. recensita, ed. F. Schmieder. Hal., Gebauer, 1800–1. large 8°. 2 vols. (6 d.)

Containing his collected works, with the scholiast and the various readings of the 3rd Paris edition and a Götting MS.

- 12389 — excerpta quædam ex Luciani opp., gr. et lat. per N. Kent. Cbr. 1730. 8°. Also on large paper.

Courier denies that this piece is by Lucian, and attributes it to Lucius; respecting whom, however, Wieland had already proved, in his translation of the *Luciad*, IV. 298, that he never existed. A good recension after the *editio princeps* and 6 MSS.

At first (ed. J. Tilius), *Par.* 1568. 8°. Also in *Gallandi Bibl. PP. VI.* 153-260.

12427 LUCILIUS, Caj. *Satyrarum quæ supersunt reliquæ.* Fr. Dousa collegit, disposuit et notas addidit. LB., Raphelengius, 1597. 4°.

The first edition. *Amst.* 1661. 4°. is only a new title.

12428 — *satyrarum quæ supersunt reliquæ.* Fr. Dousa collegit, disposuit et notas addid. Ed. II. auctior (op. fratrum Vulpiorum). Patav., Cominus, 1735. 8°.

One of the more rare typographical productions of Comino. Also printed along with *Censorinus Havercampi.* LB. 1743. 8°. p. 153 etc.; and observations thereto in *J. Sol. Semleri Lectt. Miscell. Faso. I. Nrb.* 1748. 8°. *Lucilii Fragm.* also in *Maittaire Corp. poet. Lat. III.* 1496 etc.; with Persius, Bip. 1785. 8°; and with Persius by Achaintre, *Par.* 1812. 8°. A new recension in *Cp. Jac. Ch. Reuvens Collectanea literaria s. conjecturae in Alitium etc.* LB. 1815. large 8°. See also SEVERUS.

12429 LUCRETIVUS Carus, Titus. *De rerum natura libri VI.* Brixiae, Th. Ferandus, without date (about 1473). fol.

The first edition, and extremely scarce, only 3 copies of which are known. 106 (not 104) leaves with 36 lines running all across the page, without signatures, catchwords, and pagination. Leaf 1^a line 1 is, *T. lucretii cari de rerū natura liber primus.* On the folio recto of the last leaf (the reverse is blank) is the colophon, TITI LVCRETII CARI FINIS etc.; and the last line of it is, THOMA FERANDO AVCTORE. Consult *Didin, Bibl. Spene. II.* 149-153. *H. C. Abr. Eichstadii Progr., principem Lucretii editionem Brixiensem exstare confirmatur.* Jen. 1808. fol. 1 sheet.

12430 — — Veronæ, P. Fridenberger, die 28 Sept. Calen. Octobris (sic), 1486. fol.

The second edition, and considered as the first before the discovery of the preceding. 94 leaves with 41 lines, and the signatures a-m. Very faulty, and in a critical point of view of less importance than the preceding. A copy with the various readings or emendations of Dietr. von Werther, of the same period, and in his own handwriting, is in the Dresden library.

12431 — — Ven., Thdr. de Ragazonibus, 4 Sept. 1495. 4°.

The third edition. 130 leaves with 30 lines, and the signatures a-q. Only a reprint of the preceding.

12432 — T. Lucretii Cari libri VI nuper emendati (curav. Hi. Avancius). Ven., Aldus, m. Dec. 1500. 4°.

108 leaves with 37 lines. A very scarce edition, but of little intrinsic worth. The Verona edition, corrected from conjecture, forms the groundwork.

12433 — in *Carum Lucretium poetam commentarii* ab J. Bt. Pio editi, codice Lucretiano diligenter emendato. Bon., Hi. Bt. de Benedictis, cal. Maji 1511. fol.

4 leaves of preliminary matter and 224 numbered leaves, the last of which contains the *errata*. Pius has given a new and good recension from MSS. and from an edition corrected in MS. by Beroaldus; he has however also sometimes altered the text from conjecture, without noticing it. Reprinted, *Par., Ascens., 4 id. Aug.* 1514. fol. 10 leaves of preliminary matter and 184 numbered leaves.

12434 — *de rerum natura libri VI*

(cum præf. Pt. Candidi). Flor., Ph. Giunta, m. Mart. 1512. 8°.

8 leaves of preliminary matter, 125 numbered and 13 unnumbered leaves. A reprint of the Aldine, with some few insignificant deviations, probably borrowed from a copy corrected by Mch. Marullus.

12435 — Lucretius. Ven., Aldus et And socer, m. Jan. 1515. 8°.

8 leaves of preliminary matter (one of which is blank), 125 numbered and 2 unnumbered leaves. Corrected by And. Naugerius, but not from MSS. Less scarce, but better, than the edition of 1500. A copy on vellum in the Royal library at Paris; Renouard has one on strong paper.

12436 — de rerum natura libri VI ad verorum exemplarium fidem accurate castigati. Bas., H. Petri, m. Aug. 1531. 8°.

8 leaves of preliminary matter, 150 numbered leaves, and 1 leaf, errata. It appears to have been not yet sufficiently examined.

12437 — de rerum nat. libri VII. Lugd., Sb. Gryph., 1534, or 36, or 40. 8°.

Ib., id., 1546, or 48, or 58. 12°. are neat.

12438 — de rer. nat. ll. VI. A Dion. Lambino ex auctoritate 5 codd. MSS. emendati atque restituti et commentariis illustrati. Par. et Lugd., Rouillius, 1564. large 4°.

12 leaves of preliminary matter and 559 pages. It is frequently mentioned with the year 1563 (from the preface), but the year 1564 is put in the representation of the book on the border of the title. A new recension from 5 MSS., but still oftener from conjectures, as arbitrary as violent. The commentary is of peculiar value. I find a copy on vellum in 2 vols. first in *Bibl. Bagot.* p. 146. No. 2476, which was sold in 1746 at Rothelin's sale for only 52 fr.; it afterwards came from Lamoignon's library into Crackerode's collection in London, and at last went with his books to the British Museum. A smaller edition of this text, without the commentary, but with short scholia, *Par.* 1565. 16°. appears to be tolerably scarce.

12439 — de rer. nat. ll. VI mendis innumerabilib. liberati et in pristinum pæne, veterum potissimum libror. ope ac fide, ab Oberto Gifanio restituti. Antw., Cp. Plantinus, 1566. 8°.

24 leaves of preliminary matter and 477 pages. Gifanius was more of a grammarian

than a critic. He made use of MSS. and editions, but knew not how to use them, and the best part is stolen from Lambinus and Fruterius.

12440 — de rer. nat. ll. VI. a Dion. Lambino ex auctoritate 5 codd. MSS. emendati ac fere redintegrati et commentariis illustrati: nunc ab eod. recogniti et longe meliores facti cum iisd. commentariis plus quarta parte auctis. Lutet., J. Benenatus, 1570. large 4°.

22 leaves of preliminary matter, 627 pages, and 68 unnumbered leaves of index. The most complete edition by Lambinus. Reprinted, *Ff., hered. Wechelh.* 1583. 8°.

12441 — de rer. nat. ll. VI Lambini et Turnebi opera a multis mendis vindicati, recogniti et perpurgati. Cum variis lectt. et ind. rer. Lugd., Ant. Gryphius, 1576. 12°.

Probably a reprint of *Par.* 1565. 16°.?

12442 — de rer. nat. ll. VI ad postremam Ob. Gifanii emendationem accuratissime restituti. LB., Rapheleng., 1595. 8°. 24 leaves and 486 pages.

12443 — de rer. nat. ll. VI notis breviorib. illustrati cum lexico s. indice absolutiss. Cura et lab. Dn. Parei. Acc. Scipio Capicius de principiis rer. nec non Aonius Palearius de animor. immortalitate. Ff., Fitzer, 1631. 8°.

The text of Gifanius, with a copious but overloaded index, and only comprehending single words.

12444 — de rer. nat. ll. VI. cum paraphrastica explanatione et animadvv. J. Nardii. Flor., Massa, 1647. 4°. with 9 plates printed in the text.

3 leaves of preliminary matter and 680 pages. Nardius's notes are very empty.

12445 — de rer. nat. ll. VI. Additæ sunt conjecturæ et emendatt. Tanaq. Fabri cum notulis perpetuis. Salmurii, Lenerius, 1662. 4°.

8 leaves of preliminary matter and 522 pages. Corrected only from conjecture, but very acutely and happily. Count Hoym had a copy on large paper.

12446 — de rer. nat. libros VI interpretatione et notis illustrav. Mch.

Fayus in us. Delphini. Par., Leonard, 1680. 4°.

One of the more rare, but at the same time one of the very worst editions of this series. Although puffed off with Paris MSS., yet it follows merely the edition by Pareus, Lambinus is scarcely at all made use of, and the notes are miserable.

12447 — de rer. nat. ll. VI, quib. additæ sunt conjecturæ et emendatt. Tanaq. Fabri cum notulis perpetuis et Ob. Gifanii vita Lucretii et de gente Memmia ejusd. prolegomenis. Item Lambini index. Cbr., Hayes, 1686. 8°.

12448 — de rer. nat. ll. VI cum argumentis Mch. du Fay et castigatt. Tanaq. Fabri. Accurante Val. Pect. (sic). Neap., Bulifon, 1693. 16°.

12449 — de rer. nat. ll. VI cum interpretatione et notis Th. Creech. Ox., th. Sheld., 1695. 8°.

A greatly prized and scarce edition. *Lond.* 1717. 8°. (also on large paper) is incorrect, less fine, and not enlarged. *Bas.* 1770. 8°. is neat; and *Ox.*, typ. *Clarend.*, 1807. 8°. (scarce on large paper) is still finer, and very correct. But in the reprints, *Lond.* (*Bas.*) 1754. 8°. and *Lps.* 1776. 8°. the interpretation, or paraphrase, is wanting. Creech has acquired the greatest merit by his explanation of Lucretius.

12450 — de rer. nat. ll. VI ad optimor. exemplarium fid. recensiti. Acc. variae lectt. *Lond.*, Tonson, 1712. 4°. with vignettes, 370 pages.

Chiefly Creech's text, with various readings from MSS., collated copies, and Pius's edition. Fine, and very correct.

12451 — (the same title). *Lond.*, Tonson, 1712. fol. with 6 plates and vignettes.

1 title plate, 2 leaves of preliminary matter, and 282 pages. A very fine and scarce repetition of the preceding edition, greatly sought after (410 fr. M^cCarthy); it is really a fresh impression, as the different pagination shews, and not merely the same impression on large paper.

12452 — de rer. nat. ll. VI (cur. Mch. Maittaire). *Lond.*, Tonson et Watts, 1713. 12°. Also on large paper.

After the preceding edition, and very correct.

12453 — de rer. nat. ll. VI (cura J.

Ant. Vulpii). Patav., Cominns, 1721. 8°.

Fine and sought after. A reprint of the London edition of 1712, with the addition of a new index.

12454 — de rer. nat. ll. VI cum notis integris et selectis varior. curante Sigeb. Havercampo, qui et suas et Abr. Preigeri adnotatt. adjecit. Acc. interpretatio Th. Creech, variae lectt. et indd. *LB.*, van der Aa, 1725. 4°. 2 vols. with plates.

A new recension, but Havercamp has used the MSS. with great uncertainty, and his own notes are neither numerous nor important: but the notes of Ia. Vossius and Abr. Preiger are valuable. Only 820 copies were printed, according to the notice at the end of the 1st vol.

12455 — de rer. nat. ll. VI. Acc. selectæ lectiones (cur. St. And. Philippe). Par., Coustelier, 1744. 12°. with plates. Also on Dutch paper.

The text of the preceding, together with reduced engravings of the same plates. Also copies on vellum, which however are not fine (100 fr. Vallière, 144 fr. Limare, 140 fr. M^cCarthy, 90 fr. Lair). The copies with the title, *Par.*, *Grangé*, 1748. 12°. are enlarged with 76 pages, *proem. ad notas* and *glossarium Luor.*, which are wanting in most of the copies of 1744, and are also not to be found in the reprint, *Par.*, *Barbou*, 1754. 12°.

12456 — de rer. nat. ll. VI ex ed. Th. Creech. *Glasg.*, Foulis, 1749 or 59. small 8°.

- 12462 — de rer. nat. libros VI ad exemplarium MSS. fid. recensitos longe emendatiores reddidit, commentariis perpetuis illustrav., indicib. instruxit, et cum animadvv. Rch. Bentley, non aliunde vulgatis, aliorum subinde miscuit Gilb. Wakefield. Lond., Hamilton, 1796 —97. large 4°. 3 vols.

A fine edition, and greatly sought after. Scarce even on small paper, owing to a fire (originally 5 guineas). The copies on large vellum paper are truly splendid and very scarce (29l. 8s. at the duke of Marlborough's sale in 1819). A new recension of distinguished worth from 5 MSS., old editions (but without the *editio princeps*), and from conjecture. The editor bestowed peculiar pains on the replacing of the old orthography. He only imparted a selection of Bentley's excellent notes, written in a copy of the edition of 1662, and to be found in the British Museum.

- 12463 — de rer. nat. ll. VI ad opt. exemplar. fid. emendati. Cum Rch. Bentley animadvv., Gilb. A complete and very correct impression of Wakefield's edition, to which are also joined the various readings of the editions of 1473, 86, 95, 1500, and the Bipont of 1782, and the *entire* notes of Bentley (from the copy in the British Museum, which has been mentioned).

- 12466 — della natura delle cose libri VI. Trad. da Alessandro Marchetti. Londra, Pickard, 1717. 8°. Scarce on large paper.

The first edition, very correct, and superintended by P. Rolli (under the name of P. Antinoo Rullo). *Amst. (Par.)* 1754. large 8°. 2 vols. with plates after Cochin, is fine, but very incorrect. *Lond. (Ven.) Pasquali*, 1764. 8°. 2 vols. is correct, and enlarged with Marchetti's life, and notes by Dr. Lazzarini. Without place, 1768. 8°. is furnished with various readings from Marchetti's own handwriting. (besorgt von Ch. F. Börner u. J. Glo. Pfeiffer). Th. 1-22. Lpz. 1729-34. J. Jac. Greiff's vollständig. Register. Lpz. 1740. fol. Altogether 23 vols.

This edition must not be forgotten on account of the following. Copies on large paper are very scarce.

12526 — sämmtliche Schr. sowohl in deutscher als lat. Sprache, vollständig u. in bequemer Ordnung, auch mit histor. Vorreden. u. Einleitt. herausg. von J. G. Walch. Halle, 1740-53. 4°. 24 voll.

A. Tittel, J. Gottgetreu Müller, and J. Frick had part in it. The most recent edition, which however still leaves much to be wished for. The Latin pieces are given in a flat and often wrong translation, and as to the letters it is not stated whether they were originally written in Latin or German, or previously unprinted. — *Deutsche Schr.*, theils vollständig. theils im Auszuge herausg. von F. W. Lomler. Gotha, 1816. 8°. 3 vols. (3 d.)

12527 — opera (latina). Jen. 1579-83 or 1612. fol. 4 voll.

12528 — scholia et sermones in primam Joannis epist. atque annotatt. in epp. ad Timoth. et Tit. Nunc prim. edid. P. Jac. Bruns. Lubec., Bohn, 1797. 8°. (20 gr.) Von den Schlüsseln. Aus dem Orig. 12529 — poemata latina dispersa collegit ediditque J. Just. von Einem. Magdeb. 1729. 4°.

A collection of all Luther's Latin and German poems (including his church hymns in their original form) is greatly to be desired. They ought however to be collected from the original editions with strict fidelity, and the various readings of the other editions should be carefully noted. Consult Koch's *Comp. der deutsch. Lit. Gesch.* II. 13. *Fabrii Centifol.* II. 753.

12530 — epistolar. farrago (ed. Vinc. Obsopœus). Hagenovæ, Secerius, 1525. 8°. Epistolæ (ed. Mthi. Flacius). Without place (*Magdeb.*), 1549. 8°. Epistolæ collectæ a J.

Cœlestin's edition also, *Berol.* 1579. 4°. 2 vols. is only a new title, but enlarged with an index.) Supplementum epistolar., edid. J. Fr. Buddeus. Hal. 1703 (new title, 1717). 4°. Bisher ungedr. A good index of the letters up to that time printed will be found in *Fabricii Centifol.* I. 212 etc. II. 663 etc. *G. Veesenmeyer Literargesch. der Briefsamml. L's. Berl.* 1821. 8°.

12531 — ain betbüchlein der zehen gebott. Des glaubens. Des vatter vnser. Vnd des Aue Marien. D. Martini Lutheri. Without place (*Augsb., Schönsperger*), 1522. small 8°.

95 unnumbered leaves, with the signatures A-M, 8 woodcuts and 2 vignettes. The top and bottom of each page is ornamented with pen-flourishes, as in the *THEUERDANK*. A copy on vellum in the Royal library at Dresden, in which is to be found, likewise on vellum, *Ain Christliche vorbetrachtung vn bekennnuss in got. So man will beten das heylige vater vnser. Gezoge aus den predigē Do. Martini Luther su Wiltzberg. Von dem wirdigen Nicolao vonn Amssdoff* (sic) *Licenciaten in deutsch gebracht.* Without place or date (*ib., id.*) small 8°. 7 leaves. M. Nagler at Berlin possesses a 2nd copy on vellum from prince Palm's library (formerly *bibl. Rink.* p. 1021). This piece (at first, *Wiltensb.* 1522. 8°) is in other respects remarkable on this account, that Luther in it still admits of purgatory and intercessions for the dead *H* 16). Consult *Freytagii Appar.* III. 184. *Panzer Deutsche Ann.* II. 60 sq. *Arctin's Beitr.* B. II. *Abth.* 4. p. 79.

12532 LUTTI. A collection consisting of 30 etchings after the original drawings of Julio Romano,

Michel-Angelo etc. Collected by the Cav. Lutti of Rome, and the plates executed by Bartolozzi and Zocchi. Lond. 1765. large fol.

12533 LUYKEN, J. *Histoires les plus remarquables du V. et du N. T.* grav. en cuivre et enrichies d'une description. Amst. 1732. large fol.

The plates (62 numbered, 5 marked with a-c, and 29 vignettes) are better designed than engraved. The edition with the Dutch text, *Amst.* 1729. large fol. (also on very large paper) has the first impressions. The large plates also appeared by themselves; *Icomæ biblica V. et N. T. Amst., Mortier*, without date. fol.

12534 — théâtre des martyrs, représenté en tailles-douces par J. Luyken. Leyde, without date. oblong 4°.

116 plates with the title. The first edition contains 104 leaves of plates, *avant la lettre*, with a Dutch title.

8 leaves of preliminary matter, 180 pages, 4 leaves, 268 pages, and 1 leaf, colophon. The first separate edition (previously without the commentary of Tzetæ in *Pindarus Aldi*, 1513), superintended by Arn. Arlenius, who corrected the text *ad exemplar Ant. Antimachi*, and added thereto the commentary of Tzetæ from a Bolognese MS. (but very imperfect and faulty). N. Gerbel's corrections of Tzetæ are included.

12538 — Cassandra (gr.) Par., Jac. Bogardus, 1547. 4°.

12539 — 'Αλεξάνδρα (gr.) Alexandræ s. Cassandræ versiones II. una ad verbum a Gu. Cantero, altera carmine expressa per Jos. Scaligerum. Acc. epitome Cassandræ græco-lat., carmine Anacreontio, eodem auctore; item index. Bas., Oporin. et Perna, m. Majo 1566. 4°.

8 leaves of preliminary matter (the 8th blank), 236 pages, and 4 leaves (the 4th blank). Canter's annotations are short but learned.

12540 — Alexandra s. Cassandra (gr.) Par., Morellus, 1584. 4°. 55 pages. Eadem jambico carmine translata per Jos. Scaligerum. ib., id., 1584. 4°. 22 leaves.

10 leaves of preliminary matter, 364 pages, and 10 leaves.

12543 — (the same title). Ed. II. aucta et emend. LB., L. Elzevir, 1599. 8°.

9 leaves of preliminary matter, 350 pages, and 7 leaves. Also in *Meursii Opp.* V. 877-1048. Meursius's edition treats chiefly of archeology, and contains much that is irrelevant.

12544 — Alexandra cum Is. Tzetzæ commentariis ex fide manuscripti emendationibus factis. Adjuncta est interpretatio versuum lat. ad verbum, per Gu. Canterum. Ad ditæ sunt ejusd. Canteri annotatt. nec non epitome Cassandræ græco-lat. (*Genev.*), exc. P. Stephanus, 1601. large 4°.

8 leaves of preliminary matter, 211 and 59 pages. Tzetzes's Commentary is corrected from MSS.

12545 — Alexandra cum græcis Is. Tzetzis commentariis. Acc. versiones, variantes lectt., emendatt.,

annotatt. et indices. Cura et op. J. Potteri. Ox., th. Sheld., 1697. fol. Also on large paper.

A new recension of Lycophron from 2 MSS. and the more ancient editions. Tzetzes is also enlarged and corrected from MSS.

12546 — — Ed. II. priori auctior. Ox., th. Sheld., 1702. fol. Also on large paper.

Tzetzes is corrected from an edition collated with MSS., and Potter's annotations and the indices are augmented. This 2nd edition is particularly scarce.

12547 — Alexandra s. Cassandra cum vers. et commentario Gu. Canteri, paraphrasin, notas, ind. græcum e scholiis auctum adjec. ac præf. est H. Gf. Reichard. Lps., Crusius, 1788. large 8°. (1 d. 12 gr.)

Potter's text with a few alterations. Reichard had explanation more than criticism in view.

12548 — Cassandra ope XVI codd. MSS. restitutum, fideliori interpretatione exornatum et paraphrasi explicatum: cum Is. vel pot. J. Tzetzæ commentario ad fid. XIII exemplarium emendato, aucto, lat. reddito et illustrato. Acc. fragmm., variantes lectt., emendatt. et indd., stud. Lp. Sebastiani. Romæ, 1803. 4°. (10 scudi), with 1 plate, 416 and 218 pages.

A new but unhappy recension from a rich apparatus, which Sebast. knew not how to use. Grammatical blunders, for example, *translavi* for *transuli*, abound in it.

12549 — 'Ισακίου και 'Ιωάννου σχολία εις Λυκοφρόνα. Lectionib. editionis Sebastianæ variis in Lycophronis Alexandram præmissis et recensitis, e III codd. MSS. Thryllitschii tum suis illustravit, scholiis minorib. nondum editis auxit, commentarios Meursii et Potteri addidit et indicib. instrux. Ch. Gf. Müller. Lps., Vogel, 1811. large 8°. 3 vols. (8 d., on writing paper 10 d.)

This should be bound up with Reichard's edition, and, with it, contains all that has been written upon Lycophron. The entire

apparatus of Sebest. is admitted into it, with the omission of his Latin translation; Scaliger's metaphrase and the unprinted annotations of Reinesius are also given with it.

The 1st vol. (18 Nov. 1471.) contains 451 leaves, the first 4 of which are a letter of Andreas and a table of contents. The 2nd (26 Mai 1472) also 451 leaves, and extends from Ezra to Ecclesiasticus. The 3rd (14 Jan. 1472) 394 leaves, and extends from 3 T

A new and good recension. It is said in England that only 400 copies were struck off, 300 of which were on ordinary paper, 75 on large paper, and 25 on large fine paper (after the Dutch kind, which the English call *fine royal writing paper*). The last two kinds cannot be distinguished without having them side by side.
